Modern Love Marcus Collins 2003 Drawing on social, economic, and political history, this volume explains how relations have changed between men and women in Britain in the 20th century. It shows how men and women's expectations from life have radically shifted and converged, describing how we have moved from inhabiting our separate spheres with wholly different prospects and values towards the ideal, if not quite the actuality, of equality, mutuality, companionship, and friendship. This text also shows how progressive ideas about the relationship between men and women that originated in Britain reverberated throughout the world.

*The Olde Daunce* Robert Edwards 1991-01-01 In this volume a variety of perspectives reevaluate the nature of friendship, desire, and the olde daunce of love in the Middle Ages. Challenging earlier scholarly notions about medieval marriage, this book suggests and explores the legitimacy of marital friendship, affection, and mutuality. The authors explore the relationship of medieval love to companionship, equality, and power, and relate medieval expressions of love to a number of issues including creativity, reading and writing, voyeurism, chastity, violence, and even hate. The book reconsiders the theological, philosophical, and legal background of medieval attitudes toward marriage, analyzes expressions of love and desire in European vernacular literature, and considers several implications of Chaucer's treatment of love, marriage, and sexuality.

**Sex** Arlene G Krieger 2019-07-17 Does any love story ever truly end with "happily ever after"? Love: Sometimes exciting. Always complicated. Never easy. Some relationships last a lifetime-others last from dusk to dawn. \_\_\_\_\_ From Clinical Sexologist, Dr.

Arlene Krieger comes a collection of sexy short stories for adults that explore love-the most thrilling and complicated quest in the world. Written with compassion and humor, *Sex from the Couch* explores the irrational, passionate, and occasionally bizarre nature of love. Krieger's stories will make you laugh, cry, and gasp-sometimes with subverted expectations, other times in uncomfortable recognition of the pitfalls of adult relationships. In this anthology of thirteen short stories, twenty-six characters maneuver through life and love while gaining insight into themselves and each other. Encountering the often tragic, sometimes romantic aspects of what really happens behind closed doors, they seek answers to their most pressing questions: Does happily-ever-after actually exist? Why do some relationships last while some relationships crash? Her stories balancing between a relationship guide, splashes of erotica and psychological romance, Krieger's expertise in sexology lends a credible and unique voice to this tour de force of playfulness, romance, and surprising emotional intimacy. *Sex from the Couch* is a carefully crafted collection of stories about love and life inspired by clinical sexologist Dr. Arlene Krieger's observations on the birth and death of relationships-and all the messiness and joy that happen in between. Reflecting the sometimes pointless, always hopeful efforts humans make in the name of love, Krieger's thirteen stories deftly explore the tragic, romantic, and sexy realms of what really happens behind closed doors as well as our desire to believe in love, the disenchantment and pain of divorce, the appeal of treacherous encounters, and what it means to be in a relationship with another person. Each engaging story offers insights and hints about how to better navigate the journey of love. *Sex from the Couch* is a reminder that love need not be perfect to be perfectly exciting, irrational, passionate, inspirational, and complicate ABOUT THE AUTHOR: Dr. Arlene Krieger has a PhD in clinical sexology and human sexuality. In her 20 year span of career, she has worked with over three thousand couples and individuals professionally in her private practice. She is triple-boarded as a licensed marriage and family therapist, mental health counselor and CST, Clinical Sexologist with an extensive background in working with adolescents, individuals, couples, and families, specializing in issues of relationship,

marital issues, dating and divorce, intimacy, and sexuality. Dr. Krieger is the mother of three grown and accomplished young adults. She resides with her husband and five dogs, overlooking a lake in Persimmon Hollow.

*The New Male Female Relationship* Herb Goldberg 2000 In this ground-breaking work, Goldberg shows how traditional relationships are doomed to fail -- not because of personal inadequacies, but because of the psychological defense mechanisms that program men to behave like machines and women like children. Goldberg offers a total reevaluation of the war between the sexes in light of the enormous changes the woman's liberation movement has brought about in the last several decades. Immensely hopeful in its outlook, the book gives us a vision of just how good a relationship can be when men and women are friends and companions as well as lovers. Book jacket.

*The Monogamy Gap* Eric Anderson 2012-03-21 Whether straight or gay, most men start their relationships desiring monogamy. This is rooted in the pervasive notion that monogamy exists as a sign of true love. Yet despite this deeply held cultural ideal, cheating remains rampant. In this accessible book, Eric Anderson investigates why 78% of men he interviewed have cheated despite their desire not to. Combining 120 interviews with research from the fields of sociology, biology, and psychology, Anderson identifies cheating as a product of wanting emotional passion for one's partner, along with a steadily growing desire for emotionally-detached recreational sex with others. Anderson coins the term "the monogamy gap" to describe this phenomenon. Anderson suggests that monogamy is an irrational ideal because it fails to fulfil a lifetime of sexual desires. Cheating therefore becomes the rational response to an irrational situation. The Monogamy Gap draws on a range of concepts, theories, and disciplines to highlight the biological compulsion of our sexual urges, the social construction of the monogamous ideal, and the devastating chasm that lies between them. Whether single or married, monogamous or open, straight or gay, readers will find The Monogamy Gap to be an enlightening, intellectually compelling, and provocative book.

[The Way to Love Your Wife](#) Clifford L. Penner 2012-04-20 Sex matters in a marriage—a lot! Yet many men secretly wonder: Is she really satisfied? What do we do when our desires don't match? How can we get back the passion we used to feel? *The Way to Love Your Wife* will tell you what you really want to know: how to make sex meaningful to your wife, build desire, get past sexual problems, and enjoy guilt-free sex. Noted sex therapists Clifford and Joyce Penner also unveil the mystery of "what women want" and show how simple it is to boost your love life by letting your wife lead. Their candid, clear style will encourage you to make great sex happen—or happen more often—in your marriage.

*Cheap Sex* Mark Regnerus 2017-08-02 Sex is cheap. Coupled sexual activity has become more widely available than ever. Cheap sex has been made possible by two technologies that have little to do with each other - the Pill and high-quality pornography - and its distribution made more efficient by a third technological innovation, online dating. Together, they drive down the cost of real sex, and in turn slow the development of love, make fidelity more challenging, sexual malleability more common, and have even taken a toll on men's marriageability. *Cheap Sex* takes readers on an extended tour inside the American mating market, and highlights key patterns that characterize young adults' experience today, including the timing of first sex in relationships, overlapping partners, frustrating returns on their relational investments, and a failure to link future goals like marriage with how they navigate their current relationships. Drawing upon several large nationally-representative surveys, in-person interviews with 100 men and women, and the assertions of scholars ranging from evolutionary psychologists to gender theorists, what emerges is a story about social change, technological breakthroughs, and unintended consequences. Men and women have not fundamentally changed, but their unions have. No longer playing a supporting role in relationships, sex has emerged as a central priority in relationship development and continuation. But unravel the layers, and it is obvious that the emergence of "industrial sex" is far more a reflection of men's interests than women's.

**Women Who Win at Love** Suzanne Venker 2019-10-08 Do you ever ask yourself why dating has become so damn hard? Do you wonder what makes some marriages last and others fall apart? Is your marriage struggling despite your best efforts to keep it together? Women who win at love don't have a gift you don't have. What makes them unique, explain author and relationship coach Suzanne Venker and anthropology professor John M. Townsend, Ph.D., is that they aren't at war with the men in their lives. Women who win at love reject the concept of sexual equality and embrace male and female nature instead. Whether you're still single and mapping out your life, or you're divorced or unhappily married, *Women Who Win at Love* will permanently alter the way you view men and marriage, thus leading to your success in love. But you must be willing to step outside your comfort zone and accept countercultural truths. If you can do that, you've found the key. You know how to win at almost everything else. Isn't it time for you to win at love? In *Women Who Win at Love*, you will learn:

- the eight dating rules that lead to marriage
- why super successful women struggle in love
- what men want and what women want (hint: they're not the same)
- why love is not a reason to get married
- how to avoid the green grass syndrome
- why acting like a man lands women in a ditch

**What Wives Wish their Husbands Knew about Sex** Richard Rupp 2007-04-01 It's an unfortunate reality that many men grow up in churches that suppress their God-given sexual urges. As a result, many Christian men, single and married, are frustrated with their love lives and their sex lives. The authors of this book claim that Christian men should be the greatest lovers in the world and then work to show men how to do it. They help men:

- learn what the Bible says about a healthy sex life
- discover how to relate to women as men instead of as boys
- address psychological and spiritual issues that interfere with healthy sexuality
- learn specific techniques that create a strong relationship, great foreplay, and passionate sex

Solidly based in Scripture and informed by the experiences of the authors, all respected sex therapists, *What Wives Wish Their Husbands Knew about Sex* dispels the myths that keep good Christian men from experiencing sex as God meant it to be. Perfect for any man, it is also a great book for counselors and pastors who work with men.

**The Heart Is Unknown Country** L. A. Rebhun 1999 This is a study of love, specifically of men's and women's emotional roles vis-à-vis one another in Northeast Brazil; of how people form conjugal relationships in this region; and of the impact of rapid socioeconomic change on courtship, marriage, cohabitation, and infidelity. Rapid urbanization and expansion of the cash economy have transformed the region in a few decades. Among the transformations are shifts in how people conduct courtship, form marriages, view the proprieties of sexual behavior, and assess the proper social and economic roles of men and women. These changes have altered the relative importance of physical, economic, and emotional intimacy in conjugal relationships, transforming the nature of marriage—once defined as a largely economic relationship—into a largely emotional relationship, as ideas of romance once associated with infidelity, concubinage, and courtship are increasingly attached to marriage. The book is largely based on interviews with men and women who talked about their often complicated love lives with wit and passion, and the book is rich in personal stories and quotations. Women were asked to discuss the nature of men and women, and men were asked to talk about women. Both sexes were questioned about their views on prostitution, concubinage, and promiscuity, as well as their definitions of love. Parents were asked for their views about marriage and child rearing (especially differences in raising boys and girls), their relations with their own parents, lovers, spouses, and friends, and their views on virginity and sexual propriety. The bluntness and articulateness of the informants about their motivations and experiences not only demonstrated that men and women viewed conjugal relationships very differently but enabled the author to specify and explore these differences in unusually interesting ways.

**Sex, Love, and Marriage in the 21st Century** Robert T. Francoeur 1999 Love, sex, and marriage are changing faster than ever before in human history. The current tidal wave of social changes will continue into the next century, and we will have to adapt our sexual values and relationships to these accelerating changes. These 22 honest, authentic stories tell of the unconventional paths pioneering church leaders and spiritually-aware women and men have taken in their quest to link their sexuality with their spiritual needs. Some might see in these unorthodox explorations only tales

of promiscuous couplings. But these are not stories of wild thrill-seekers. These are tales told from the core of their being about their deeply felt need for genuine, responsible love and intimacy within a spiritual context. Their journeys do not promise paradise or instant happiness, as popular magazines do with recipes for lifelong marital bliss and fiery passion. These sojourners have much to teach us, even when we decide that this or that path is not for us. Their individual paths are not nearly as important as the simple message of God and Eros being inseparable that underlies journey. God and Eros can come together in many different relationships. And they must come together if we want to nourish and fulfill the divine spark at the core of our being. These women and men challenge our assumptions and our willingness to adapt to our radically changing world.

**Sex Wise** Pete Eaton, Ph.D. 2016-07-18 The answer to divorce based on satisfying individual sexual hunger for a happy marriage. He says, "My wife doesn't want sex." She says, "My husband doesn't want sex." Myth buster: It has nothing to do with loss of libido Excuses, excuses... Excuses, excuses... We can't have sex now because I'm too tired My back hurts I have a headache I'm going through the change o(Men on pause) I'm not in the mood I have too much on my mind, right now If I'm not going to have an orgasm, then why? I feel bloated and fat I don't want to feel pressured for sex Just not interested, right now Diminishing libido I'm too upset Representing a few of the most popular excuses. Why does my spouse, mate or partner have no interest in sex? What's really going on? Can it be fixed? In this brief book, Dr. Eaton explains Why it's happening How to prevent it What to do about it, if you're already there No psychological mumbo jumbo, because lack of sexual desire or psychology has nothing to do with it. There are two distinct physical types of humans in regard to sex. Dr. Pete explains how to tell the difference, how to find your own type and possible ways to proceed if you've paired up with the opposite type. A real how to book. In the matching of men and women in couples possibly leading to marriage, even though marriage is the leading cause of divorce and the most popular outcry amidst the divorce controversy with voices ringing in the halls of justice and accusations of infidelity and private investigators documenting the marital affairs of cheaters committing acts of adultery, etc, etc, etc... Women are often left wondering why men cheat? The truth of the matter is that it is not as rudimentary as being a men versus women issue at all. Even though the women get much less press than the men, the unfaithful wife is actually much more popular, but is much more stealthy in her approach to conducting her extramarital affairs. Dr. Pete Eaton reveals all in his book, *Sex Wise*, and tells the truth about relationship problems - especially when related to areas of sexual conduct - unraveling the secret to why men cheat and (even more) why women cheat, and it's not what you might expect, and it has nothing to do with lack of love! Dr. Eaton clearly explains that it is not the differences between men and women that are the reasons for divorce, rather it is due to a difference in the amount of innate sexual hunger which has nothing to do with men vs women, because both men and women are either hungry for sex, or not, and each have all different degrees of that hunger. Marriage problems are more due to compatibility issues due to mismatched sexual hunger. The insatiable desires of women and men are better of appropriately matched to other mates with the same sexual desires. The problem is with our mating methods when selecting a potential mate our species tends to put on its best face to impress and seduce potential mates to seal the deal. This leads to misrepresentation, i.e. women and men misrepresenting themselves as being sexually proficient with high levels of sexual desire, enough to satisfy any mate. You may have noticed that many of these sexually desirous individuals revert to their standard level of sexual desire. Also, presented are solutions for couples experiencing relationship problems due to differences in sexual hunger, breaking through the age old idea of infidelity and presenting ideas and examples of how to have and maintain a happy marriage, even if you are unequally matched in terms of sexual desire. Get prepared to enjoy the full satisfaction from your personal level of sexual desire, enjoy all the sexual activity to match the libido that you were born with, even if you are in a mismatched relationship. This could be the only real answer to how to save your marriage, even if you share sexual hungers on opposite ends of the spectrum."

**Sexuality, Love and Partnership** Rudolf Steiner 2011 "Rudolf Steiner presents the human soul dilemma, split into male and female attributes...but offers a path of development that will eventually lead to overcoming these--what Jung called 'individuation,' a merging with the true self or true ego of the human being" (from the introduction). We live in a sexualized society, surrounded by sexual imagery and content in almost every area of life. This condition presents us with many challenges. These include decreased clarity and increasing confusion about the distinction between love and sex; strife between men and women over their roles in society; and a persistent assault on childhood innocence. Despite the sensibilities of his time, Steiner made a huge contribution to our understanding of the complex theme of sexuality. In this freshly compiled anthology, Steiner describes the point in evolution at which human beings split from being androgynous, single-sexed beings to becoming beings of male and female genders. He traces the changing roles of the sexes in society, from the matriarchal past to today's patriarchal dominance. The division of the sexes brings suffering, but also the possibility of achieving higher stages of love. In the distant future, humanity can evolve sexuality into a new form, with the possibility that even the process of reproduction will be transformed. Steiner is refreshingly nonjudgmental and does not preach asceticism. He recognizes the all-too-human frailty with which people confront their personal lives, even in the case of such a great individual as Goethe. Sex is a necessary stage of human evolution, and the split nature of the human being is a fact of our time. Its healing will be gradual, but like Amfortas in the Grail story--whose wounded groin was a metaphor for amorous misadventure--we can all be healed through love and compassion.

**Sex and the Soul of a Woman** Paula Rinehart 2010-11-09 Compassionate counselor Paula Rinehart understands the high price a woman pays in loosening her sexual boundaries, and the unique role sex plays in forging a bond meant to last a lifetime. She shows women how to break free from the bondage of misused sexuality and create a new beginning in their relationships with men. This is required reading for every college-age woman who longs for a man to see her beauty and cherish it.

**What's Next in Love and Sex** Elaine Hatfield 2020-02-25 What's Next in Love and Sex is a comprehensive examination of contemporary academic findings relating to all matters of the mind, body, and heart. Inspired by questions asked by students, the book covers cutting-edge topics so new that they are rarely addressed in current sexuality texts, providing insight into modern trends such as hookup culture, virtual pornography, robots, apps, and online dating as they evolve in this day and age. Written by one of the pioneers of love and sex research, Elaine Hatfield, along with historian Richard Rapson and social psychologist Jeannette Purvis, this book uses contemporary scientific findings to provide an updated and relevant explanation for why we do the things we do when we're in love, searching for love, making love, or trying to keep a faltering relationship together. Combining rigorous scholarship with an accessible and entertaining style, no other book will give college students and academics alike such a developed understanding of contemporary love and sex.

**The Social Construction of Difference and Inequality: Race, Class, Gender and Sexuality** Tracy E. Ore 2006 This anthology examines the social construction of race, class, gender, and sexuality and the institutional bases for these relations. While other texts discuss various forms of stratification and the impact of these on members of marginalized groups, Ore provides a thorough discussion of how such systems of stratification are formed and perpetuated and how forms of stratification are interconnected. The anthology supplies sufficient pedagogical tools to aid the student in understanding how the material relates to her/his own life and how her/his own attitudes, actions, and perspectives may serve to perpetuate a stratified system.

**STRONG IN THE STORM** Mutea Rukwaru 2017-12-20 Marriage is one of the oldest institutions in the world. It is an institution bedeviled with a lot of challenges. It is ironical that you are given a marriage certificate without having graduated. You don't even graduate in the college of marriage. There are no leaves, half terms or holidays. Marriage is a relationship and all relationships have disagreements. How successful relationships are has a lot to do with how those disagreements are handled. Most of the problems encountered in marriage is due to the fantasy we have about marriage life. From the moment Romeo sets his eyes on Juliet to the fairy-tale climax when Cinderella captures her prince, young people are taught that falling in love is the one and only essential requirement for marriage. If you wish to make your marriage work, then the love between you can't simply be based on feelings. That's because feelings change like moods. If romance were the sole factor determining the duration of a union, most marriages would end in less than a year. Love must be both a feeling and a decision. Most marital relationships are weakened by the issues of

sex, money, identity and extended family members. In today's world time is becoming elusive. Remember a time a husband and wife devote to one another determines the quality of their relationship. The stresses of life whether they are financial, parental, family related or work related can negatively impact on marriage and lead to unnecessary arguments. Spouses who don't prioritize their time together get caught in the trap of drifting away from one another due to the pressures of life. As time goes on and children get older and jobs become demanding you may not realize that your needs are changing and you dread change. With time you will find that by investing in your marriage and spending time with one another, you will limit the number of disagreements you have. Your sexual life will improve and you are less likely to be involved in extramarital affairs. The quality of your marriage is the single most important factor in raising healthy, well-adjusted children. Husbands and wives who love and respect each other raise children who have healthy values, self-esteem and good relationship skills. Wives should not neglect their husbands. Remember your husband was there before your children were born and he'll be there long after your children have moved on in life. If you show contempt toward your husband, your daughter will treat her husband that way and your son will expect his wife to have contempt for him. Your husband needs to occupy the number one spot in your heart. You cannot place your children or extended family ahead of him in your heart. If you don't put him first, not only will that injure him, but it will destroy your relationship and eventually make him run away and this will harm the lives of your children. Oftentimes men feel like they only get their wife's attention after everyone else the kids, the pets and the women have had their needs met. He gets what's left over after everyone else is taken care off. It is also important to note that happily married spouses are satisfied with their sexual relationships. A spouse who makes you feel important, who is kind, gentle, exciting and good with children and who is sexually satisfying and prone to sexual experimentation most powerfully influences your marital satisfaction. You can add zest to your love life by enhancing appeal as a spouse by having more intimate conversations and by showing more consideration and non sexual affection. Then add some novelty and creativity to your lovemaking. Sex is so critical in marriage and any relationship at marriage level devoid of it is at risk. Sex can heal illnesses and alleviate depression. From a man's perspective, there are not many things more important than sex. Sex not only fulfils a physical need in men and women but it also fulfils a psychological need. In reference to men sex heals a man the same way food, sleep and medicine can heal an injured sick body. Men are intensely physical and so the physical act of sex plays a big role in their lives. Women enjoy sex nearly as much as men do-they just don't obsess it quite as much. It is of interest to note that if a man's wife is not interested in him physically for whatever reason, of which probably it isn't necessarily her fault, and some young girls come along who shows an interest in him as a man, many men are easily swayed into having these needs fulfilled. Some of it may be due to ego, but much of that need involves the fact that a man cannot feel truly loved if he is not having his physical needs met. When both men and women are satisfied sexually they will all be having satisfied marriage lives. Sex is such a great power in the world. But it is women who have tremendous sexual power. What does this power look like? What are the dynamics of sex? Why do spouses stray? Is it a matter of life and death? What are the complex reasons behind extramarital sex? Is sex so critical that without proper handling families will degenerate to the primordial times where "sexual punalua" ("sexual communism") was the practice? Take an exciting walk through "strong in the storm" to find answers to this life's maze. When you unearth the mystery of this labyrinth, then you will be in a position to advice colleagues, friends and those in the byways of orchestra of life how to paddle this tricky canoe. In a nutshell, a husband and wife should sail the seas of life in the same boat, rowing together, trimming the sails together and making sure the whole operation runs smoothly together, but ironically many spouses are actually in two different boats. Yet the two won't truly become one until they do get into the same boat.

*Ladies Listen Up!* Stephanie Rockey 2009-08 Stephanie Rockey is the founder and president of a personal introduction and search company. After hundreds of client interviews, it was apparent to her that a gap existed between the fantasy world of what women believe they need and want in a

man versus what is the reality with men. She uses this information to straighten out women's confusing misperceptions about how to communicate with a man and establish a loving and long-term relationship--P. [4] of cover.

**The War of the Sexes** Paul Seabright 2012-04-09 How our stone-age brains made modern society, and why it matters for relationships between men and women As countless love songs, movies, and self-help books attest, men and women have long sought different things. The result? Seemingly inevitable conflict. Yet we belong to the most cooperative species on the planet. Isn't there a way we can use this capacity to achieve greater harmony and equality between the sexes? In *The War of the Sexes*, Paul Seabright argues that there is—but first we must understand how the tension between conflict and cooperation developed in our remote evolutionary past, how it shaped the modern world, and how it still holds us back, both at home and at work. Drawing on biology, sociology, anthropology, and economics, Seabright shows that conflict between the sexes is, paradoxically, the product of cooperation. The evolutionary niche—the long dependent childhood—carved out by our ancestors requires the highest level of cooperative talent. But it also gives couples more to fight about. Men and women became experts at influencing one another to achieve their cooperative ends, but also became trapped in strategies of manipulation and deception in pursuit of sex and partnership. In early societies, economic conditions moved the balance of power in favor of men, as they cornered scarce resources for use in the sexual bargain. Today, conditions have changed beyond recognition, yet inequalities between men and women persist, as the brains, talents, and preferences we inherited from our ancestors struggle to deal with the unpredictable forces unleashed by the modern information economy. Men and women today have an unprecedented opportunity to achieve equal power and respect. But we need to understand the mixed inheritance of conflict and cooperation left to us by our primate ancestors if we are finally to escape their legacy.
