Here comes Charles White's sensational book exposing the even more astonishing life and times of Richard Wayne Penniman from Macon, Georgia. Movie Freak Owen Gleiberman 2016-02-23 Entertainment Weekly's controversial critic of more than two decades looks back at a life told through the films he loved and loathed. Owen Gleiberman has spent his life watching movies--first at the drive-in, where his parents took him to see wildly inappropriate adult fare like Rosemary's Baby when he was a wide-eyed 9 year old, then as a possessed cinemaniac who became a film critic right out of college. In Movie Freak, his enthrallingly candid, funny, and eye-opening memoir, Gleiberman captures what it's like to live life through the movies, existing in thrall to a virtual reality that becomes, over time, more real than reality itself. Gleiberman paints a bittersweet portrait of his complicated and ultimately doomed friendship with Pauline Kael, the legendary New Yorker film critic who was his mentor and muse. He also offers an unprecedented inside look at what the experience of being a critic is really all about, detailing his stint at The Boston Phoenix and then, starting in 1990, at EW, where he becomes a voice of obsession battling-to a fault-to cling to his independence. Gleiberman explores the movies that shaped him, from the films that first made him want to be a critic (Nashville and Carrie), to what he hails as the sublime dark trilogy of the 1980s (Blue Velvet, Sid and Nancy, and Manhunter), to the scruffy humanity of Dazed and Confused, to the brilliant madness of Natural Born Killers, to the transcendence of Breaking the Waves, to the pop rapture of Moulin Rouge! He explores his partnership with Lisa Schwarzbaum and his friendships and encounters with such figures as Oliver Stone, Russell Crowe, Richard Linklater, and Ben Affleck. He also writes with confessional intimacy about his romantic relationships and how they echoed the behavior of his bullying, philandering father. And he talks about what film criticism is becoming in the digital age: a cacophony of voices threatened by an insidious new kind of groupthink. Ultimately, Movie Freak is about the primal pleasure of film and the enigmatic dynamic between critic and screen. For Gleiberman, the moving image has a talismanic power, but it also represents a kind of sweet sickness, a magnificent obsession that both consumes and propels him.

Why We Suck Denis Leary 2008-11-18 The New York Times bestseller One of America's most original and biting comic satirists, Denis Leary takes on all the poseurs, politicians, and pop culture icons who have sucked in public for far too long. Sparing no one, Leary zeroes in on the ridiculous wherever he finds it--his Irish Catholic upbringing, the folly of celebrity, the pressures of family life, and the great hypocrisy of politics--with the same bright, savage, and profane insight he brought to his critically acclaimed one-man shows No Cure for CancerLock 'n Load. Proudly Irish-American, defiantly working class, with a reserve of compassion for the underdog and the overlooked, Leary delivers blistering diatribes that are both penetrating social commentary with no holds barred and laugh-out-loud funny. As always, Leary's impassioned comic perspective in Why We Suck is right on target. Leary is the star and co-creator of the Emmy-nominated television show Rescue Me.

1968 Mark Kurlansky 2005 It was the year of sex and drugs and rock and roll; it was also the year of the Martin Luther King and Bobby Kennedy assassinations, the Prague Spring, the Chicago convention, the Tet offensive in Vietnam and the anti-war movement, the student rebellion t

Gear Acquisition Syndrome Jan-Peter Herbst 2021-04-19 Gear Acquisition Syndrome, also known as GAS, is commonly understood as the musicians unrelenting urge to buy and own instruments and equipment as an anticipated catalyst of creative energy and bringer of happiness. For many musicians, it involves the unavoidable compulsion to spend money one does not have on gear perhaps not even needed. The urge is directed by the belief that acquiring another instrument will make one a better player. This book pioneers research into the complex phenomenon named GAS from a variety of disciplines, including popular music studies and music technology, cultural and leisure studies, consumption research, sociology, psychology and psychiatry. The newly created theoretical framework and empirical studies of online communities and offline music stores allow the study to consider musical, social and personal motives, which influence the way musicians think about and deal with equipment. As is shown, GAS encompasses a variety of practices and psychological processes. In an often life-long endeavour, upgrading the rig is accompanied by musical learning processes in popular music.

Comix Dez Skinn 2004-04-29 While mainstream schoolboy comics have always graced the shelves of Western newsagents, there has also been an underground comics scene bubbling beneath the surface. The comix of the title emerged in 1960s America as a reaction to ultra-conservative and patriotic comics produced by the large corporations that featured characters such as Captain America and Superman. Bored with superheroes, many artists such as Robert Crumb and Gilbert Shelton produced their own pamphlets with a new and revolutionary style, freely attacking politicians, the war in Vietnam and corporate America. They found their first dedicated audience in the Flower Power generation, and having suffered badly as a result of punk, disco and big business in the 1970s, a new breed of comix has, in recent years, begun to rise from the ashes. 'Comix:

The Underground Revolution' is an homage both to the motivation and the talent of the artists working then and now in the genre. Beautifully illustrated throughout with original artworks, the book graphically expresses a range of attitudes from drugs, rock 'n' roll and sex to politics, big business and women's liberation. It also features key events in the history of comix and potted biographies of the main creators.

Crowd Design Florian Alexander Schmidt 2017-07-24 The digital revolution is interwoven with the promise to empower the user. Yet, the rise of centralized, commercial platforms for crowdsourced work questions the validity of this narrative. In Crowd-Design, Florian Alexander Schmidt analyses the workings and the rhetoric of crowdsourced work platforms by comparing the way they address the masses today with historic notions of the crowd. The utopian concepts of early online collaboration are taken as a vantage point from which to view and critique current and, at times, dystopian applications of crowdsourced work. The study is focused on the crowdsourcing of design tasks, but these specific applications are used to examine the design of the more general mechanisms employed by the platform providers to motivate and control the crowds. Crowd-Design is as much about the crowdsourcing of design as it is about the design of crowdsourcing.

Cartea rasului si a cercetarii Radu Paraschivescu 2018-02-12 Un pahar de vin roșu echivalează cu o oră de sport. Peste câțiva ani oamenii vor atinge nemurirea. Ingerarea prafului de zeolit te scapă de cancer. Consumul de ciocolată te face să slăbești și îți scade glicemia. Bărbații care se uită la săni frumoși zece minute pe zi își prelungesc viața cu cinci ani. Bondarii pot învăța să marcheze goluri. Apa sfințită din Austria conține materii fecale. Tatuajele ajută organismul să lupte mai bine împotriva anumitor boli. Femeile cu fundul mare sunt mai sănătoase și mai inteligente decât celelalte. Mâncarea e mai sănătoasă dacă e fotografiată înainte de consum. Puii de găină au mai multă minte decât copiii. Bărbații care poartă cămăși roz câștigă mai mult decât ceilalți. Îmbrățișările vindecă răceala și gripa. Toate aceste bazaconii sunt concluzii ale unor așa-zise studii și cercetări din Anglia și România, din Suedia și Statele Unite, din Germania și Australia. Asta arată că delirul pseudoștiințific nu are granițe și că naivitatea e speculată la fel de bine în orice colț al lumii. În concertul imposturii mondiale, România are un loc bine stabilit și greu de contestat. Radu Paraschivescu pune față în față șarlatania românească și omoloagele ei din alte țări și de pe alte continente. E greu să stabilești, la finalul lecturii, cine merită Marele Premiu al neghiobiei. E la fel de greu, pe parcursul ei, să-ți stăpânești răsul. Și nu uitați: fiecare carte vă prelungeste viața cu durata citirii ei.

The Case for Marriage Linda Waite 2002-03-05 A groundbreaking look at marriage, one of the most basic and universal of all human institutions, which reveals the emotional, physical, economic, and sexual benefits that marriage brings to individuals and society as a whole. The Case for Marriage is a critically important intervention in the national debate about the future of family. Based on the authoritative research of family sociologist Linda J. Waite, journalist Maggie Gallagher, and a number of other scholars, this book's findings dramatically contradict the anti-marriage myths that have become the common sense of most Americans. Today a broad consensus holds that marriage is a bad deal for women, that divorce is better for children when parents are unhappy, and that marriage is essentially a private choice, not a public institution. Waite and Gallagher flatly contradict these assumptions, arguing instead that by a broad range of indices, marriage is actually better for you than being single or divorced- physically, materially, and spiritually. They contend that married people live longer, have better health, earn more money, accumulate more wealth, feel more fulfillment in their lives, enjoy more satisfying sexual relationships, and have happier and more successful children

than those who remain single, cohabit, or get divorced. The Case for Marriage combines clearheaded analysis, penetrating cultural criticism, and practical advice for strengthening the institution of marriage, and provides clear, essential guidelines for reestablishing marriage as the foundation for a healthy and happy society. "A compelling defense of a sacred union. The Case for Marriage is well written and well argued, empirically rigorous and learned, practical and commonsensical." -- William J. Bennett, author of The Book of Virtues "Makes the absolutely critical point that marriage has been misrepresented and misunderstood." -- The Wall Street Journal www.broadwaybooks.com

Entertainment-Education Behind the Scenes Lauren B. Frank 2021 This Open Access book tracks the latest trends in the theory, research, and practice of entertainment-education, the field of communication that incorporates social change messaging into entertaining media. Sometimes called edutainment, social impact television, narrative persuasion, or cultural strategy, this approach to social and behavior change communication offers new opportunities including transmedia and digital formats. However, making media can be a chaotic process. The realities of working in the field and the rigid structures of scholarly evaluation often act as barriers to honest accounts of entertainment-education practice. In this collection of essays, experienced practitioners offer unique insight into how entertainment-education works and present a balanced view of its potential pitfalls. This book gives readers an opportunity to learn from the successes and mistakes of the experts, taking a behind-the-scenes look at the business of making entertainment-education media.

Marihuana E.L. Abel 2013-06-29 Of all the plants men have ever grown, none has been praised and denounced as often as marihuana (*Cannabis sativa*). Throughout the ages, marihuana has been extolled as one of man's greatest benefactors and cursed as one of his greatest scourges. Marihuana is undoubtedly a herb that has been many things to many people. Armies and navies have used it to make war, men and women to make love. Hunters and fishermen have snared the most ferocious creatures, from the tiger to the shark, in its herculean weave. Fashion designers have dressed the most elegant women in its supple knit. Hangmen have snapped the necks of thieves and murderers with its fiber. Obstetricians have eased the pain of childbirth with its leaves. Farmers have crushed its seeds and used the oil within to light their lamps. Mourners have thrown its seeds into blazing fires and have had their sorrow transformed into blissful ecstasy by the fumes that filled the air. Marihuana has been known by many names: hemp, hashish, dagga, bhang, loco weed, grass—the list is endless. Formally christened *Cannabis sativa* in 1753 by Carl Linnaeus, marihuana is one of nature's hardiest specimens. It needs little care to thrive. One need not talk to it, sing to it, or play soothing tranquil Brahms lullabies to coax it to grow. It is as vigorous as a weed. It is ubiquitous. It flourishes under nearly every possible climatic condition.

Why We Don't Suck Denis Leary 2018-09-18 From the author of the bestselling *Why We Suck* comes a searing comic look at these divisive times, skewering liberals and conservatives alike with a signature dose of sarcasm and common sense. In an America so gluten-free that a box of jelly donuts is now a bigger threat than Vladimir Putin, where college kids are more afraid of Ann Coulter than HIV, it's time for someone to stand up and make us all smell the covfefe. Dr. Denis Leary is that guy. With *Why We DON'T Suck: And How All of Us Need to Stop Being Such Partisan Little Bitches*, Denis is on a devoted mission to #MakeAmericaLaughAgain. Using the clamorous political atmosphere as a starting point, he takes a bipartisan look at the topics we all hold so dear to our patriotic hearts—including family, freedom, and the seemingly endless search for fame and diet vodka. Denis will answer important questions like: When will Hillary blame herself? Why does Beyoncé think he's Bryan Adams? And why doesn't he follow the millennial lead and post pictures of his food on social media? (Spoiler alert: He's too busy actually eating it.) Not that Denis has anything against millennials: "When it comes to science, math, and technological advances, this generation has done more in three and a half decades than any other age group in history. What did my generation do? Cocaine and quaaludes mostly. With a side order of really stupid haircuts." Dr. Leary is here to remind us of what truly makes America great, even though we're #7 on the most recent list of Best Countries to Live In. Which may sound bad but means we still make the playoffs.

High Priest Timothy Leary 2012-01-15 Timothy Leary, the visionary Harvard psychologist who became a guru of the 1960s counterculture, reentered as an icon of new edge cyberpunks. HIGH PRIEST chronicles 16 psychedelic trips taken in the days before LSD was made illegal. The trip guides or "High Priests" include Aldous Huxley, Gordon Wasson, William S. Burroughs, Godsdog, Allen Ginsberg, Ram Dass, Ralph Metzner, Willy (a junkie from New York City), Huston Smith, Frank Barron, and others. The scene was Millbrook, a mansion in Upstate New York, that was the Mecca of Psychedellia during the 1960s, and of the many luminaries of the period who made a pilgrimage there to trip with Leary and his group, The League for Spiritual Discovery. Each chapter includes an I-Ching reading, a chronicle of what happened during the trip, marginalia of comments, quotations, and illustrations. A fascinating window into an era. This edition includes a Foreword by Allen Ginsberg, an introduction by Timothy Leary about the intergenerational counterculture, and illustrations by Howard Hallis.

Madrone Jack B. Rochester 2014-06-06 The year is 1969. After an interminable four years under the boot of the US military, twenty-four-year-old Nathaniel Hawthorne Flowers is ready for his real life to begin. His plans are straightforward: spend as much time as he can with his girlfriend, Jane, finish college, and become a writer. But when Nate is denied admission to UC Santa Cruz, he decides that a bachelor's degree isn't necessarily the path he's laid out for himself. He can learn about literature on his own, and he'll have more time to write if he isn't in school. His choice doesn't sit well with everybody. Jane's father asks Nate how he'll support Jane without a degree. Jane's mentor offers to pull some strings at SC if Nate agrees to become his student.
