*Black Skin, White Masks* - Frantz Fanon 2017

*Black Skin, White Masks* is a classic, devastating account of the dehumanising effects of colonisation experienced by black subjects living in a white world. First published in English in 1967, this book provides an unsurpassed study of the psychology of racism using scientific analysis and poetic grace. Frantz Fanon identifies a devastating pathology at the heart of Western culture, a denial of difference, that persists to this day. A major influence on civil rights, anti-colonial, and black consciousness movements around the world, his writings speak to all who continue the struggle for political and cultural liberation. With an introduction by Paul Gilroy, author of *There Ain't No Black in the Union Jack*.

**Dunhuang Art** - Wenjie Duan 1994

Dunhuang Although Internationally Known Is Infrequently Visited. The Mogao Shrine At Dunhuang Is A Cluster Of 492 Caves, Containing 45,000 Square Metres Of Frescoes And 2,415 Stucco Statues. These Caves Were Created, Renovated And Maintained Continually With Devotion And Care From The 4th Upto The 14th Century. In This Volume We Have Provided An English Translation Of Selected Writings Of Prof. Duan Wenjie, Director Of The Dunhuang Academy Who Has Given A Chronological Study Of The Contents Inside The Mogao Caves With Several Decades Of Research Of The Dunhuang Academy Under His Command. Prof. Tan Chung, The Editor, Has Furnished An Illuminating Introduction, While Dr. Kapila Vatsyayan, The Driving Spirit Behind This Volume, Has Made Succinct Comments In Her Foreword. A Valuable Information On All The Mogao Caves Has Been Added. Colour And Black And White Photographs And Fine Sketches By Vineet Kumar Supplement The Text. The Indira Gandhi National Centre For The Arts Is Committed To Exploring All Dimensions Of Art. It Feels Privileged To Place Before Art Historians And Art Lovers Of The English-Speaking World First-Hand Information About His Unique Art Gallery Going Back To One-And-A-Half Millennia.

**Encyclopedia of Women's Health** - Sana Loue 2004-07-15

Designated a Reference Reviews Top Ten Print Reference Source 2005 The Encyclopedia of Women's Health meets this challenge by bringing together an impressive array of experts on topics from reproductive issues to gastrointestinal illnesses. This skilfully edited volume, informed by current health issues and health-care realities, offers readers practical information, historical aspects, and future directions, all meticulously researched and conveniently presented. Key features include: -Accessible A-to-Z coverage, including AIDS, birth control, hormone replacement therapy, teen pregnancy, sexual harassment, violence, body image, access to health care and more. -Entries spanning the medical, psychological, sociocultural, spiritual, and legal arenas. -Medical topics explored from both conventional and complementary perspectives. -Cross-cultural data illustrate issues as they apply to minority women, rural women, the elderly, and other underserved populations. -Special chapters on disparities in women's health and health care. -Historical overview of women in health - as patients and as professionals. -Suggested readings and resource lists.

[Expressive Therapies for Sexual Issues](#) - Sana Loue 2012-08-24

This text is intended to help social work practitioners move beyond both these often-accepted constructions of sexuality and the range of methods that are available to social workers in their clinical practice. Various themes are apparent throughout each of the chapters in this volume: the range of sexual experience and expression that exists across individuals; a recognition of our society's responses to expressions of sexuality, including the social, attitudinal, and cultural barriers that inhibit the expression of healthy sexuality and that constrain our approaches to assisting individuals with their recovery from trauma; the need to consistently and painstakingly examine our own assumptions relating to sexuality in order to be more effective with our clients; and the delicate balance that is often required when working with clients around issues of sexuality in the context of institutions, community, and societal structures.

**Seduction of a Highland Lass** - Maya Banks 2011-09-27

Maya Banks, the New York Times bestselling author of romance and romantic suspense has captivated readers with her steamy Scottish historical novels, perfect for fans of Julie Garwood. In *Seduction of a Highland Lass*, an indomitable Highland warrior is caught between loyalty and forbidden love. Fiercely loyal to his elder brother, Alaric McCabe leads his clan in the fight for their birthright. Now he is prepared to wed for duty, as well. But on his way to claim the hand of Rionna McDonald, daughter of a neighboring chieftain, he is ambushed and left for dead. Miraculously, his life is saved by the soft touch of a Highland angel, a courageous beauty who will put to the test his fealty to his clan, his honor, and his deepest desires. An outcast from her own clan, Keeley McDonald was betrayed by those she loved and trusted. When the wounded warrior falls from his horse, she is drawn to his strong, lean body. The wicked glint in his green eyes ignites a passion that will follow them back to Alaric's keep, where their forbidden love draws them deeper into the pleasures of the flesh. But as conspiracy and danger circle closer, Alaric must make an impossible choice: Will he betray his blood ties for the woman he loves?

**Efficient Learning for the Poor** - Helen Abadzi 2006

"Large-scale efforts have been made since the 1990s to ensure that all children of the world go to school. But mere enrollment is not sufficient, students must become fluent in reading and calculation by the end of grade 2. Fluency is needed to process large amounts of text quickly and use the information for decisions that may ultimately reduce poverty. State-of-the-art brain imaging and cognitive psychology research can help formulate effective policies for improving the basic skills of low-income students. This book integrates research into applications that extend from preschool brain development to the memory of adult educators. In layman's terms, it provides explanations and answers to questions such as: Why do children have to read fast before they can understand what they read? How do health, nutrition, and stimulation influence brain development? Why should students learn basic skills in their maternal language? Is there such a thing as an untrained teacher? What signs in a classroom show whether students are getting a quality education? How must information be presented in class so that students can retain it and use it? What training techniques are most likely to help staff put their learning into use? This book would be useful to policymakers, donor agency staff, teacher trainers, supervisors, and inspectors, as well as university professors and students."

*Corcoran Gallery of Art* - Corcoran Gallery of Art 2011

This authoritative catalogue of the Corcoran Gallery of Art's renowned collection of pre-1945 American paintings will greatly enhance scholarly and public understanding of one of the finest and most important collections of historic American art in the world. Composed of more than 600 objects dating from 1740 to 1945.

*Expressive Therapies for Sexual Issues* - Sana Loue 2012-08-24

This text is intended to help social work practitioners move beyond both these often-accepted constructions of sexuality and the range of methods that are available to social workers in their clinical practice. Various themes are apparent throughout each of the chapters in this volume: the range of sexual experience and expression that exists across individuals; a recognition of our society's responses to expressions of sexuality, including the social, attitudinal, and cultural barriers that inhibit the expression of healthy sexuality and that constrain our approaches to assisting individuals with their recovery from trauma; the need to consistently and painstakingly examine our own assumptions relating to sexuality in order to be more effective with our clients; and the delicate balance that is often required when working with clients around issues of sexuality in the context of institutions, community, and societal structures.

*Diversity Issues in the Diagnosis, Treatment, and Research of Mood Disorders* - Sana Loue 2007-11-26  
Mood disorders, like depression, bipolar disorder, and dysthymia, are common psychological illnesses that occur worldwide and across the life-span. There is a growing consensus among mental health clinicians and researchers that culture and cultural context are often key determinants in mood disorder prevention and outcome. It has become increasingly apparent that an appropriate understanding of culture is essential for treatments to be effective, and for optimal outcomes to be obtained by individuals suffering from these conditions. This text focuses on cross-cultural issues arising in the context of diagnosis, treatment, and research of mood disorders within diverse populations of the United States. With specific case examples to supplement the topics reviewed in each chapter, this important volume will be of great interest to all clinicians and researchers working in the area of mood disorders.

**The Hostage Brain** - Bruce S. McEwen 1994

Animal-Assisted Psychotherapy - Nancy Parish-Plass 2013-07-15

The integration of animals into the therapy setting by psychotherapists has been a growing trend. Psychological problems treated include emotional and behavioral problems, attachment issues, trauma, and developmental disorders. An influential 1970s survey suggests that over 20 percent of therapists in the psychotherapy division of the American Psychological Association incorporated animals into their treatment in some fashion. Anecdotal evidence suggests that the number is much higher today. Since Yeshiva University psychologist Boris Levinson popularized the involvement of animals in psychotherapy in the 1960s, Israel has come to be perhaps the most advanced country in the world in the area of animal-assisted psychotherapy (AAP). This is true especially in the areas of academic training programs, theory-building, and clinical practice. Great effort has been put into understanding the mechanisms behind AAP, as well as into developing ethical guidelines that take into account the therapist's responsibility toward both client and animal. This book exposes the world to the theory and practice of AAP as conceived and used in Israel. It emphasizes evidence-based and clinically sound applications with psychotherapeutic goals, as differentiated from other animal-assisted interventions, such as AAE (animal-assisted education) and AAA (animal-assisted activities), which may have education or skills-oriented goals. Not just anyone with a dog can call him- or herself an animal-assisted therapist. This volume demonstrates not only the promise of animal-assisted psychotherapeutic approaches, but also some of the challenges the field still needs to overcome to gain widespread legitimacy.

*The Visible Word* - Johanna Drucker 1994

Drucker skillfully traces the development of this critical position, suggesting a methodology closer to the actual practices of the early avant-garde artists based on a rereading of their critical and theoretical writings. After reviewing theories of signification, the production of meaning, and materiality, she analyzes the work of four poets active in the typographic experimentation of the 1910s and 1920s: Ilia Zdanevich, Filippo Marinetti, Guillaume Apollinaire, and Tristan Tzara. Drucker explores the context for experimental typography in terms of printing, handwriting, and other practices concerned with the visual representation of language. Her book concludes with a brief look at the ways in which experimental techniques of the early avant-garde were transformed in both literary work and in applications to commercial design throughout the 1920s and early 1930s.

**Sandplay Therapy** - Barbara Labovitz Boik 2000

Sandplay utilizes a small tray of wet or dry sand, in which clients create scenes using miniature objects--a nonverbal communication of their internal and external worlds. For therapists interested in exploring the ways that sandplay facilitates growth and healing and in expanding their reservoir of therapeutic tools by incorporating sandplay into their practices, this practical handbook will be an invaluable resource. After presenting the history and benefits of sandplay, the authors describe how to create a sandplay therapy room, including choosing sand containers, finding evocative objects, and displaying objects appropriately. They provide detailed, step-by-step instructions on how to conduct spontaneous and directed sandplay therapy sessions with individuals, couples, children, and families. Various ways of recording the creation of a sand world are described, so that both the process and the product will be saved even after the sand tray is dismantled. Not only does the book establish the foundation for incorporating sandplay into the reader's

current psychotherapeutic practice, but it will also stimulate the creative process of the professional. Like the client who sees internal and interpersonal dynamics and dilemmas pictured in the sand, the therapist will find that this powerful experiential tool reveals insights, information, and avenues to explore. The authors illustrate the process with numerous sandplay experiences with clients. They also discuss clients for whom sandplay is contraindicated and some problems that might arise. To encourage the growth of the therapist, they include instructions on personal sandplay work. Comprehensive in nature, this book provides the foundation for both novice and experienced professionals to perform sandplay therapy effectively with adults, children, and couples.

Debates in Values-Based Practice - Michael Loughlin 2014-10-09

Offers guidance on the current debate about the value and purpose of healthcare, helping readers to make rational, defensible decisions.

Legal Issues in Social Work Practice and Research - Sana Loue 2018-05-17

This highly practical text surveys the myriad legal and ethical issues that social workers encounter both in daily practice and under special circumstances. Its initial section presents concepts in law and ethics that unite practitioners, researchers, and academics in the field, such as confidentiality, informed consent, and the interplay between social work and administrative and judicial systems. A selection of representative cases illustrates legal aspects involved in providing services to families, children, elders, and persons with disabilities. Also included are chapters on advocacy in social work, both in its potential to influence policy and on the global stage as part of the ongoing struggle for human rights and dignity. Among the topics covered: Confidentiality and the social worker-client relationship Liability issues for social workers in the clinical context Legal issues arising in the context of social work research The social worker and forensic social work Social worker involvement in access to school and school services Social work in the context of health care Legal issues working with immigrants, refugees, and asylees The interface between social work and human rights Legal Issues in Social Work Practice and Research is an interdisciplinary text aimed at social work, mental health, and legal professionals. It enhances the power of social work as an integrative system to support clients' rights and agency.

**The Years of Alienation in Italy** - Alessandra Diazi 2019-06-11

The Years of Alienation in Italy offers an interdisciplinary overview of the socio-political, psychological, philosophical, and cultural meanings that the notion of alienation took on in Italy between the 1960s and the 1970s. It addresses alienation as a social condition of estrangement caused by the capitalist system, a pathological state of the mind and an ontological condition of subjectivity. Contributors to the edited volume explore the pervasive influence this multifarious concept had on literature, cinema, architecture, and photography in Italy. The collection also theoretically reassesses the notion of alienation from a novel perspective, employing Italy as a paradigmatic case study in its pioneering role in the revolution of mental health care and factory work during these two decades.

The Seduction of Modern Spain - Aurora G. Morcillo 2010

This book will be essential for scholars and students interested in Ibero-American cultural studies, gender, religion, and totalitarian politics. --Book Jacket.

Great Relationships and Sex Education - Alice Hoyle 2019-11-26

Great Relationships and Sex Education is an innovative and accessible guide for educators who work with young people to create and deliver Relationships and Sex Education (RSE) programmes. Developed by two leading experts in the field, it contains hundreds of creative activities and session ideas that can be used both by experienced RSE educators and those new to RSE. Drawing on best practice and up-to-date research from around the world, Great RSE provides fun, challenging and critical ways to address key contemporary issues and debates in RSE. Activity ideas are organised around key areas of learning in RSE: Relationships, Gender and Sexual Equality, Bodies, Sex and Sexual Health. There are activities on consent, pleasure, friendships, assertiveness, contraception, fertility and so much more. All activities are LGBT+ inclusive and designed to encourage critical thinking and consideration of how digital technologies play out in young people's relationships and sexual lives. This book offers: Session ideas that can be adapted to support you to be creative and innovative in your approach and that allow you to respond to the needs of the young people that you work with. Learning aims, time needed for delivery, suggested age groups to

work with and instructions on how to deliver each activity, as well as helpful tips and key points for educators to consider in each chapter. Activities to help create safe and inclusive spaces for delivering RSE and involve young people in curriculum design. A chapter on 'concluding the learning' with ideas on how to involve young people in evaluating and reflecting on the curriculum and assessing their learning. A list of

recommended resources, websites, online training courses and links providing further information about RSE. With over 200 activities to choose from, this book is an essential resource for teachers, school nurses, youth workers, sexual health practitioners and anyone delivering RSE to young people aged 11-25.
