**The Comfort of Things** - Daniel Miller 2013-04-24

What do we know about ordinary people in our towns and cities, about what really matters to them and how they organize their lives today? This book visits an ordinary street and looks into thirty households. It reveals the aspirations and frustrations, the tragedies and accomplishments that are played out behind the doors. It focuses on the things that matter to these people, which quite often turn out to be material things - their house, the dog, their music, the Christmas decorations. These are the means by which they express who they have become, and relationships to objects turn out to be central to their relationships with other people - children, lovers, brothers and friends. If this is a typical street in a modern city like London, then what kind of society is this? It's not a community, nor a neighbourhood, nor is it a collection of isolated individuals. It isn't dominated by the family. We assume that social life is corrupted by materialism, made superficial and individualistic by a surfeit of consumer goods, but this is misleading. If the street isn't any of these things, then what is it? This brilliant and revealing portrayal of a street in modern London, written by one the most prominent anthropologists, shows how much is to be gained when we stop lamenting what we think we used to be and focus instead on what we are now becoming. It reveals the forms by which ordinary people make sense of their lives, and the ways in which objects become our companions in the daily struggle to make life meaningful.

**Galatea** - Madeline Miller 2022-03-03

In a desperate bid by her obsessive husband to keep her under control, she is locked away under the constant supervision of doctors and nurses. But with a daughter to rescue, she is determined to break free, whatever the cost...

### **Mating Intelligence** - Glenn Geher 2008

Human intelligence is sexually attractive, and strongly predicts the success of sexual relationships, but the behavioral sciences have usually ignored the interface between intelligence and mating. This is the first serious scholarly effort to explore that interface, by examining both universal and individual differences in human mating intelligence. Contributors include some of the most prominent evolutionary psychologists and promising new researchers in human intelligence, social psychology, intimate relationships, and sexuality. David Buss' foreword and the opening chapter explore what 'mating intelligence' means, and why it is central to human cognition and sexuality. The book's six sections then examine (1) our mating mechanisms — universal emotional and cognitive adaptations for mating intelligently — that guide mate search, mate choice, and courtship; (2) how mating intelligence strategically guides our choice of mating tactics and partners given different relationship goals, personality traits, forms of deception, and the existence of children; (3) the genetic and psychiatric causes of individual differences in mating intelligence; (4) how we use mental fitness indicators — forms of human intelligence such as creativity, humor, and emotional intelligence — to attract and retain sexual partners; (5) the ecological and social contexts of mating intelligence; (6)

integrative models of mating intelligence that can guide future research. Mating Intelligence is intended for researchers, advanced students, and courses in human sexuality, intimate relationships, intelligence research, behavior genetics, and evolutionary, personality, social, and clinical psychology.

**ISE Intimate Relationships** - Rowland Miller 2021-02-23

**Stuff** - Daniel Miller 2013-04-25

Things make us just as much as we make things. And yet, unlike the study of languages or places, there is no discipline devoted to the study of material things. This book shows why it is time to acknowledge and confront this neglect and how much we can learn from focusing our attention on stuff. The book opens with a critique of the concept of superficiality as applied to clothing. It presents the theories that are required to understand the way we are created by material as well as social relations. It takes us inside the very private worlds of our home possessions and our processes of accommodating. It considers issues of

materiality in relation to the media, as well as the implications of such an approach in relation, for example, to poverty. Finally, the book considers objects which we use to define what it is to be alive and how we use objects to cope with death. Based on more than thirty years of research in the Caribbean, India, London and elsewhere, *Stuff* is nothing less than a manifesto for the study of material culture and a new way of looking at the objects that surround us and make up so much of our social and personal life.

**Aversive Interpersonal Behaviors** - Robin M. Kowalski 2013-11-11

Aversive behaviors have greater influence on social interactions than is generally acknowledged, determining personal satisfaction, interpersonal attraction, choice of partners, and the course of relationships. What motivates aversive behaviors? To what extent do they obtain desired outcomes? In what ways are they unnecessary and destructive? How do other people respond, emotionally and behaviorally? These are just a few of the many interesting questions addressed by the 16 respected

researchers who contribute to *Aversive Interpersonal Behaviors*. Nine chapters give this heretofore neglected subject the attention it is due, probing a dark side of interpersonal relationships to understand both its destructive and adaptive nature.

**Stop Running from Love** - Dusty Miller 2008-03-01

Are you afraid of or unable to create intimacy or closeness with your intimate partner? Do you find that sometimes you create emotional, communicative, or even physical distance from that special someone in your life, even when, deep down, you really don't want to? If so, you share the relationship style psychologists refer to as the distancer. Distancers are often afraid of being engulfed or controlled by their partners. They fear rejection, vulnerability, and dependence. Sadly, they also tend to have short and unhappy relationships. If you want to stop running from love in your life, this book offers a simple, step-by-step approach you can use to move beyond your fear of intimacy and start building strong and lasting relationships. The exercises and self-evaluations in the book will help you become aware of how you operate in romantic relationships. You'll review and reassess your relationship patterns, deciding what changes you want to make in future relationships. Then you'll commit to actions that can make it happen.

**Intimate Relationships** - Sharon S. Brehm 1985-01-01

"*Intimate Relationships*," 3rd edition, by Sharon S. Brehm, Rowland S. Miller, Daniel Perlman, and Susan Campbell preserves the personal appeal of the subject matter and vigorous standards of scholarship that made the earlier editions so successful. Written in a unified voice, this text builds on the reader-friendly tone that was established in the first two editions. It presents the key findings on intimate relationships, the major theoretical perspectives, and some of the current controversies in the field. Brehm, Miller, Perlman, and Campbell illustrate the relevance of close relationship science to readers' everyday lives, encouraging thought and analysis. Classic contributions to the field are covered in addition to topics on the leading edge of research.

*Tropic of Cancer* - Henry Miller 2015-06-04

Shocking, banned and the subject of obscenity trials, Henry Miller's first

novel *Tropic of Cancer* is one of the most scandalous and influential books of the twentieth century. *Tropic of Cancer* redefined the novel. Set in Paris in the 1930s, it features a starving American writer who lives a bohemian life among prostitutes, pimps, and artists. Banned in the US and the UK for more than thirty years because it was considered pornographic, *Tropic of Cancer* continued to be distributed in France and smuggled into other countries. When it was first published in the US in 1961, it led to more than 60 obscenity trials until a historic ruling by the Supreme Court defined it as a work of literature. Long hailed as a truly liberating book, daring and uncompromising, *Tropic of Cancer* is a cornerstone of modern literature that asks us to reconsider everything we know about art, freedom, and morality. 'At last an unprintable book that is fit to read' Ezra Pound 'A momentous event in the history of modern writing' Samuel Beckett 'The book that forever changed the way American literature would be written' Erica Jong Henry Miller (1891-1980) is one of the most important American writers of the 20th century. His best-known novels include *Tropic of Cancer* (1934), *Tropic of Capricorn* (1939), and the *Rosy Crucifixion* trilogy (*Sexus*, 1949, *Plexus*, 1953, and *Nexus*, 1959), all published in France and banned in the US and the UK until 1964. He is widely recognised as an irreverent, risk-taking writer who redefined the novel and made the link between the European avant-garde and the American Beat generation.

**Circe** - Madeline Miller 2022-12-23

Di istana Helios, dewa matahari, lahir seorang anak perempuan. Tetapi Circe anak yang aneh—tidak berkuasa seperti ayahnya, juga tidak memikat seperti ibunya. Karena tak punya teman, Circe mencarinya di dunia manusia, dan mengembangkan kemampuannya sebagai penyihir. Zeus, yang merasa terancam, mengasingkannya ke pulau terpencil. Circe mengasah bakatnya dan bertemu banyak tokoh paling termasyhur dalam mitologi, di antaranya Minotaur, Daedalus dan Icarus, Medea, dan Odysseus yang lihai. Tetapi wanita yang hanya sendirian akan menghadapi banyak bahaya, dan Circe tanpa sengaja membangkitkan murka manusia dan dewa-dewa, sehingga mesti berhadapan dengan dewa Olympus yang paling menakutkan dan pendendam. Untuk

melindungi apa yang paling dicintainya, Circe harus menggerakkan seluruh kekuatannya dan memilih dengan tegas, apakah hendak berpihak kepada dewa-dewa yang telah melahirkannya, atau manusia yang telanjur disayanginya.

**Scary Close** - Donald Miller 2015-02-10

When it comes to authenticity, is being fully yourself always worth the risk? From the author of *Blue Like Jazz* comes New York Times bestseller *Scary Close*, Donald Miller's journey of uncovering the keys to a healthy relationship and discovering that they're also at the heart of building a healthy family, a successful career, and a trusted community of friends. After decades of failed relationships and painful drama, Miller decided that he'd had enough. Trying to impress people wasn't helping him truly connect with anyone--and neither was pretending to be someone he wasn't. He'd built himself a life of public isolation, but he dreamed of having a life defined by meaningful relationships instead. At 40-years-old, he made a scary decision: he was going to be his true self no matter what it might cost. *Scary Close* tells the story of Miller's difficult choice to impress fewer people and connect with even more. It's about the importance of knocking down old walls to finally experience the freedom that comes when we stop playing a part and start being fully ourselves. In *Scary Close*, Miller shares everything he's learned firsthand about how to: Deconstruct the old habits that no longer serve us Overcome the desire to please the people around us Always tell the truth, even when it's hard Find satisfaction in a daily portion of real love Risk being fully known in order to deeply love and be loved Apply these lessons to your everyday life If you're ready to drop the act and find true, life-changing intimacy, it's time to get *Scary Close*.

**Intimate Terrorism** - Michael Vincent Miller 1996

We live in an age when love and power have become virtually interchangeable. *Intimate Terrorism* is a profound and beautifully written exploration of this condition that draws from psychology, literature, popular culture, current events, and the author's own therapeutic practice to examine the contemporary crisis of intimacy--and suggest what we all might do about it. In doing so it offers one of the

most probing readings of the American psyche in years.
