[Gay Tantra in Action](#) - William Schindler 2017-08-25

Integrating sexuality with spirituality has been the specialty of traditional Hindu Tantra for at least 1500 years. The short readings in this book adapt the concepts and methods of the ancient tantric tradition for LGBT persons of all genders living in our modern, rapidly changing world. Gay and gender-non-conforming persons have been condemned or ignored by all major religions, and many LGBT persons may reject religion in general, sometimes substituting sex, drugs, or other diversions. Substitutes for true spirituality ultimately fail to remedy the existential conditions of mortality, isolation, and meaninglessness as only a deep spiritual practice can. These readings demonstrate various ways LGBT people can tap into the deepest currents of human spirituality while recognizing the special spiritual needs and aptitudes that come with an LGBT identity. Gay Tantra teaches us to attain the heights of spiritual enlightenment utilizing fully our LGBT experiences and ways of being in the world.

Islamic Homosexualities - Will Roscoe 1997-02-01

The dramatic impact of Islamic fundamentalism in recent years has skewed our image of Islamic history and culture. Stereotypes depict Islamic societies as economically backward, hyper-patriarchal, and fanatically religious. But in fact, the Islamic world encompasses a great diversity of cultures and a great deal of variation within those cultures in terms of gender roles and sexuality. The first collection on this topic from a historical and anthropological perspective, *Homosexuality in the Muslim World* reveals that patterns of male and female homosexuality have existed and often flourished within the Islamic world. Indeed, same-sex relations have, until quite recently, been much more tolerated under Islam than in the Christian West. Based on the latest theoretical perspectives in gender studies, feminism, and gay studies, *Homosexuality in the Muslim World* includes cultural and historical analyses of the entire Islamic world, not just the so-called Middle East. Essays show both age-stratified patterns of homosexuality, as revealed in the erotic and romantic poetry of medieval poets, and gender-based patterns, in which both men and women might, to varying degrees, choose to live as members of the opposite sex. The contributors draw on historical documents, literary texts, ethnographic observation and direct observation by both Muslim and non-Muslim authors to show the considerable diversity of Islamic societies and the existence of tolerated gender and sexual variances.

[Lesbians and Lesbianisms](#) - Claudette Kulkarni 2012-11-12

Claudette Kulkarni explores lesbian experience from a Jungian and feminist perspective, through interviews with women who see themselves as lesbians or who are in a lesbian relationship. Although a feminist treatment of the subject challenges the heterosexism of Jungian theory, the author presents a link between theory and experience that is consistent with both approaches. She concludes that when a woman finds herself loving another woman she is often responding to a profound psychological instinct to act, in spite of internal conflict or external opposition, and that this is a significant move in the service of personal and collective individuation and a movement toward achieving self-understanding

[Searching for Love](#) - Debbie Haughland Chan 2008

Searching for Love: A Journey to Healing and Wholeness - tells the story of a believer struggling to put her life where her faith is. Her struggles are our struggles whether our difficulties are with same-sex attraction or a different aspect of living our faith. Debbie Haughland Chan suggests that pain is not to be avoided but walked through, embraced and allowed to do its work and is part of the healing. This real life story is one that you may not hear every Sunday at your local church, but the reality is that many have the same struggles and need to hear it. What readers have said: "I was hooked from the very first word. I think I even burnt dinner." "You have altered my perception of God. Thanks for steering me back onto my path." "Searching for Love shines with the hope and faith that God is bigger than any problem we face." "This is not a 'self-help' book. It is an 'I need help' book."

Men's Bodies, Men's Gods - Bjorn Krondorfer 1996

Men's Bodies, Men's Gods explores the intersection of body, religion, and culture from the specific

perspective of male identities. How are male bodies constructed in different historical periods and contexts? How do race, ethnicity, and sexual preference impact on the intersection of male bodies and religious identity? Does Christianity provide models to cope with the aging and ailing male body? Does it provide models for intimacy between men and women? Between men and men? And, how do men reflect the carnal dimensions of power, abuse, and justice?

[Making It Legal](#) - Frederick Hertz 2018-04-01

Marriage equality is here to stay: Understand the benefits and complications Full legal marriage is now available in all U.S. states. But there are still many questions that same-sex couples should discuss before walking down the aisle. Learn how marriage will affect: your family if you have children your taxes, and your responsibility for your partner's debts. Making It Legal also covers state laws on same-sex domestic partnerships and civil unions, and explains whether your registration will be recognized if you move to another state.

God vs. Gay? - Jay Michaelson 2012-05-08

A passionate argument for LGBTQ equality within religious communities—"a book for our times and a book for the ages" (EDGE) The myth that the Bible forbids homosexuality—the myth of "God versus Gay"—is behind some of the most divisive and painful conflicts of our day. In this provocative and game-changing book, scholar and activist Jay Michaelson shows that the Bible does not prohibit same-sex intimacy but does quite the opposite. In fact, the vast majority of the Bible's teachings support the full equality and dignity of LGBTQ people, from the first flaw it finds in creation ("It is not good for a person to be alone") to the way religious communities grow through reflection and conscience. Michaelson argues passionately for equality—not despite religion, but because of it. With close readings of the Hebrew Bible and New Testament, the latest data on the science of sexual orientation, and a sympathetic, accessible, and ecumenical approach to religious faith, Michaelson makes the case that sexual diversity is part of the beauty of nature. The recognition of same-sex families will strengthen, not threaten, the values religious people hold dear. Whatever your views on religion and sexual diversity, *God vs. Gay* is a plea for a more compassionate, informed conversation—and a first step toward creating one.

Liberating Minds - Norman G. Kester 1997-01-01

In this work, over 30 librarians (such as James V. Carmichael, Jr., Sanford Berman, Martha E. Stone, Gerald Perry, Barbara Gomez and Martha Cornog) address gay and lesbian issues facing the profession, and in some cases offer their own stories of understanding their sexuality and its implications on their professional lives. Some of the issues addressed are the need to uphold intellectual freedom, challenging the censorship of gay materials in libraries, AIDS material in the library, the information needs of gay and lesbian patrons, collection development, and confronting homophobia.

Islamic Homosexualities - Stephen O. Murray 1997-02

The first anthropological collection that reveals patterns of male and female homosexuality in the Muslim World The dramatic impact of Islamic fundamentalism in recent years has skewed our image of Islamic history and culture. Stereotypes depict Islamic societies as economically backward, hyper-patriarchal, and fanatically religious. But in fact, the Islamic world encompasses a great diversity of cultures and a great deal of variation within those cultures in terms of gender roles and sexuality. Erotic Transference and Countertransference - David Mann 2003-09-02

Erotic Transference and Countertransference brings together, for the first time, contemporary views on how psychotherapists and analysts work with and think about the erotic in therapeutic practice.

Representing a broad spectrum of psychoanalytic perspectives, including object relations, Kleinian, Jungian and Lacanian thought, the contributors highlight similarities and differences in their approaches to the erotic in transference and countertransference, ranging from love and sexual desire to perverse and psychotic manifestations. Erotic Transference and Countertransference offers ways of understanding the erotic which should prove both useful and thought-provoking.

The Triumph of Love - Eric Reitan 2017-07-31

Recent years have witnessed an astonishing cultural and legal shift when it comes to homosexuality and same-sex marriage. Many Christians see these changes as a defeat for Christian values, often painting Christian opponents as sell-outs to secular culture. But can there be a genuinely Christian case for same-sex marriage? This book makes that case. While sensitive to scriptural issues, it focuses on a question that cannot be answered by Scripture alone: What does love for our gay and lesbian neighbors demand? This question calls us to pair theological, philosophical, and scriptural reflection with something else: attention to gay and lesbian lives. We must attend to the psychological research and, more importantly, to the stories our gay and lesbian neighbors tell us about themselves and their experience. Love does not permit us to plug our ears with Bible verses. While this book argues that Christian love calls us to make same-sex marriage available, the deeper conclusion is that Christian values prevail when we wrestle with these questions in a spirit of love: love for those with whom we disagree, and love for those most affected by the decisions we reach.

A Special Illumination - Rollan McCleary 2017-07-28

Gay spirituality represents a hidden strand in Western thought that was only publically declared from the Gay Liberation of the 1970s. Since "coming out", expressions of gay spirituality have proliferated in both number and diversity. Beginning with gay theology within Christianity, the phenomenon has now reached as far as Buddhism and neo-paganism. But, so far, critical analysis of the movement has been very limited largely because gay spirituality has been treated as a political and social movement arguing for rights and acceptance within religious circles. 'A Special Illumination' offers an indepth analysis and argues that gay spirituality should be placed at the heart of religion.

The Presence of the Feminine in Film - Virginia Apperson 2009-01-14

This pioneering book introduces a largely unremarked dimension of film, the "feminine," which cannot be reduced to women's experience, or to men's projections onto women. The Presence of the Feminine in Film

gives body to that often rather loosely formulated Jungian conception, the "feminine aspect of psyche," by noticing what "feminine" turns out to mean in particular cinematic contexts. Spanning seven decades—from *Pride and Prejudice*, *Notorious*, and *Letter from an Unknown Woman* to *Monsoon Wedding*, *Brokeback Mountain*, and *The Lives of Others*—the movies selected for particular study here make it clear that the feminine is at home in the movies, and that when she appears, it is to appeal to our sensibilities as well as to our senses. This is a book that will enhance the appreciation of film as a depth psychological medium.

Same-Sex Love - Robert H. Hopcke 1993-02-16

This is the first book to examine the unique ways in which gay men and lesbians make the journey toward the psychic wholeness and balance needed in every life—a process C. G. Jung called individuation. Here eighteen prominent therapists and writers offer thought-provoking insights into the deep meaning of homosexuality. Contributions from: Robert A. Johnson, Christine Downing, Robert Bosnak, Joseph Henderson, John Beebe, Robert H. Hopcke, Howard Teich, Morgan Farley, Caroline T. Stevens, Will Roscoe, Karin Lofthus Carrington, Lyn Cowan, Scott Wirth, Suzy Naiberg, Donald Sandner, David J. Tacey, Eugene Monick, and Susan Griffin.

Encyclopedia of Lesbian and Gay Histories and Cultures - Bonnie Zimmerman 2021-06-13

A rich heritage that needs to be documented Beginning in 1869, when the study of homosexuality can be said to have begun with the establishment of sexology, this encyclopedia offers accounts of the most important international developments in an area that now occupies a critical place in many fields of academic endeavors. It covers a long history and a dynamic and ever changing present, while opening up the academic profession to new scholarship and new ways of thinking. A groundbreaking new approach While gays and lesbians have shared many aspects of life, their histories and cultures developed in profoundly different ways. To reflect this crucial fact, the encyclopedia has been prepared in two separate volumes assuring that both histories receive full, unbiased attention and that a broad range of human experience is covered. Written for and by a wide range of people Intended as a reference for students and scholars in all fields, as well as for the general public, the encyclopedia is written in user-friendly language. At the same time it maintains a high level of scholarship that incorporates both passion and objectivity. It is written by some of the most famous names in the field, as well as new scholars, whose research continues to advance gender studies into the future.

The Missing Myth - Gilles Herrada 2013-02-26

In *The Missing Myth*, Gilles Herrada tackles the many questions about the role and meaning of homosexuality in the evolution of our species and the development of civilization: what evolutionary edge same-sex relationships have provided to the human species; what biological mechanisms generate the sexual diversity that we observe; why homosexual behavior ended up being prohibited worldwide; why homophobia has persisted throughout history; why the homosexual community resurfaced after World War II; and others. In this heartfelt, beautifully written, and painstakingly researched text, the author sculpts a vision of homosexuality that integrates its many dimensions. Stressing the connection between the social status of homosexuality and how same-sex love is depicted in the myths of a particular culture, *The Missing Myth* advocates the creation of a new mythos—not only informed by all the fields of knowledge, but also inclusive of the beauty, truth, and goodness of same-sex love.
