Queer Culture in Romania, 1920-2018 - Ramona Dima 2023-08-12

This book is an in depth, extensive study of Romanian queer cultural products. It brings an essential contribution to the literature on Central and South Eastern European gender studies, post-communism studies, media, and cultural studies, as well as transnational queer studies. The book looks at Romanian queer culture "from inside", and from the acknowledgment that the research process is guided by the sensitivity of the approached topics, by the lack of archival footprints, and by a solid dose of media archaeology, especially when looking at the beginning of Romanian LGBT+ activism in the 90s. The book starts from contemporary Romanian cultural products that are focusing on queer topics and/or produced by queer creators. It looks back at the memories of seminal queer and trans activists in extensive interviews conducted for this volume, and fragmented literary and media sources that cover the most part of the 20th century. About the translation This book has been translated from Romanian by Andreea Moise. The Introduction and Chapter 6 were translated by Maria Cohut.

Locating August Strindberg's Prose - Anna Westerstahl Stenport 2010-11-01

The setting of a novel is more than just an anonymous, interchangeable backdrop. In *Locating August Strindberg's Prose*, Anna Westerstahl Stenport argues that spatial setting is a key - though often neglected - tool for exploring the fundamentals of European literary modernism. Stenport examines the importance of location by exploring the prose of Swedish exile August Strindberg (1849-1912), challenging previous studies of the author that have focused on identity and subject formation. Strindberg wrote in both Swedish and French, situating his stories in various places across Europe - from Berlin to the French countryside, the Austrian Alps, and Stockholm - to purposely destabilize concepts of national belonging, language, and literary history. Close readings of Strindberg's prose find that his boundary-challenging narratives redefine and rewrite the meaning of a marginal literary identity. By contextualizing Strindberg against other early modernists, including Kafka, Conrad, Rilke, and Breton, Stenport emphasizes the burgeoning transnationality of literature at the turn of the last century.

Flori, a Pastoral Drama - Maddalena Campiglia 2007-11-01

One of the first pastoral dramas published by an Italian woman, *Flori* is Maddalena Campiglia's most substantial surviving literary work and one of the earliest known examples of secular dramatic writing by a woman in Europe. Although acclaimed in her day, Campiglia (1553-95) has not benefited from the recent wave of scholarship that has done much to enhance the visibility and reputation of contemporaries such as Isabella Andreini, Moderata Fonte, and Veronica Franco. As this bilingual, first-ever critical edition of *Flori* illustrates, this neglect is decidedly unwarranted. *Flori* is a work of great literary and cultural interest, noteworthy in particular for the intensity of its focus on the experiences and perceptions of its female protagonists and their ideals of female autonomy. *Flori* will be read by those involved in the study of early modern literature and drama, women's studies, and the study of gender and sexuality in this period.

Ruthless Heart - Beth Williamson 2021-06-08

He led her astray, and she never wanted to go back. Sheltered all her life, Eliza Hunter never imagined herself alone in the vast Utah plains, much less trailing a mysterious, rugged man hired to hunt down her beautiful younger sister. Unable to reveal the truth about her pursuit of him, Eliza plays student to the teacher, transforming herself in the process. And she when she finds herself sharing the warmth of Grady's campfire, wrapped in his arms, hypnotized by his power, soon she is a naive spinster no more... Grady Wolfe is more than a loner, he's a man forever on the run, an assassin with a dark past and an even darker future. With a body and soul finely honed from living off the land, Grady knows he should leave the irresistible woman alone, but she stirs something in him he hasn't felt before. Now he's lost in the woods for the first time in his life—with a dangerous job to do. And no one—not even the distracting Eliza—is going to stop him.

The Two of Me - John Birtchnell 2004-08-02

How much of what we do is directed by conscious, deliberate decisions and how much originates in unconscious, automatic directives? This is the question explored in *The Two of Me* via an engaging combination of phenomenological subjective investigation and objective considerations of mental processes and specific structures. John Birtchnell puts forward the thesis that many more of our actions than we might imagine are determined unconsciously. Not only are unnoticed automatic actions motivated unconsciously, but also seemingly conscious or 'thought out' behaviours are actually determined and reinforced by unconscious exigencies. Even where we produce a reasoned discourse taking responsibility for why we hold certain thoughts, there is always the possibility that these explanations serve and follow from an unconscious driving force. The conscious mind seems to act as spokesperson for both itself and the unconscious mind. Investigating this dual aspect of the person, the book addresses the issue across a range of mental processes including memory, language, problem-solving, dreams, delusions, hallucinations and more complex constructs such as the arts, humour and religion.

The Pharaoh's Destiny - Markie Madden 2017-06-01

The year is 1477 B.C.E. and history is about to change... Hatshepsut, the Great King's Wife, is thrust into a world of intrigue and politics when her husband, Pharaoh Thutmose, dies suddenly, leaving Egypt with an heir who is barely two years old. The Queen must step into the role of leader, and there are few she can trust. When Hatshepsut is crowned as Pharaoh, she grooms her daughter, Neferure, to take the place of heir, rather than Thutmose's infant son from another woman. Neferure, though young, is still older than the boy who should by all rights be king. The future of Egypt rests in the hands of a single woman, the most powerful woman in the ancient world. Can Pharaoh Hatshepsut's people accept her unorthodox reign, and her plans to usurp the men's place as rulers of a Kingdom, decreeing that only women are suitable leaders?

Soft Force - Ellen Anne McLarney 2015-05-26

The unheralded contribution of women to Egypt's Islamist movement—and how they talk about women's rights in Islamic terms In the decades leading up to the Arab Spring in 2011, when Hosni Mubarak's authoritarian regime was swept from power in Egypt, Muslim women took a leading role in developing a robust Islamist presence in the country's public sphere. *Soft Force* examines the writings and activism of these women—including scholars, preachers, journalists, critics, actors, and public intellectuals—who envisioned an Islamic awakening in which women's rights and the family, equality, and emancipation were at the center. Challenging Western conceptions of Muslim women as being oppressed by Islam, Ellen McLarney shows how women used "soft force"—a women's jihad characterized by nonviolent protest—to oppose secular dictatorship and articulate a public sphere that was both Islamic and democratic. McLarney draws on memoirs, political essays, sermons, newspaper articles, and other writings to explore how these women imagined the home and the family as sites of the free practice of religion in a climate where Islamists were under siege by the secular state. While they seem to reinforce women's traditional roles in a male-dominated society, these Islamist writers also reoriented Islamist politics in domains coded as feminine, putting women at the very forefront in imagining an Islamic polity. Bold and insightful, *Soft Force* transforms our understanding of women's rights, women's liberation, and women's equality in Egypt's Islamic revival.

Whether your goal is to have fun in a big city with lots of women or fall in love with only one before getting married, Game will help you accomplish your goals in a way that keeps you safe from degrading cultural winds that continue to divide men and women.

Homo Sapiens - Antonio Véllez Montoya 2013-08-20

The themes discussed in this book, translated to English by Australian Kieran Tapsell, form part of a revolutionary discipline known under the name of evolutionary psychology, a discipline that has become the most powerful tool discovered to date for man to understand himself. Much of the knowledge revealed by human science is explained as a result of the evolutionary process, using as a premise the theory that the majority of modern man's desires, impulses, interests and inclinations, and mental faculties were designed by the evolutionary process of the species. This new focus allows us to synthesize a group of already established findings, coming from such diverse disciplines as genetics, evolution, ethology, anthropology, psychology, neurology and epistemology. In this way, it is possible to explain an important part of complex human behavior under one sole, unifying principle: the direct or indirect search for a greater reproductive efficacy. With this work, easily readable by the general public, the author completes a cycle of subjects that he had begun with *From the Big Bang to Homo Sapiens* (2004), a book published in Spanish by Villegas Editores.
