TechnoSex - Cecilia Tan 1993

"There are seven stories in this collection and not a dud among them. Each is a seamless blending of modern technology with good old fashioned smut. Technology unites this collection, but not by using a lot of gimmicks: it defines and reflects human interactions in an inventive and thought-provoking way, while firing up the hormones... The overall intelligence and grace of the writing is remarkable; it is so often lacking in this kind of literature". -- Paramour Magazine Did you know that at the turn of the previous century, the first widely used household small appliance was the handheld vibrator? Or that over 90% of the traffic on the Internet consists of sex-related discussion and material? It seems we human beings will commandeer any new technological invention, regardless its original intent, for sexual stimulation. So what more natural topic for a collection of erotic short stories than the future of that technology? Artificial intelligence, virtual reality, bionics and teledildonics, nanotechnology and genetic engineering, on the horizon of every innovations lies a new world of erotic possibilities and these authors explore them with verve and style.

Psychomagic - Alejandro Jodorowsky 2010-06-18

A healing path using the power of dreams, theater, poetry, and shamanism • Shows how psychological realizations can cause true transformation when manifested by concrete poetic acts • Includes many examples of the surreal but successful actions Jodorowsky has prescribed to those seeking his help While living in Mexico, Alejandro Jodorowsky became familiar with the colorful and effective cures provided by folk healers. He realized that it is easier for the unconscious to understand the language of dreams than that of rationality. Illness can even be seen as a physical dream that reveals unresolved emotional and psychological problems. Psychomagic presents the shamanic and genealogical principles Jodorowsky discovered to create a healing therapy that could use the powers of dreams, art, and theater to empower individuals to heal wounds that in some cases had traveled through generations. The concrete and often surreal poetic actions Jodorowsky employs are part of an elaborate strategy intended to break apart the dysfunctional persona with whom the patient identifies in order to connect with a deeper self. That is when true transformation can manifest. For a young man who complained that he lived only in his head and was unable to grab hold of reality and advance toward the financial autonomy he desired, Jodorowsky gave the prescription to paste two gold coins to the soles of his shoes so that all day he would be walking on gold. A judge whose vanity was ruling his every move was given the task of dressing like a tramp and begging outside one of the fashionable restaurants he loved to frequent while pulling glass doll eyes out of his pockets. The lesson for him was that if a tramp can fill his pockets with eyeballs, then they must be of no

value, and thus the eyes of others should have no bearing on who you are and what you do. Taking his patients directly at their words, Jodorowsky takes the same elements associated with a negative emotional charge and recasts them in an action that will make them positive and enable them to pay the psychological debts hindering their lives.
