[Are You God Or His Mailman](#) - Chibuzor Obasi 2013-01-21

Time spirals away. It is captured in the play of light and dark, in the back and forth movements of the Niger and its tributaries. It's an intricate intertwining of fates, S.A Stone Jr. is born to a man and woman who had nothing in common other than that they were both on the run. He is one of America's wealthiest men, she a ravishing beauty from a long line of African matriarchs. Here the salvation of a country riddled with greed, corruption and wars is in question. Mr. Sylvester Stone was on the FBI's most wanted list, the KGB wanted him. The Chinese did not care much about him, though he was not their friend. The Middle East still had what he always wanted. Ngozika and her children by a miracle have escaped a war that has left millions dead. In a land where things that once mattered were fast becoming nothing, the Masses constantly question their survival and fate. Are they to be led forever by corrupt warlords? What will the secret held in the discovered ancient Nsibidi Script bring to the nations and their forgotten kingdoms? S.A Stone Jr. is greatly favored, only human. He may have the answer, but the circumstances of his birth pose a personal question, one that may hinder the hope of a future of peace.

[Sex and Pregnancy](#) - Dan Farine 2022-10-27

Pregnant women and their partners often ask healthcare professionals whether sex is safe during pregnancy, and what consequences may result from sexual activity. Many clinicians can also be unsure of the answers to these type of questions, leading to both patient and clinician resorting to the internet for advice, which can be inaccurate and anxiety-inducing. Here, the authors provide clinicians with an insight into the information offered by 'Dr Google' so that they can reassure and advise their patients as necessary. Aimed at obstetricians and other physicians caring for pregnant women, this book reviews the implications of sex during pregnancy such as those complicated by medical conditions, those at risk of preterm birth and multiple pregnancies. Other chapters cover physiological changes during pregnancy that may affect sexual function and intimacy, as well as the differing guidelines provided by various global obstetric societies.

They named it anything but love. After a failed marriage to a domineering man, Erin refuses to be controlled by anything or anyone. That includes Seth, the father of her baby--a man who was supposed to be only a one-night-stand, a man who's used to always getting his way. There's a reason that Seth Thomas, a successful defense attorney, is often referred to as the Bulldozer. If something needs to happen, he makes it happen. That includes being part of his baby's life--even if he never expected to be a father, even if Erin doesn't really trust him. They'll work out an arrangement in the best interest of their baby--and if they occasionally have sex, well, that's just an added perk--but they both agree on one thing. What they have will never be love.

[Communities in Action](#) - National Academies of Sciences, Engineering, and Medicine 2017-04-27

In the United States, some populations suffer from far greater disparities in health than others. Those disparities are caused not only by

fundamental differences in health status across segments of the population, but also because of inequities in factors that impact health status, so-called determinants of health. Only part of an individual's health status depends on his or her behavior and choice; community-wide problems like poverty, unemployment, poor education, inadequate housing, poor public transportation, interpersonal violence, and decaying neighborhoods also contribute to health inequities, as well as the historic and ongoing interplay of structures, policies, and norms that shape lives. When these factors are not optimal in a community, it does not mean they are intractable: such inequities can be mitigated by social policies that can shape health in powerful ways. *Communities in Action: Pathways to Health Equity* seeks to delineate the causes of and the solutions to health inequities in the United States. This report focuses on what communities can do to promote health equity, what actions are needed by the many and varied stakeholders that are part of communities or support them, as well as the root causes and structural barriers that need to be overcome.
