The Cultural Politics of Female Sexuality in South Africa - Henriette Gunkel
2010-01-21

Sexual identity has emerged into the national discourse of post-apartheid South Africa,

bringing the subject of rights and the question of gender relations into the nation's politics. This book is a reflection on the effects of these discourses on non-normative modes of sexuality and on the country more generally.

Corrective Rape - Charlayne Hunter-Gault 2015-02-24

In this investigation of sexual violence against LGBTI individuals in South Africa, esteemed journalist Charlayne Hunter-Gault sheds light on practices of "corrective rape" — an assault in which a man rapes a lesbian in an attempt to "cure" her sexual orientation. This book examines the wider social context of anti-LGBTI sentiment in South Africa, a country that was the first in the world to include constitutional language forbidding discrimination on the ground of sexual orientation, and the search for equality in a post-apartheid nation. Hunter-Gault interviews sexual assault victims and explores South Africa's problem of sexual violence — particularly against black lesbians — within the lens of the country's complicated history towards human rights. Based on a 2012 article the author originally published in the New Yorker, this book features an extensive amount of new material with updated historical perspective, interviews, and case studies. Corrective Rape is a critically

important and eye-opening account of a devastating problem within one of Africa's most populous and economically advanced nations. Anyone concerned with the rights of individuals in the gay and lesbian community, as well as human rights in general around the world, needs to be informed on this topic. Hunter-Gault, an award-winning journalist with years of experience reporting on civil rights and injustice around the globe, has crafted an engaging, fast-paced read that will spur dialogue and inspire action.

Gender, Sexuality and Violence in South African Educational Spaces - Deevia Bhana 2021-04-20

The book focuses on the ways in which gendered and sexualised systems of power are produced in educational settings that are framed by broader social and cultural processes, both of which shape and are shaped by children and young people as they interact with each other. All these nuanced features of gender and sexuality are vital if we are

to understand inequalities and violence, and fundamental to our three-ply yarn approach in this book. Focusing on the South African context, but with international relevance, the authors adopt the metaphor of the three-ply yarn (Jordan-Young, 2010): these being the cross-cutting themes of gender, sexuality and violence. Subsequently, the book illustrates the intimate ties that bind gender and sexuality with the social and cultural dimensions of violence, as experienced in educational settings.

Sex in Transition - Amanda Lock Swarr 2012-11-20
Argues that South Africa's apartheid system of racial segregation relied on an unexamined but interrelated system of sexed oppression that was at once both rigid and flexible.

Hidden Sexualities of South African Teachers - Thabo Msibi 2018-01-17

South Africa remains a global leader in the legislative protection of individuals who engage in same-sex relations,

and is the only country in Africa where the rights of these individuals are explicitly recognized and protected by the constitution. Yet South Africa's identities are still contested and evolving, particularly for same-sex desiring teachers - many are forced to locate their sexualities privately for fear of being ostracized, bullied or losing their jobs, resulting in the miseducation of young people in schools. This volume reveals the various ways in which black South African male teachers construct their sexual and professional identities, how they accommodate structural dictates while simultaneously resisting them, and the effect this has on students. Presenting the day-to-day experiences of eight same-sex desiring teachers within repressive contexts, this volume challenges the Western origins and assumptions of queer theory, particularly its inability to confront communal forms of social organizing and its focus on individual agency. It asks for more socially

The Apartheid of Sex - Martine Aliana Rothblatt 1995

"Is the categorization of people from the moment of birth as either male or female a form of sexual segregation as pernicious as racial apartheid? In this bold and provocative manifesto, Martine Rothblatt cites current academic opinion and research to argue that the answer is yes - and that the time is right for a new sexual revolution." "In The Apartheid of Sex, Rothblatt makes a case for the adoption of a new

sexual model that accommodates every possible shade of gender identity. It reveals that traditional male and female roles are dictated neither by genetics, genitals, nor reproductive biology, but rather by social attitudes that originated in early patriarchal cultures and that have been institutionalized in modern law. In the name of the countless people of unique gender who continue to suffer on the procrustean bed of sexual duality, Rothblatt calls for a new acceptance of human sexuality in all its prismatic variety." --BOOK JACKET. Love, Sex and Teenage Sexual Cultures in South

Africa - Deevia Bhana

2017-10-25

Love, Sex and Teenage Sexual Cultures in South Africa interrupts the relative silence around teenage constructions of love in South Africa. Against the backdrop of gender inequalities, HIV and violence, the book situates teenage constructions of love and romance within the wider social and cultural context underwritten by the histories of apartheid, chronic unemployment, poverty, and the endless struggle to survive. By drawing on focus group discussions with African teenage men and women, the book addresses teenage Africans as active agents, providing a more nuanced picture of their desires and their dilemmas through which sexuality and love are experienced. The chapters in the book conceptualise desiring love, material love, pure love, forced love and fearing love. It argues that love is intrinsically linked to cultural practices and material realities which mold particular formations of

teenage masculinities and femininities. This book will be of interest to academics, undergraduates, postgraduates and researchers in sociology, HIV, health and gender studies, development and postcolonial studies and African studies.

The Psychology of Gender -

Gary Wood 2018-03-15

What is the difference between sex and gender? What is the impact of gender-role stereotypes on our lives, our relationships and the world? What does gender mean to you? The Psychology of Gender looks at our biology, history and culture to consider the impact of gender roles and stereotypes, and addresses the 'dilemmas' we have regarding gender in a post-modern world. It offers a unique perspective on gender through storytelling and explores ideas around transgender and cisgender identities and androgyny, tackling hidden assumptions and helping us make sense of the world of gender. By examining the future of gender, The Psychology of

Narrative Landscapes of Female Sexuality in Africa - Samantha van Schalkwyk 2018-10-06

This book explores the textures of women's narratives of patriarchal oppression of female sexuality. Postcolonial feminist scholars in Africa highlight the importance of moving beyond Westernised lenses of 'African' women's powerlessness, towards a focus

on women's culturally-specific sexual agency. However, few studies explore women's psychological experiences of sexual oppression/agency in real depth. Narrative Landscapes of Female Sexuality in Africa traces the narratives of heterosexual migrant women from Zimbabwe, Kenya and Congo. The book offers insight into women's experiences 'back home,' travelling through border posts in Africa, and life in current post-apartheid South Africa. Through a unique collectively-based methodology and a feminist poststructuralist lens, the author examines narrative strategies used by the women to manage and psychologically resist harmful discourses surrounding female sexuality and women's bodies. The book offers rich exploration of the intersections of gender and sexuality, class, race and citizenship situating the narratives within the wider context of poverty and migration in sub-Saharan Africa. These vectors of oppression are illuminated

Sex and Politics in South Africa

- Neville Wallace Hoad 2005

This book tells how South Africa came to lead the world in enshrining sexual equality in our Bill of Rights, which forms part of the Constitution. The achievement, which has been hailed as a model for the rest of the world, did not come about without a long struggle. This was spearheaded by gender activists and movements during the 1980s, whose campaigns on the one hand evoked hostility from the apartheid state and were also dismissed as an irrelevance by conservative factions within the liberation movement. Indeed, the end of apartheid did not automatically guarantee that sexual equality would be realised, and the book explains how in the end this was achieved. The volume draws upon the rich archive of the Gay and Lesbian association and incorporates

fascinating first-hand documents from the time as well as essays by participants in the events and later commentators.

Sexual Diversity in Africa -

S.N. Nyeck 2013-10-01

How does one address homophobia without threatening majority rule democracy and freedoms of speech and faith? How does one "Africanize" sexuality research, empirically and theoretically, in an environment that is not necessarily welcoming to African scholars? In *Sexual Diversity in Africa*, contributors critically engage with current debates about sexuality and gender identity, as well as with contentious issues relating to methodology, epistemology, ethics, and pedagogy. They present a tapestry of issues that testify to the complex nature of sexuality, sexual practices, and gender performance in Africa. Essays examine topics such as the well-established same-sex networks in Accra and Bamako, African "traditions" defined by

European observers, and the bizarre mix of faith, pharmaceuticals, and pseudo-science used to "cure" homosexual men. Their evidence also demonstrates the indefensibility of over-simplified constructions of homosexuality versus heterosexuality, modern versus traditional, Africa versus the West, and progress from the African closet towards Western models of out politics, all of which have tainted research on same-sex practices and scientific studies of HIV/AIDS. Asserting that the study of sexuality is intellectually and politically sustainable in Africa, *Sexual Diversity in Africa* contributes to the theorization of sexualities by presenting a more sensitive and knowledgeable study of African experiences and perspectives. Contributors include Olajide Akanji, Christophe Broqua, Cheryl Cooky, Serena Owusua Dankwa, Shari L. Dworkin, Marc Epprecht, Melissa Hackman, Notisha Massaquoi, Crystal Munthree, Kathleen O'Mara, Stella Nyanzi,

S.N.Nyeck, Vasu Reddy, Amanda Lock Swarr, and Lisa Wiebesiek.

The Apartheid of Sex - Martine Rothblatt 1996

Dividing people according to gender is as nonsensical as racial apartheid. This manifesto shows that traditional male and female roles are defined neither by genetics, nor genitals, nor biology, but by social attitudes.

Post-Apartheid Same-Sex Sexualities - Andy Carolin 2020-12-31

This book examines how same-sex sexualities are represented in several post-apartheid South African cultural texts, drawing on a rich local archive of same-sex sexualities that includes recent fiction, drama, film, photography, and popular print culture. While the book situates these texts within the specific context of post-apartheid South Africa, it also looks outwards towards transnational connectivity and cultural flows. The author uses

the idea of restlessness to refer to the uneven flow of cultural tropes, political sentiment, ideas, ideologies, and representational modes across geographical boundaries, across time and space, and between genres, presenting sexual cultures as simultaneously rooted and transnational. He focuses on how notions of race and gender, in the shadow of colonialism and apartheid, play out in the present and shape how sexualities are represented. This interdisciplinary book offers a conceptual entry point to several areas of study, including transnationalism, literary and cultural studies, critical race theory, gender and sexuality studies, and African studies, and will be of interest to students and researchers across these fields. Its inclusion of a range of textual genres extends its reach into visual culture, film and media studies, history, and politics.
