"Liaozhai" 聊齋志異; Strange Tales from a Chinese Lonely Studio (Complete Translation) - Pu Songlin

Liaozhai Zhiyi (Liaozhai; Chinese: 聊齋, or 聊齋志異), called in English Strange Tales from a Chinese Lonely Studio is a collection of Classical Chinese stories by Pu Songling comprising close to five hundred "marvel tales" in the zhiguai and chuanqi styles which serve to implicitly criticise societal issues then. Dating back to the Qing dynasty, its earliest publication date is given as 1740. Since then, many of the critically lauded stories have been adapted for other media such as film and television. The main characters of this book apparently are ghosts, foxes, immortals and demons, but the author focused on the everyday

life of commoners. He used the supernatural and the unexplainable to illustrate his ideas of society and government. He criticized the corruption and injustice in society and sympathized with the poor. The book is complete translation of all volumes (Vol. 1 to 12) of Liaozhai.

Inclusive Education in a Post-Soviet Context - Tsediso

Michael Makoelle 2021-02-27

This book provides the first evidence-based reference about inclusive education in Kazakhstan, one of the post-Soviet Union countries. This nation, as well as many other central Asian countries, is undergoing a radical transformation and change in education which encompasses the implementation of inclusive and special education. This book is composed of chapters synthesized from various studies and captures different aspects of the implementation of inclusive education in Kazakhstan. The implementations of inclusive education in any educational system require a multi-dimensional, multi-level and an integrated approach. It requires collaborative efforts

on part of all stakeholders including governance, pedagogical, auxiliary and support structures. This book is a collection of evidence-based studies in a Kazakhstani educational context that demonstrates the multifaceted nature of the process to realize an educational system that is inclusive. The book highlights some of the fundamental requirements and challenges for this process to succeed. Among the main issues addressed in this book are the understanding of inclusive education, the transition towards inclusive education given the soviet legacy, the role of school leadership, teachers, parents and other stakeholders in the process. The findings in each chapter demonstrate some of the milestones and challenges of inclusivity. This work will be of interest to academics, scholars, students and teachers in this field.

Where IS Your Mother? - Ava Carroll-Brown 2011-06-17

questions regarding basic etiquette and simple grace. Fun, easy, and informative, this guide will open the doors to rediscovering the importance and ease of basic etiquette and simple grace in today's world. This is not "just another book on etiquette"—each chapter is filled with sound information and great tips presented in a simple, informative, and straightforward manner. The easy strategies for more gracious living within are founded on classic eighteenth-century guidelines, re-imagined for today's considerably more complicated life, society, and lifestyles. Many basic (and not-so-basic) etiquette questions are addressed, along with the mystery of whether or not Grandma was really telling the truth about the power of the magic words of etiquette: please, thank you, and excuse me. The presentation of these guidelines has been simplified, eliminating the intimidation of the subject matter, but the basics are very much in line with the Old World etiquette lessons—lessons that author

Ava Carroll-Brown feels should not only be taught and followed but practiced regularly. Where IS Your Mother? is a wonderful addition to any reference library and the perfect gift for anyone at any occasion.

Staying Well - Ron Frazer
2016-07-08

Health for \$1 per Day Even a dollar is too much. Good health can cost nothing. Optimal wellness can not be about expensive pills and tests. It includes fresh air, water, food, balanced exercise, and effective rest. Ideally, there is very little stress. It doesn't sound like your life, does it? You need this book. Dr. Frazer explores hundreds of solutions for busy families that are stressed, and compounding that stress with unhealthy activities and diets. The basic idea is to stop doing the things that are making you sick. That costs nothing. The book was written for Dr. Frazer's daughter who was, and is, a busy mom with a limited budget to care for two growing boys with their own ideas about diet and exercise. This is

Houseways in Southern

Oman - Marielle Risse 2022-12-30

This book explores how houses are created, maintained and conceptualized in southern Oman. Based on long-term research in the Dhofar region, it draws on anthropology, sociology, urban studies and architectural history. The chapters consider physical and functional aspects, including

regulations governing land use, factors in siting houses, architectural styles and norms for interior and exterior decorating. The volume also reflects on cultural expectations regarding how and when rooms are used and issues such as safety, privacy, social connectedness and ease of movement. Houses and residential areas are situated within the fabric of towns, comparison is made with housing in other countries in the Arabian peninsula, and consideration is given to notions of the 'Islamic city' and the 'Islamic house'. The book is valuable reading for scholars interested in the Middle East and the built environment.

Damp Legacy - Trevor Sproston 2012-10

FRUITION leaves behind the melancholy. At the coalmine, unscrupulous men descend upon the scene to take advantage of the situation, by so doing they incur the interest of covert government officials, a secretive organisation and of a high-ranking influential Knight of the Realm with a score to settle. Mentored by the feisty Antoinette a naïve, innocent girl blossoms into womanhood, whilst Henry moves a step closer to his heart's desire, and his former partner's mistress learns she is still protected from beyond the grave.

Love Entrepreneurs - Phil Nicks 2008

Determinants of Substance Abuse - Mark Galizio 1985-04-30

With the recent increase in the scope of drug and alcohol problems has come an awareness of the need for solutions. As data accumulates, it is becoming more apparent that substance abuse problems are extremely complex and are influenced by a variety of

biological, psychological, and environmental variables. Unfortunately, it has proved difficult to go beyond this conclusion to a description of how these multiple factors work together to influence the development of, and recovery from, drug and alcohol dependence. The purpose of this book is to try to meet that objective by including in one volume theoretical analyses from a wide variety of drug researchers. In each case, the author was asked to consider how the variables in their particular domain might contribute to the appearance of individual differences in both alcohol and drug related problems. The resulting volume is a valuable source for those wishing to take a more interdisciplinary approach to substance abuse issues. -- from Preface.

Nordic Social Pedagogical Approach to Early Years - Charlotte Ringsmose 2016-10-21

This book studies the major characteristics of the social pedagogical approach to early

childhood education and care. It does so by investigating the distinctive elements of the Nordic approach and tradition. The cultural, educational, and ideological structures and values within the Nordic tradition indicate a strong “social pedagogical” rather than “early education” emphasis. The Nordic tradition applies a social learning approach that emphasizes play, relationships and outdoor life, and presumes that learning takes place through children’s participation in social interaction and processes. Set against this background, the book examines the characteristics of the pedagogue and the important features that develop through the Nordic approach. It compares children educated in the Nordic tradition with those educated in the French-English and Anglo-American tradition. It explores quality in relation to how children can enjoy childhood, and at the same time become able to actively participate in society and develop the social and

cognitive skills and competences that individuals require to do well in society.

psychology through the blending of the very personal and the confused public, piecing together transient cultural differences, with similarities. It explores human frailty, robustness, sensuality along with power and compliance in political and economic globalised confusion. Many great historical thinkers come in and out of times past to assist and even at times rescue the author in his desperate attempt to understand who and what we are and in the end realising that without artistic sensual awareness we are all living a (anxious) lie. George Sais is a B. A. Graduate from the University of Sydney (1998) and also The Independent Theatre School of Dramatic Art (graduating in 1973). From the age of seventeen he followed an acting, writing and directing career occasionally deviating towards other occupations; some against his own better judgment. Fed up and nearing a breakdown, he decided, or fate decided for him, at the age of 55, to sell, pack and go

wherever Mira took him.
