Sometimes I Lie - Alice Feeney 2019-05-22

New York Times AND INTERNATIONAL BESTSELLER "Boldly plotted, tightly knotted--a provocative true-or-false thriller that deepens and darkens to its ink-black finale. Marvelous." -- AJ Finn, author of *The Woman in the Window* My name is Amber Reynolds. There are three things you should know about me: 1. I'm in a coma. 2. My husband doesn't love me anymore. 3. Sometimes I lie. Amber wakes up in a hospital. She can't move. She can't speak. She can't open her eyes. She can hear everyone around her, but they have no idea. Amber doesn't remember what happened, but she has a suspicion her husband had something to do with it. Alternating between her paralyzed present, the week before her accident, and a series of childhood diaries from twenty years ago, this brilliant psychological thriller asks: Is something really a lie if you believe it's the truth?

**Motifs:** - Dr. Don J Feeney Jr. 2008-02-18

Just as DNA determines the genetic makeup of every individual, a motif determines individual biopsychosocial, emotional, and spiritual behaviors and attitudes. This epigenetic theory of individuality describes the motif as a unique artistry of organizing principles. The author uses the concept of motif to explain physiology, behavior, and attitude and to show how each person has his or her own unique system of

motifs that comprises the fabric of every level of personality. Case studies exemplify the way in which motifs manifest the "self" and how the core personality is understood once the individual's motif is revealed. Of interest to graduate students in psychology and clinicians and counselors in the field of humanistic and clinical psychology, holistic medicine, wellness and mind-body healing, psychobiology, and spirituality this book will bring new understanding to personality and behavior studies.

**The Psychology of Terrorism: Clinical aspects and responses** - Chris E. Stout 2002  
Responding directly to the terrorist attacks of September 11, 2001, an outstanding interdisciplinary group of academics, clinicians, and activists from around the world united to produce this clear exploration of terrorism.

**Mind Control Language Patterns** - Dantalion Jones 2008

Mind Control Language Patterns are spoken phrases that can act as "triggers" to the people who hear them. In short, they influence and control how we respond and cause us to be influenced to do things without our knowing. These language patterns are not fantasies but are based on documented uses that come from psychology, hypnosis, Neuro Linguistic Programming and studies of human behavior. Mind Control Language Patterns can be used to help and hurt. One can use Mind Control Language Patterns to create positive and lasting change in people, as well as feelings of trust, love and affections. They can also be used to induce amnesia, fear, insecurity and doubt. These types of patterns are what we call "dark" pattern.

**Creating Cultural Motifs Against Terrorism -**

Don J. Feeney 2003-09-30

Unlike any other book regarding September 11, 2001, this book employs metaphors across disciplines (psychology, music, history, literature, politics and physics among them) to show how the roots of terrorism reach to cultural motifs, or themes and principles. Terrorism is depicted as rigid, fundamentalistic entrancement of such motifs. By unfolding and empowering unique, idiosyncratic facets of each culture, Feeney suggests, we can nurture healthy exchange, dialogue, and global interface creating peace and compatibility while eradicating the roots of terrorism. This volume will most interest social scientists, politicians, diplomats, and others with an interest in cultural diversity, politics, and psychology.

Motifs of Life Altering Experiences - Dr Don J Feeney 2019-06-28

The manuscript reveals the dynamics of life-altering experiences as collaborative products of

unwitting entrainments. Unwitting entrainments synchronizing our motifs can emerge into life-altering experiences. The manuscript strives to depict the ironic timing of synchronized entrainment present in perfect harmony. Taking two extra minutes drinking a Starbucks's coffee saves a life, creating just enough delay in missing the 9/11 tragedy. Addictions, divorce, financial ruin, and damaged careers can all result from unwitting entraining of synchronized motifs. Fortuitous as well as disastrous coincidences of synchronizing events are possible outcomes of life-altering experiences. Formativeness of multifaceted motifs lie at the core of good and evil manifestations of events, affecting trauma and triumph. Recognition and utilization techniques through time alteration of future designs highlight multidimensional consciousness of critical factors in survival and transformation.
