## **Noel Tyl's Rectification Dvd6: Determining the Ascendant. Employing Arcs and Transits.**

**Cleopatra of Egypt / George Washington.** - Noel Tyl 2012-01

For many astrologers, the thought of doing a rectification can be terrifying. Rectification is the art and science of determining a nativity when the birth date, time, and/or location are unknown. Why can this be terrifying? Because astrologers will make determinations and give advice based on that discovered horoscope. If you perform a rectification--a must for people who don't have all of their birth information--and don't have the right version of the rectified chart, the information you provide your client may be decidedly wrong. Give a client inaccurate advice because your rectification was incorrect and the decisions and choices your client makes could be...well, let's not go there. Instead, just consider what could happen and you'll see why some astrologers won't touch rectification, even though it's a vital skill. Leave it to Noel Tyl to boldly go where other astrologers fear to tread! In Rectification, the sixth volume of his Masterwork Series of DVDs, Tyl reveals the skills that will help you get over any fears you might have of the rectification process. As is typical in Tyl's technique, the method goes beyond merely looking at numbers. Here he shows you how to use your logic, your wits, and your perceptions to make valid rectified charts, resulting in accurate astrological interpretations and predictions. If you've been afraid of doing rectifications, or simply haven't done them before, this DVD will bring you the insights that will allow you to take your astrological skills to a higher level. This DVD is a must for anyone who is a professional astrologer, who wants to become a professional, or simply wants to advance their astrological knowledge and skill.

**Intimate Relationships** - Mavis Klein 2013-09-27

If human life, as the author argues, is a constant and desperate bid to compensate for our mortality, then the desire to love and to be loved is our greatest imagined panacea against the fact of our death. In modern Western society our problems have changed: now, with our stomachs full, our need to feel we are struggling to survive has become increasingly focussed on a growing dissatisfaction and insecurity in our personal relationships. Drawing on her 35 years' experience as an individual and group psychotherapist, Mavis Klein here elaborates her original theory of five basic personality types, ten compound types, and fifteen ways in which the basic types interact with each other in our relationships to others. She clearly elucidates the behaviours that disguise our often self-induced pains, and how these pains can be transmuted into our greatest talents and joy. This book addresses the reality of the world we are so often unwilling to accept: the irrational and violent world of shame, doubt, guilt, fear, love and hate.
