Lyrical - Bree Dahlia 2017-03-15

Family Care and Social Capital: Transitions in Informal Care - Patrick Barrett 2013-08-04

Becoming a caregiver is increasingly an inevitable experience for many people and, therefore, a likely life transition. Drawing on research and personal experiences of working with family caregivers, this book examines a range of family caregiving situations from across the life course. It seeks to capture the dynamics of caregiving in a number of common situations: caregiving during infancy, for adults who acquire a disability through accidents or illness, for older people with age-related issues, and caregiving by children and adolescent carers and grandparent carers. In drawing attention to key moments of vulnerability faced by family and informal caregivers, and by suggesting how to assist 'reconnection' at these moments, the book provides a guide for those working in the area of health, disability and care. Informal care is conceptualised as occurring with the context of personal interrelationships, these being nested within wider kin networks and linked with wider professional formal care networks. Informal care is seen both as an expression of social capital and as an activity that builds social capital. It is an indicator of resources of mutual support within social networks, and it has the effect of adding to the stock of social resources. The book makes a case, therefore, for facilitating the development of social capital by strengthening the capacity of informal

caregivers and caregiver groups, and by improving the linkages with formal care organisations.

Starting a Successful Practice in Clinical Psychology and Counseling - Owen J. Bargreen 2013-10-08

Clinical psychology is a quickly growing profession, yet it is a challenging one: the preparation is arduous, the training is highly selective, and the results - an established and financially successful practice - are not easy to achieve. This book explains how to prepare for and surmount all of the hurdles presented to those who hope to eventually develop a lucrative and rewarding practice in clinical psychology. It is the first of its kind to focus primarily on financial success, though it does also look at the personal stresses and rewards of the profession. The author provides tips from his own experience and from other financially successful private practice psychologists and offers business techniques and pointers that are not explained in training programs. Undergraduate students contemplating a career in psychology will find advice on preparing for the GRE, applying to graduate schools, and getting involved in research and clinical work. For graduate students, an overview of a graduate clinical psychology program, preparing and completing a dissertation, and gaining experience in psychological testing are provided. Chapters then focus on how to build and manage a private practice, the best ways to manage personal and business finances, and how to practice good self-care. Additionally, the book includes a chapter by an expert on student-loan repayment that examines how to best work through the process of paying back student loans while building a practice.

Destiny - Carly Phillips 2023-05-05

She won't let any man stake a claim. — But for him she might make an exception. Nash Barron may be cynical toward love but he still intends to enjoy his brother's wedding. Especially when a beautiful woman lays a surprise kiss on him that tempts his resolve. But Kelly Moss is the last

woman he should want considering her complex connection to his family. That kiss, though...it's still taunting him days later. Kelly has learned a lot about herself since her mother abandoned her and her half-sister, Tess. One, that parenting isn't her strong suit and two, that showing vulnerability to any man is a weakness she can't afford. Yet now that she and Tess are settled in Serendipity, leave it to Nash Barron to show her a kindness beneath his tough-lawyer exterior that dents her carefully constructed walls. But Kelly is hiding something. And Nash doesn't tolerate secrets. If he ever discovers what she's concealed, she's positive he'll turn his back—and break her heart. Note: *Destiny* is a previously published title in the Serendipity series by NYT bestselling author, Carly Phillips. Contains a small-town attorney with a white-knight complex, a woman who's nobody's damsel in distress, and a teen half-sister who spouts attitude like a second language.

Students learn how to be polite and kind to others with the proper Etiquette. Comprised of reading passages, graphic organizers, real-world activities, crossword, word search and comprehension quiz, our resource

combines high interest concepts with low vocabulary to ensure all learners comprehend the essential skills required in life. All of our content is reproducible and aligned to your State Standards and are written to Bloom's Taxonomy.

The Five Love Languages - Gary Chapman 2009-12-17

Marriage should be based on love, right? But does it seem as though you and your spouse are speaking two different languages? #1 New York Times bestselling author Dr. Gary Chapman guides couples in identifying, understanding, and speaking their spouse's primary love language-quality time, words of affirmation, gifts, acts of service, or physical touch. By learning the five love languages, you and your spouse will discover your unique love languages and learn practical steps in truly loving each other. Chapters are categorized by love language for easy reference, and each one ends with simple steps to express a specific language to your spouse and guide your marriage in the right direction. A newly designed love languages assessment will help you understand and strengthen your relationship. You can build a lasting, loving marriage together. Gary Chapman hosts a nationally syndicated daily radio program called A Love Language Minute that can be heard on more than 150 radio stations as well as the weekly syndicated program Building Relationships with Gary Chapman, which can both be heard on fivelovelanguages.com. The Five Love Languages is a consistent New York Times bestseller - with over 5 million copies sold and translated into 38 languages. This book is a sales phenomenon, with each year outselling the prior for 16 years running!

Delphi Complete Works of Plautus (Illustrated) - Titus Maccius Plautus 2016-10-14

The Roman playwright Plautus wrote comedies that are the earliest Latin

literary texts to have survived in their entirety. Loosely adapted from lost Greek plays, the works of Plautus helped establish a truly Roman drama in the Latin language for the first time. Delphi's Ancient Classics series provides eReaders with the wisdom of the Classical world, with both English translations and the original Latin texts. This comprehensive eBook presents Plautus' complete extant works, with relevant illustrations, informative introductions and the usual Delphi bonus material. (Version 1) * Beautifully illustrated with images relating to Plautus' life and works * Features the complete extant works of Plautus, in both English translation and the original Latin * All 20 extant plays * Concise introductions to the plays * Features translations by Henry Thomas Riley * Excellent formatting of the texts * Easily locate the acts you want to read with individual contents tables * Includes Plautus' rare plays, first time in digital print * Features a bonus biography - discover Plautus' ancient world * Scholarly ordering of texts into chronological order and literary genres Please visit www.delphiclassics.com to explore our range of Ancient Classics titles or buy the entire series as a Super Set
