Rise of the Videogame Zinesters Anna Anthropy 2012-03-20

"Anna Anthropy is a key personality in the ongoing paradigm shift that is slowly changing the way videogames are understood, by creators and players, and by the wider culture." —Patrick Alexander, Eegra.com "Equal parts autobiography, ethnography, and how-to manual, this book concisely makes the case for the unique power of 'zinester' games." —Adam Parrish, NYU's Interactive Telecommunication Program (Tisch School of the Arts), and author of the ZZT game "Winter" "These days, everybody can make and distribute a photograph, or a video, or a

book. Rise of the Videogame Zinesters shows you that everyone can make a videogame, too. But why should they? For Anna Anthropy, it's not for fame or for profit, but for the strange, aimless beauty of personal creativity." —Ian Bogost, Director, Graduate Program in Digital Media, Georgia Institute of Technology "Rise is a great guidebook to understanding—and more importantly, participating in—this dynamically evolving culture." —Jim Munroe, co-founder of the Hand Eye Society and the Difference Engine Initiative "Here, Anna Anthropy demonstrates how people from every background and walk of life are breaking free of the commercial cowardice of major publishers, and bringing their individual visions of the game to life. . . . If game design is to be an art, as those of us who love games fervently hope, it must be rescued from its crushing commercial pressures. You can be a part of its future." —Greg Costikyan, author of I Have No Mouth and I Must Design "Anna gives the world of video games a crucial perspective from her seat of authority within outsider culture, and illustrates how essential it is for the space to empower voices of all kinds if it is to evolve." —Leigh Alexander, editor-at-large of Gamasutra

[Social Media Entertainment](#) David Craig 2019-02-26 How the transformation of social media platforms and user-experience have redefined the entertainment industry In a little over a decade, competing social media platforms, including YouTube, Facebook, Twitter, Instagram, and Snapchat, have given rise to a new creative industry: social media entertainment. Operating at the intersection of the entertainment and interactivity, communication and content industries, social media entertainment creators have harnessed these platforms to generate new kinds of content separate from the century-long model of intellectual property control in the traditional entertainment industry. Social media entertainment has expanded rapidly and the traditional entertainment industry has been forced to cede significant power and influence to content creators, their fans, and subscribers. Digital platforms have created a natural market for embedded advertising, changing the worlds of marketing and communication in their wake. Combined, these factors have produced new, radically shifting demands on

Creator Culture Stuart Cunningham 2021-06-22 Explores new perspectives on social media entertainment There is a new class of cultural producers—YouTube vloggers, Twitch gameplayers, Instagram influencers, TikTokers, Chinese wanghong, and others—who are part of a rapidly emerging and highly disruptive industry of monetized “user-generated” content. As this new wave of native social media entrepreneurs emerge, so do new formations of culture and the ways they are studied. In this volume, contributors draw on scholarship in media and communication studies, science and technology studies, and social media, Internet, and platform studies, in order to define this new field of study and the emergence of creator culture. Creator Culture introduces readers to new paradigms of social media entertainment from critical perspectives, demonstrating both relations to and differentiations from the well-established media forms and institutions traditionally within the scope of media studies. This volume does not seek to impose a uniform perspective; rather, the goal is to stimulate in-depth, globally-focused engagement with this burgeoning industry and establish a dynamic research agenda for scholars, teachers, and students, as well as creators and professionals across the media,

communication, creative, and social media industries.
