Sex, God, and the Conservative Church Tina Schermer Sellers 2017-04-21 Sex, God, and the Conservative Church guides psychotherapy and sexology clinicians on how to treat clients who grew up in a conservative faith—mired in sexual shame and dysfunction—and who desire to both heal and hold on to their faith orientation. The author first walks clinicians and readers through a critique of Western culture and the conservative Christian Church, and their effects on intimate partnerships and sexual lives. The book provides clinicians a way to understand the faulty sexual ethic of the early church, while revealing the hidden mystical sex and body positive understanding of sexuality of the Hebrew people. The book also includes chapters on strategies for a new sexual ethic, on clinical steps to heal religious sexual shame, and on specific sex therapy interventions clinicians can use directly in their practice. Finally, it offers a four step model for healing religious sexual shame and actual touch and non-touch exercises to bring healing and intimacy into a person's life.

The Grim Sleeper - Talking with America's Most Notorious Serial Killer, Lonnie Franklin Victoria Redstall 2018-06-28 During the mid-1980s, a brutal killing spree began in Los Angeles as several women were murdered, having been sexually assaulted and shot in the chest with a .25 calibre gun. The man responsible was Lonnie David Franklin Jr. However, his identity wouldn't be revealed for almost thirty years, by which time he had become one of America's most prolific serial killers. At the time, Los Angeles was a city struggling under the weight of racial inequalities and a crack cocaine epidemic that was sweeping through its most deprived areas. Many in the communities of South Central felt that this caused a lack of interest on the part of the LAPD in properly investigating the these murders. In 2010, Franklin's escape from justice finally came to an end, and he was eventually convicted of the killings of nine women and one teenage girl in 2016, although it is suspected that he could be responsible for killing many, many more. In this book, investigative journalist Victoria Redstall delves into the mind of America's most notorious serial killer to discover the truth, in his own words, behind his appalling actions as well as speaking to neighbours, family members, victims' family members and police connected to the case. By visiting Franklin in prison and gaining his trust, she allows Franklin to reveal a terrifying lack of empathy for the victims whose lives he so brutally ended. This is a chilling and fascinating look into the crimes of the Grim Sleeper.

Sex and the Failed Absolute Slavoj Žižek 2021-03-25 In the most rigorous articulation of his philosophical system to date, Slavoj Žižek provides nothing short of a new definition of dialectical materialism. In forging this new materialism, Žižek critiques and challenges not only the work of Alain Badiou, Robert Brandom, Joan Copjec, Quentin Meillassoux, and Julia Kristeva (to name but a few), but everything from popular science and quantum mechanics to sexual difference and analytic philosophy. Alongside striking images of the Möbius strip, the cross-cap, and the Klein bottle, Žižek brings alive the Hegelian triad of being-essence-notion. Radical new readings of Hegel, and Kant, sit side by side with characteristically lively commentaries on film, politics, and culture. Here is Žižek at his interrogative best.

The author also discusses the phylogenetic relationships of the diploid and octoploid species and subspecies and their postpleistocene migration. The American octoploid *Fragaria* species are known as the ancestors of the large-fruited garden strawberries, so this study is of great horticultural interest and may contribute to the preservation of these species and their further use in strawberry breeding.

Hieronymus Bosch Charles D Cuttler 2012-12-31 Professor Charles D. Cuttler changed from artist to art historian at New York University's Institute of Fine Arts, studying under distinguished teachers such as Walter Friedlaender and Erwin Panofsky. A specialist in Flemish painting, he spent the major part of his career teaching at the University of Iowa. He published numerous articles, reviews, and a well known text, Northern Painting. He lectured on Bosch on three continents, and his retirement enabled him to devote time to further research. A result is Hieronymus Bosch: Late Work. This new book presents Cuttler's discoveries on three late triptychs, a major trio of Bosch's maturity: the Haywain, the Lisbon Temptation of St. Anthony, and the Garden of Earthly Delights. He presents Bosch's unique view of Christ and salvation in union with hagiography, the Devotio moderna, and medieval hermeneutics, a revelation of Bosch's immense erudition and overwhelming artistry. Bosch reinforced his concepts with supporting casts of animals, natural and demonic, birds, and other iconographic elements. Analysis of the Berlin painting of St. John the Evangelist's apocalyptic vision of the Virgin Mary, the Madrid Seven Deadly Sins tondo, and the Vienna drawing of the Tree-Man expands our understanding of these themes. Other influences affecting Bosch's art, such as whether he travelled or whether he used contemporary prints, whether he drew upon Dante's Inferno, or religious tracts, and the attitudes of his ambience are also examined. The final chapter presents the author's understanding of Bosch, his religiosity and his genius, in his time and place.

Materialities of Sex in a Time of HIV Annette-Carina van der Zaag 2017-11-30 Provides a materialist analysis of the field of vaginal microbicides highlighting the problems of materialising the concept of empowerment through biomedical process, while utilising the microbicide as an analytical ally in a provocative debate with contemporary feminist theory on materiality.

Lesbian Women and Sexual Health R Dennis Shelby 2014-07-16 Interviewer: Where did you find out how to have safe lesbian sex? Val: I found out in jail. Why do so many lesbian women engage in sexual behavior that puts their health, even their lives, at risk? Many know they're at risk, yet somehow feel safe enough to behave as if there is no reason to practice safe sex. *Lesbian Women and Sexual Health: The Social Construction of Risk and Susceptibility* examines how lesbian women perceive their level of risk for HIV and other sexually transmitted infections (STIs). It describes how their perceptions of risk and susceptibility are shaped by factors such as sexual identity, cultural themes, and community knowledge - and how those perceptions impact on the very real HIV/STI risks that lesbian women face. The genesis of *Lesbian Women and Sexual Health: The Social Construction of Risk and Susceptibility* lies in Kathleen Dolan's exploratory study of this under-researched area, in which 162 structured interviews and 70 in-depth interviews were conducted with women who self-identify as lesbians. What these women have to say will inform, educate, and probably surprise you. Tables and figures make complex data easy to access and understand. Lesbian women construct and label their identities and actions in complex ways that may lead to risky behavior. In the words of the women surveyed—and in Dr. Dolan's insightful commentary—this book explores the ways in which lesbian women construct their perceptions of risk and susceptibility to seek answers to questions that include: Do many lesbian women see themselves, to an extent, as immune to HIV contraction? How does their self-constructed sense of risk and susceptibility lead to making dangerous choices? Why, in spite of their professed willingness to engage in protective actions, do many lesbians not actually do so? Why do many lesbian women, and some of the health care professionals who serve them, feel that pap smears are not necessary for women who have sex only with other women—and what are the consequences of this opinion? What is the relationship between drug/alcohol use and risky sexual behaviors in lesbian women? *Lesbian Women and Sexual Health: The Social Construction of Risk and Susceptibility* is an important resource for women's/lesbian health advocates, health care professionals, and courses in gay/women's/medical studies. It addresses gaps in the existing research to enhance our understanding of the physical and mental health status of lesbian women, of risk factors and protective actions regarding HIV and STIs, and of the conditions for which protective actions actually reduce risk. Use it to update your knowledge of this under-studied area at the intersection of physical, emotional, and sexual health.

Gender Articulated Kira Hall 2012-11-12 Gender Articulated is a groundbreaking work of sociolinguistics that forges new connections between language-related fields and feminist theory. Refuting apolitical, essentialist perspectives on language and gender, the essays presented here examine a range of cultures, languages and settings. They explicitly connect feminist theory to language research. Some of the most distinguished scholars working in the field of language and gender today discuss such topics as Japanese women's appropriation of "men's language," the literary representation of lesbian discourse, the silencing of women on the Internet, cultural mediation and Spanish use at New Mexican weddings and the uses of silence in the Anita Hill-Clarence Thomas hearings.

Sex and Evolution. (MPB-8), Volume 8 George Christopher Williams 2020-03-31 This book explores the relationship between various types of reproduction and the evolutionary process. Starting with the concept of meiosis, George C. Williams states the conditions under which an organism with both sexual and asexual reproductive capacities will employ each mode. He argues that in low-fecundity higher organisms, sexual reproduction is generally maladaptive, and persists because there is no ready means of developing an asexual alternative. The book then considers the evolutionary development of diverse forms of sexuality, such as anisogamy, hermaphroditism. and the evolution of differences between males and females in reproductive strategy. The final two chapters examine the effect of genetic recombination on the evolutionary process itself.

Event Slavoj Žižek 2014-01-30 Probably the most famous living philosopher, Slavoj Žižek explores the concept of 'event', in the second in this new series of easily digestible philosophy Agatha Christie's 4.50 from Paddington opens on a train from Scotland to London where Elspeth McGillicuddy, on a way to visit her old friend Jane Marple, sees a woman strangled in a compartment of a passing train (the 4.50 from Paddington). It all happens very fast and in a blurred vision, so the police don't take Elspeth's report seriously as there is no evidence of wrongdoing; only Miss Marple believes her story and starts to investigate... This is an event at its purest and minimal: something shocking that happens all of a sudden and interrupts the usual flow of things; something that appears out of nowhere, without discernible causes, and whose ontological status is unclear - an appearance without solid being as its foundation. In Christie's novel, the role of Miss Marple is precisely to de-eventalize the event, to explain it away as an occurrence which fits the coordinates of our normal reality. A subject for which there is not yet an agreed-upon definition within philosophy, Slavoj Žižek explores the terrain of this contestable term in a series of short chapters that examine everything from the event as political revolution and the rise of a new art form to the event as religious belief and falling in love. Event is a mind-blowing, thrilling, accessible book from arguably our greatest living cultural theorist and philosopher. Slavoj Žižek is a Slovenian philosopher and cultural critic. The author of many books, he has made contributions to political theory, film theory and theoretical psychoanalysis.

Challenging questions based on research articles strengthen critical reading skills, fully worked examples demonstrate essential concepts and methods, and engaging visualizations illustrate key themes of explained variation. End-of-chapter investigations use real data from popular culture and published research studies in a variety of disciplines, exposing students to various applications of statistics in the real world. Throughout the text, user-friendly Rossman Chance web applets allow students to conduct the simulations and analyses covered in the book.

Gothic Architecture and Sexuality in the Circle of Horace Walpole Matthew M. Reeve 2020-05-08 Gothic Architecture and Sexuality in the Circle of Horace Walpole shows that the Gothic style in architecture and the decorative arts and the tradition of medievalist research associated with Horace Walpole (1717–1797) and his circle cannot be understood independently of their own homoerotic culture. Centered around Walpole's Gothic villa at Strawberry Hill in Twickenham, Walpole and his "Strawberry Committee" of male friends, designers, and dilettantes invigorated an extraordinary new mode of Gothic design and disseminated it in their own commissions at Old Windsor and Donnington Grove in Berkshire, Lee Priory in Kent, the Vyne in Hampshire, and other sites. Matthew M. Reeve argues that the new "third sex" of homoerotically inclined men and the new "modern styles" that they promoted—including the Gothic style and chinoiserie—were interrelated movements that shaped English modernity. The Gothic style offered the possibility of an alternate aesthetic and gendered order, a queer reversal of the dominant Palladian style of the period. Many of the houses built by Walpole and his circle were understood by commentators to be manifestations of a new queer aesthetic, and in describing them they offered the earliest critiques of what would be called a "queer architecture." Exposing the role of sexual coterie in the shaping of eighteenth-century English architecture, this book offers a profound and eloquent revision to our understanding of the origins of the Gothic Revival and to medievalism itself. It will be welcomed by architectural historians as well as scholars of medievalism and specialists in queer studies.

Incontinence of the Void Slavoj Žižek 2019-02-26 The "formidably brilliant" Žižek considers sexuality, ontology, subjectivity, and Marxian critiques of political economy by way of Lacanian psychoanalysis. If the most interesting theoretical interventions emerge today from the interspaces between fields, then the foremost interspaceman is Slavoj Žižek. In *Incontinence of the Void* (the title is inspired by a sentence in Samuel Beckett's late masterpiece *Ill Seen Ill Said*), Žižek explores the empty spaces between philosophy, psychoanalysis, and the critique of political economy. He proceeds from the universal dimension of philosophy to the particular dimension of sexuality to the singular dimension of the critique of political economy. The passage from one dimension to another is immanent: the ontological void is accessible only through the impasses of sexualization and the ongoing prospect of the abolition of sexuality, which is itself opened up by the technoscientific progress of global capitalism, in turn leading to the critique of political economy. Responding to his colleague and fellow *Short Circuits* author Alenka Zupančič's *What Is Sex?*, Žižek examines the notion of an excessive element in ontology that gives body to radical negativity, which becomes the antagonism of sexual difference. From the economico-philosophical perspective, Žižek extrapolates from ontological excess to Marxian surplus value to Lacan's surplus enjoyment. In true Žižekian fashion, *Incontinence of the Void* focuses on eternal topics while detouring freely into contemporary issues from the Internet of Things to Danish TV series.
