"If you love a good enemies-to-lovers trope, run—don't walk—to the nearest bookstore or library near you." —BuzzFeed "I couldn't put it down!" —New York Times bestselling author Simone Elkeles When Tyson Trice finds himself tossed into the wealthy community of Pacific Hills, he expects not to belong. Not that he cares. After recovering from being shot and

surviving the rough streets of Lindenwood, he doesn't care about anyone or anything. Golden girl Nandy Smith has spent most of her life building the pristine image it takes to make it in Pacific Hills. After learning that her parents are taking in a troubled teen boy, Nandy fears her summer plans and her reputation will go up in flames. The wall between their bedrooms feels as thin as the line between love and hate. But their growing attraction won't be denied. Soon Trice is bringing Nandy out of her shell and Nandy's trying to melt the ice around Trice's heart. But with the ever-present pull back to Lindenwood, it'll be a wonder if Trice makes it through this summer at all. Also by Whitney D. Grandison: *The Right Side of Reckless*

For fans of Lauren Layne and Kristan Higgins

comes a delightfully “fun bit of fluffy entertainment” (Publishers Weekly) in the first book of a charming new series, in which a young woman is forced to help her old friend revamp his image for the upcoming mayoral elections...and discovers that she might not be as immune to his charms as she once thought. When Emmanuelle Peroni’s father—and current mayor of Hope Lake, Pennsylvania—suggests she help with Cooper Endicott’s campaign, she’s horrified. Cooper, one of her (former) oldest friends, drives her crazy in every way possible. But he’s also her father’s protégé, so Emma reluctantly launches her plan to help him win the local election. It’s not as easy as it looks. Cooper’s colorful love life is the sticking point for many voters, and his opponent is digging up everything he can from his past. It seems that every time Emma puts out the flames from one scandal, another one flares up. Emma knows that if Cooper wants to win, he needs to keep his nose clean. The only problem? She might just be

**You Look Like a Thing and I Love You -**

Janelle Shane 2019-11-05

As heard on NPR's "Science Friday," discover the book recommended by Malcolm Gladwell, Susan Cain, Daniel Pink, and Adam Grant: an "accessible, informative, and hilarious" introduction to the weird and wonderful world of artificial intelligence (Ryan North). "You look like a thing and I love you" is one of the best pickup lines ever . . . according to an artificial intelligence trained by scientist Janelle Shane, creator of the popular blog AI Weirdness. She creates silly AIs that learn how to name paint colors, create the best recipes, and even flirt (badly) with humans—all to understand the technology that governs so much of our daily lives. We rely on AI every day for recommendations, for translations, and to put cat ears on our selfie videos. We also trust AI with matters of life and death, on the road and in

our hospitals. But how smart is AI really... and how does it solve problems, understand humans, and even drive self-driving cars? Shane delivers the answers to every AI question you've ever asked, and some you definitely haven't. Like, how can a computer design the perfect sandwich? What does robot-generated Harry Potter fan-fiction look like? And is the world's best Halloween costume really "Vampire Hog Bride"? In this smart, often hilarious introduction to the most interesting science of our time, Shane shows how these programs learn, fail, and adapt—and how they reflect the best and worst of humanity. *You Look Like a Thing and I Love You* is the perfect book for anyone curious about what the robots in our lives are thinking. "I can't think of a better way to learn about artificial intelligence, and I've never had so much fun along the way." —Adam Grant, New York Times bestselling author of *Originals*

people with BPD die by suicide, and 40% try. I'm already in the 40%. My job is to keep out of the 15%. In this book I want to try and explain what life is like when you have a brain that is essentially trying to murder you every day. It's a collection of the funny, sad and shocking stuff that has happened to me along the way. Writing this book has been the hardest thing I've ever done. It had to be dragged into the world, with my condition telling me that every single word, sentence and chapter was terrible and would make strangers walk up to me in the street and punch me in the face. But I had run out of options. I'd done everything I 'd been told to do and I still thought about killing myself every day. So I wrote this book to save my life. But if there is even the smallest chance that me telling you how I live with me helps you live with you; if it opens up a space for someone, somewhere to be more honest about their mental illness, it will have been worth it. Please don't kill yourself. Love Joe xx 'Please read this book. It will make

the world a better place' James O'Brien 'This book will save lives' Lorraine Kelly 'Just holding this book will make you a better person' Paddy McGuinness 'Truly ground-breaking...I gulped it down in one greedy go, crying and laughing as I went' Bryony Gordon 'Painfully honest but funny and very human' Shaparak Khorsandi 'I loved its humour, compassion and deep honesty' Katherine May 'He tries to explain what your life is like when you essentially have a brain that's trying to kill you every day.'

The Instant New York Times Bestseller and TikTok Sensation! As seen on THE VIEW! A BuzzFeed Best Summer Read of 2021 When a fake relationship between scientists meets the irresistible force of attraction, it throws one woman's carefully calculated theories on love into chaos. As a third-year Ph.D. candidate, Olive Smith doesn't believe in lasting romantic relationships--but her best friend does, and that's what got her into this situation.

Convincing Anh that Olive is dating and well on her way to a happily ever after was always going to take more than hand-wavy Jedi mind tricks: Scientists require proof. So, like any self-respecting biologist, Olive panics and kisses the

first man she sees. That man is none other than Adam Carlsen, a young hotshot professor--and well-known ass. Which is why Olive is positively floored when Stanford's reigning lab tyrant agrees to keep her charade a secret and be her fake boyfriend. But when a big science conference goes haywire, putting Olive's career on the Bunsen burner, Adam surprises her again with his unyielding support and even more unyielding...six-pack abs. Suddenly their little experiment feels dangerously close to combustion. And Olive discovers that the only thing more complicated than a hypothesis on love is putting her own heart under the microscope.

When they're stuck under one roof, the house may not be big enough for their hate...or their love. When Tyson Trice finds himself tossed into the affluent coastal community of Pacific Hills, he's ready for the questions, the stares and the feeling of not belonging in the posh suburb. Not that he cares. After recovering from being shot and surviving the mean streets of Lindenwood, he doesn't care about anyone or anything. He doesn't even care how the rest of his life will play out. In Pacific Hills, image is everything. Something that, as the resident golden girl, Nandy Smith knows all too well. She's spent most of her life building the pristine image it takes to fit in. After learning that her parents are taking in a teen boy, Nandy fears her summer plans, as well as her reputation, will go up in flames. It's the start of summer vacation, and the last thing Nandy needs is some juvenile delinquent from the 'Wood crashing into her

world. Stuck together in close quarters, Trice and Nandy are in for some long summer nights. Only, with the ever-present pull back to the Lindenwood streets, it'll be a wonder if Trice makes it through this summer at all.

*Hate* - Laurel Curtis 2014-10-12

Roses are red, Violets are blue. Life can be messy, And love can be too. Most people say that it's not important where you're going, but instead, how you get there. Unfortunately for me, the journey to love was absolutely agonizing. Love and Hate wrestled with my life day after day, year after year, and the only way to stop it was to let one of them win. Which one? I fought to love harder. But I loathe my love story.

Warning: This standalone novel contains explicit language, sexual content, and potential triggers.

*I Love Rock 'n' Roll (Except When I Hate It)* - Brian Boone 2011-08-02

Music breeds duality. We enjoy the music we love-listening to it, talking about it, reading about it. But it's just as fun to passionately revel

in mocking the music we hate. Fortunately, musicians make this two-lane path very easy to follow. Half the time they're creating timeless works of art that speak to the soul; the other half, they're recording ridiculous concept albums about robots. *I Love Rock 'n' Roll (Except When I Hate It)* covers both sides: It celebrates the music world's flashes of genius, the creation of masterpieces, and the little-known stories...as well as the entertainingly bad ideas. Armed with a healthy dose of Brian Boone's humorous asides and lively commentary, you'll learn extremely important stuff like: ? How bands got their stupid names ? All alternative rock bands directly descend from Pixies ? The most metal facts of metal in the history of metal ? The secret lives of one-hit wonders ? The story behind "Layla," and other assorted love songs about George Harrison's wife ? What is quite possibly the worst song in rock history Boone also reveals terribly useful information like chart trivia, the rules of music, lists, and many more origins,

Let's be honest: most people are unhappy with at least some aspect of their physical appearance. Just think of all the money we spend each year trying to improve our looks! But if worrying about your appearance is getting in the way of living, maybe it's time to start thinking about body image in a completely new way.

Based in proven-effective acceptance and commitment therapy (ACT), *Living with Your Body and Other Things You Hate* offers a unique approach to addressing your struggle with body

image. In this book, you will not be told that your self-perceptions are wrong, that your thoughts are irrational, or that your feelings are misguided. Instead, you will learn to live with the reality that these often painful thoughts and beliefs about yourself will arise from time to time, and that what is really important is accepting these distressing thoughts without allowing them to dominate your life. You know what it's like to constantly be checking the mirror, to avoid certain social situations where your body may be exposed, or to gaze longingly at a fashion model in a magazine and think, "Why can't I be her?" But what you may not know is that people who struggle with negative body image are at an increased risk for depression, anxiety, eating disorders, and low self-esteem. Body image problems can even lead to major financial issues. By focusing on your appearance and little else, you are hurting yourself in more ways than one. If you are ready to find a purpose in life that is more important

than the pain you feel about your appearance, this book provides a truthful, powerful resource.

But Zayneb, the only Muslim in class, isn't bad. She's angry.
