**Embodied Enlightenment** - Amoda Maa Jeevan  
2017-06-01

In Embodied Enlightenment, contemporary spiritual teacher Amoda Maa Jeevan dispels the outdated view of a transcendent enlightenment and instead presents a new, feminine expression of awakened consciousness for all—one that is felt and known through what our everyday lives are made of: our emotions, bodies, intimate relationships, work, and life's purpose. This book is a direct invitation to awaken in a profound, embodied way, and to participate in a collective evolution that can create a new world. When many of us think of enlightenment, we may

envision a life of seclusion and contemplation, transcending the body and worldly attachments, or the achievement of karmic perfection. But what if, rather than something reserved for the mountaintop meditator or sage, the call to awaken is meant for us all? And how can we consciously live that awakening in the midst of our complex, messy, modern lives? Speaking from her own awakened experience, Amoda Maa Jeevan offers a timeless wisdom, busting some of the common myths about enlightenment and addressing topics often excluded from more traditional spiritual conversations—from the connection between consciousness and the body

to relationships to planetary health. In addition, she covers the unfamiliar territory of what happens after enlightenment, delving into awakened action, creative expression, and more. There's an urgency today to evolve beyond humanity's current ego-based paradigm, and along with it, a unique expression of enlightenment is emerging. With clarity, passion, and grace, Embodied Enlightenment invites you on an exploration of consciousness that embraces both the messiness of your earthly experience and the non-duality of pure awareness, offering guidance on how your daily life can bring you into alignment with a divine destiny of individual and collective awakening.

The popular guide-over 80,000 copies sold of the first edition-now revised and enhanced with an audio CD of guided meditations According to Time magazine, over 15 million Americans now practice meditation regularly. It's a great way to

The book also discusses the latest research on the health benefits of meditation, along with new advice on how to get the most out of meditation in today's fast-paced world. Stephan Bodian (Fairfax, CA and Sedona, AZ) is a licensed psychotherapist and the former editor-in-chief of Yoga Journal. **Daniel Goleman Omnibus** - Daniel Goleman  
2004

Emotional Intelligence Does IQ define our destiny? Daniel Goleman argues that our view of human intelligence is far too narrow, and that our emotions play a major role in thought, decision making and individual success. Self-awareness, impulse control, persistence, motivation, empathy and social deftness are all qualities that mark people who excel: whose relationships flourish, who are stars in the workplace. With new insights into the brain architecture underlying emotion and rationality, Goleman shows precisely how emotional intelligence can be nurtured and strengthened in all of us. Working with Emotional Intelligence Do you want to be more successful at work? Do you want to improve your chances of promotion? Do you want to get on better with your colleagues? Daniel Goleman draws on unparalleled access to business leaders around the world and the thorough research that is his trademark. He demonstrates that emotional intelligence at work matters twice as much as cognitive abilities such

as IQ or technical expertise in this inspiring sequel.

**The Cultural Context of Biodiversity Conservation** - Petra Maass 2008

How are biological diversity, protected areas, indigenous knowledge and religious worldviews related? From an anthropological perspective, this book provides an introduction into the complex subject of conservation policies that

cannot be addressed without recognising the encompassing relationship between discursive, political, economic, social and ecological facets. By facing these interdependencies across global, national and local dynamics, it draws on an ethnographic case study among Maya-Q'eqchi' communities living in the margins of protected areas in Guatemala. In documenting the cultural aspects of landscape, the study explores the coherence of diverse expressions of indigenous knowledge. It intends to remind of cultural values and beliefs closely tied to subsistence activities and ritual practices that define local perceptions of the natural environment. The basic idea is to illustrate that there are different ways of knowing and reasoning, seeing and endowing the world with meaning, which include visible material and invisible interpretative understandings. These tend to be underestimated issues in international debates and may provide an alternative approach upon which conservation initiatives responsive to the

needs of the humans involved should be based on.

*Signs of New Life in Central America and the Caribbean* - Karla Ann Koll 2019-03

This volume enters the global conversation on religion and revitalization from the perspective of Latin America and the Caribbean. It builds on

a conversation flowing from specific cases and contexts across different confessional and historical traditions. As such, it engages the ongoing work of renewal, both within Christianity and within social life, and the inextricable link between the two. This is ultimately a comparative conversation that embraces difference and the plurality of Christian expression globally, recognizing how differences in the larger religious and spiritual context in each place add to the depth of understanding and possibilities for social transformation.
