Handbook of Divorce and Relationship Dissolution -

Mark A. Fine 2013-12-19

This Handbook presents up-to-date scholarship on the causes and predictors, processes, and consequences of divorce and relationship dissolution.

Featuring contributions from multiple disciplines, this Handbook reviews relationship termination, including variations depending on legal status, race/ethnicity, and sexual orientation. The Handbook focuses on the often-neglected processes involved as the relationship unfolds, such as infidelity, hurt, and remarriage. It also covers the legal and policy aspects, the demographics, and the historical aspects of divorce. Intended for researchers, practitioners, counselors, clinicians, and advanced

students in psychology, sociology, family studies, communication, and nursing, the book serves as a text in courses on divorce, marriage and the family, and close relationships.

Handbook of Contemporary Families - Marilyn Coleman 2004

The Handbook of Contemporary Families explores how families have changed in the last 30 years and speculates about future trends. Editors Marilyn Coleman and Lawrence H. Ganong, along with a multidisciplinary group of contributors, critique the approaches used to study relationships and families while suggesting modern approaches for the new millennium. The Handbook looks at how changes within the

contemporary family have been reflected in family law, family education, and family therapy.

The Handbook of Contemporary Families is an excellent resource for advanced undergraduate and graduate students, researchers, educators, and practitioners who study and work with families in several disciplines, including Family Science, Human Development and Family Studies, Sociology, Marriage & Family Therapy, and Social Work.

Television Families - William Douglas 2003-02-26

This volume examines the analysis that was designed to map the development of the television family and assess its current state and, at the same time, to provide insight into the tangled relationships between fictional and real family life. In order to do this, the investigation examines the evolution of the American

family, paying special attention to the postwar family, which is not only used recurrently as a benchmark for assessing the performance of modern families but also constituted television's first generation of families. The investigation also traces the evolution of the popular family in vaudeville, comics, and radio. However, the primary focus of the examination is the development of the television family, from families, such as the Nelsons, Andersons, and Cleavers, to more contemporary families, such as the Huxtables, Conners, and Taylors. The unit of analysis for the investigation is the relationship rather than the individual. Hence, the book deals with the portrayal of spousal, parent-child, and sibling relationships and how those portrayals differ across time and across groups defined by ethnicity, gender, and age. Moreover, the relational analysis is expansive so that television family relationships are examined in regard to power and affect, performance,

and satisfaction and stability. Television Families provides a thorough summary and critical review of extant research, designed to promote informed classroom discussion. At the same time, it advances a number of hypotheses and recommendations and, as such, is intended to influence subsequent theory and research in the area. The book is intended for senior undergraduate students, graduate students, and television and family researchers.

Engaging Theories in Family Communication - Dawn O.

Braithwaite 2017-09-13

Engaging Theories in Family Communication, Second Edition delves deeply into the key theories in family communication, focusing on theories originating both within the communication discipline and in allied disciplines. Contributors write in their specific areas of expertise, resulting in an exceptional resource for scholars and students alike, who seek to understand theories spanning

myriad topics, perspectives, and approaches. Designed for advanced undergraduate and graduate students studying family communication, this text is also relevant for scholars and students of personal relationships, interpersonal communication, and family studies. This second edition includes 16 new theories and an updated study of the state of family communication. Each chapter follows a common pattern for easy comparison between theories.

Family Relationships -

Francis Ivan Nye 1982

This volume collects some of the work of F Ivan Nye and that of some of his colleagues, that describes a theory -- which Nye call Choice and Exchange Theory, and its application to various types of family relationships. The theory is an extension and expansion of 'Exchange Theory' originated in the late 1950s by psychologists such as Thibaut and Kelley and sociologist George Homans. The result, a mixture of both new and previously published articles, is

a succinct description of Choice and Exchange Theory that will be of value to researchers and students in family studies and related disciplines.

Multidisciplinary Coordinated Caregiving - Ronda C. Talley
2013-11-19

Effective, meaningful caregiving requires a well-coordinated and informed effort guided by various highly skilled specialists across several interrelated professions, including psychologists, social workers, and occupational therapists. *Multidisciplinary Coordinated Caregiving* addresses the information needs of these interrelated professionals, contributing to the direct care of individuals and serving as an essential resource for those who ultimately create collaborative approaches to contemporary caregiving plans. In addition, the volume provides a wealth of evidence-based research findings to facilitate ongoing dialogue about multidisciplinary and interdisciplinary perspectives

on and interventions for the complex challenge of caregiving in America. Key areas of coverage include: The status of professional caregiving in the United States. Nursing perspectives on the state of family caregiving. Psychological aspects of caregiving. A human development, lifespan perspective on caregiving during late life. Public health contributions to caregiving. *Multidisciplinary Coordinated Caregiving* offers a wealth of insights for those researchers, practitioners, and graduate students who seek to optimize the care of individuals across such fields as psychology, social work, public health, geriatrics and gerontology, and medicine as well as public and educational policy making.

Family Communication -

Chris Segrin 2011-10-14
Family Communication carefully examines state-of-the-art research and theories of family communication and family relationships. In addition to presenting cutting-edge research, it focuses on classic theories and research findings that have influenced and revolutionized the way scholars conceptualize family interaction. This text offers a thorough and up-to-date presentation of scientific research in family communication for both teachers and students of family communication as well as professionals who work with families. This second edition features: Chapters updated with the latest research, including over 2000 references. Material on understudied family relationships, such as extended family relationships and gay and lesbian relationships. Recent research on understudied topics in family communication, including the

influence of technology on mate selection, negotiating work and family stress, single parenting, cohabitation, elder abuse, forgiveness in marriage, and the links among communication, culture, and mental health. A revised chapter on parent-child communication, taking a lifespan perspective that helps organize the large body of research in this area. A new chapter devoted to extended family relationships, with special focus on grandparent-grandchild relationships, in-law relationships, and adult children and their parents. An expanded review of family conflict processes, especially in relation to decision making and power. A companion website provides chapter outlines, exam questions, and PowerPoint slides for students and instructors. Undergraduate readers should find the information easy to understand, while advanced readers, such as graduate students and professionals, will find it a useful reference to classic and contemporary

Readings in Family Theory -

Thomas R. Chibucos 2005
Readings in Family Theory is an anthology of classic and contemporary articles that provides a context for student learning by demonstrating how theory fits into the overall process of scientific research on families. The book provokes student interest in theory by providing examples of the scholarly application of family theory to compare how people use similar processes in everyday life. Using this contextual orientation, the selected readings examine nine prevalent theoretical perspectives from both family and human development sciences.

Family Relationships - 1988

The Dynamics of Connection

- David C. Bell 2012-07-10
This is a book about why people nurture. It traces the origins of caring and

caregiving from the earliest mammals, describes neurobiological evidence, and explores the social psychological processes of both caregiving and attachment. This book helps us to understand why parents choose to nurture children and why romantic partners choose to nurture one another.

Family Communication - Beth A. Le Poire 2006

Family Communication organizes the study of family communication around the concepts of nurturing and control which allows the consideration of communication in all family relationships within all family forms. The concepts of nurturing and control allow us a unique frame by which to organize the traditional developmental factors of relationship development, marriage, adding children, and raising socio-emotionally competent children. In addition, the concepts of nurturing and control allow us to understand the uniquely communicative family features

of intimacy and conflict and their relationship to marital and family satisfaction. Further, nurturing and control are evident in families which include violence, substance abuse, eating disorders and depression. Key Features: Inclusive treatment of ALL family forms: traditional nuclear; non-traditional nuclear (i.e., working moms); bi-nuclear families (families where children live in two homes with one biological parent and one non-biological parent); cohabitation, single-parent households; step-family and blended configurations; gay families; couples with no children; and extended families. Explores the forces- governmental, religious, media influences, and social science research-that cause us to assume most families are traditional and nuclear, using biological, legal, and sociological definitions. Organizing theme and theories: Roles theory, family systems theory, and rules theory are used throughout, using the organizing scheme of

nurture/control so students can better understand, relate to, and apply the material. Unique material: Development of parental attachment is fully discussed, showing how nurturing and controlling communication processes encourage socio-emotional competence in children. Unique material: The explication of a new family communication theory called Inconsistent Nurturing as Control Theory, which explores the ways in which fam

Family Life Education - Carol A. Darling 2022-06-29

Contemporary family life educators operate within a wide range of settings and with increasingly varied populations and families. In the fourth edition of *Family Life Education*, Carol Darling and Dawn Cassidy are pleased to have Sharon Ballard join in the process of exposing readers to the diverse landscape of the field while laying a comprehensive, research-based, and practical foundation for current and future family life educators. The authors,

who are CFLE Certified, consider the Certified Family Life Educator credential requirements of the National Council on Family Relations throughout the text. Their broad overview of the field includes a brief history and discussion of family life education as an established profession. New to this edition is the inclusion of several models that provide insight into the discipline and practice. There is expanded information about working with diverse audiences and the skills needed to be a culturally competent family life educator. The addition of the personal experiences and reflections of 17 family life educators working in a variety of settings provides a meaningful context to the continuing evolution and importance of family life education in society. The authors incorporate theory, research, and practice while also providing guidelines for planning, implementing, and evaluating family life education programs. Content on sexuality education, relationship and

marriage education, and parenting education highlights some of the more prevalent trends and visible forms of family life education.

Comments from 35 international colleagues representing 27 countries and 6 continents facilitate understanding the role of family life education in various international settings. The provision of interactive classroom exercises focuses on building awareness, appreciation of diversity, and global trends. Discussion questions and activities encourage readers to examine issues and apply what they have learned.

Maintaining Relationships Through Communication - Daniel J. Canary 2003-01-30 Relational maintenance provides a rallying point for those seeking to discover the behaviors that individuals utilize to sustain their personal relationships. Theoretical models, research programs, and specific studies have examined how people in a variety of close relationships choose to define and maintain those relationships. In addition, relational maintenance turns our attention to communicative processes that help people sustain their close relationships. In this collection, editors Daniel J. Canary and Marianne Dainton focus on the communicative processes critical to the maintenance and enhancement of personal relationships. The volume considers variations in maintaining different types of personal relationships; structural constraints on relationship maintenance; and cultural variations in relational maintenance. Contributions to

the volume cover a broad range of relational types, including romantic relationships, family relationships, long-distance relationships, workplace relationships, and Gay and Lesbian relationships, among others. Maintaining Relationships Through Communication: Relational, Contextual, and Cultural Variations synthesizes current research in relationship maintenance, emphasizes the ways that behaviors vary in their maintenance functions across relational contexts, discusses alternative explanations for maintaining relationships, and presents avenues for future research. As such, it is intended for students and scholars studying interpersonal communication and personal relationships.

Interparental Conflict and Child Development - John Howard Grych 2001-03-19 Interparental Conflict and Child Development provides an in-depth analysis of the rapidly expanding body of research on the impact of interparental

conflict on children. Emphasizing developmental and family systems perspectives, it investigates a range of important issues, including the processes by which exposure to conflict may lead to child maladjustment, the role of gender and ethnicity in understanding the effects of conflict, the influence of conflict on parent-child, sibling, and peer relations, family violence, and interparental conflict in divorced and step-families.

Sourcebook of Family Theories and Methodologies - Kari Adamsons 2022-11-07

This sourcebook is an unparalleled resource in the field of family science. It provides a comprehensive overview of both traditional and contemporary theories and methodologies to promote a greater understanding of increasingly complex family realities. It focuses on broad developments in research design and conceptualization, while also offering a historical perspective on developments in family science over time,
