Buckets, Dippers, and Lids Carol McCloud 2018-10-01 "I've been a big fan of the timeless concept of Bucket Filling . . . This newcomer . . . brings an important dimension to the idea of filling and dipping by addressing the invisible lid to help with what to do with the ouches in life. . . I think you'll find it'll make the intangible concepts of kindness, resilience and grit something that our learners can hold on to and apply as they learn to sail the somewhat stormy seas of life." —Barbara Gruener, *The Corner on Character* The latest release in the bestselling Bucket Fillers line takes the concept of bucket filling one step further by adding the idea that we also have an invisible lid. Finally Out Loren A. Olson 2017-04 Dr. Loren A. Olson has frequently been asked two questions: How could you not know that you were gay until the age of forty? Wasn't your marriage just a sham to protect yourself at your wife's expense? In *Finally Out*, Dr. Olson answers these questions by telling the inspiring story of his evolving sexuality, into which he intelligently weaves psychological concepts and gay history. This book is a powerful exploration of human sexuality, particularly the sexuality of mature men who, like Dr. Olson, lived a large part of their lives as straight men--sometimes long after becoming aware of their same-sex attractions. Readers will come to understand: - That there is no universal model for coming out - Why many older LGBTQ men came out late, do not come out at all, or come out to varying degrees in different environments - How

stigma has created mental health problems for isolated and closeted men who have sex with men, particularly in geographical areas and cultures where there is little or no acceptance of homosexuality - How sexual function changes but perhaps even improves for older men - That aging creates opportunities that one has never had and may never have again, e.g., freedom from the tyranny of ambition - That some people consistently prefer an older sexual partner and this can lead to stable, intergenerational relationships - How same-sex sexual activity was considered prior to the Stonewall uprising in 1969 contrasted with the way it is perceived after Stonewall - How age, culture, geographical location, heterosexual marriage, and children impact a person's decision to come out - Why "conversion therapy" does not work and may be harmful - The difference between homophobia and homonaiveté - The archetypes of self-identified straight men who seek occasional or regular sex with other men - How to overcome the shame and guilt experienced by men who are sexually attracted to other men

The City Beneath Susan A. Phillips 2019-11-05 A sweeping history of Los Angeles told through the lens of the many marginalized groups—from hobos to taggers—that have used the city's walls as a channel for communication Graffiti written in storm drain tunnels, on neighborhood walls, and under bridges tells an underground and, until now, untold history of Los Angeles. Drawing on extensive research within the city's urban landscape, Susan A. Phillips traces the hidden language of marginalized groups over the past century—from the early twentieth-century markings of hobos, soldiers, and Japanese internees to the later inscriptions of surfers, cholos, and punks. Whether describing daredevil kids, bored workers, or clandestine lovers, Phillips profiles the experiences of people who remain underrepresented in conventional histories, revealing the powerful role of graffiti as a venue for cultural expression. Graffiti aficionados might be surprised to learn that the earliest documented graffiti bubble letters appear not in 1970s New York but in 1920s Los Angeles. Or that the negative letterforms first carved at the turn of the century are still spray painted on walls today. With discussions of characters like Leon Ray Livingston (a.k.a. "A-No. 1"), credited with consolidating the entire system of hobo communication in the 1910s, and Kathy Zuckerman, better known as the surf icon "Gidget," this lavishly illustrated book tells stories of small moments that collectively build into broad statements about power, memory, landscape, and history itself.
