

# Paper Dolls And Paper Airplanes Therapeutic Exercises For Sexually Traumatized Children

*Creative Interventions for Children of Divorce* - Liana Lowenstein 2006  
An innovative collection of therapeutic games, art techniques, and stories to help children of divorce express feelings, deal with loyalty binds, disengage from parental conflict, address anger and self-blame, and learn coping strategies. Includes a theoretical overview for practitioners, a sample treatment plan, and a reproducible handout to give parents. Also contains a ten-week curriculum that can be used in therapy or support groups. A much needed compilation for counsellors, therapists, and group facilitators.

*Creative Interventions for Bereaved Children* - Liana Lowenstein 2006  
"This volume provides a wonderful treasure-chest of appealing and practical aids to assist mental health practitioners in counseling bereaved school-age children. Numerous exercises and games are included that will encourage children to express their complicated feelings about the death of a loved one. Handouts for parents and teachers as well as guidelines for practitioners serve as important resources to assist adults in their efforts to help bereaved children." -- Nancy Boyd Webb. [from back cover].

***Creative Interventions for Troubled Children & Youth*** - Liana Lowenstein 1999

This best-selling collection is filled with creative assessment and treatment interventions to help clients identify feelings, learn coping strategies, enhance social skills, and elevate self-esteem. A wealth of innovative tools for practitioners working with children in individual, group, and family counselling. Aimed at 4 to 16 year olds.

***Cory Helps Kids Cope with Divorce*** - Liana Lowenstein 2013

Ages 4 to 8 years. This book is part of the Cory Series to help children cope with challenging issues. This version presents engaging activities to help very young clients cope with divorce. Cory, the central character in the story, helps children gradually confront and process their feelings and reactions related to the divorce. Therapeutic games, art, and other playful activities are incorporated to lower the threat level of therapy and engage children in treatment. Questions and re-enforcers are woven throughout the story to captivate and sustain the child's interest in the story, and to evaluate and encourage the child's integration of the material. Includes a reproducible story, activities, and detailed parent handouts.

*Critical Theory Today* - Lois Tyson 2012-09-10

Critical Theory Today is the essential introduction to contemporary critical theory. It provides clear, simple explanations and concrete examples of complex concepts, making a wide variety of commonly used critical theories accessible to novices without sacrificing any theoretical rigor or thoroughness. This new edition provides in-depth coverage of the most common approaches to literary analysis today: feminism, psychoanalysis, Marxism, reader-response theory, new criticism, structuralism and semiotics, deconstruction, new historicism, cultural criticism, lesbian/gay/queer theory, African American criticism, and postcolonial criticism. The chapters provide an extended explanation of each theory, using examples from everyday life, popular culture, and literary texts; a list of specific questions critics who use that theory ask about literary texts; an interpretation of F. Scott Fitzgerald's *The Great Gatsby* through the lens of each theory; a list of questions for further

practice to guide readers in applying each theory to different literary works; and a bibliography of primary and secondary works for further reading.

*Cognitive-Behavioral Play Therapy* - Susan M. Knell 1995-10-01

Cognitive-Behavioral Play Therapy (CBPT) incorporates cognitive and behavioral interventions within a play therapy paradigm. It provides a theoretical framework based on cognitive-behavioral principles and integrates these in a developmentally sensitive way. Thus, play as well as verbal and nonverbal approaches are used in resolving problems. CBPT differs from nondirective play therapy, which avoids any direct discussion of the child's difficulties. A specific problem-solving approach is utilized, which helps the child develop more adaptive thoughts and behaviors. Cognitive-behavioral therapies are based on the premise that cognitions determine how people feel and act, and that faulty cognitions can contribute to psychological disturbance. Cognitive-behavioral therapies focus on identifying maladaptive thoughts, understanding the assumptions behind the thoughts, and learning to correct or counter the irrational ideas that interfere with healthy functioning. Since their development approximately twenty-five years ago, such therapies have traditionally been used with adults and only more recently with adolescents and children. It has commonly been thought that preschool-age and school-age children are too young to understand or correct distortions in their thinking. However, the recent development of CBPT reveals that cognitive strategies can be used effectively with young children if treatments are adapted in order to be developmentally sensitive and attuned to the child's needs. For example, while the methods of cognitive therapy can be communicated to adults directly, these may need to be conveyed to children indirectly, through play activities. In particular, puppets and stuffed animals can be very helpful in modeling the use of cognitive strategies such as countering irrational beliefs and making positive self-statements. CBPT is structured and goal oriented and intervention is directive in nature.

*Drawing the Line* - Lisa B. Moschini 2005-02-22

This resourceful guide presents art therapy techniques for difficult

clients where the typical therapist-client interaction can often be distant, demanding, and frustrating. Offering practical and theoretical information from a wide variety of treatment populations and diagnostic categories; and incorporating individual, group, and family therapy case studies, the text is filled with examples and over 150 illustrations taken from the author's sixteen years of experience working with hundreds of clients. The author is a licensed Marriage and Family Therapist with a Master's degree in Clinical Art Therapy. The text comes with an accompanying CD-ROM which includes full-color pictures and additional material not found in the book.

**Parent—Child Interaction Therapy** - Toni L. Hembree-Kigin

2013-06-29

This practical guide offers mental health professionals a detailed, step-by-step description on how to conduct Parent-Child Interaction Therapy (PCIT) - the empirically validated training program for parents with children who have disruptive behavior problems. It includes several illustrative examples and vignettes as well as an appendix with assessment instruments to help parents to conduct PCIT.

*Cory Helps Kids Cope with Sexual Abuse* - Liana Lowenstein 2014-08-10

This innovative book combines a therapeutic story with a variety of activities to help children cope with sexual abuse and complex trauma. Therapeutic games, art, puppets, and other engaging techniques address the eight components of TF-CBT. Includes a reproducible story, assessment and treatment activities, and detailed parent handouts. Geared to children aged 4 to 12. *Cory Helps Kids Cope with Sexual Abuse* is part of the CORY series to help children cope with challenging issues. Forthcoming versions will address domestic violence and grief.

*The Wretched of the Earth* - Frantz Fanon 2019-12-23

A distinguished psychiatrist from Martinique who took part in the Algerian Nationalist Movement, Frantz Fanon was one of the most important theorists of revolutionary struggle, colonialism, and racial difference in history. Fanon's masterwork is a classic alongside Edward Said's *Orientalism* or *The Autobiography of Malcolm X*, and it is now available in a new translation that updates its language for a new

generation of readers. *The Wretched of the Earth* is a brilliant analysis of the psychology of the colonized and their path to liberation. Bearing singular insight into the rage and frustration of colonized peoples, and the role of violence in effecting historical change, the book incisively attacks the twin perils of postindependence colonial politics: the disenfranchisement of the masses by the elites on the one hand, and intertribal and interfaith animosities on the other. Fanon's analysis, a veritable handbook of social reorganization for leaders of emerging nations, has been reflected all too clearly in the corruption and violence that has plagued present-day Africa. *The Wretched of the Earth* has had a major impact on civil rights, anticolonialism, and black consciousness movements around the world.

*Children and Arson* - M.L. Berkey 2012-12-06

**Assessment and Treatment Activities for Children, Adolescents, and Families** - Liana Lowenstein 2008

In this comprehensive resource, Liana Lowenstein has compiled an impressive collection of techniques from experienced practitioners. Interventions are outlined for engaging, assessing, and treating children of all ages and their families. Activities address a range of issues including, Feelings Expression, Social Skills, Self-Esteem, and Termination. A "must have" for mental health professionals seeking to add creative interventions to their repertoire.

*Creative Family Therapy Techniques* - Liana Lowenstein 2010

Bringing together an array of highly creative contributors, this comprehensive resource presents a unique collection of assessment and treatment techniques. Contributors illustrate how play, art, drama, and other approaches can effectively engage families and help them resolve complex problems. Practitioners from divergent theoretical orientations, work settings, or client specialisations will find a plethora of stimulating and useable clinical interventions in this book.

*Paper Dolls and Paper Airplanes* - Geraldine Crisci 1998

**So the Witch Won't Eat Me** - Dorothy Bloch 1977-07-07

In *So the Witch Won't Eat Me* Bloch draws on 25 years of psychoanalytic practice. Her book is both a summary of her experience as a therapist and a disclosure of what she has learned about the inner workings of the human mind. She believes that the fear of infanticide, which originates in our vulnerability as infants, is later compounded by the magical thinking that leads us as children to blame ourselves for any unhappy development in our environment and therefore to anticipate punishment. As she also demonstrates, psychoanalytic treatment can be very effective in resolving the resulting emotional problems.

*Paper Dolls and Paper Airplanes* - Geraldine A. Crisci 1998

A Unique collection of more than 80 activities for mental health professionals working with sexually abused children in individual or group therapy sessions. A JIST best seller!

**Intensive One-Session Treatment of Specific Phobias** - Thompson E. Davis III 2012-05-16

Whether it's dogs, spiders, blood, heights or some other fear, specific phobias are one of the most prevalent mental health problems, affecting as many as one in eight people. In recent years, cognitive-behavioral therapy (CBT) has emerged as particularly effective in treating young people and adults with specific phobias. And of these methods, one-session treatment stands out as a long-lasting, cost-effective intervention of choice. *Intensive One-Session Treatment of Specific Phobias* not only provides a summary of the evidence base, it also serves as a practical reference and training guide. This concise volume examines the phenomenology, epidemiology, and etiology of phobias, laying the groundwork for subsequent discussion of assessment strategies, empirically sound one-session treatment methods, and special topics. In addition, expert contributors address challenges common to exposure therapy, offer age-appropriate guidelines for treating young clients, and describe innovative computer-assisted techniques. Organized to be read individually or in sequence, chapters delve into key areas, including: Evidence-based assessment and treatment of specific phobias in children, adolescents, and adults. One-session treatment theory and practice with children, adolescents, and adults. Handling difficult cases

of specific phobias in youth. Interventions for specific phobias in special populations. Training and assessing therapists in one-session treatment. Ethical issues in considering exposure. Intensive One-Session Treatment of Specific Phobias is an essential resource for researchers, clinicians, and graduate students in child, school, clinical, and counseling psychology; social work; and general and special education.

**Genes, Memes, Culture, and Mental Illness** - Hoyle Leigh 2010-06-14  
What produces mental illness: genes, environment, both, neither? The answer can be found in memes—replicable units of information linking genes and environment in the memory and in culture—whose effects on individual brain development can be benign or toxic. This book reconceptualizes mental disorders as products of stressful gene-meme interactions and introduces a biopsychosocial template for meme-based diagnosis and treatment. A range of therapeutic modalities, both broad-spectrum (meditation) and specific (cognitive-behavioral), for countering negative memes and their replication are considered, as are possibilities for memetic prevention strategies. In this book, the author outlines the roles of genes and memes in the evolution of the human brain; elucidates the creation, storage, and evolution of memes within individual brains; examines culture as a carrier and supplier of memes to the individual; provides examples of gene-meme interactions that can result in anxiety, depression, and other disorders; proposes a multi-axial gene-meme model for diagnosing mental illness; identifies areas of meme-based prevention for at-risk children; and defines specific syndromes in terms of memetic symptoms, genetic/ memetic development, and meme-based treatment.

**Performance Artists Talking in the Eighties** - Linda Montano 2000  
This work contains interviews with performance artists who talk about

how certain childhood experiences have influenced and resurfaced in their work as an adult. The discussions focus on the relationship between art and life.

**The Power of Human Imagination** - Jerome L. Singer 2012-12-06  
For at least half of the twentieth century, psychology and the other mental health professions all but ignored the significant adaptive possibilities of the human gift of imagery. Our capacity seemingly to duplicate sights, sounds, and other sensory experiences through some form of central brain process continues to remain a mysterious, almost miraculous skill. Because imagery is so much a private experience, experimental psychologists found it hard to measure and turned their attention to observable behaviors that could easily be studied in animals as well as in humans. Psychoanalysts and others working with the emotionally disturbed continued to take imagery information seriously in the form of dream reports, transference fantasies, and as indications of hallucinations or delusions. On the whole, however, they emphasized the maladaptive aspects of the phenomena, the distortions and defensiveness or the "regressive" qualities of daydreams and sequences of images. The present volume grows out of a long series of investigations by the senior author that have suggested that daydreaming and the stream of consciousness are not simply manifestations in adult life of persisting phenomena of childhood. Rather, the data suggest that imagery sequences represent a major system of encoding and transforming information, a basic human capacity that is inevitably part of the brain's storage process and one that has enormous potential for adaptive utility. A companion volume, *The Stream of Consciousness*, edited by Kenneth S. Pope and Jerome L.
