The Machiavellian's Guide to Flirting - Nick Casanova 2008-11

The key to being successful at love is to be playful: playfully suggestive, playfully romantic, and playfully bantering. Flirting is how you send the message that you're interested without saying so directly. If you do it well, you can keep your prospect amused, giddy, titillated, flattered, and insulted all at the same time. Flirting is also how you establish that you have a sense of humor, that you're smart, and that you're sane. And it's how you tell whether your prospect has those same qualities. If both of you are in the right mood, these routines can be great fun. The book is divided into two sections, one for women and the other for men. Since it is usually the man who does the chasing and the woman who does the choosing; these different roles lend themselves to different styles of flirting. Despite gender differences, however, most (but not all) of the chapters can be adapted for use by the opposite sex.

Flirting Tips for Guys - Kevin Love 2015-03-17

The art of flirting is all about letting a person you fancy know that you are interested in her, without saying it openly. When done right, it is a choreographed dance where each person lets the other one know just how interested he is in getting to know the other, under the safety of it all being a game. If one person is interested but the other one is not, nobody is hurt because there never was a real proposition; it was all just a game. Flirting is a playground where a man and a woman can express their desire to pursue the acquaintance in hopes that it develops into a relationship or back down and leave things as they are. Flirting is a ritual based on communication, above all. But communication can take many forms, and flirting is, believe it or not, mostly a non-verbal form of communication. Most men get nervous when it comes to talking to a woman they have just met, they don't know what to say to her. But the funny thing is, you could spend a whole night flirting with a woman without ever having to say a word to her. Ninety percent of human communication is body language and the same applies for flirting. The most vital means with which to flirt are your eyes, and they are the ones that will always tell you whether a flirt is serious or just a game. So if you want to learn more how to seduce and charm any women then let "Flirting Tips for Guys: How to Charm, Conquer and Seduce the Woman of Your Dreams" teach you about: Secrets on How to Flirt Tips for Flirting with Nice Girls How Far Should Flirting Go?
