"Today, only twenty percent of Americans are wed by age twenty-nine, compared to nearly sixty percent in 1960.

A Girl's Best Friend is Her Money - Jane Mack 2002

This book addresses issues that affect women throughout their adult lives. It will have something to say to women who fritter away their money

on retail therapy whilst waiting for Mr Right to come galloping over the hill. It will speak to women as they get married, have children and divorce, then as they hit retirement.

Regardless of age or particular life circumstance, this book will have something to say to all women.

Marriage and Cohabitation - Arland Thornton 2008-09-15

In an era when half of marriages end in divorce, cohabitation has become more commonplace and those who do get married are doing so at an older age. So why do people marry when they do? And why do some couples choose to cohabit? A team of expert family sociologists examines these timely questions in Marriage and Cohabitation, the result of their research over

the last decade on the issue of union formation. Situating their argument in the context of the Western world's 500-year history of marriage, the authors reveal what factors encourage marriage and cohabitation in a contemporary society where the end of adolescence is no longer signaled by entry into the marital home. While some people still choose to marry young, others elect to cohabit with varying degrees of commitment or intentions of eventual marriage. The authors' controversial findings suggest that family history, religious affiliation, values, projected education, lifetime earnings, and career aspirations all tip the scales in favor of either cohabitation or marriage. This book lends new insight into young adult relationship patterns and will be of interest to sociologists, historians, and demographers alike.

Get Married - Candice

Watters 2008-09-01

Singles are getting conflicting messages from today's culture, both Christian and secular. Is it okay to want to be married? Is there anything a never-married woman can do, within a biblical framework, to "assist" the process? Candice Watters gives women permission to want Christian marriage, encourages them to believe it's possible, and supplies the tools to get there - despite our anti-

marriage culture. This book blends the author's personal journey from singleness to marriage with the biblical perspective on marriage. As an editor for Focus on the Family's Boundless webzine, Candice Watters knows the target audience inside and out. Whether a woman has been told to "get married" or marriage is on her lifelong wish list, Get Married points her to the source!

Marriage, a History - Stephanie Coontz 2005

Just when the clamor over "traditional" marriage couldn't get any louder, along comes this groundbreaking book to ask, "What tradition?" In *Marriage, a History*, historian and marriage expert Stephanie Coontz takes readers from the marital intrigues of ancient Babylon to the torments of Victorian lovers to demonstrate how recent the idea of marrying for love is - and how absurd it would have seemed to most of our ancestors. It was when marriage moved into the emotional sphere in the nineteenth century, she argues,

that it suffered as an institution just as it began to thrive as a personal relationship. This enlightening and hugely entertaining book brings intelligence, perspective, and wit to today's marital debate.

fashionable, Antonia Fraser made the past popular' Guardian 'As a pure storyteller, Antonia Fraser has few equals' Sunday Times CAROLINE NORTON, a nineteenth-century heroine who wanted justice for women. Poet, pamphleteer and artist's muse, Caroline Norton dazzled nineteenth-century society with her vivacity and intelligence. After her marriage in 1828 to the MP George Norton, she continued to attract friends and admirers to her salon in Westminster, which included the young Disraeli. Most prominent among her admirers was the widowed Prime Minister, Lord Melbourne. Racked with jealousy, George Norton took the Prime Minister to court, suing him for damages on account of his 'Criminal Conversation' (adultery) with Caroline. A dramatic trial followed. Despite the unexpected and sensational result - acquittal - Norton legally denied Caroline access to her three children under seven. He also claimed her income as an author for

himself, since the copyrights of a married woman belonged to her husband. Yet Caroline refused to despair. Beset by the personal cruelties perpetrated by her husband and a society whose rules were set against her, she chose to fight, not surrender. She channelled her energies in an area of much-needed reform: the rights of a married woman and specifically those of a mother. Over the next few years she campaigned tirelessly, achieving her first landmark victory with the Infant Custody Act of 1839. Provisions which are now taken for granted, such as the right of a mother to have access to her own children, owe much to Caroline, who was determined to secure justice for women at all levels of society from the privileged to the dispossessed. Award-winning historian Antonia Fraser brilliantly portrays a woman, at once courageous and compassionate, who refused to be curbed by the personal and political constraints of her time.

Legal Consciousness and the Rule of Law in Post-Conflict Societies - Holly Dunn
2022-12-30

This book considers how legal reforms and awareness raising associated with building the rule of law have engaged the popular legal consciousness, producing contradictions that have in turn shaped the nature of the resultant legality. How are popular legal-justice beliefs and practices transformed when legal reforms encounter local contexts and cultures? For over a decade, scholars have engaged with the argument that legal reform through rule of law building is the answer to the various ills of countries transitioning from war to peace or authoritarianism to democracy. Yet, scholars have also repeatedly critiqued rule of law building projects: The rule of law, in theory and in practice, is a product of Western liberal thought and development and provides limited space for local culture, norms, and practices. This tension has been playing out in multiple locations, and in

the Democratic Republic of Congo for about two decades. This book examines how rule of law reforms in the Democratic Republic of Congo shape local understandings and practices of law and justice. Instead of focusing on their so-called successes and failures, it explores popular legal consciousness - how people think about, perceive, and engage with the law - to draw broader conclusions about the practical, everyday outcomes of attempts to build the rule of law. This book will appeal to comparativists, Africanists, and socio-legal scholars who study post-conflict reconstruction, rule of law building, legal consciousness, access to justice and legal pluralism, as well as those with practical interests in these areas.

Marrying His Best Friend - Jennifer Gracen 2016-08-16 Single mom Maura Callahan never anticipated that at age 29 she'd be living with her mom in the suburbs, raising her young daughter, Chloe, and working a job that pays the bills but not much else. Her daughter is worth the struggle- and she still has her best friend Aidan, who makes her laugh, keeps her on her toes, and provides the oh-so-toned shoulder to cry on when necessary. Aidan McKinnon, exec at a high profile social media company in the heart of Dublin, has longed to change his bestie status with Maura for years, but it seems Maura's relegated him permanently to

the friend zone. Still, she and Chloe are his world. But when Chloe's father shows up out of the blue and demands shared custody when he's never once met the little girl, Aidan sees a way to finally have what he secretly wants most while ensuring Maura and Chloe's safety... and the diamond ring is just the beginning. Will Aidan's fiercely protective, knight in shining armor proposal of convenience end up starting the love of a lifetime? The Best of 2015 - Gideon Rose 2015-12-14

Between our classic print magazine and our award-winning website, we've published more than 500 articles this year—on everything from Vladimir Putin's Russia to the euro crisis

to how to deal with the self-proclaimed Islamic State. We're proud of all our content, but every year there are a few pieces that really stand out from the pack. So we've compiled some of our favorites into this anthology for handy reference. Our diverse offerings include Kenan Malik's "The Failure of Multiculturalism," which argues that Europe's integration policies have entrenched divisions rather than erased them, and Ira Trivedi's "When a Bride-to-Be Is a Bride to Buy," an eye-opening piece on India's bride shortage and how it has fueled the trafficking of young women. From Greece's financial problems to the Islamic State's statecraft, the decline of international studies in the American academy to the stagnation of reforms in China, we've covered it all. We hope you enjoy the collection and come back for more in 2016!
