Preventing Human Trafficking - Robert W. Spires 2016-03-03

This book explores human trafficking, examining the work of grass-roots, non-profit organizations who educate and rehabilitate human trafficking victims and at-risk youth. Through interviews with staff and children, the author compares the work of two NGOs on-the-ground in Thailand with the work of similar organizations overseas, shedding light on the ways in which they combine educational work with shelter settings

to prevent human trafficking, protect young people and attempt to provide a future free of exploitation. Concentrating less on the details of exploitation itself than the work that is being done to prevent exploitation and protect those who have experienced human trafficking, Preventing Human Trafficking explores the many challenges faced by the organizations, their staff and the children they serve. Drawing on rich qualitative research to address significant gaps in our knowledge of the work of

HM Government: Serious Organised Crime Strategy - Cm. 8715 - Great Britain: Home Office 2013-10-07

This is a new strategy to deal with the challenges we face from serious and organised crime. It is published to coincide with the launch of the new National Crime Agency (NCA) and reflects changes to the threats faced and the lessons learned from previous work. Organised crime includes drug trafficking, human trafficking, and organised illegal immigration, high value fraud and other financial crimes, counterfeiting, organised acquisitive crime and cyber crime. The aim of the strategy is to substantially reduce the level of serious and organised crime affecting the UK and its

interests. The strategy uses the framework developed for our counter-terrorist work and has four components: prosecuting and disrupting people engaged in serious and organised crime (Pursue); preventing people from engaging in this activity (Prevent); increasing protection against serious and organised crime (Protect); and reducing the impact of this criminality where it takes place (Prepare). The strategy lists strategic objectives under each of the four areas of work. Tactical operational objectives (e.g. priority crime groups) will be set by the NCA with law enforcement agency counterparts. Our immediate priority is the work set out under Pursue to prosecute and relentlessly disrupt organised criminals and reduce the threat they pose. Like other threats to our national security, serious and organised crime requires a response across the whole of government, and close collaboration with the public, the private sector and with many other countries

of the Undersecretary for Civilian Security, Democracy, and Human Rights 2017-08-18
The 2017 Trafficking in Persons Report highlights the successes achieved and the remaining challenges before us on this important issue. The primary focus is to showcase the responsibility of governments to criminalize human trafficking and hold offenders accountable. This year's report theme is increasing criminal accountability of human traffickers and addressing challenges in prosecution - an essential component of 3P-paradigm of prosecution, protection, and prevention. It provides an overview of the type of human trafficking offenses that are taking place around the world in violation of human rights. The text includes side bars of situational human trafficking experiences to allow the reader to understand the different types that occur throughout the world. High school students and above may find this report helpful for research and writing essays about human

rights and law enforcement of human trafficking. American citizens, policy analysts and decision-makers, law enforcement personnel, and human rights policy activists and advocates and world leaders may refer to this report as a reference on these crimes. training, and other resource allocations. The reports will also serve as a basis for the U.S. Government's cooperation with private groups to promote the observance of internationally-recognized human rights. The Country Reports on Human Rights Practices cover internationally-recognized civil, political and worker rights, as set forth in the Universal Declaration of Human Rights. These rights include freedom from torture or other cruel, inhuman or degrading treatment or punishment; from prolonged detention without charges; from disappearance or clandestine detention; and from other flagrant violations of the right to life, liberty and the security of the person.

Human Trafficking in Ohio - Jeremy M. Wilson
2007

Human trafficking has garnered a significant and growing amount of attention from the U.S. government since the 1990s, culminating in the passage of the federal Trafficking Victims Protection Act in 2000. There is also a growing

body of research on human trafficking, but most of it has focused on trying to show that human trafficking is a problem. Wilson and Dalton explore the extent and characteristics of concrete cases of human trafficking in Columbus and Toledo, Ohio, as well as the awareness of and response to the problem by the justice systems and social service provider communities in the two cities. The authors summarize their content analysis of newspaper accounts as well as key respondent interviews that they conducted with criminal justice officials and social service providers in each site. These identified several cases of juvenile sex trafficking and forced prostitution in Toledo, as well as a smaller trafficking market centered on the forced labor of noncitizens in Columbus. Wilson and Dalton compare the two cities' considerably different responses to human trafficking, and conclude with suggestions on how to raise awareness about human trafficking and improve the responses of the criminal

Combating Human Trafficking - United States. Congress. Senate. Committee on Homeland Security and Governmental Affairs 2014

The Trafficking of Persons - Kimberly A. McCabe 2008

Over 700,000 people are trafficked across international borders every year. Of those, the U.S. Department of State estimates that between 14,500 and 17,500 are trafficked into the United States. Today, the U.S. and other nations are beginning to recognize the magnitude of the problem and attempt to address the victimization caused by human trafficking. This book investigates the types of human trafficking, and discusses U.S. and international responses to combat and end all forms of this criminal activity. With discussion-provoking questions at the end of each chapter and specific examples of

trafficking activity, this book is appropriate for criminology courses, classes dedicated to victims and/or child abuse, and classes focused around the themes of international crime and international law.

Sex Trafficking - Siddharth Kara 2010

"Kara supplements his analysis with a riveting account of this unconscionable industry, sharing the moving stories of victims and revealing the shocking conditions of their exploitation. He concludes with a proposal for aggressive measures that target the essential business and economic functioning of the sex trafficking industry designed to provide a more effective global approach to abolishing these crimes against the world's most vulnerable and exploited persons."--Jacket.

Paths to the Prevention and Detection of Human Trafficking - Andrews, Sharon K. 2022-06-10

occurs, and the horrendous tolls it takes on individuals and society. However, further study on the latest innovative ideas, research, and real-world efforts towards the detection and prevention of human trafficking analysis as well consideration of the success or failure of the current approaches is required in order to understand the necessary future improvements and how to best achieve them. Paths to the Prevention and Detection of Human Trafficking presents innovative and potentially transformational concepts and research results that discuss current, or developing, approaches that address the identification, reporting, and prevention of human trafficking, including important identified enablers of trafficking. Covering a range of topics such as machine learning and child exploitation, this reference work is ideal for policymakers, government officials, hospital administrators, researchers, academicians, scholars, practitioners, instructors, and students.

Selling Sex Overseas - Ko-lin Chin 2012-09-17
2013 Outstanding Book Award Winner from the Division of International Criminology, American Society of Criminology Every year, thousands of Chinese women travel to Asia and the United States in order to engage in commercial sex work. In *Selling Sex Overseas*, Ko-lin Chin and James Finckenauer challenge the current sex trafficking paradigm that considers all sex workers as victims, or sexual slaves, and as unwilling participants in the world of commercial sex. Bringing to life an on-the-ground portrait of this usually hidden world, Chin and Finckenauer provide a detailed look at all of its participants: sex workers, pimps, agents, mommies, escort agency owners, brothel owners, and drivers. Ultimately, they probe the social, economic, and political organization of prostitution and sex trafficking, contradicting

many of the 'moral crusaders' of the human trafficking world.

Handbook of Research on Present and Future Paradigms in Human Trafficking - Essien, Essien D. 2022-05-20

Human trafficking is currently regarded as a contemporary form of slavery. However, despite many initiatives undertaken over the last two decades to tackle the problem, there seems to be a disproportionate emphasis on the social phenomenon. Trafficking in persons remains a little-explored area in scholarship with many inconsistencies and ambiguities yet to be attended to. Human trafficking is a multifaceted issue that requires a multidisciplinary approach that must be studied and considered thoroughly and with heavy regard to the many layers of the issue. The Handbook of Research on Present and Future Paradigms in Human Trafficking presents a comprehensible view of what constitutes the underpinning of human trafficking, the means of combating it, its moral implications, and offers

possible solutions toward curbing its excesses, inconsistencies, and ambiguities. Covering a range of topics such as social change, human rights, and ethics, this major reference work is ideal for researchers, scholars, practitioners, government officials, policymakers, instructors, academicians, and students.

Human Trafficking: A Global Health Emergency - Mary de Chesnay 2023-08-30

This book presents various forms of human trafficking, a growing trend in the exploitation of large numbers of people with concurrent public health, socio-cultural, and economic costs to countries burdened with the consequences of the COVID-19 pandemic. Edited by psychiatric-mental health nurses and an applied anthropologist, this volume covers all forms of human trafficking: sex trafficking, forced labor, forced marriage, baby trafficking, organ trafficking, child marriage, and child soldiers with a global public health and policy focus. As such, it fills a gap in human trafficking

knowledge and is built on courses springing up around the United States in multiple disciplines. Medical, mental health, and social work interventions are included as well as information about programs with documented outcomes. Each chapter includes state of the art of knowledge with case studies illustrating specific focal ideas, discussion, questions and exercises in order to help readers retain and reinforce chapter material. This textbook will be useful in the disciplines of nursing, medicine, public health, social work, and policy making, as well as in disciplines in which human trafficking is a current interest, such as law, criminal justice, and education.

*Migration, Prostitution and Human Trafficking
Chinese Migrant Women in Shenzhen, China* -
Min Liu 2010

China has gone through a wide-ranging transformation in the last three decades since the Chinese government initiated economic reform and an open-door policy. A series of reform strategies, while producing an economic miracle in China, has, however, resulted in myriad social problems. The resurgence and prevalence of prostitution is one of these. Rarely have there been any attempts to explore prostitution in relation to human trafficking. This study tries to explore questions such as whether Chinese women in the sex sector are victims of trafficking, what are the factors causing Chinese

women to get involved in prostitution or become victims of trafficking, how authorities respond to these issues in terms of laws and policies, and so on. This study was conducted in Shenzhen -- China's best known boomtown since the 1980's, where many sex establishments involving internal migrants have been set up. Guided by qualitative methodological approach, a total of sixty-four interviews were conducted: forty with women working in sex venues, nine with sex-ring operators, and fifteen with law enforcement officers. Eight field observations were also completed. Participants included women practicing prostitution in four types of sex venues: nightclubs and karaoke lounges; massage parlors; hair salons; and the street. A variety of factors relating to women's involvement in prostitution were discovered. Different paths to prostitution were identified and described. Six out of forty women were identified as trafficking victims. The organization and operation of sex venues and the

life of women on the "job" were examined. In addition, China's responses to the expanding sex industry were analyzed in terms of law and administrative regulations, as well as policies. The ineffectiveness of campaign-style policy and reasons for its failure to contain prostitution were also explored. While this study helps improve our knowledge and understanding of prostitution and sex trafficking in contemporary China and provides information for the Chinese authorities on the nature, magnitude, and gravity of these problems, some issues emanating from this study remain unanswered, such as the definition of terms such as exploitation, coercion, or forced work which are key elements in defining human trafficking. *Combating Human Trafficking* - Michael J. transported, and held by unlawful means—either through deception or under threat of violence. Approaching the topic from a law enforcement perspective, *Combating Human Trafficking: A Multidisciplinary Approach* provides an unprecedented look at the investigation of this phenomenon in America. Beginning with historical, sociological, and psychological perspectives, the book discusses how authorities can best conduct an investigation of trafficking. It reviews federal agencies responsible for confronting the problem, examines relevant laws and legal trends, and discusses law enforcement awareness and training. Individual chapters written by experts in law enforcement explore a host of topics, including: Border issues between Mexico and the U.S., including the trafficking of people, drugs, and firearms The role of the Internet in human trafficking Child victim recruitment into sex trafficking How sexually oriented businesses such as escort services, hostess bars, and massage parlors can be fronts

for sex trafficking The prevalence of human trafficking among street gangs Forced labor aspects, especially with respect to illegal immigrants How victims are chosen Theoretical, practical, and ethical considerations in providing effective services to victims An ideal resource for police investigators, police training, and community outreach organizations, the book is also suitable as a college text for criminal justice courses. It is hoped that the awareness created through this text will provide the knowledge and tools needed to help to end this form of modern-day slavery.
