The Secret of Perfect Living James T. Mangan 2015-11-13 MORE THAN FORTY-FIVE YEARS OF INTENSIVE STUDY and thousands of experiments with people from all walks of life have gone into the creation of what I call Perfect Living. And what is Perfect Living? Perfect Living is a state of absolute self-togetherness, a union of the conscious and subconscious selves for the ultimate good and benefit of your whole person. Though this union of an individual's two selves has been much written and talked about, little has been accomplished to bring it down to a tangible level. In my own mind-science studies I concentrated on discovering a practical method of uniting the conscious mind and the subconscious, and found a technique through which such a union can be achieved. My technique calls for four easily adopted attitudes and the use of switchwords, a means by which the conscious mind can "talk to" and direct the thought patterns of the subconscious. Through these switchwords the conscious person gains the cooperation of his subconscious self, creating an inner harmony that brings immediate results. For example, how often is your day spoiled by a persistent, nagging pain or headache? Aspirin may bring temporary relief, but it doesn't get to the cause, and the pain returns. Wouldn't it be wonderful to be able to utter a single word which would instantly cause all pain to vanish? There is such a word, and Chapter 9 of this book explains in detail how you can make it work for you. Or have you ever lost or misplaced some important or valuable possessions? The more desperately you search for the object, the more it seems to elude you. But with one of the magic switchwords you relax and let your Inner Self bring you to the thing you are searching for. Chapter 8 covers the details on how you can turn on your own finder machinery. These are only two small examples of what Perfect Living and its switchwords can do for you. With Perfect Living you can do anything. You can: 1. Conquer all your fears. 2. Learn to relax. 3. Keep yourself forever young. 4. Overcome despair and "blue" moods. 5. Begin to know yourself. 6. Get along better with other people. 7. Set goals and achieve them. 8. Gain money and new prosperity. 9. Free yourself of bad habits. 10. Achieve glowing health and freedom from pain. 11. Release your hidden abilities. 12. Be a permanently happy person, invulnerable to any upset or setback. But the benefits of Perfect Living are endless and the book itself explains them all to you. Why not put this modern miracle to work now? Make Perfect Living a part of your life!

Doing Magic Genevieve Davis 2014-04-29 Doing Magic is book two of a complete course in becoming creator of your own exceptional life. In these two books, I outline the exact steps which enabled me to move my own life from one of poverty and drudgery, to one of previously unimaginable wealth, love, purpose and joy. 'But Magic? I do hope you are joking!' That's what I would have said, five or ten years ago. I once despised all things 'New-Age', all these spiritual types and their airy-fairy views, their bad science and their irrational beliefs. I read all the great Law of Attraction writers, Wallace Wattles, Anthony Robbins, Rhonda Byrne, Napoleon Hill, Esther Hicks and Wayne Dyer. But no matter how closely I followed their instructions for manifesting love, money or happiness, I couldn't make it work. It was only when I recognised, accepted and finally embraced that what I was doing was actually some kind of Magic that suddenly things began to fall into place. Once I realised that the power came from within me, it was as if the light had suddenly been switched on. I learned how to manifest money and love, but I also learned how to be happy, truly happy. If you're jaded by the whole New-Age idea of The Laws of Attraction, and have become bored by their failure to deliver... these books are for you. It is my intention to lead you by the hand through a marvellous journey of wonder and adventure. Part one of this course, Becoming Magic, laid the groundwork for becoming a magical person, while this second book, Doing Magic, offers concrete techniques and instructions for bringing wonderful things into your life. The plan is to build your knowledge slowly, gradually, building on what has gone before, moving on to more complex techniques only once the basics are mastered. So many people fail with Magic and the Law of Attraction because they rush headlong into using techniques, trying to create enormous manifestations, making very simple but crucial mistakes. When they are disappointed, they imagine they have been duped. The sceptics are right. This is all a load of scammy nonsense. And they give up, declaring it just doesn't work. I am telling you that it does work. And you can make it work. And these books will show you how. My intention is that these books will allow you to become a true creator of your own life, reawakening and rekindling your belief and interest in The Laws of Attraction, Cosmic Ordering, Manifesting Reality or whatever you wish to call it. I

prefer simply to call it Magic.

Western Esotericism and the Science of Religion International Association for the History of Religions. Congress 1998 This volume is based upon papers read during the innovative section "Western Esotericism and the Science of Religion" organized at the 17th International Congress of the International Association for the History of Religions (IAHR) in Mexico City, August 5-12, 1995. The section was created in order to fill a long-standing hiatus in the academic study of religions: whereas phenomena such as gnosticism and hermetism in antiquity, and even the occult sciences of that period, have long been recognized as subjects worthy of serious investigation, the history of similar and related phenomena in more recent periods has hardly received the same measure of scholarly attention and recognition. The present volume is devoted to the academic emancipation of these areas as constituting a legitimate domain of research, which may be referred to by the generic label "western esotericism". Preceded by an introductory essay on the birth of this new discipline in the study of religion, the volume provides a sample of current research in the field and devotes special attention to some central methodological questions.

Becoming Rich: A Method for Manifesting Exceptional Wealth Genevieve Davis Now, in response to huge reader demand, this latest addition to my magical Course in Manifesting series turns to the subject of money. In Becoming Rich, you'll not only learn the precise details of how you can use Magic to transform your entire financial world and start bringing money flowing to you. So, why Magic? Only a few years ago I lived in a tiny flat, working twelve hours a day in a factory for minimum wage. Today, I live in a beautiful home by the sea, often earning more in one month than I used to in an entire year. In this book you will discover the steps that enabled me to turn my financial life around in this amazing, life-changing way. The change in my financial circumstances was so dramatic, it makes more sense to describe it as involving Magic than anything else. And when money starts to come tumbling your way in a manner that goes far beyond mere coincidence and luck, you will no longer doubt that Magic exists. Yet my finances were actually the last thing I mastered 'magically'. I felt cursed, blocked, financially stuck for ages. But having got things right once or twice, I went on to discover that, even after a lifetime of poverty, money turned out to be the very easiest thing of all to manifest using Magic. And I went on to bring an unbelievable amount of money into my life. If you're jaded by the whole New Age Law of Attraction idea, or have become bored by its failure to deliver... this book is for you. Because this is a practical book, offering concrete techniques and instructions for bringing wonderful things into your life. You're looking at this book because you need money, and it's now time to bring that money into your life. The plan is to build your knowledge slowly, gradually, building on what has gone before, moving on to more complex techniques only once the basics are mastered. So many people fail with Magic and the Law of Attraction because they rush headlong into using techniques, trying to create enormous manifestations, trying to manifest huge sums of money off the bat ... but making very simple yet crucial mistakes. When they are disappointed, they imagine they have been duped. The sceptics are right. This is just a load of nonsense. Then they give up, declaring it just doesn't work. But I can assure you it does work. And you can make it work. This book will show you how. My intention is make sure that Becoming Rich will allow you to become a true creator of your own financial life, reawakening and rekindling your belief and interest in The Law of Attraction, Reality Creation, Cosmic Ordering or whatever you wish to call it. I prefer simply to call it Magic.

Widely received in France, this brief, comprehensive introduction to Western esotericism by the founder of the field is at last available in English. A historical and pedagogical guide, the book is written primarily for students and novices. In clear, precise language, author Antoine Faivre provides an overview of Western esoteric currents since late antiquity. The bulk of the book is laid out chronologically, from ancient and medieval sources (Alexandrian hermetism, gnosticism, neoplatonism), through the Renaissance up to the present time. Its coverage includes spiritual alchemy, Jewish and Christian Kabbalah, Christian theosophy, Rosicrucianism, Illuminism, 'mystical' Free-Masonry, the Occultist current, Theosophical and Anthroposophical Societies, the Traditionalist School, and 'esotericism' in contemporary initiatic societies and in New Religious Movements. Faivre explores how these currents are connected, and refers to where they appear in art and literature. The book concludes with an annotated bibliography, which makes it an essential resource for beginners and scholars alike. Antoine Faivre is Professor Emeritus at the École Pratique des Hautes Études (Religious Studies), Sorbonne. He has published extensively, including *Access to Western Esotericism* and *The Golden Fleece and Alchemy*, both also published by SUNY Press. Manifestation Magic Nathan Cadbury 2013-12 Reviews "As a psychologist I am all too aware that the principals of the Laws of Attraction are badly explained everywhere. "Manifestation Magic" does what it says on the tin, it explains simply, easily and more importantly correctly how to get everything that you desire in life. Rich people do not think like other people, they know that they cannot fail. Most people find that reconciling your conscious mind with your subconscious mind is really difficult, and yet unless you master that basic skill you are doomed to be caught up in an endless loop of repeating past mistakes. Most people assume that it is the subconscious mind that gets in the way of their success and that is why you are doomed to fail, because it is your conscious mind that puts the damper on your hopes and dreams. The Occult in Russian and Soviet Culture Bernice Glatzer Rosenthal 1997 A comprehensive account of the influence of occult beliefs and doctrines on intellectual and cultural life in twentieth-century Russia.

A Science for the Soul Corinna Treitel 2004-04-20 In A Science for the Soul, historian Corinna Treitel explores the appeal and significance of German occultism in all its varieties between the 1870s and the 1940s, locating its dynamism in the nation's struggle with modernization and the public's dissatisfaction with scientific materialism. Occultism, Treitel notes, served as a bridge between traditional religious beliefs and the values of an increasingly scientific, secular, and liberal society. Drawing on a wealth of archival materials, Treitel describes the individuals and groups who participated in the occult movement, reconstructs their organizational history, and examines the economic and social factors responsible for their success. Building on this foundation, Treitel turns to the question of how Germans used the occult in three realms of practice: Theosophy, where occult studies were used to achieve spiritual enlightenment the arts, where occult states of consciousness fueled the creative process of avant-garde painters, writers, and dancers and the applied sciences, where professionals in psychology, law enforcement, engineering, and medicine employed occult techniques to solve characteristic problems of modernity. In conclusion, Treitel considers the conflicting meanings occultism held for contemporaries by focusing on the anti-spiritualist campaigns mounted by the national press, the Protestant and Catholic Churches, local and national governments, and the Nazi regime, which after years of alternating between affinity and antipathy for occultism, finally crushed the movement by 1945.

San Diego Noir Maryelizabeth Hart 2011-05-17 Southern California is not all sun, sand, and surf in this gripping collection of noir tales from T. Jefferson Parker, Don Winslow, Maria Lima, and others. San Diego is home to miles of beaches, Balboa Park, a world-famous zoo, and some of the country's most expensive home and resort real estate. Yet the city also houses a few items that aren't actively promoted by the visitor's bureau: a number of the country's most corrupt politicians, border-related crimes, terrorists, and the occasional earthquakes. A noir feast! In the fifty-plus years since Raymond Chandler set Playback in Esmeralda, his name for La Jolla, the population has grown by more than a million, and crime has proliferated as well. San Diego of the past and the present offers the book's contributors a rich selection of settings, from the cross on Mount Soledad to the piers of Ocean Beach, and perpetrators and victims from the residents of its wealthiest enclaves to the inhabitants of its segregated barrios. San Diego Noir includes stories by T. Jefferson Parker, Jeffrey J. Mariotte, Martha C. Lawrence, Diane Clark & Astrid Bear, Debra Ginsberg, Morgan Hunt, Ken Kuhlken, Taffy Cannon, Don Winslow, Cameron Pierce Hughes, Lisa Brackmann, Gabriel R. Barillas, Gar Anthony Haywood, Luis Alberto Urrea, and Maria Lima. "When it's done right, noir is a darkly delicious thrill: smart, sharp-tongued, surprising. The knife goes in at the end with a twist. San Diego Noir, a new 15-story collection by some of the region's best writers, has all that going for it, and the steady supply of hometown references makes it even more fun." —The San Diego Union-Tribune

Authors of the Impossible Jeffrey J. Kripal 2011-09-16 Most scholars dismiss research into the paranormal as pseudoscience, a frivolous pursuit for the paranoid or gullible. Even historians of religion, whose work naturally attends to events beyond the realm of empirical science, have shown scant interest in the subject. But the history of psychical phenomena, Jeffrey J. Kripal contends, is an untapped source of insight into the sacred and by tracing that history through the last two centuries of Western thought we can see its potential centrality to the critical study of religion. Kripal grounds his study in the work of four major figures in the history of paranormal research: psychical researcher Frederic Myers; writer and humorist Charles Fort; astronomer, computer scientist, and ufologist Jacques Vallee; and philosopher and sociologist Bertrand Méheust. Through incisive analyses of these thinkers, Kripal ushers the reader into a beguiling world somewhere between fact, fiction, and fraud. The cultural history of telepathy, teleportation, and UFOs; a ghostly love story; the occult dimensions of science fiction; cold war psychic espionage; galactic colonialism; and the intimate relationship between consciousness and culture all come together in *Authors of the Impossible*, a dazzling and profound look at how the paranormal bridges the sacred and the scientific.

Castration and the Heavenly Kingdom Laura Engelstein 2003-11 Of the many sects that broke from the official Russian Orthodox church in the eighteenth century, one was universally despised. Its members were peasants from the Russian heartland skilled in the arts of animal husbandry who turned their knives on themselves to become "eunuchs for the kingdom of heaven's sake." Convinced that salvation came only with the literal excision of the instruments of sin, they were known as Skoptsy (the self-castrated). Their community thrived well into the twentieth century, when it was destroyed in the Stalinist Terror. In a major feat of historical reconstruction, Laura Engelstein tells the sect's astonishing tale. She describes the horrified reactions to the sect by outsiders, including outraged bureaucrats, physicians, and theologians. More important, she allows the Skoptsy a say in defining the contours of their history and the meaning behind their sacrifice. Her deft handling of their letters and notebooks lends her book unusual depth and pathos, and she provides a heartbreaking account of willing exile and of religious belief so strong that its adherents accepted terrible pain and the denial of a basic human experience. Although the Skoptsy express joy at their salvation, the words of even the most fervent believers reveal the psychological suffering of life on society's margins. No foreign tribe or exotic import, the sect drew its members from the larger peasant society where marriage was expected and adulthood began with the wedding night. Set apart by the very act that guaranteed their redemption, these "lambs of God" became adept at concealing their sectarian identity as they interacted with their Orthodox neighbors. Interaction was necessary, Engelstein explains, since the survival of the Skoptsy depended upon recruitment of new members and on success in agriculture and trade. Realizing that some prejudices have changed little over the centuries, Engelstein cautions that "we must not cast the shadow of our own distress on the story of the Skoptsy. Their physical suffering was something they willingly embraced." In *Castration and the Heavenly Kingdom*, she has produced a remarkable history that also illuminates the mysteries of the human heart.

Russian Popular Culture Richard Stites 1992-08-20 This book presents a side of Russian life that is largely unknown to the West - the world of popular culture. By surveying detective and science fiction, popular songs, jokes, box office movie hits, stage, radio and television, Professor Richard Stites introduces the people and cultural products that are household words to Russian people. Spanning the entire twentieth century, the author examines the subcultures that draw upon and enrich Russian popular culture. He explores the relationship between popular culture and the national and social values of the masses, including their heroes and myths, and assesses the phenomenon of the celebrity from the silent screen star to the latest rock music idol. Richard Stites pays particular attention to the dramatic battle between elite and popular culture and to the intervention of revolutions, wars, and the state in the production and control of this culture.

The Twelve Powers Charles Fillmore 2015-11-04 *The Twelve Powers* is a metaphysical look at twelve expressions of the divine power inherent in each of us. Expressions such as love, faith, strength, zeal, and imagination are discussed. Jesus prophesied of the time when we who would sit with him on twelve thrones, judging the twelve tribes of Israel. This book explains the meaning of this mystical reference, what and where the twelve thrones are, and what attainments are necessary by us before we can follow Jesus in this phase of regeneration. Generation sustains and perpetuates the human; regeneration unfolds and glorifies the divine. It is not expected that beginners in the study of metaphysical Christianity will understand this book. It deals with forces that function below and above the field of the conscious mind. The average religious thinker knows nothing about the sub-conscious mind and very little about the super-conscious; this book presupposes a working knowledge of both. This book aims to clear up the mystery that ever envelops the advent, life, and death of Jesus. Here is your copy of this classic New Thought book. Read it, follow it, meditate on it and you can use the twelve powers.

The New Age of Russia Birgit Menzel 2012 Occult and esoteric ideas became deeply embedded in Russian culture long before the Bolshevik Revolution.
