What Makes Love Last? John Gottman 2013-09-10 "One of the foremost relationship experts at work today applies the insights of science toward understanding the real meaning of trust between a couple. He decodes the "why" behind betrayal and shows how partners can avoid or recover from unfaithfulness and maintain a loving relationship. Dr. John Gottman, the country's pre-eminent researcher on marriage, is famous for his Love Lab at the University of Washington in Seattle where he deciphers the mysteries of human relationships through scientific research. His thirty-five years of exploration have earned him numerous major awards, including from the National Institute of Mental Health, the American Psychological Association, and the American Association for Marriage and Family Therapy. Now, Dr. Gottman offers surprising findings and advice on the characteristic that is at the heart of all relationships: Trust. Dr. Gottman has developed a formula that precisely calculates any couple's loyalty level. The results determine a relationship's likely future, including the potential for one or both partners to stray. A Love You Can Trust shows couples how to bolster their trust level and avoid what Dr. Gottman calls the "Roach Motel for Lovers." He describes how the

Compatibility in a Romantic Relationship Lucy Smith 2022-03-29
RELATIONSHIP COMPATIBILITY IS CRITICAL FOR LONG-TERM SUCCESS. When you're initially starting out in a relationship or meeting someone for the first time, it's natural to worry if you're actually compatible with each other. Deciding whether or whether you're compatible with someone right away can be difficult to determine initially. You are frequently putting your best foot forward, and it is probable that the other person is doing the same. This can make it tough to determine whether you and your partner are actually compatible or whether you are only trying to be compatible because you enjoy each other. Even if you have been dating for a long time, you should be certain that you are completely compatible before entering into a committed relationship with someone. Don't become stuck in a long-term relationship or marriage that will end up failing because you are incompatible with one another. Often, the most effective technique to evaluate if you are compatible is to learn about each other's views and way of life, in order to determine whether your values are compatible, In COMPATIBILITY IN A ROMANTIC RELATIONSHIP, you will learn the methods of accomplishing this. Is it time to settle down, relocate, or flee? Are you and your partner actually meant to be together? Is your relationship likely to be a success or a failure? SCROLL UP TO GRAB A COPY!

"Read it, people. J.M. Kearns's new book called Better Love Next Time... The book's main premise is that people often repeat the same mistakes in successive relationships, but if you can diagnose what really went wrong with your exes, you can have better relationships in the future." — Erin Meanley, Glamour.com "If you're searching for love, then you should start with this refreshingly intelligent and insightful dating guide." —Shari Low, Daily Record "Self-help books often make me skittish - but not this one. Kearns's advice is sound and good: he tells us to look inward, to be honest with ourselves, to stay the course. The Art of Lasting Relationships David W. McMillan 2001-12 "Finding love is not a destination; it is the beginning of a journey," David W. McMillan writes. Most people who fall in love hope and believe that their relationship will last. Helping a relationship last has a lot to do with how the participants tell the story of that relationship and where they locate themselves within it. Each couple has its own love story-a story that is the essence of its relationship and that transcends time. By reading *Love Can Last*, you and your partner will be able to get on the same page and succeed in your relationship. This book will even help couples that already have a good relationship. When we grow up, there is no relationship 101. We have to learn about relationships from watching our parents and their risky, trial-and-error approach. When we choose our partners, we are essentially taking a gamble that they are the one with whom we belong. By loving them we are gently placing our heart, mind, body, and soul in their hands. We can only hope that they will love and respect us enough to keep us safe from unnecessary heartache and stress. We can better prepare them for handling our emotions if we prepare ourselves for how we want to interact with our partner. This book will help you and your partner get on the same page in your relationship. These important topics in *Love Can Last* will help shift your perspective, so that each of you can take more responsibility for the way that

page....Good writers make writing look easy, but what people like Lehrer do is not easy at all.” —David Brooks, The New York Times Book Review Science writer Jonah Lehrer explores the mysterious subject of love. Weaving together scientific studies from clinical psychologists, longitudinal studies of health and happiness, historical accounts and literary depictions, child-rearing manuals, and the language of online dating sites, Jonah Lehrer’s *A Book About Love* plumbs the most mysterious, most formative, most important impulse governing our lives. Love confuses and compels us—and it can destroy and define us. It has inspired our greatest poetry, defined our societies and our beliefs, and governs our biology. From the way infants attach to their parents, to the way we fall in love with another person, to the way some find a love for God or their pets, to the way we remember and mourn love after it ends, this book focuses on research that attempts, even in glancing ways, to deal with the long-term and the everyday. The most dangerous myth of love is that it’s easy, that we fall into the feeling and then the feeling takes care of itself. While we can easily measure the dopamine that causes the initial feelings of “falling” in love, the partnerships and devotions that last decades or longer remain a mystery. This book is about that mystery. Love, Lehrer argues, is not built solely on overwhelming passion, but, fascinatingly, on a set of skills to be cultivated over a lifetime.
