**Impact Zone** - Cara Carnes 2020-02-14

Every action has an equal and opposite reaction. Rhea Strathmore creates death. Locked within her laboratory at The Arsenal, she concocts whatever's necessary to protect those around her. She won't ever negate her pre-Arsenal deficit, but she'll try. Her past work now threatens everyone she cares for and exposes secrets she's kept buried. The mysterious man tasked with keeping her alive is more lethal than anything she's ever concocted. Everything has a price. Fallon Graves defies death with every assignment. He may have traded in his lone operative lifestyle for The Arsenal, but that doesn't mean he's a team player. He's survived his entire life with no one. Why should he change? When Rhea's past threatens The Arsenal, Fallon is forced to question everything he's valued. She's a liability in the field, but he's not about to let anyone harm the woman who's more dangerous than any explosive he's ever created. Together, Rhea and Fallon are one volatile chemical reaction away from going up in flames.

She's spent her life on the periphery of humanity. Bree Geissenger lives by one mantra: You're only as good as your latest creation. Tucked away in laboratories, always wanted for her brains, she's been safe. Unseen. But the new life she has at The Arsenal has upended her carefully constructed world. Unable to cope with the threats against her friends, she fractured. Determined not to be the weakest link, she fled the safety of The Arsenal compound to heal. Regroup. Hunt. Those she loves will no longer be prey. She'll ferret out everyone who's a threat to those she loves, no matter the cost. There's no sacrifice too great in war. A smart soldier doesn't work alone, though, which means she must work with the operative she wants more than anything. He ran from a past he's sworn to never delve into. Ramon Zapata escaped the underground, clandestine world his parents deemed his birthright. Military life honed him into the weapon he swore to never become and gave him the only true family he's ever known. To save his new family and the woman he loves, he must reconcile his past and work with the black ops organization who spent years hunting him like an animal. Failure isn't an option. Never quit. Never surrender. \*\*Author's Note: While this book can be read as a standalone, there are numerous plot threads that continue from previous books. Don't get noticed. Zoey "Zero D" Danson thought it was an easy rule to follow. For years she toiled in cubicle 12A of the NSA's data farm compiling security briefings and Intelligence reports. But she put her neck on the line and burned a dirty government operation to keep a covert ops team alive. Now she's "one of them." She's not a nameless, faceless civilian anymore. She's part of The Arsenal—and in way, way over her head. Trust no one. Gage Sanderson recognizes a threat when he sees it, and the newest geek in The Arsenal's back office is trouble. She's smart, secretive, sexy, and everything he shouldn't want. They risked their necks to keep her safe, but she's hiding something and it's up to him to figure out what. He's sworn to never trust another crew at his back, but his team is worth the risk. He won't make the same mistake twice—even if it means killing the only woman who's ever made her way past his defenses.

Mary "The Edge" Reynolds is the most sought-after back office operative around—the creative genius pulling the ultimate bad-asses out of impossible situations. She's never failed on a mission, and she's not about to fail on the most important mission ever—keeping her newly designed security system safe. Relying on others isn't in her nature, but the newly formed Arsenal is her only hope for escape when she's kidnapped. She is the Edge. The Edge never breaks. Never quits. Dylan Mason and his brothers have put everything on the line to form The Arsenal. When the paramilitary arena is rocked by Edge's capture, he'll do whatever it takes to get the fearless operative back, but his wary heart isn't ready to handle the vulnerable woman buried beneath the hardened shell. Getting her back was simple. Keeping her and her "security system" HERA out of enemy hands is another story. Together they must hunt down the faction behind her capture and subsequent torture to keep HERA from becoming an unstoppable terroristic threat. What they uncover

could destroy them both.

He's sworn to find his son. Dallas Mason did whatever was necessary to survive his stint in black ops. While in the Collective, there was no line he wouldn't cross, and no mission he wouldn't take. He bedded the enemy to secure his freedom and return to his brothers and build a new life, where the lines between right and wrong are sometimes blurred, but never erased. Now he and everyone at The Arsenal has one mission: find his son. His family and team will stop at nothing to achieve the goal-including sidelining Dallas from

the hunt. She's sworn to find her father's killer. Kamren Garrett learned to rely on no one long ago. Surrounded by enemies, and surviving in hostile territory is nothing new for her. She can outshoot, outhunt, and out track anyone. She doesn't need a Mason dictating what she can and can't do to uncover the secrets of her father's death. Dallas thinks she's the problem. She doesn't have time to handle him. She's close to identifying her quarry. Unfortunately, she discovers she's over her head and in need of help and she turns to the last person she ever wanted to ask-Dallas Mason. Forced to take a step back from his true objective, Dallas sets his sights on fixing the problems threatening his son's future home. Teamed with Kamren, he'll uncover more than they expected. Failure isn't an option when it comes to blood vows.
