**Bouncing Back from Rejection** - Leslie Becker-Phelps 2019-12-01

Go beyond your fear of rejection to develop confidence, compassionate self-awareness, and resilience! Do you have a fear of rejection? If so, you aren't alone. But if you have difficulty bouncing back after rejection, experience intense pain as a result, or if the fear of rejection is so crippling that it interferes with your everyday life, it's time to make a change. This groundbreaking guide can help. With this book, you'll learn why you fear rejection by gaining an understanding of your unique attachment style. Secure attachment is defined as a feeling of being protected and well-cared for. People who experience secure attachment as young children are more likely to be happy, healthy, and resilient adults. On the other hand, insecurely

attached people are less likely to cope well with rejection, and may have trouble "bouncing back" after difficult experiences. Once you understand how your attachment style has informed your fears, you can begin the work needed to overcome them! Using the theory of attachment, and the five domains of awareness: Sensations, Thoughts, Emotions, Actions, and Mentalizing (STEAM), you'll learn to relate to yourself and to others in more positive ways, even when difficult situations arise. So, whether you experience rejection in a romantic relationship, at work, or with friends, you'll have the resilience needed to recover quickly and focus on what makes you special and unique. This isn't a book that promises to protect you from future rejection. Unfortunately, rejection happens to everyone and is a normal part of life. But you will learn skills to handle this rejection and come to see it as less scary. With this view, you'll gain confidence, self-awareness, and the resilience needed to bounce back, even when life throws you a curveball.

**The 48 Laws of Power** - Robert Greene  
2000-09-01

Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control - from the author of *The Laws of Human Nature*. In the book that *People* magazine proclaimed "beguiling" and "fascinating," Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence ("Law 1: Never Outshine the Master"), others teach the value of confidence ("Law 28: Enter Action with Boldness"), and many recommend absolute self-preservation ("Law 15: Crush Your Enemy Totally"). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, *The 48 Laws of Power* is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.
