From Alienation to Forms of Life Amy Allen 2018-06-12 The wide-ranging work of Rahel Jaeggi, a leading voice of the new generation of critical theorists, demonstrates how core concepts and methodological approaches in the tradition of the Frankfurt School can be updated, stripped of their dubious metaphysical baggage, and made fruitful for critical theory in the twenty-first century. In this thorough introduction to Jaeggi's work for English-speaking audiences, scholars assess and critique her efforts to revitalize critical theory. Jaeggi's innovative work reclaims key concepts of Hegelian-Marxist social philosophy and reads them through the lens of such thinkers as Adorno, Heidegger, and Dewey, while simultaneously putting them into dialogue with contemporary analytic philosophy. Structured for classroom use, this critical introduction to Rahel Jaeggi is an insightful and generative confrontation with the most recent transformation of Frankfurt School-inspired social and philosophical critical theory. This volume features an essay by Jaeggi on moral progress and social change, essays by leading scholars engaging with her conceptual analysis of alienation and the critique of forms of life, and a Q&A between Jaeggi and volume coeditor Amy Allen. For scholars and students wishing to engage in the debate with key contemporary thinkers over the past, present, and future(s) of critical theory, this volume will be transformative.

The Ambitious Woman Esther Spina 2014 The Ambitious Woman illustrates how ambitious women embody characteristics such as inspiration, empowerment, and motivation to help others accomplish their goals, and create win-win relationships in all areas of life. When you think of the word 'ambitious', what comes to mind? Power hungry? Getting ahead no matter what it takes? Someone who runs over others to accomplish their goals? While many people may have a negative view of what it means to be ambitious, author, motivational speaker and women's movement leader, Esther Spina, is not one of them. In fact, in The Ambitious Woman, Esther shows that Ambitious Women are found in all walks of life - the famous and the not-so-famous. They embody characteristics such as inspiration, empowerment and motivation to help people accomplish their goals. Ambitious Women can be humble and loyal; they are disciplined and have a never-give-up attitude. Real and genuine ambitious people care about others; they are not self-centered. They are "ambitious" about seeing others succeed, and creating win-win relationships in all areas of life. Using profiles of people such as Diana Nyad and Barbara Walters, The Ambitious Woman offers contemporary illustrations of people who have lived ambitious lives and what we can learn from them. The book also profiles ambitious people who are close to the author, people who live with passion, confidence and consistency in their everyday lives. Women from all walks of life will find ambitious characteristics to strive for, ones that will improve their lives, their relationships, and who they are deep down. When you become an Ambitious Woman, you, too, can help others change their lives!

Latin and Arabic Daniel G. König 2019-09-12 As linguistic systems comprising a large variety of written and oral registers including derivate "languages" and "dialects," Latin and Arabic have been of paramount importance for the history of the Euromediterranean since Antiquity. Moreover, due to their long-term function as languages of administration, intellectual activity, and religion, they are often regarded as cultural markers of Europe and the (Arabic-)Islamic sphere respectively. This volume explores the many dimensions and ramifications of Latin-Arabic entanglement both from macro-historical as well as from micro-historical perspectives. Visions of history marked by the binary opposition of "Islam" and "the West" tend to ignore these important facets of Euromediterranean entanglement, as do historical studies that explain complex transcultural processes without giving attention to their linguistic dimension.

Play It Again Alan Rusbridger 2013-01-17 In 2010, Alan Rusbridger, the editor of the Guardian, set himself an almost impossible task: to learn, in the space of a year, Chopin's Ballade No. 1 - a piece that inspires dread in many professional pianists. His timing could have been better. The next twelve months were to witness the Arab Spring, the Japanese tsunami, the English riots, and the Guardian's breaking of both WikiLeaks and the News of the World hacking scandal. In the midst of this he carved out twenty minutes' practice a day - even if that meant practising in a Libyan hotel in the middle of a revolution as well as gaining insights and advice from an array of legendary pianists, theorists, historians and neuroscientists, and even occasionally from secretaries of state. But was he able to play the piece in time?

Art & Vinyl Jeffrey Fraenkel 2018-03-27 Art for music: the album cover as medium Art & Vinyl is an exhilarating new look into the history of the vinyl record as a medium for modern and contemporary visual art. This beautifully designed and printed publication is the first book to focus in-depth on works of art created specifically for an album, composer or musician. With reproductions of more than 200 LPs from the mid-20th century to the present, Art & Vinyl traces the trajectory of how the record album has been considered by artists as material for a work of art. The book begins with Pablo Picasso's 1949 depiction of the dove of peace, printed directly on an audio disc. Significantly, the recording was Paul Robeson's Chante Pour La Paix (Singing for Peace). Art & Vinyl also includes works by artists as disparate and wide-ranging as Ed Ruscha, Marlene Dumas, Cy Twombly, Yoko Ono, Jean-Michel Basquiat, Barbara Kruger, Robert Rauschenberg, Sol LeWitt, Sophie Calle and Andy Warhol. Highlights include Gerhard Richter's extraordinary oil painting made directly on a recording of Glenn Gould's Bach: The Goldberg Variations (1984), as well as Allan Kaprow's LP How to Make a Happening (1966). Also featured are albums of original recordings by Joseph Beuys, Yves Klein, Jean Dubuffet, Christian Marclay and Wolfgang Tillmans, among others. Some of the better-known artists' covers for rock, pop and jazz albums featured here are Jann Haworth and Peter Blake's Sgt. Pepper's Lonely Hearts Club Band; Jim Dine's cover for The Best of Cream; Lee Friedlander's portrait of Miles Davis for In a Silent Way; Warhol's cover for Sticky Fingers and Robert Frank's Exile on Main Street; Mapplethorpe's classic Patti Smith portrait for Horses; Robert Longo's cover for Glenn Branca's The Ascension; Fischli/Weiss's Liliput; and Alec Soth's cover for Dolorean's The Unfazed. Art & Vinyl has been assembled over the course of nearly a decade by curator and collector Antoine de Beaupré, author of Total Records and founder of Librairie Galerie 213 in Paris.

Studies in the Ontology of E.J. Lowe Timothy Tambassi (Ed.) 2022-11-22 With the death of Edward Jonathan Lowe (1950-2014), the analytical philosophy lost one of the most influential thinkers of the last thirty-five years. His contributions include (but are not limited to) philosophy of mind, John Locke's philosophy and metaphysics. In particular, concerning metaphysical studies, the most innovative part of Lowe's philosophical perspective is the four-category ontology that, according to the author, provides an exhaustive inventory of what there is and a powerful explanatory framework for a metaphysical foundation of natural science. Accordingly, the purpose of this volume is to collect some new essays from distinguished

authorities in the field, critics and collaborators of Lowe in order to present some fundamental issues triggered by his ontological proposal.

Email Hoaxes Theresa Heyd 2008 How genres emerge and evolve on the Internet has become one of the central questions in studies of computer-mediated communication (CMC). This book addresses the issue of genrefication by giving an in-depth analysis of email hoaxes as a candidate for digital genre status. Email hoaxes are deceptive messages that spread in digital social networks; they are a fascinating object for discourse linguistics as they exemplify a major pragmatic tendency in CMC, namely deceptivity and a lowering of sincerity standards. This study examines formal and functional aspects of email hoaxes and provides ample evidence both from a systematized corpus and in situ data collected online. Besides a structural and microlinguistic analysis, it identifies key issues such as pragmatic duality, narrativity and textual variation and change in email hoaxes. In conclusion, a digital genre model is outlined that bridges both the old/new and the formal/functional gaps and may be applied to many other digital genre ecologies.

The Scandal of The Scandals Manfred Lütz 2020-05-06 Mahatma Gandhi once chided a Christian friend, "All you Christians, missionaries and all, must begin to live more like Jesus Christ." And what Christian among us would disagree with him? After the holy wars and witch-hunts, after persecutions and political machinations, there is a broad sense today that the Church, however well-meaning, is on the wrong side of history. But do we really know our history? In this collaboration with historian Arnold Angenendt, best-selling German author Manfred Lütz dares to show us what contemporary historians actually say about Christianity's track record over the ages. This detailed overview begins with the ancient pagans, passing through Israel, the early Church martyrs, Constantine's Rome, the reign of Charlemagne, the Crusades, the Inquisition, the Reformation, the Borgia popes, the Galileo affair, the conquistadores, the French Revolution, the slave trade, the Holocaust, the sex abuse crisis, and more. The Scandal of the Scandals separates myth from fact, giving us a candid portrait of Christendom with its scars and all. Prepare to be amazed at how little you really knew about Christianity.

Computational Artifacts Raymond Turner 2018-07-11 The philosophy of computer science is concerned with issues that arise from reflection upon the nature and practice of the discipline of computer science. This book presents an approach to the subject that is centered upon the notion of computational artefact. It provides an analysis of the things of computer science as technical artefacts. Seeing them in this way enables the application of the analytical tools and concepts from the philosophy of technology to the technical artefacts of computer science. With this conceptual framework the author examines some of the central philosophical concerns of computer science including the foundations of semantics, the logical role of specification, the nature of correctness, computational ontology and abstraction, formal methods, computational epistemology and explanation, the methodology of computer science, and the nature of computation. The book will be of value to philosophers and computer scientists.

Three-Martini Lunch Suzanne Rindell 2016-04-05 From the author of the "thrilling" (The Christian Science Monitor) novel The Other Typist comes an evocative, multilayered story of ambition, success, and secrecy in 1950s New York. In 1958, Greenwich Village buzzes with beatniks, jazz clubs, and new ideas—the ideal spot for three ambitious young people to meet. Cliff Nelson, the son of a successful book editor, is convinced he's the next Kerouac, if only his father would notice. Eden Katz dreams of being an editor but is shocked when she encounters roadblocks to that ambition. And Miles Tillman, a talented black writer from Harlem, seeks to learn the truth about his father's past, finding love in the process. Though different from one another, all three share a common goal: to succeed in the competitive and uncompromising world of book publishing. As they reach for what they want, they come to understand what they must sacrifice, conceal, and betray to achieve their goals, learning they must live with the consequences of their choices. In Three-Martini Lunch, Suzanne Rindell has written both a page-turning morality tale and a captivating look at a stylish, demanding era—and a world steeped in tradition that's poised for great upheaval.

Couchsurfing in Iran Stephan Orth 2018-05-01 Included in the 2018 summer reading list by New York Times Books A modern-day glimpse into the surprising reality of life in Iran. Iran: A destination that is seldom seen by westerners yet often misunderstood. A country that simultaneously "enchants and enrages" those who visit it. A place where leading a double life has become the norm. In Couchsurfing in Iran, award-winning author Stephan Orth spends sixty-two days on the road in this mysterious Islamic republic to provide a revealing, behind-the-scenes look at life in one of the world's most closed societies. Through the unsurpassed hospitality of twenty-two hosts, he skips the guidebooks and tourist attractions and travels from Persian carpet to bed to cot, covering more than 8,400 kilometers to recount "this world's hidden doings." Experiencing daily what he calls the "two Irans" that coexist side by side—the "theocracy, where people mourn their martyrs" in mausoleums, and the "hide-and-seek-ocracy, where people hold secret parties and seek worldly thrills instead of spiritual bliss"—he learns that Iranians have become experts in navigating around their country's strict laws. Though couchsurfing is officially prohibited in Iran—the state fears spies would be able to travel undetected through the country—more than a hundred thousand Iranians are registered with online couchsurfing portals. And thanks to these hospitable, English-speaking strangers, Orth gets up close and personal with locals, peering behind closed doors and blank windows to uncover the inner workings of a country where public show and private reality are strikingly opposed.
