

Morning After Fear Sex And Feminism On College Campuses

The Gender Knot - Allan G. Johnson 2005

A compelling approach to gender inequality that empowers both men and women to be part of the solution instead of just part of the problem.

The Morning After - Katie Roiphe 1994-09-07

When Katie Roiphe arrived at Harvard in the fall of 1986, she found that the feminism she had been raised to believe in had been radically transformed. The women's movement, which had once signaled such strength and courage, now seemed lodged in a foundation of weakness and fear. At Harvard, and later as a graduate student at Princeton, Roiphe saw a thoroughly new phenomenon taking shape on campus: the

emergence of a culture captivated by victimization, and of a new bedroom politics in the university, cloaked in outdated assumptions about the way men and women experience sex. Men were the silencers and women the silenced, and if anyone thought differently no one was saying so. Twenty-four-year-old Katie Roiphe is the first of her generation to speak out publicly against the intolerant turn the women's movement has taken, and in *The Morning After* she casts a critical eye on what she calls the mating rituals of a rape-sensitive community. From Take Back the Night marches (which Roiphe terms "march as therapy"), and

"rhapsodies of self-affirmation") to rape-crisis feminists and the growing campus concern with sexual harassment, Roiphe shows us a generation of women whose values are strikingly similar to those their mothers and grandmothers fought so hard to escape from - a generation yearning for regulation, fearful of its sexuality, and animated by a nostalgia for days of greater social control. At once a fierce excoriation of establishment feminism and a passionate call to our best instincts, *The Morning After* sounds a necessary alarm and entreats women of all ages to take stock of where they came from and where they want to go.

The New Sex Wars - Brenda Cossman

2021-10-26

#MeToo Feminist Debates: From Backlash to Generation Gap -- Feminist Sex Wars: Then and Now -- #MeToo as Sex Wars -- Reading beside the Queer/Feminist Divide -- Regulating Reparatively -- Conclusion: Beyond War, beside Anger.

Sexual Harassment on College Campuses -

Michele A. Paludi 1996-01-01

An updated and expanded revision of the first edition, which received the Gustavus Myers Center Award for an outstanding book on Human Rights in the United States. Intended for administrators and faculty, it is also a resource book for individuals wanting to make changes in their campus' policy and procedures with regard to sexual harassment.

The Morning After : Fear, Sex, and Feminism on College Campuses - Katherine Roiphe 1993

Philosophy and Sex - Robert Baker 1998

Greatly expanded and updated, the third edition of this book retains such classic essays as the Shulamith Firestone-Robert Solomon debates over love and feminism, and includes new selections on abortion; rape; same-sex marriage; pornography; and the conceptualization of gender, sexuality, and perversion.

The Institution of Literature - Jeffrey Williams
2002-01-01

Leading voices in literary and cultural studies examine the study of literature at the college level, including the fate of theory, the rise of cultural studies, the academic “star” system, and the difficult job market.

Feminism, Media, and the Law - Martha Fineman 1997

Drawing on a striking array of sources, this book presents a collection of essays by leading scholars and activists that explore how the media represents and constructs gender, law, and feminism. Topics include hate radio, Anita Hill, popular women's magazines, and the portrayal of women in film and television.

Dedication to Hunger - Leslie Heywood
2022-03-25

Writing as a competitive athlete, an academic, and a woman, Leslie Heywood merges personal history and scholarship to expose the "anorexic logic" that underlies Western high culture. She

maneuvers deftly across the terrain of modern literature, illustrating how this logic—the privileging of mind over body, of hard over soft, of masculine over feminine—is at the heart of the modernist style. Her argument ranges from Plato to women's bodybuilding, from Franz Kafka to Nike ads. In penetrating examinations of Kafka, Pound, Eliot, William Carlos Williams, and Conrad, Heywood demonstrates how the anorexic aesthetic is embodied in high modernism. In a compelling chapter on Jean Rhys, Heywood portrays an author who struggles to develop a clean, spare, "anorexic" style in the midst of a shatteringly messy emotional life. As Heywood points out, students are trained in the aesthetic of high modernism, and academics are pressured into its straitjacket. The resulting complications are reflected in structures as diverse as gender identity formation, sexual harassment, and eating disorders. Direct, engaging, and intensely informed by the author's personal involvement

with her subject, *Dedication to Hunger* offers a powerful challenge to cultural assumptions about language, gender, subjectivity, and identity. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1996.

Campus Crime - Bonnie S. Fisher 2022-09-19

This new edition of *Campus Crime* shares with readers the advancements that have been made in understanding campus crime. Across the three sections of the book, chapters review changes while also addressing current - and even future - crime and security issues confronting institutions of higher education. Some of these chapters address long-standing

topics such as the sexual victimization of college women and the role of campus police departments in securing IHEs. Other chapters address new issues in campus crime such as drugging victimization, concealed carrying of firearms on campus, and "technology-based" security issues such as the challenges posed by cybercriminals, as well as activities like cyberstalking and identity theft that involve campus community members both as victims and offenders. Although there are new topics and contributors to this edition, the previously covered chapters have been updated as well. The authors have brought together contributors who could provide both a current picture and critical analysis of issues concerning the legal, social, security, and policy contexts of campus crime. The chapters review topics at hand, offer substantive, critical analyses, thought-provoking discussion, and raise relevant policy issues, questions, and answers. This fourth edition combines seasoned campus crime experts with

those relatively new to the study of campus crime who represent the next generation of scholars and practitioners in the field and bring with them the passion that comes with beginning to address what they see as the issues, explanations, solutions for, and responses to campus crime.

Feminist Discourse in Irish Literature - Jennifer Mooney 2022-07-21

Feminist Discourse in Irish Literature addresses the role of young adult (YA) Irish literature in responding and contributing to some of the most controversial and contemporary issues in today's modern society: gender, and conflicting views of power, sexism and consent. This volume provides an original, innovative and necessary examination of how "rape culture" and the intersections between feminism and power have become increasingly relevant to Irish society in the years since Irish author Louise O'Neill's novels for young adults *Only Ever Yours* and *Asking For It* were published. In consideration of

the socio-political context in Ireland and broader Western culture from which O'Neill's works were written, and taking into account a selection of Irish, American, Australian and British YA texts that address similar issues in different contexts, this book highlights the contradictions in O'Neill's works and illuminates their potential to function as a form of literary/social fundamentalism which often undermines, rather than promotes, equality.

PC Wars - Jeffrey Williams 2013-12-19

First Published in 1995. Routledge is an imprint of Taylor & Francis, an informa company.

Fanning the Flames - Peter Christopher Pappas

Unsafe in the Ivory Tower - Bonnie S. Fisher 2010

This text presents two interrelated perspectives of sexual victimization on college campuses. First, it discusses the nature and dimensions of a salient social problem: the sexual victimization of college women. Second, it discusses how

Downloaded from
legacy.opendemocracy.net on

scholars have participated in this movement to understand the origins, nature, extent, and ways to prevent the sexual victimization, especially on college campuses. Essentially, the aim of this text is to be a conduit through which students will learn much about the nature of victimization and much about the way in which criminologists, victimologists, and social scientists conduct research that informs theory and policy debates. Women's Studies Quarterly (97:1-2) - Dorothy Helly 1997-06

Special twenty-fifth anniversary issue of the leading journal in women's studies.

The Myth of Political Correctness - John K. Wilson 1995

The classics of Western culture are out, not being taught, replaced by second-rate and Third World texts. White males are a victimized minority on campuses across the country, thanks to affirmative action. Speech codes have silenced anyone who won't toe the liberal line. Feminists, wielding their brand of sexual

correctness, have taken over. These are among the prevalent myths about higher education that John K. Wilson explodes. The phrase "political correctness" is on everyone's lips, on radio and television, and in newspapers and magazines. The phenomenon itself, however, has been deceptively described. Wilson steps into the nation's favorite cultural fray to reveal that many of the most widely publicized anecdotes about PC are in fact more myth than reality. Based on his own experience as a student and in-depth research, he shows what's really going on beneath the hysteria and alarmism about political correctness and finds that the most disturbing examples of thought policing on campus have come from the right. The image of the college campus as a gulag of left-wing totalitarianism is false, argues Wilson, created largely through the exaggeration of deceptive stories by conservatives who hypocritically seek to silence their political opponents. Many of today's most controversial topics are here:

multiculturalism, reverse discrimination, speech codes, date rape, and sexual harassment. So are the well-recognized protagonists in the debate: Dinesh D'Souza, William Bennett, and Lynne Cheney, among others. In lively fashion and in meticulous detail, Wilson compares fact to fiction and lays one myth after another to rest, revealing the double standard that allows "conservative correctness" on college campuses to go unchallenged.

Sexual Harassment, Psychology and Feminism - Lisa Lazard 2020-10-03

This book provides a feminist psychological analysis of contemporary resistance to sexual harassment in and around #MeToo. It explores how women's assumed empowerment in postfeminist and neoliberal feminist discourses has shaped understandings of sexual harassment and social responses to it. This exploration is grounded in the trajectories of feminist activism and psychological theory about sexual harassment. Lazard addresses the gendered

binary of female victims and male perpetrators in contemporary victim politics and the treatment of perpetrators within postfeminist and neoliberal frames. In doing so, the author unpacks the cultural conditions which support or deny who gets to speak and be heard in #MeToo politics. This book will be a valuable resource not only for scholars and students from within the psychological sciences and gender studies, but for the wider social sciences and anyone interested in the psychological grounding of the #MeToo movement.

Women, Power, and Politics - Lori Cox Han 2023-05

"As women continue to gain more prominence as active participants in the American political and electoral process as voters, candidates, and officeholders, it becomes even more important to understand how gender shapes political power and the distribution of resources within our society. There are many areas of research in a variety of disciplines focusing on women,

legacy.opendemocracy.net on
2023-06-05 by guest

gender, and feminism, and many of them intersect with a discussion of women in American politics. Our goal in writing this book is to present these topics in an interesting, lively, and timely way through an analysis of contemporary political gender-related issues. We hope to have provided just enough of an historical context to get students interested in the evolution of women in American political life, and enough theory and analysis to inspire them to seek more information and knowledge about gender justice today. The study of women and U.S. politics, as well as the role gender plays in the broader political context, has emerged as a powerful voice within the discipline of Political Science in the last few decades. As such, we hope that readers find this text a useful addition to the ongoing dialogue while instructors find it to be a useful pedagogical tool for their courses on women/gender and politics"--

Sexual Harassment and Higher Education - Billie Wright Dziech 2012-10-12

First Published in 1998. In 1984, Billie Dziech co-wrote *The Lecherous Professor*, one of the first books to articulate the problem of sexual harassment on college campuses. Since that time a number of books exploring the issues, cases, and laws have moved the topic into the public eye. This work, the brainchild of a lawyer and an academic, reflects on some of the more controversial and overlooked aspects of sexual harassment and its litigation and law. Chapters cover the legal and regulatory evolution of the issue and its context in higher education at the end of the 20th century; the importance of having colleges approach policy making and harassment by analyzing their own environment; an examination of the treatment of women experiencing harassment, with special focus on women who appear unscathed by it; the situation of the male on campus and the problem of non-meritorious cases; the most familiar myths of consensual relationships and the role of bans in dealing with them; and the contention
