Neon Wasteland Susan Dewey 2011-02-07 This path-breaking book examines the lives of five topless dancers in the economically devastated "rust belt" of upstate New York. With insight and empathy, Susan Dewey shows how these women negotiate their lives as parents, employees, and family members while working in a profession widely regarded as incompatible with motherhood and fidelity. Neither disparaging nor romanticizing her subjects, Dewey investigates the complicated dynamic of performance, resilience, economic need, and emotional vulnerability that comprises the life of a stripper. An accessibly written text that uses academic theories and methods to make sense of feminized labor, Neon Wasteland shows that sex work is part of the learned process by which some women come to believe that their self-esteem, material worth, and possibilities for life improvement are invested in their bodies.

Dealing in Desire Kimberly Kay Hoang 2015-02-11 "This fascinating ethnography examines one segment of Vietnam's diverse sex industry. Between 2006 and 2010, author Kimberly Kay Hoang was employed at four exclusive Saigon hostess bars catering to high-end clientele: wealthy Asian businessmen, Western expatriates and tourists, local Vietnamese men, and Viet Kieus (ethnic Vietnamese living abroad). Using participant observation and in-depth interviews with the sex workers, bar owners, managers, and mostly rich clients at all four locations, Hoang argues that Vietnam's high-end sex industry is much more than a byproduct of globalization--it's an integral component of the country's free-market capitalism, including its emergence as a regional economic player. Major business deals in Vietnam often occur within hostess bars, which businessmen use to stage a display of power, forge relationships, and impress clients. Hostesses facilitate these transactions by socializing with clients, as well as fulfilling fantasies of the flesh and of the culture. The author reveals how recent changes in the political economy have shaped the social structure of sex work in the country, just as actors involved in the sex industry have actively shaped Vietnam's political economy. Multiple constructions of gender are emerging across local, national, and global socio-spaces from the bottom up and the top down"--Provided by publisher.

Backstage at the Price Is Right Kathleen Bradley 2013-09-25 Backstage at The Price Is Right is a jaw-dropping, firsthand account of the often salacious and always fascinating behind-the-scenes drama surrounding the #1 game show in television history. As the groundbreaking first black model to join the legendary Barker's Beauties, Kathleen Bradley has written a humorous, entertaining, yet gritty revelation of what really happened before the familiar theme music filled the air and Rod Roddy announced Bob Barker's name over the roaring audience and called out "Come on down " to the names of the first four lucky contestants to bid. At last, after 17 years on the air, the black/minority television audience had a role model, someone to relate to as they sat and watched their favorite game show. And America's male population had a more exotic Beauty on which to feast their eyes and feed their fantasies. Every weekday for 10 years, over 16 million viewers watched the glamorous model/hostess Kathleen Bradley on The Price Is Right. Women envied her, girls aspired to be her, and Bradley was living her dream, but it all came at a Price. As a pioneer in television game show history, Bradley takes readers on a first-class tour from the parking lot at CBS Television Studio City in Hollywood, through the artists' entrance, to the production meetings, rehearsals, wardrobe, and straight to the "lights, camera, and action " She reveals the cat fights, the betrayals, dirty little secrets, the depositions and law suits, the ugly truth, and the reality of what really went on behind the scenes before and after the cameras rolled. Often heartwarming, Ms. Bradley presents an expos of the hypocrisy, sexism, and racism behind the scenes. This is Kathleen's story, leading from the excitement and jubilation of embarking upon "The Golden Road," to a rude awakening-an unjustifiable dismissal from her dream job after ten years of devoted service. This is not a Bob Barker-bashing book, but rather an enlightening journey of a woman's introduction to Hollywood, her groundbreaking induction into an exclusive and highly coveted club: the Barker's Beauties, and her bright-eyed awe at meeting a television icon.

Unfortunately, the dark side of this "club" and the power that its leader possessed led to the inevitable question: why did Bob Barker treat four-legged animals better than many of his two-legged employees?

The Presentation of Self in Everyday Life Erving Goffman 2021-09-29 A notable contribution to our understanding of ourselves. This book explores the realm of human behavior in social situations and the way that we appear to others. Dr. Goffman uses the metaphor of theatrical performance as a framework. Each person in everyday social intercourse presents himself and his activity to others, attempts to guide and control the impressions they form of him, and employs certain techniques in order to sustain his performance, just as an actor presents a character to an audience. The discussions of these social techniques offered here are based upon detailed research and observation of social customs in many regions.

Changing the Course of AIDS David Dickinson 2011-01-15 Changing the Course of AIDS is an in-depth evaluation of a new and exciting way to create the kind of much-needed behavioral change that could affect the course of the global health crisis of HIV/AIDS. This case study from the South African HIV/AIDS epidemic demonstrates that regular workers serving as peer educators can be as—or even more—effective agents of behavioral

change than experts who lecture about the facts and so-called appropriate health care behavior. After spending six years researching the response of large South African companies to the epidemic that is decimating their workforce as well as South African communities, David Dickinson describes the promise of this grassroots intervention—workers educating one another in the workplace and community—and the limitations of traditional top-down strategies. Dickinson's book takes us right into the South African workplace to show how effective and yet enormously complex peer education really is. We see what it means when workers directly tackle the kinds of sexual, gender, religious, ethnic, and broader social and political taboos that make behavior change so difficult, particularly when that behavior involves sex and sexuality. Dickinson's findings show that people who are not officially health care experts or even health care workers can be skilled and effective educators. In this book we see why peer education has so much to offer societies grappling with the HIV/AIDS epidemic and why those interested in changing behaviors to ameliorate other health problems like obesity, alcoholism, and substance abuse have so much to learn from the South African example.

The Trust Ameen Fuller 2020-02-20 Hi, my name is Neven. I'm very attractive and come from a family that were never slaves. The family is very large and physically beautiful. Our family has always been wealthy. Once, they almost lost everything, but they came back with a vengeance, never to be without again by any means necessary. To this day, none of the elders in my family have never had to work and have been able to take care of their large families. My granny raised me and two of my older cousins. I have an amazing life that I was born in, and any problems I have ever had, for the most part, did not have to happen. I have always had very expensive things. The people in my life never knew how wealthy our family is, so they did extravagant things for me. I'm handsome, humble, and sometimes I can have a slick mouth, which they like; and if you push me, I will lose my head on you. I have very famous friends that, for the most part, don't know me. They just see the pretty picture and that I don't have to want for anything like some of them. I have more money than them.
