The Broadview Anthology of British Literature Volume 4: The Age of Romanticism - Second Edition - Joseph Black 2010-07-23

In all six of its volumes The Broadview Anthology of British Literature presents British literature in a truly distinctive light. Fully grounded in sound literary and historical scholarship, the anthology takes a fresh approach to many canonical authors, and includes a wide selection of work by lesser-known writers. The anthology also provides wide-ranging coverage of the worldwide connections of British literature, and it pays attention throughout to issues of race, gender, class, and sexual orientation. It includes comprehensive introductions to each period, providing in each case an overview of the historical and cultural as well as the literary background. It features accessible and engaging headnotes for all authors, extensive explanatory annotations, and an unparalleled number of illustrations and contextual materials. Innovative, authoritative and comprehensive, The Broadview Anthology of British Literature has established itself as a leader in the field. The full anthology comprises six bound volumes, together with an extensive website component; the latter has been edited, annotated, and designed according to the same high standards as the bound book component of the anthology, and is accessible by using the passcode obtained with the purchase of one or more of the bound volumes. The second edition of volume 4: The Age of Romanticism includes James Hogg, Matthew Gregory Lewis, and John Polidori as well as new selections by Mary Shelley, Sir Walter Scott, Maria Edgeworth, Anna Laetitia Barbauld, and Percy Shelley. The new edition also includes two new sections of contextual materials. New to the bound book is "The Natural, The Human, The Supernatural, and the Sublime"—a section that includes not only a good selection of material from writers such as Edmund Burke and artists such as J.M.W. Turner but also material that may be less well known on topics such as changing human attitudes towards non-animals. New to the website is a wide-ranging selection of contextual materials on the Industrial Revolution, entitled "Steam Power and the Machine Age". Additional highlights of this volume include: Jane Austen's Lady Susan, a

lesser-known but wonderfully readable epistolary short novel; "A Hymn to Na'ra'yena" by Sir William Jones; and, in an exception to the anthology's general policy of including works in their entirety, Mary Shelley is represented by the last two chapters of The Last Man and by a selection of letters.

Nicene and Post-Nicene Fathers: First Series, Volume IV St. Augustine: The Writings Against the Manichaeans, and Against the Donatists - Philip Schaff 2007-05-01

"The Council of Nicaea in 325 AD marked the beginning of a new era in Christianity. For the first time, doctrines were organized into a single creed. The Nicene and Post-Nicene Fathers did most of their writing during and after this important event in Church history. Unlike the previous era of Christian writing, the Nicene and Post-Nicene era is dominated by a few very important and prolific writers. In Volume IV of the 14-volume collected writings of the Nicenes and Post-Nicenes (first published between 1886 and 1889), readers will find Augustines writings defending the Catholic church against the Manichaeans and the Donatists. Manichaeism was a religion developed in Persia by the prophet Mani. According to this religion, creation has two parts: darkness and light. Light is God and has ten attributes. Opposing this, and coeternal with it, is darkness and its five attributes. Saint Augustine was originally a Manichaean, so his defense of Christianity against this religion comes from a deep understanding of its nature. Donatists were a group of believers who refused to forgive those who had renounced their faith during a time of persecution, which caused a schism in Christianity. In opposing these men, Augustine attempted to mend the rift. Those with an interest in ancient religions will find Augustines writings on Manichaeism one of the most important historical records of that religions practices."

The Pulpit Commentary, Volume 4 - Spence-Jones, Henry 2015-08-14

The Pulpit Commentary was first published between 1880 and 1919 and is a highly respected work written by conservative, trustworthy men. Containing over 22,000 pages and 95,000 entries, it is one of the largest and best-selling homiletic commentary sets of all time. It was directed by editors Joseph Exell and Henry Donald Maurice Spence-Jones and utilized more than 100 authors over a 30-year span. When reading this commentary, it is not difficult to see why it has remained a favorite amongst pastors for more than 100 years. There are three key elements

which set this apart from its contemporaries, the first being that it gives an exposition, or verse-by-verse, annotation of each verse in the Bible. The second element is that it explores the framework of the text, the homiletics. Finally, it supplies the homilies with multiple model sermons from various authors. Also included is a translation as well as historical and geographical information. The Evangelical Magazine and Missionary Chronicle declared, "This commentary bids fair to take a conspicuous place among the ever-multiplying aids to the study of the Holy Scriptures. It will revive the great work of Lange, and will far exceed the Speaker's Commentary in the bulk and fullness of its material. The peculiarity of the Pulpit Commentary is that it offers special assistance to the preacher: first by giving him a critical and exegetical exposition of the text of Scripture, and then providing him with succinct and helpful directions as to the preachable aspects of the chapter and paragraph already explained." The print edition of this set typically retails for more than \$1,000 making the current offered price a very good bargain. Due to its size, it has been broken up into nine separate volumes: Volume 1 Genesis to Joshua Volume 2 Judges to 2 Kings Volume 3 1 Chronicles to Job Volume 4 Psalms to Song of Songs Volume 5 Isaiah to Daniel Volume 6 Hosea to Malachi Volume 7 Matthew to John Volume 8 Act to Philippians Volume 9 Colossians to Revelation The footnotes have been placed in line with the text with each footnote number enclosed in red brackets (i.e.: []) and the text in green. There is also a linked table of contents at the beginning of each volume for ease of navigation. Key Features * Over 22,000 pages with more than 95,000 entries * One of the largest and exhaustive commentary sets of its kind * Contributions from over 100 authors * Expositions—with thorough verse-by-verse commentary of each verse of the Bible * Homiletics—with the framework or overall look of the text * Homilies—four to six sample sermons from various authors * Detailed information on Biblical customs * Historical and geographical information * Translations of key Hebrew and Greek words All 23 Volumes of the printed version are included in these nine volumes. 1.
