"The Jealousy Cure unlocks the positive power of jealousy for happy relationships." —Foreword
Reviews "Solid counsel for those whose relationships are plagued by jealousy and the individuals it targets." —Library Journal starred review
Could jealousy be a positive thing? In this groundbreaking book, Robert L. Leahy—author of the hugely popular self-help guide, *The Worry Cure*—invites you to gain a greater understanding of your jealous feelings, keep jealousy from hijacking your life, and create healthier relationships. We've all heard tales of the overly jealous spouse or significant other. Maybe we've even been that jealous person, though we may not want to admit it. It's hard to imagine anyone sailing through life without either having feelings of jealousy or being the target of someone's jealousy. But what if jealousy isn't just a neurotic weakness? What if it signals that your relationship matters to you? In short—what if jealousy serves a purpose? In *The Jealousy Cure*, renowned psychologist

Robert L. Leahy takes a more nuanced approach to tackling feelings of jealousy. In this compelling book, you'll uncover the evolutionary origins of jealousy, and how and why it's served to help us as a species. You'll also learn practices based in emotional schema theory, cognitive behavioral therapy (CBT), acceptance and commitment therapy (ACT), and mindfulness to help you overcome the shame jealousy can bring, improve communication with your partner, and ultimately make room for jealousy while also making your relationship more meaningful. You will learn that confronting jealousy in your relationship does not have to be a catastrophe, but can redirect you and your partner to build more trust, acceptance, and connection. We often feel jealous because we fear losing the things or people that matter to us the most. With this insightful guide, you'll discover how jealousy can both help and hurt your relationship, and learn proven-effective skills to keep jealousy in its place. This book has

distance himself further. Most people don't get that rejection can always be overpassed with patience and tenacity. Regardless where you are now and regardless your success with men, you can change present and future, beginning from now on! It will be a nice voyage and I can guarantee you will enjoy it! My empirical researches proved unilaterally that men are wild creatures. They get easily frightened by any kind of sudden gestures. Sometimes they can fly around you, in order to suddenly change later the flight into an opposite direction. If threatens show hostility or passive aggression, they disappear in the attempt to oppose resistance to the "capture". The difficult part comes when you have no interest from man's side. The most important is to keep it alive. You must learn to analyze each step of you before action, like the Queen in chess game who is the strongest member, because she possesses the greatest sense of mobility, so you should dominate chess table too, learning all tricks with knights and

horses, performing in the end a noble check to the king of your heart. Don't lose your heart, if the man you like wants to take a distance in the beginning. Don't try to impose your presence, nor let yourself conquered. Put into action some strategies and a touch of creativity, the desired man only waits to be conquered by you. The simple fact that you've been already reading this page, reveals that you have taken the route of the fulfillment of the most important goals of your life: investment in yourself and your private life.
