**The Kama Sutra of Vatsyayana** Vatsyayana 2021-08-29 The Kama Sutra of Vatsyayana Vatsyayana - The Kama Sutra of Vatsyayana by Richard Francis Burton is an edition of the ancient Indian text on sexuality and emotional needs. Vatsyayana was an ancient Indian philosopher who lived during the second or third century. Although it is often thought of as a sex manual, it is much more, with guides on living well, the nature of love, and finding a partner. Indeed, Vatsyayana says himself: 'This work is not to be used merely as an instrument for satisfying our desires'. Burton did not in fact translate the Kama Sutra - it was translated by the Indian scholar Bhagwan Lal Indraji. It was edited by Burton to suit prevailing British attitudes to sex, but was still banned in England and the United States until 1962. Other criticisms levelled at Burton's translation is that instead of using English words for the sex organs, he uses the words 'lingam' and 'yoni', despite those words not appearing in the original work. This was seen as an attempt to distance them and make them 'other', rather than about English people's sexual organs. He also removes the agency of women, and where in the original, women's words are direct quotes, in the Burton translation, women's words are removed and put into the passive state (i.e., A woman saying 'Stop!' becomes 'She continually utters words expressive of prohibition'). Despite all this, it has been such an influential translation that even modern editions in the Hindi language are re-translations of the Burton version. The Kama Sutra is an ancient Indian Hindu text widely considered to be the standard work on human sexual behavior in Sanskrit literature written by Vaatsyayana. A portion of the work consists of practical advice on sexual intercourse. It is largely in prose, with many inserted anustubh poetry verses. "Kama" which is one of the four goals of Hindu life, means desire including sexual desire the latter being the subject of the textbook, and "sutra" literally means a thread or line that holds things together, and more metaphorically refers to an aphorism (or line, rule, formula), or a collection of such aphorisms in the form of a manual. Contrary to popular perception, especially in the western world, Kama sutra is not exclusively a sex manual; it presents itself as a guide to a virtuous and gracious living that discusses the nature of love, family life and other aspects pertaining to pleasure oriented faculties of human life.

Forbidden Sex, Forbidden Texts Hoshang Merchant 2020-11-29 The book argues that there is no monolithic homosexuality; there are only homosexualities, that is, there are as many reasons for being gay as there are gays. Some people are born gay, some have gayness thrust upon them, and some do, indeed, achieve to great gayness. Representation of homosexuality/homoeroticism, as it is understood today, is thus a western import. The act and public/social discourses on same-sex love are still illegal; it is, according to many, against the Indian 'tradition'; and a sense of 'history' is seriously problematic when we dig out for a past tradition of homoerotic love and desire. Hoshang Merchant, through an examination of texts, films, poetry, attempts to analyse and crack the codes of sexual (mis)conduct in contemporary India, giving short histories of the fate of several gay writers

and explaining the difficulties of 'coming out'.

*Bollyworld* Raminder Kaur 2005-07-13 Popular Indian Cinema is clearly a worldwide phenomenon. But what often gets overlooked in this celebration is this cinema's intricate relationship with global dynamics since its very inception in the 1890s. With contributions from a range of international scholars, this volume analyses the transnational networks of India's popular cinema in terms of its production, narratives and reception. The first section of the book, *Topographies*, concentrates on the globalised audio-visual economies within which the technologies and aesthetics of India's commercial cinema developed. Essays here focus on the iconic roles of actors like Devika Rani and Fearless Nadia, film-makers such as D G Phalke and Baburao Painter, the film *Sant Tukaram*, and aspects of early cinematography. The second section, *Trans-Actions*, argues that the 'national fantasy' of Indian commercial cinema is an unstable construction. Essays here concentrate on the conversations between Indian action movies of the 1970s and other genres of action and martial arts films; the features of post-liberalisation Indian films designed to meet the needs of an 'imagined' global audience in the 1990s; and the changing metaphor of 'the vamp' as portrayed through desirous women in films with examples of the Anglo-Asian, the westernized Indian woman of 'low character', and the contemporary figure of the 'heroine'. The final section, *Travels*, focuses on the overseas reception of Indian cinema with ethnographic case studies from Germany, Guyana, the USA, South Africa, Nigeria and Britain. The contributors highlight various issues concerning modernity, racial/ethnic identity, the gaze of the 'mainstream Other', gender, hybridity, moral universes, and the articulation of desire and disdain.

*The Sex Offenses and their Treatments* Victor T. Cheney 2004-10-01 This book is the only one that lists 115 crimes, offenses, deviances and 62 infamous criminals that can all be blamed on the sex urge and its underlying chemistry. The book also enumerates and briefly explains more than a hundred different treatments that have been used to treat these problems. The efficacy of these treatments has been found to vary greatly. Some of them have even proven to be counterproductive and the best is seldom used. This book is one of the very few available that dwell extensively with the powerful sex urge in its evil results: crime, disease, aggression, jealousy, lost spirituality, etc. in as much detail. Most that is written about sex deals with its good aspects: love, ecstasy, children, family, etc but we need the information in this book to come to the reality of the power of these urges for evil.

*Gender and Globalization in Asia and the Pacific* Kathy E. Ferguson 2008-08-01 What is globalization? How is it gendered? How does it work in Asia and the Pacific? The authors of the sixteen original and innovative essays presented here take fresh stock of globalization's complexities. They pursue critical feminist inquiry about women, gender, and sexualities and produce original insights into changing life patterns in Asian and Pacific Island societies. Each essay puts the lives and struggles of women at the center of its examination while weaving examples of global circuits in Asian and Pacific societies into a world frame of analysis. The work is generated from within Asian and Pacific spaces, bringing to the fore local voices and claims to knowledge. The geographic emphasis on Asia/Pacific highlights the complexity of globalizing practices among specific people whose dilemmas come alive on these pages. Although the book focuses on global, gendered flows, it expands its investigation to include the media and the arts, intellectual resources, activist agendas, and individual life stories. First-rate ethnographies and interviews reach beyond generalizations and bring Pacific and Asian women and men alive in their struggles against globalization. Globalization cannot be summed up in a neat political agenda but must be actively contested and creatively negotiated. Taking feminist political thinking beyond simple oppositions, the authors ask specific questions about how global practices work, how they come to be, who benefits, and what is at stake. The Limits of Sexuality Education Ketaki Chowkhani 2023-12-19 This book explores different strands of thinking about sexuality education in contemporary urban India. It interrogates the limits of sexuality education as we know it today by rethinking adolescent masculinities in middle-class urban India. This book contributes to the wide gap in theorising sexuality education and adolescent masculinities in urban India. It presents an adolescent perspective on sexuality education, looks at adolescent love from the school teachers' perspective, and tries to understand a teacher's negotiations with student romance. It unravels the sexual and romantic lives of adolescents and examines the circulation of sexual knowledge and sources of information on sex that adolescent boys in India have access to. This book uncovers the limits of sexuality education by examining State, feminist, Christian, and sexological materials on sexuality education in Mumbai and Delhi. Based on detailed research and narratives from teachers, young men, and women, the book explores adolescent male romance and its affective registers, adolescent male sexual knowledge, and the regulation of romance in school spaces. This book will be of interest to students and researchers of education, sexuality and gender studies, masculinity studies, sex education as well as those interested in education policy, education politics, educational research, and inclusion and special education. Located at the intersection of sexuality studies, education, masculinity studies, and cultural studies, it will also appeal to those working in sexuality education in urban India within the complex web of the middle classes, consumerism, post-feminism, romance, adolescent masculinities, and cinema.

Waggish Coquetry in South Asian Street Communication Ali R. Fatihi 2019-11-13 Waggish Coquetry in South Asian Street Communication critically examines the role of coquettish remarks in urban life of South Asia, in the context of the sociology and linguistics of South Asian street communication. Ali R. Fatihi explores the design and structure of coquetry, and in so doing sheds light on the role of gendered street communication as a type of sexual harassment. Fatihi takes up the semiology of the street, focusing on the street as the locus of communication and its meaning in the community. The book also describes the role of metaphors in coquettish remarks, placing them in the context of the anthropology and sociology of streets, and male behavior therein.

*Moving in the Shadows* Liz Kelly 2016-04-15 In the UK the number of people who came from a minority ethnic group grew by 53 per cent between 1991 and 2001, from 3.0 million in 1991 to 4.6 million in 2001. Whilst much has been written about the impact of these demographic changes in relation to policy issues, black and minority women and children remain under-researched. Recent publications have tended to focus on South Asian women, forced marriage and 'honour' related violence. *Moving in the Shadows* brings together for the first time in a single volume, an examination of violence against women and children within the diverse communities of the UK. Its strength lies in its gendered focus as well as its understanding of the need for an integrated approach to all forms of violence against women, whilst foregrounding the experiences of minority women, the communities they are part of, and the organizations which have advocated for their rights and given them voice. The chapters contained within this volume explore a set of core themes: the forms and contexts of violence minority women experience; the continuum of violence; the role of culture and faith in the control of women and girls; the types of intervention within multi-cultural and social cohesion policies; the impacts of violence on British-born and migrant women and girls; and the intersection of race, class, gender and sexuality highlighting issues of similarity and difference. Taken together, they provide a valuable resource for scholars, students, activists, social workers and policy-makers working in the field.

*Kamasutra* Vātsyāyana 2002 The *Kamasutra* is the oldest extant Hindu textbook of erotic love. It is about the art of living - about finding a partner, maintaining power in a marriage, committing adultery, living as or with a courtesan, using drugs - and also about the positions in sexual intercourse. It was composed in Sanskrit, the literary language of ancient India, sometime in the third century of the common era, probably in North India. It combines an encyclopedic coverage of all imaginable aspects of sex with a closely observed sexual psychology and a dramatic, novelistic narrative of seduction, consummation, and disentanglement. Best known in English through the highly mannered, padded, and inaccurate nineteenth-century translation of Sir Richard Burton, the text is presented here in an entirely new translation into clear, vivid, sexually frank English, together with three commentaries: translated excerpts from the earliest and most famous Sanskrit commentary (13th century) and from a twentieth-century Hindi commentary, and explanatory notes by the two translators. The lively and entertaining introduction by Wendy Doniger discusses the history of the text and its reception in India and Europe, analyses its attitudes toward gender and sexual violence, and sets it in the context of ancient Indian social theory, scientific method, and sexual ethics.

*Men Who Sell Sex* Peter Aggleton 2006-12-05 *Men Who Sell Sex* is the first comprehensive international account of male prostitution and AIDS. While much is known about female prostitution and sex work, relatively little is known about men who sell sex - either to women or other men. This book brings together an authoritative collection of essays from different countries and examines sexual behaviour, the reasons men sell sex, the

meanings involved, and implications for HIV prevention. The authors are all experts in their fields and individual chapters offer a compelling description of the reasons men sell sex and the pleasures and risks involved.

**Same-Sex Desire in Indian Culture** Oliver Ross 2016-04-08 This book explores representations of same-sex desire in Indian literature and film from the 1970s to the present. Through a detailed analysis of poetry and prose by authors like Vikram Seth, Kamala Das, and Neel Mukherjee, and films from Bollywood and beyond, including Onir's *My Brother Nikhil* and Deepa Mehta's *Fire*, Oliver Ross argues that an initially Euro-American "homosexuality" with its connotations of an essential psychosexual orientation, is reinvented as it overlaps with different elements of Indian culture. Dismantling the popular belief that vocal gay and lesbian politics exist in contradistinction to a sexually "conservative" India, this book locates numerous alternative practices and identities of same-sex desire in Indian history and modernity. Indeed, many of these survived British colonialism, with its importation of ideas of sexual pathology and perversity, in changed or codified forms, and they are often inflected by gay and lesbian identities in the present. In this account, Oliver Ross challenges the preconception that, in the contemporary world, a grand narrative of sexuality circulates globally and erases all pre-existing narratives and embodiments of sexual desire.

'Bad' Women of Bombay Films Saswati Sengupta 2019-12-06 This book presents a feminist mapping of the articulation and suppression of female desire in Hindi films, which comprise one of modern India's most popular cultural narratives. It explores the lineament of evil and the corresponding closure of chastisement or domesticity that appear as necessary conditions for the representation of subversive female desire. The term 'bad' is used heuristically, and not as a moral or essential category, to examine some of the iconic disruptive women of Hindi cinema and to uncover the nexus between patriarchy and other hierarchies, such as class, caste and religion in these representations. The twenty-one essays examine the politics of female desire/s from the 1930s to the present day - both through in-depth analyses of single films and by tracing the typologies in multiple films. The essays are divided into five sections indicating the various gendered desires and rebellions that patriarchal society seeks to police, silence and domesticate.

**Handbook on Sexual Violence** Jennifer M. Brown 2011-10-19 This book contextualizes the complexity of sexual violence within its broader context - from war to the resolution of interpersonal disputes - and covers a wide span including sexual harassment, bullying, rape and murder as well as domestic violence. Written by leading academics from a variety of disciplines, contributions also include commentaries that relate the research to the work of practitioners. Despite advances made in the investigation of sexual offences, evidence still points to a continued belief in the culpability of victims in their own victimization and a gap between the estimated incidence of sexual violence and the conviction of perpetrators. Adopting an implicitly and explicitly critical stance to contemporary policy responses that continue to fail in addressing this problem, this book focuses on attitudes and behaviour towards sexual violence from the point of view of the individual experiencing the violence - perpetrator and victim - and situates them within a broader societal frame. It is through an understanding of social processes and psychological mechanisms that underpin sexual violence that violence can be combated and harm reduced, and at this individual level that evidence-based interventions can be designed to change policy and practice. The Handbook is split into four sections: 'Legacies: Setting the Scene' offers a critical overview of historical, legal and cultural processes which help to explain the origins of current thinking and offer steers for future developments 'Theories and Concepts' examines contemporary thinking on sexual violence and reviews explanatory frameworks from a number of perspectives 'Acts of Sexual Violence' reviews a number of specific types of sexual violence, elaborating the range of circumstances, victims and perpetrators with a view to addressing the general

and pervasive nature of such violence thus contradicting narrow cultural stereotyping 'Responding to Sexual Violence' overviews and evaluates current policies and practices and offers new ideas to develop different types of interventions. The editors' conclusion not only draws out the key themes and ideas from contributions to the Handbook, but also considers the nature of and the extent to which any progress has been made in understanding and responding to sexual violence. This will be a key text for students and academics studying sexual violence and an essential reference tool for professionals working in the field including police officers, probation staff, lawyers and judges.

*Sex in Development* Vincanne Adams 2005-04-12 *Sex in Development* examines how development projects around the world intended to promote population management, disease prevention, and maternal and child health intentionally and unintentionally shape ideas about what constitutes "normal" sexual practices and identities. From sex education in Uganda to aids prevention in India to family planning in Greece, various sites of development work related to sex, sexuality, and reproduction are examined in the rich, ethnographically grounded essays in this volume. These essays demonstrate that ideas related to morality are repeatedly enacted in ostensibly value-neutral efforts to put into practice a "global" agenda reflecting the latest medical science. *Sex in Development* combines the cultural analysis of sexuality, critiques of global development, and science and technology studies. Whether considering the resistance encountered by representatives of an American pharmaceutical company attempting to teach Russian doctors a "value free" way to offer patients birth control or the tension between Tibetan Buddhist ideas of fertility and the modernization schemes of the Chinese government, these essays show that attempts to make sex a universal moral object to be managed and controlled leave a host of moral ambiguities in their wake as they are engaged, resisted, and reinvented in different ways throughout the world. Contributors. Vincanne Adams, Leslie Butt, Lawrence Cohen, Heather Dell, Vinh-Kim Nguyen, Shanti Parikh, Heather Paxson, Stacy Leigh Pigg, Michele Rivkin-Fish

*Cosmopolitan Sexuality* Ahonaa Roy 2022-10-31 "In a historic verdict, the Supreme Court of India in September 2018, struck down Section 377 of the Indian Penal Code and decriminalized homosexuality and granted personal rights and freedom to the LGBTQIA community at large. However, in December 2018, the Transgender Persons Bill was passed in the Lok Sabha (the People's House and lower house of Indian Parliament) that has negated and undermined the rights of the trans community in India. The Bill omits the reference to a 'neither male nor female' formulation, and covers any person whose gender does not match the gender assigned at birth, as well as transmen, transwomen, those with intersex variations, the gender-queer, and those who designate themselves based on socio-cultural identities such as hijra, aravani, kinner and jogta. This book articulates the ethnographic and anthropological studies of hijras (eunuchs) and the popular transgender culture in India through the case study of contemporary Mumbai. It studies how their identity is shaped through consumption of various practices of beauty and takes into account the direct provincial dialogues as to how the hijras negotiate different spaces of surgeries, clinics and medicine to shape their new forms of identity. It highlights how globalizing modernity would build a concrete understanding of the way local patterns of transgender sexuality and eroticism are shaped by this sort of culture. It attempts to build a more robust and complex understanding of sexual experiences among these subjects in the locale, thus projecting the intersection of local meanings of transgender eroticism that intersect global patterns of similar identities with their desire and sexuality. The local specificity of the hijra sexual economy relates to global transgender practices, thus proposing a nuanced discourse of space, culture and sexuality to the local context of the globalized and modernized India, instead of the articulation of global homogeneity of transgender identities"--

*Gay and Lesbian Asia* Gerard Sullivan 2013-09-13 How do Asian cultures construct queer genders, sexualities, and eroticism? *Gay and Lesbian Asia* demonstrates the astonishing diversity of gay, lesbian, bisexual, and transgendered identities in countries including Korea, Thailand, Malaysia, China, India, Indonesia, Singapore, and the Philippines. Although many Asian cultures borrow the language of the West when discussing queerness, the attitudes, relationships, and roles described are quite different. *Gay and Lesbian Asia* discusses cultural issues as well as the unique political position of gays in Asian societies. For example, the Thai concept of phet--eroticized gender--is quite different from the Western view that classifies people by the sex of the partners they desire, not by their level of masculine or feminine traits. Similarly, some gay and lesbian Chinese people "come home" rather than "come out." By bringing their partners into the extended family, they can maintain the filial relationships that define them while being able to love whom they choose. The essays in *Gay and Lesbian Asia* cover a broad range of approaches and subjects: globalization theory exploring the political and cultural ramifications of the Western gay identity movement Foucauldian discourse on sexuality and sharply distinct erotic cultures political and cultural analyses of gay and lesbian comradeship and filial relationships in Chinese societies research on the "T" and "po" lesbians (similar to butch and femme) in Malaysian bars the formation of gay cybercommunities in Asia the effects of class distinctions on Jakarta lesbians studies of local historical forms of homoeroticism and transgenderism *Gay and Lesbian Asia* continues Haworth's landmark series of books on gay and lesbian issues in Asia and Australia. Along with *Tongzhi: Politics of Same-Sex Eroticism in Chinese Societies*; *Queer Asian Cinema*; *Multicultural Queer: Australian Narratives*; *Gays and Lesbians in Asia and the Pacific*; and *Lady Boys, Tom Boys, Rent Boys: Male and Female Homosexualities in Contemporary Thailand*, this book presents some of the most original, powerful current thought available on cultural, political, sexual, and gender issues for queer subcultures within Asian cultures.

*Mapping Scientific Method* Gita Chadha 2022-07-19 This volume explores how the scientific method enters and determines the dominant methodologies of various modern academic disciplines. It highlights the ways in which practitioners from different disciplinary backgrounds -- the humanities, the natural sciences, and the social sciences -- engage with the scientific method in their own disciplines. The book maps the discourse (within each of the disciplines) that critiques the scientific method, from different social locations, in order to argue for more complex and nuanced approaches in methodology. It also investigates the connections between the method and the structures of power and domination which exist within these disciplines. In the process, it offers a new way of thinking about the philosophy of the scientific method. Part of the Science and Technology Studies series, this volume is the first of its kind in the South Asian context to debate scientific methods and address questions by scholars based in the global south. It will be useful to students and practitioners of science, humanities, social sciences, philosophy of science, and philosophy of social science. Research scholars from these disciplines, especially those engaging in interdisciplinary research, will also benefit from this volume.

**Global Perspectives on Prostitution and Sex Trafficking** Dalla 2011-04-01 This book is part of a two-volume set that examines prostitution and sex trafficking on a global scale, with each chapter devoted to a particular country in one of seven geo-cultural areas of the world. Each of the chapters provides a distinct perspective from which to contemplate the global commercial sex industry as well as a spectrum of implications for continued scholarship and research, legislative maneuvers and policy change, and suggestions for collaboration across NGOs, clinicians, and service providers.

*The East, the West, and Sex* Richard Bernstein 2009-06-02 In this wide-ranging history, Richard Bernstein explores the connection between sex and power as it has played out between Eastern cultures and the Western explorers, merchants, and conquerors who have visited them. This illuminating book describes the historical and ongoing encounter between these travelers and the morally ambiguous opportunities they found in foreign lands. Bernstein's narrative teems with real figures, from Marco Polo and his investigation into the harem of Kublai Khan; the nineteenth-century American missionary Isabella Thoburn and her efforts to stamp out the "sinfulness" of the Mughal culture of India; Gustave Flaubert and his dalliances with Egyptian prostitutes; to modern-day sex tourists in Southeast Asia, as well as the women that they both exploit and enrich. Provocative and insightful, *The East, The West, and Sex* is a lucid look at a pervasive and yet mostly ignored subject.

**Bisexualities and AIDS** Peter Aggleton 2020-08-11 Since early-on in the epidemic, there has been much interest in the role that bisexual behaviour among men may play in HIV transmission. This text reviews from an international perspective what has been learned about male bisexuality in countries as diverse as Peru and Britain. Its authors examine the forms that bisexuality takes in different cultures, what it means to the men concerned, and whether or not such behaviour poses special risks. The implications of such enquiry for HIV prevention efforts are also examined.

**The Pink Line** Mark Gevisser 2020-07-02 Guardian's Best Paperback of the Month ONE OF THE GUARDIAN'S and FINANCIAL TIMES' BOOKS OF 2020 'In intimate, often tender prose, Gevisser brings to life the complex movement for queer civil rights and the many people on whom it bears.' Colm Toibin, Guardian 'Powerful... meticulously researched' Andrew McMillan, Observer Book of the Week Six years in the making, *The Pink Line* follows protagonists from nine countries all over the globe to tell the story of how LGBTQ+ Rights became one of the world's new human rights frontiers in the second decade of the twenty-first century. From refugees in South Africa to activists in Egypt, transgender women in Russia and transitioning teens in the American Mid-West, *The Pink Line* folds intimate and deeply affecting stories of individuals, families and communities into a definitive account of how the world has changed, so dramatically, in just a decade. And in doing so he reveals a troubling new equation that has come in to play: while same-sex marriage and gender transition are now celebrated in some parts of the world, laws to criminalise homosexuality and gender non-conformity have been strengthened in others. In a work of great scope and wonderful storytelling, this is the groundbreaking, definitive account of how issues of sexuality and gender identity divide and unite the world today.

**With Respect to Sex** Gayatri Reddy 2010-05-15 *With Respect to Sex* is an intimate ethnography that offers a provocative account of sexual and social difference in India. The subjects of this study are hijras or the "third sex" of India—individuals who occupy a unique, liminal space between male and female, sacred and profane. Hijras are men who sacrifice their genitalia to a goddess in return for the power to confer fertility on newlyweds and newborn children, a ritual role they are respected for, at the same time as they are stigmatized for their ambiguous sexuality. By focusing on the hijra community, Gayatri Reddy sheds new light on Indian society and the intricate negotiations of identity across various domains of everyday life. Further, by reframing hijra identity through the local economy of respect, this ethnography highlights the complex relationships among local and global, sexual and moral, economies. This book will be regarded as the definitive work on hijras, one that will be of enormous interest to

anthropologists, students of South Asian culture, and specialists in the study of gender and sexuality.

**Gender, Power and Knowledge for Development** Lata Narayanaswamy 2016-12-08 Knowledge-for-development is under-theorised and under-researched within development studies, but as a set of policy objectives it is thriving within development practice. Donors and other agencies are striving to improve the flow of information within and between decision-makers and so-called 'poor and marginalized groups' in order to promote economic and social development, including the empowerment of women. Gender, Power and Knowledge for Development questions the assumptions and practice of the knowledge-for-development industry. Using a qualitative, multi-site ethnographical study of a Northern-based gender information service and its 'beneficiaries' in India, the book queries the utility of the knowledge paradigm itself and the underlying assumption that a knowledge deficit exists in the Global South. It questions the value of practices designed to address this presumed deficit that seek to increase information without addressing the specific problems of the knowledge systems being targeted for support. After reviewing the evidence, the book recommends that international organisations, governments and practitioners move away from the belief that information intermediaries can employ progressive correctives to 'tinker at the edges' and thus resolve the shortcomings of on-going attempts to use knowledge alone as a driver of development. Gender, Power and Knowledge for Development will be of great interest to researchers, students in development studies, gender studies, and communication studies as well as INGOs, donor agencies and groups engaged in information for development (i4D), ICT for development (ICT4D), Tech4Dev, knowledge mobilization and knowledge-for-development (K4D).

**Language Ideologies and the Vernacular in Colonial and Postcolonial South Asia** Nishat Zaidi 2023-09-29 This volume critically engages with recent formulations and debates regarding the status of the regional languages of the Indian subcontinent vis-à-vis English. It explores how language ideologies of the "vernacular" are positioned in relation to the language ideologies of English in South Asia. The book probes into how we might move beyond the English-vernacular binary in India, explores what happened to "bhasha literatures" during the colonial and post-colonial periods and how to position those literatures by the side of Indian English and international literature. It looks into the ways vernacular community and political rhetoric are intertwined with Anglophone (national or global) positionalities and their roles in political processes. This book will be of interest to researchers, students and scholars of literary and cultural studies, Indian Writing in English, Indian literatures, South Asian languages and popular culture.
