Book Review - Hayleigh Sol 2020-09-04

An unexpected review of his latest book has author Jax desperate to meet his mystery critic in this romantic comedy page-turner that keeps you asking: Will they or won't they Dr. Sophie Grimaldi is successful and happy in her career, if not in love. She's single and content to remain that way. Any romantic notions that men are decent and true love exists are indulged only with her book boyfriends. Best-selling author Jax Rowland is writing the first book of his next spy thriller series and it's not going well. He's struggling to forge a deeper connection between his protagonist and not-another-Bond-girl. If he fails, he faces even more negative reviews from his disenchanted female readers. When Sophie finds a sheet of Jax's notes in a library book, she's appalled by his attempt at a love scene and critiques it. She never imagines the author will read her review. Embarrassed to view his work through a mystery critic's eyes, Jax recognizes her talent and hires Sophie to edit the love scenes of his next novel. As they get to know each other through the work and discover all they share in common, a desire for more than a working relationship or friendship grows. But,

after a series of missed connections and unexpected twists, it seems fate has other plans. Will they continue to play it safe and single or will they risk another heartbreak for a chance at love? Note: Book Review is a full-length standalone steamy, sweet romance with some adult language. The end of this book is not a cliffhanger but, if you prefer a tidy conclusion, this may not be the book for you. Reader discretion is advised.

Writing Genre Fiction - H. Thomas Milhorn 2006-03
Several years ago, after many years of writing nonfiction, I decided to write a novel-a medical thriller in the mold of Robin Cook, Michael Crichton, and Michael Palmer. The problem was that, although I knew how to write and had received a number of awards for nonfiction works, I didn't know the how to write fiction. So, before putting fingers to keyboard I did a thorough search of the literature, which included reading numerous books and hundreds of website articles. What I discovered was that there simply wasn't one good source from which to learn the craft of writing genre fiction. "Writing Genre Fiction: A Guide to the Craft" is the book I was looking for when I set out on my quest to learn how to write fiction. It is an

attempt to share what I learned from my research. It covers the six key elements of genre fiction; the various genres and subgenres; a large number of genre-fiction writing techniques; plot, subplots, and parallel plots; structure; scene and sequel; characterization; dialogue; emotions; and body language. It also covers additional information about copyrighting and plagiarism, where to get ideas, manuscript formatting and revision, and query letters and synopses. In addition, an appendix covers a large number of grammar tips.

Who Do You Love - Jennifer Weiner 2015-08-11
From the "hilarious, heartbreaking, and insightful" (The Miami Herald) bestselling author Jennifer Weiner comes a sweeping, modern day fairy tale about first romance and lasting love. Rachel Blum and Andy Landis are eight years old when they meet late one night in an ER waiting room. Born with a congenital heart defect, Rachel is a veteran of hospitals, and she's intrigued by the boy who shows up all alone with a broken arm. He tells her his name. She tells him a story. After Andy's taken back to the emergency room and Rachel's sent back to her bed, they think they'll never see each other again. Rachel, the beloved, popular, and protected daughter of two doting parents, grows up wanting for nothing in a fancy Florida suburb. Andy grows up poor in Philadelphia with a single mom and a rare talent that will let him become one of the best runners of his generation. Over the course of three decades, through high school and college, marriages and divorces, from the pinnacles of victory and the heartbreak of defeat, Andy and Rachel will find each other again and again, until they are finally given a chance to decide whether love can surmount difference and distance and if they've been running toward each other all along. With honesty, wit, and clear-eyed observations about men and women, love and fate, and the truth about happy endings, Jennifer Weiner delivers two of her most memorable characters, and a love story you'll never forget.

Ugly Love - Colleen Hoover 2014-08-05
From Colleen Hoover, the #1 New York Times bestselling author of *It Starts with Us* and *It Ends with Us*, a heart-wrenching love story that proves attraction at first sight can be messy. When Tate Collins meets airline pilot Miles Archer, she doesn't think it's love at first sight. They wouldn't even go so far as to consider themselves friends. The only thing Tate and Miles have in common is an undeniable mutual

attraction. Once their desires are out in the open, they realize they have the perfect set-up. He doesn't want love, she doesn't have time for love, so that just leaves the sex. Their arrangement could be surprisingly seamless, as long as Tate can stick to the only two rules Miles has for her. Never ask about the past. Don't expect a future. They think they can handle it, but realize almost immediately they can't handle it at all. Hearts get infiltrated. Promises get broken. Rules get shattered. Love gets ugly.

Maeve must choose between what she needs and what she wants, while Cole has a tendency to avoid decisions altogether. And the future might not wait for either.

Love Scene, Take Two - Alex Evansley
2018-06-12

Debut author Alex Evansley delivers a sweet summer romance in this inventive novel about a young heartthrob and teen author falling in love. Teddy Sharpe is kind of famous. He might actually be on his way to being really famous, especially if he'd nailed an audition for the lead role in the movie adaptation of the newest bestselling young adult book series. There's just one problem: He totally blew the audition. And

he's stuck in a tiny North Carolina airport. And his maybe-ex-girlfriend kind of just broke up with him. The weekend isn't exactly looking good until Bennett Caldwell, author of the very book series he just auditioned for, takes pity on him and invites him to her family's lake house. Away from the glitz and glam of Hollywood for a few days, Teddy starts to relax . . . and somehow he and Bennett just click. But dating is hard enough when you aren't the subject of several dozen fanblogs, and the Internet is full of juicy gossip about Teddy and Bennett . . . gossip that Bennett might not be prepared to handle. Chosen by readers like you for Macmillan's young adult imprint Swoon Reads, Alex Evansley's debut novel, written from both Bennett and Teddy's perspectives, will have teens laughing, swooning, and falling in love along with these fantastically relatable characters. Praise for *Love Scene, Take Two*: "A modern, cool, lovable story that easily makes you swoon." —SofiaTypes, reader on SwoonReads.com "This story had me laughing and crying." —Basicgrill, reader on SwoonReads.com

Sloane's job. But what happens when the lines between script and reality get blurred? Out-of-work actress Sloane Ford is in desperate need of something to do after losing her steady TV gig. When her famous family ropes her into working as a producer on their World War II-era romance, they neglect to mention that the film will be headlined by Joseph Donovan, her least favorite former co-star of all time. The roguish actor made her life a living hell the last time they worked together, using his movie star good looks and Irish charm to cover for his erratic professional behavior. On their new film set, he promises he's different now, but Sloane is far from convinced. As filming gets underway, it becomes clear that anything that can go wrong will go wrong. When the lead actress is abruptly fired, Sloane agrees to step in and take over the role, and she starts to remember why she fell in love with acting in the first place. On camera, she and Joseph share an electric chemistry. Off camera, they've been honing their characters and, much to Sloane's surprise, growing closer. But playing the role of a woman in love with Joseph Donovan is a dangerous business, and the more time they spend together, the less Sloane can tell what's real between them, and what's just for show.

Love Scenes - Dirk Wales 2002-08-06

Ten couples and ten opportunities for a love scene. In *Love Scenes* there is a stripping away of the extraneous and the exposure of the essential. Love scenes here become the "tuned down corners" of the novels we may not have the time to read, yet these are the parts that we want to read the most. Like all love scenes, some go better than others as shown by the young married couple in *Knoxville, 1915*. Deeper, more meaningfully. Others show promise, as in *Braille*, wherein a blind woman shows a sighted man the beauties of darkness. Some love scenes need to be kick-started — sound familiar? — wherein another couple, thieves, are too tired even to love their loot in *For the Love of Money*. But, there is loving bewilderment as well. There are miles and miles between the lovers in *The Quilting Sisters in Minnesota*, and *An Actor Prepares* in New York, but the search for a comforting love scene goes on, whether on a stage or lovingly quilted into a blanket. There is just enough scaffolding in these love scenes to

hold the lovers and their brief idea, with hardly a thought about what might happen afterward. The imperfect search for the perfect love scene. **Not You It's Me** - Julie Johnson 2015-07-07 Gemma Summers is unlucky in love. She's known it since third grade, when her first crush blew a spitball into her hair, and a decade-long string of bad dates, boring sex, and abysmal morning-afters has done nothing to improve her prospects. When a random radio contest lands her courtside tickets to the hottest playoff game of the season, Gemma thinks her luck may finally be on the upswing — at least, until the dreaded jumbotron kiss-cam lands on her and her date, who's too busy ignoring her to notice...

Thankfully, the sexy stranger sitting next to her is more than willing to step in. One kiss. Two strangers. No strings attached. Or... so she thinks. Turns out, kissing Chase Croft — Boston's most eligible bachelor — may be enough to convince even a girl who's given up on love to let down her guard one last time... **NOT YOU IT'S ME** is a full-length, comedic contemporary romance about a girl who doesn't believe in love... and the man who changes her mind. It is the first installment of the internationally bestselling **BOSTON LOVE STORY** series and can be read as a complete standalone. Due to sexy-times and strong language, it is intended for readers 17 and up. [Love from A to Z](#) - S. K. Ali 2019-04-30 From William C. Morris Award Finalist S.K. Ali comes an unforgettable romance that is part *The Sun Is Also a Star* mixed with *Anna and the French Kiss*, following two Muslim teens who meet during a spring break trip. A marvel: something you find amazing. Even ordinary-amazing. Like potatoes—because they make French fries happen. Like the perfect fries Adam and his mom used to make together. An oddity: whatever gives you pause. Like the fact that there are hateful people in the world. Like Zayneb's teacher, who won't stop reminding the class how "bad" Muslims are. But Zayneb, the only Muslim in class, isn't bad. She's angry. When she gets suspended for confronting her teacher, and he begins investigating her activist friends, Zayneb heads to her aunt's house in Doha, Qatar, for an early start to spring break. Fueled by the guilt of getting her friends in trouble, she resolves to try out a newer, "nicer"

version of herself in a place where no one knows her. Then her path crosses with Adam's. Since he got diagnosed with multiple sclerosis in November, Adam's stopped going to classes, intent, instead, on perfecting the making of things. Intent on keeping the memory of his mom alive for his little sister. Adam's also intent on keeping his diagnosis a secret from his grieving father. Alone, Adam and Zayneb are playing roles for others, keeping their real thoughts locked away in their journals. Until a marvel and an oddity occurs... Marvel: Adam and Zayneb meeting. Oddity: Adam and Zayneb meeting.

Maggie Gardiner isn't good enough. She had six glasses of wine at a work conference, woke up covered in curry and has accidentally ended up living with the boring guy who was supposed to be a one night stand. Something has to change. Every other twenty-something on Instagram seems to have their sh*t together, so why doesn't she? And so she makes a list. When she's ticked off every item, she'll become Maggie 2.0 - the best version of herself, and the one she wants to be. Won't she...? 1. Go vegan. It worked for that girl on Twitter. 2. Take up yoga - that woman she hate-follows swears by it 3. Start practising mindfulness - all those people can't be wrong... 4. Quit smoking. It's not 1999. This Is Not A Love Story is a book for anyone who's ever wished they were perfect. It's a book for anyone who feels like a failure. And it's not a love story, it's a real story. And it's hilarious.
