## **Queering Sexualities in Turkey** - Cenk Özbay 2017-05-25

Despite its some of its more liberal and democratic characteristics - when compared to many other countries in the Middle East - the more conservative elements within Turkish politics and society have made gains over the past decades. As a result, like many others in the region, Turkish society has multiple standards when naming, evaluating and reacting to men who have sex with men. Cenk Ozbay argues that overall, self-identified gay men (as well as men who practice clandestine same-sex acts) are most of the time marginalised, ostracised and rendered 'immoral' in both everyday practices and social institutions. He offers in this book an analysis of the concept of masculinity as central to redefining boundaries of class, gender and sexuality, particularly looking at the dynamics between self-identified gay men and straight-acting male prostitutes, or 'rent boys'. A result of in-depth interviews with both self-identified gay men and rent boys, Ozbay explores the changing discourses and meaning of class, gender and queer sexualities, and how these three are embedded within urban and familial narratives.

## *Queer Sexualities in French and Francophone Literature and Film* - 2015-07-14

The steady development of queer theory over the last two decades has provided useful analytical tools and the will to dismiss the watchdog of heteronormativity. Modes of reading have evolved, as this volume of FLS amply attests. Following Bill Edmiston's introduction to the volume — a concise and informative history of queer theory — the fifteen articles reveal, not surprisingly, significant diversity. One deals with queerness in the context of medieval writing where allegorical and euphemistic expression were understood to be irreconcilable. Another treats translations in Early Modern France of an Ovidian fable that had an inconvenient lesbian dimension. Rousseau's fixation on his bottom (e.g., for spankings) points to a queer streak, while Gautier's *Mademoiselle de Maupin* enhances the theme of sexual misidentity with ornamental figures. The queerness of Sand's *La Mare au diable* emerges in the course of a contrasexual reading. A musicologist investigates the possibility of a lesbian esthetics of music in a work by Erik Satie, while a literary scholar finds evidence of Proust's "outing" in Jean Santeuil. Other articles address the sense of gender transformation wrought by sodomy, a revised view on the writing subject in Jean Genet's fiction, the queerness of heterosexuality in the works of Michel Houellebecq, and recurring motifs in recent fiction produced by "gay Paris." Two of the articles treat activism and esthetics in film.

## **Queer Youth Histories** - Daniel Marshall 2022-01-01

This pioneering collection provides, for the first time, an international and transdisciplinary reflection on youth, history and queer sexualities and genders. Since the 1970s there has been an explosion in research focusing on LGBTQ history and on the lives of LGBTQ young people, but these two research areas have seldom been brought together explicitly. Bridging LGBTQ historical scholarship and contemporary queer youth cultural studies, this book marks out pathways for thinking more about youth in LGBTQ history and more about history in contemporary understandings of LGBTQ youth. Examining histories from the nineteenth century through to the recent past, contributors examine queer youth histories in continental Europe, Britain, the United States of America, New Zealand, Australia, Canada, Ireland, India, Malaysia and Hong Kong.

## *Queer Bodies* - Heather Jane Sykes 2011

The book provides a critical examination of discrimination based on sexuality, gender, and body size in Canadian physical education. It illustrates how students with queer bodies--whether lesbian, gay, transgendered, or overweight or fat--cope with homophobia, transphobia, and fat phobia in physical education. Drawing from qualitative interviews, the book reveals how students are marginalized because they do not conform to taken-for-granted ideas about healthy or athletic bodies.

## **Contemporary Christianity and LGBT Sexualities** - Stephen Hunt 2016-05-13

The subject of gay and lesbian sexuality is perhaps the most vexed issue in the contemporary Christian

Church. Many churches have been forced to confront the matter, both theologically and pastorally and in consequence, controversies have proved divisive within the Church, most notably between conservative and liberal orientated denominations, as well as evangelical churches. This book explores these themes from a sociological perspective, addressing not only gay and lesbian sexualities, but also bi- and transgendered sexualities. With rich empirical material being presented by a team of experts, this book constitutes the first comprehensive sociological study of 'non-hetero' sexualities in relation to contemporary Christianity. As such, it will appeal to sociologists, scholars of religion and theology as well as readers across a range of social sciences

## Situating Sexualities - Fran Martin 2003-05-01

This is the first book in English to analyse the stunning rise to prominence of cultures of dissident sexuality in Taiwan during the 1990s. Positioned at the crossroads of queer theory and postcolonial cultural studies, this book intervenes in current debates on sexuality and globalization to argue that the current emergence of public, dissident sexualities in non-Western locations like Taiwan cannot be reduced to the effects of homogenizing 'Westernization'. Instead, *Situating Sexualities* approaches the queer sexualities represented in recent Taiwanese fiction, film and public culture as dynamic formations that combine local knowledge with globalizing discourses on gay and lesbian identity to produce sexualities that are multiple, shifting and inherently hybrid. Equally, the book pushes out the limits of 'queer' to challenge the Eurocentrism of much queer theory to date. Consistently critical of essentializing accounts of 'Chinese' culture, the book nevertheless highlights some of the important ways in which Taiwanese formations of dissident sexuality differ from the familiar Euro-American formations.

## **Michel Foucault and Sexualities and Genders in Education** - David Lee Carlson 2019-11-18

This book examines, within the context and concerns of education, Foucault's reflections on friendship in his 1981 interview "Friendship as a Way of Life." In the interview, Foucault advances the notion of a homosexual ascesis based on experimental friendships, proposing that homosexuality can provide the conditions for inventing new relational forms that can engender a homosexual culture and ethics, "a way of life," not resembling institutionalized codes for relating. The contributors to this volume draw from Foucault's reflections on ascesis and friendship in order to consider a range of topics and issues related to critical studies of sexualities and genders in education. Collectively, the chapters open a dialogue for researchers, scholars, and educators interested in exploring the importance and relevance of Foucault's reflections on friendship for studies of schooling and education.

## **Queer sexualities in Indian Culture : Critical Responses** - Dipak Giri 2020-10-20

The anthology *Queer Sexualities in Indian Culture: Critical Responses* surveys the queer (LGBTQIA+) space in Indian culture in reference to literature, movies and other important media of culture. Shedding light on the marginalised position of queer in Indian culture, the anthology seeks sympathy for this minority class of people from majorities. It traces out factors like gender stereotype, body politics, prejudism etc. causing these minorities to lead a life of invisibility. Along with a critical introduction and an interview with queer activist and author Ruth Vanita, the anthology has covered sixteen well-explored articles through which authors have tried to sincerely articulate their noble ideas on queer studies in Indian context. The book will be helpful not only for readers who want to know about Indian queers but also prove resourceful to scholars who intend to do further studies on it.

## **Sexualities and Communication in Everyday Life** - Karen E. Lovaas 2007

discourses.

**Studying Sexualities** - Niall Richardson 2013-05-31

Sexuality is an integral part of our lives, and our identities. But how do we study it? Written in a lively and accessible style, *Studying Sexualities* aims to introduce students to the critical study of sexuality, taking a look at the major theories, media representations, and cultural practices. After having carefully explained the key theoretical and empirical debates on the subject – outlining Foucauldian Constructionism, Psychoanalysis, and Queer Theory – the authors draw on their own original research to address timely topics related to gender, sexuality, and popular culture. Contemporary examples used within the book include discussions of sex shops, cybersex, and sex toys, the TV series *Sex and the City*, *Will and Grace* and *The L Word*, and the immensely popular *Twilight* books. *Studying Sexualities* is essential reading for undergraduate and postgraduate students on Cultural, Media, Film, or visual Studies, or Sociology and Sexuality courses, who are interested in researching the fascinating complexities of sexuality today. NIALL RICHARDSON is a lecturer at the University of Sussex, and CLARISSA SMITH and ANGELA WERNDLY are lecturers at the University of Sunderland, UK. This book is the culmination of their considerable teaching and writing experience within the field of sexualities. Their specific research interests include feminism and popular culture, queer theory, the body and consumption.

**Sexualities and Genders in Education** - Adam J. Greteman 2018-01-18

This book explores queerness in the context of changing economic, intellectual, sexual, and school terrains. Greteman proposes the concept queer thriving to imagine how queers might develop in-contestation to becoming normalized. Queer thriving guides queers into a 21st century that does justice to diverse queer existences, past and present.

*Queer London* - Matt Houlbrook 2005-09-03

A profile of homosexual life in London during the first half of the twentieth century looks at how London shaped the culture and politics of queer life and was in turn transformed by the lives of queer men, drawing on personal letters, diaries, newspaper articles, police reports, and other sources to reveal the real world of queer sexuality in the urban culture.

**Reading and Writing the Ambiente** - Susana Chávez-Silverman 2000

*Made in India* - S. Bhaskaran 2004-11-26

*Made in India* examines seemingly disparate and high profile events in postcolonial India that captured national and transnational/diasporic interest since the 1990s: The emergence of the Indian homosexual, the new trans/national heterosexual woman, lesbian suicides, marriage and kinship contracts in small towns around India and the simultaneous evolution of the modern homophobia and lesbian NGOs. These events demonstrate the material, political, and cultural contexts within which postcolonial subjects negotiate their lived experiences within moments of decolonization and recolonization.

**Queer Business** - Nick Rumens 2017-09-13

In this modern day and age, it is surprising that managerialist perspectives, practices and ideas are colonising the study of sexualities in organisation. A timely intervention into the contemporary vitality of queer theories, *Queer Business* is an innovative book length exploration of how queer theory has been used in management and organisation studies, with the aim of broadening and deepening queer scholarship in this discipline. Through both scholarly and original empirical research, Rumens also seeks to demonstrate how queer theory has been mobilised in MOS and how it might be advanced in a field where it has yet to

become exhausted and clichéd. In particular, this volume shows how scholars can use queer theory concepts to explore how lesbian, gay, bisexual and transgender sexualities and genders are understood and experienced in the workplace. Challenging notions of LGBT+ inclusivity in the workplace through concepts such as queer liberalism and homonormativity, *Queer Business* will appeal to scholars, undergraduate and postgraduate students and postdoctoral researchers interested in fields such as management and organisation studies, queer studies, gender studies, sexuality studies, organisational theory and cultural studies.

**Queer Sexualities: Diversifying Queer, Queering Diversity** - Vikki Fraser 2019-01-04

The book offers an interdisciplinary examination of queer sexuality. It highlights the potential for diversification offered by articulations and studies of queer sexuality in art, media, literature, politics and activism.

*Sexualities in World Politics* - Manuela Lavinias Picq 2015-05-15

As LGBTQ claims acquire global relevance, how do sexual politics impact the study of International Relations? This book argues that LGBTQ perspectives are not only an inherent part of world politics but can also influence IR theory-making. LGBTQ politics have simultaneously gained international prominence in the past decade, achieving significant policy change, and provoked cultural resistance and policy pushbacks. Sexuality politics, more so than gender-based theories, arrived late on the theoretical scene in part because sexuality and gender studies initially highlighted post-structuralist thinking, which was hardly accepted in mainstream political science. This book responds to a call for a more empirically motivated but also critical scholarship on this subject. It offers comparative case-studies from regional, cultural and theoretical peripheries to identify ways of rethinking IR. Further, it aims to add to critical theory, broadening the knowledge about previously unrecognized perspectives in an accessible manner. Being aware of preoccupations with the de-queering, disciplining nature of theory establishment in the social sciences, we critically reconsider IR concepts from a particular LGBTQ vantage point and infuse them with queer thinking. Considering the relative dearth of contemporary mainstream IR-theorizing, authors ask what contribution LGBTQ politics can provide for conceiving the political subject, as well as the international structure in which activism is embedded. This book will be of interest to students and scholars of gender politics, cultural studies and international relations theory.

*Queer Sexualities in Early Film* - Shane Brown 2016-07-26

Since the publication of Vito Russo's seminal study *The Celluloid Closet* in 1981, much has been written about the representation of queer characters on screen. Until now, however, relatively little attention has been paid to how queer sexualities were portrayed in films from the silent and early sound period. By looking in detail at a succession of recently-found films and revisiting others, Shane Brown examines images of male-male intimacy, buddy relationships and romantic friendships in European and American films made prior to 1934, including *Different from the Others* and *All Quiet on the Western Front*. He places these films within their socio-political and scientific context and sheds new light on how they were intended to be viewed and how they were actually perceived. In doing so, Brown offers his readers a unique insight into a little known area of early cinema, queer studies and social history.

**Geographies of Sexualities** - Jason Lim 2017-03-02

Recent years have seen a dramatic upsurge of interest in the connections between sexualities, space and place. Drawing established and 'founding' figures of the field together with emerging authors, this innovative volume offers a broad, interdisciplinary and international overview of the geographies of sexualities. Incorporating a discussion of queer geographies, *Geographies of Sexualities* engages with cutting edge agendas and challenges the orthodoxies within geography regarding spatialities and sexualities. It contains original and previously unpublished material that spans the often separated areas of theory, practices and politics. This innovative volume offers a trans-disciplinary engagement with the spatialities of sexualities, intersecting discussions of sexualities with issues such as development, race, gender and other forms of social difference.
