Oswaal NTA CUET (UG) Mock Test Sample Question Papers English, Sociology, Psychology, Entrepreneurship & General Test (Set of 5 Books)(Entrance Exam Preparation Book 2023) - Oswaal Editorial Board 2023-02-03

**Benefits:** • Crisp Revision with On-Tips Notes & Mind Maps • 100% Exam Readiness with Latest Solved Papers ( Slot 1 & 2 )- NTA 2022 • Extensive Practice with 10 Solved Sample Question Papers with 50 MCQs • Valuable Exam Insights with NCERT-based MCQs • Concept Clarity with 450+ Explanations & Smart Answer Key

(Free Sample) Master Guide for UPTET Paper 2 (Class 6 - 8 Teachers) Social Studies/Social Science with Past Questions - Disha Experts 2021-07-01

NTA CUET (UG) 5 Mock Test Sample Question Papers Sociology (2024) - Oswaal Editorial Board 2023-08-30

**Description of the product:** • 100% Exam Ready With 2023 CUET(UG) Exam Papers (2 Slots) - Fully Solved with Explanations • Fill Learning Gaps With Revision Notes & Chapter Analysis • Crisp Recap with Smart Mind Maps & Concept Videos • Smart Shortcuts To Solve lengthy problems • Final Boost With Tips & Tricks to ACE CUET (UG) in 1 st Attempt

*Gender and Development in India* - Himanshu Sekhar Rout 2008  
Ensuring gender parity has become a great challenge for the modern world. Gender equality forms part of the development strategies in many countries of the world, including India. When both men and women have equal access to services and resources, enjoy equal rights, and get equal opportunities to develop skills and capabilities, then the development of the country is viewed as balanced and rapidly advancing. Despite considerable efforts towards advocacy, the awareness of gender equality, and the launching of various programs for the welfare of women, gender discrimination in India remains pervasive in many dimensions of life. Gender gaps are widespread in respect of access to and control of resources, economic opportunities, and political voice. Women are still exploited, discriminated against, and subjected to harassment and violence. This highly topical book covers the various dimensions and strategies of gender development in India.  
*Economic and Political Weekly* - 2006

Documentation on Women's Concerns - 1991

Tourist Guide to South India - 2003

*Growth, Industrialisation and New Economic Reforms in India* - B. Satyanarayan 2001

Extension lectures delivered by the eminent economists/scholars during 1994-1998.

*Displacement Among Sri Lankan Tamil Migrants* - Diotima Chatteraj 2022-01-07

This book focuses on the concept of 'home' or 'place of origin' (expressed in Tamil as 'Ur') and its various dimensions, in turn related to issues of belonging, attachment, detachment, and commonality among the war-affected population in the post-war era of Sri Lanka. Little research has been undertaken on displacement and forced migration since the end of the war, and so this book provides new insight into the intersections between externally and internally displaced people and notions of home in relation to gender, age, caste and class. It excavates the roots of the problem of not being able to return due to combinations of uncertainty, unemployment, and the loss of people and property. The author shows that notions of 'home' vary considerably depending on multiple variables, and this is particularly pronounced between the different generations. The book also confronts how the migration from Sri Lanka over the border to India has brought on discernible changes to the lives of women in particular, in transforming their identities in multiple re-invented cultural manifestations, and cultivating a new kind of attachment

towards their new homes. Interdisciplinary in tenor, this book will be of interest to scholars in development studies with a focus on South Asia, as well as graduate students and researchers in the fields of migration, conflict studies, Sri Lanka studies, and sociology. It may also have an impact on policymakers owing to its comprehensive, empirically-based analysis of the consequences of the Sri Lankan civil war for Tamils.

Tourist Guide to Tamil Nadu - 2010

Tools of Justice - Kalpana Kannabiran 2013-02-01

In the years since independence, the Indian subcontinent has witnessed an alarming rise in violence against marginalized communities, with an increasing number of groups pushed to the margins of the democratic order. Against this background of violence, injustice and the abuse of rights, this book explores the critical, 'insurgent' possibilities of constitutionalism as a means of revitalising the concepts of non-discrimination and liberty, and of reimagining democratic citizenship. The book argues that the breaking down of discrimination in constitutional interpretation and the narrowing of the field of liberty in law deepen discriminatory ideologies and practices. Instead, it offers an intersectional approach to jurisprudence as a means of enabling the law to address the problem of discrimination along multiple, intersecting axes. The argument is developed in the context of the various grounds of discrimination mentioned in the constitution – caste, tribe, religious minorities, women, sexual minorities, and disability. The study draws on a rich body of materials, including official reports, case law and historical records, and uses insights from social theory, anthropology, literary and historical studies and constitutional jurisprudence to offer a new reading of non-discrimination. This book will be useful to those interested in law, sociology, gender studies, politics, constitutionalism, disability studies, human rights, social exclusion, etc.

The Theory of Sex Allocation - Eric L. Charnov 1982-11-21

This book is the first comprehensive treatment of sex allocation from the standpoint of modern evolutionary theory. It shows how the determination of sex ratio, resource allocation to sperm versus egg within simultaneous hermaphroditism, and the evolution of sex reversal can be explained as examples of a single process. The genetical theory, developed mostly with graphical arguments, also specifies when hermaphroditism and dioecy are themselves evolutionarily stable. The work balances theory with field and laboratory research, providing critical tests of the theory by empirical studies of sex ratio in parasitoid wasps and mites, sex reversal in shrimp and coral reef fish, and allocation of resources to pollen versus seeds in higher plants. In addition, the author offers an encyclopedic review of the field and laboratory work of other scientists, reviews many as yet untested hypotheses in sex allocation, and points toward numerous plant and animal systems that hold promise for future tests.

Political Transition and Development Imperatives in India - Ranabir Samaddar 2020-11-25

This volume explores the transition from colonial to constitutional rule in India, and the various configurations of power and legitimacies that emerged from it. It focuses on the developmental structures and paradigms that provided the circumstances for this transition, and the establishment of the post-colonial state. Different articles interrogate the idea of liberal constitutionalism, the spaces it provides for rights and

claims, the assumptions it makes about citizenship and its attendant duties, and the assumptions it further makes about what it can, or has to, become in the particular situation of India. The book locates these questions in the reconfiguration of society, power, and the economy since the shift in the identity of the state after Independence, and deals with issues of constitution-making in a historical and political setting and its outcomes, especially the centrality of law and legalisms, in shaping civil society. With a companion volume on the transition to a constitutional form of governance and the consequent moulding of the citizens, this book emphasises continuity and change in the context of the movement from the colonial to the constitutional order. It will be of interest to those in politics, history, South Asian studies, policy studies, and sociology.

**Institutions, Relations and Outcomes - Naila Kabeer 2000**

With reference to India.

**Population Review - 1971**

**Genomic Diversity in People of India - Anthropological Survey Of India 2021-07-02**

This book is the output of Anthropological Survey of India's National Project "DNA Polymorphism of Contemporary Indian Population" conducted during 2000 to 2018. The book compiles

the independent and collaborative work of 49 scientific personnel. Genomics facilitate the study of genetic constitution and diversity at individual and population levels. Genomic diversity explains susceptibility, predisposition and prolongation of diseases; personalized medicine and longevity; prehistoric demographic events, such as population bottleneck, expansion, admixture and natural selection. This book highlights the heterogeneous, genetically diverse population of India. It shows how the central geographic location of India, played a crucial role in historic and pre-historic human migrations, and in peopling different continents of the world. The book describes the massive task undertaken by AnSI to unearth genomic diversity of India populations, with the use of Uni-parental DNA markers mtDNA (mitochondrial DNA) and Y -chromosome in 75 communities. The book talks about the 61 maternal and 35 paternal lineages identified through these studies. It brings forth interesting, hitherto unknown findings such as shared mutations between certain communities. This volume is a milestone in scientific research to understand biological diversity of Indian people at genomic level. It addresses the basic priority to identify different genes underlying various inborn genetic defects and diseases specific to Indian populations. This would be highly interesting to population geneticists, historians, as well as anthropologists.
