I'm Still Here - John Zeisel

2010-03-04

The unfortunate popular

perception is that when

someone is diagnosed with

Alzheimer's, they are

immediately lost to themselves, to those who love them and to those they love. In I'M STILL HERE, John Zeisel shows how you can connect with someone through the fog of dementia and build a relationship with the person within. This groundbreaking book focuses on connecting with Alzheimer's sufferers through the abilities that don't diminish over the course of the disease, such as understanding music, art, facial expressions and touch. By harnessing these capacities, and by using other approaches to treatment, this book demonstrates how it is possible to offer sufferers a quality of life with a connection to others and to the world around them.

Explores how Cold War men's magazines idealized warrior-heroes and sexual-conquerors and normalized conceptions of martial masculinity.

Unapologetic - Charlene

Carruthers 2018-08-28

A manifesto from one of America's most influential activists which disrupts

political, economic, and social norms by reimagining the Black Radical Tradition. Drawing on Black intellectual and grassroots organizing traditions, including the Haitian Revolution, the US civil rights movement, and LGBTQ rights and feminist movements, *Unapologetic* challenges all of us engaged in the social justice struggle to make the movement for Black liberation more radical, more queer, and more feminist. This book provides a vision for how social justice movements can become sharper and more effective through principled struggle, healing justice, and leadership development. It also offers a flexible model of what deeply effective organizing can be, anchored in the Chicago model of activism, which features long-term commitment, cultural sensitivity, creative strategizing, and multiple cross-group alliances. And *Unapologetic* provides a clear framework for activists committed to building transformative power, encouraging young people to

see themselves as visionaries and leaders.

The Mother - Jane Caro 2022-03-14

From the Walkley Award winning journalist, social commentator and author comes a gripping domestic

thriller with a moral dilemma at its core. 'A timely, tense and important story that takes you to the heart of a toxic relationship, fighting to get free.' Michael Robotham Just like the garden, the fuse box, the bills, bin night and blown light bulbs, this was just something else she'd now have to take care of herself. Recently widowed, Miriam Duffy is a respectable North Shore real estate agent and devoted mother and grandmother. She was thrilled when her younger daughter Ally married her true love, but as time goes by Miriam wonders whether all is well with Ally, as she moves to the country and gradually withdraws, finding excuses every time Miriam offers to visit. Their relationship has always had its ups and downs, and Miriam tries to give her daughter the distance she so clearly wants. But is all as it seems? When the truth of her daughter's situation is revealed, Miriam watches in disbelief as Ally and her children find themselves increasingly vulnerable and cut

off from the world. As the situation escalates and the law proves incapable of protecting them, Miriam is faced with an unthinkable decision. But she will do anything for the people she loves most in the world. Wouldn't you?"The vivid and gripping tale of a young family in danger and the mother who will do anything to save them. I couldn't put it down.

Passionate, vivid and unsettling, this heart-stopping tale had me transfixed.'

Suzanne Leal, author of *The Teacher's Secret*
[Responsive Regulation](#) - Ian Ayres 1995-02-16

This book transcends current debate on government regulation by lucidly outlining how regulations can be a fruitful combination of persuasion and sanctions. The regulation of business by the United States government is often ineffective despite being more adversarial in tone than in other nations. The authors draw on both empirical studies of regulation from around the world and modern game theory to illustrate innovative

solutions to this problem. Their ideas include an argument for the empowerment of private and public interest groups in the regulatory process and a provocative discussion of how the government can support and encourage industry self-regulation.

Facing the Fire - John Lee
2011-04-27

The author of *The Flying Boy* describes how repressing anger can have profound effects on personal health and guides readers step by step through the process of getting past their fears. "Facing the Fire is the best book on anger I have read; it is responsible, honest, practical, and a good read. I know the techniques Lee describes work, and the exercises alone make it a valuable book. I will use Facing the Fire personally and professionally."—Dr. Patricia Love, author of *The Emotional Incest Syndrome: What to Do When a Parent's Love Rules Your Life* Do you believe: Anger is a "negative" emotion? "Nice" or "emotionally sophisticated" people don't get angry? Anger

will disappear when you have understood intellectually what causes it? You won't be angry if you just learn to forgive? If so, you are not alone. Anger is the most misunderstood and, consequently, painful of all our emotions. But denying, suppressing, and avoiding our own and others' anger can have unfortunate results: weakened immune systems, numbing addictions, stormy relationships, lowered self-esteem. Now, John Lee, the nationally renowned speaker, teacher, and author, shows you a better way of dealing with anger. Based on his work with clients and his own experiences with anger, he:

- Uses real-life scenarios to help you understand what anger is, what causes it, and why it cannot and should not be avoided
- Carefully guides you through a process of confronting and getting past the fears—of losing control, of alienating people, of hurting yourself or someone you love—that keep you from honestly experiencing and accepting your anger
- Gently demonstrates ways in

which you can express anger constructively—from talking it out to pounding your pillow • Demonstrates why another person's anger, if it is expressed appropriately, need not be threatening or harmful to you—but in fact can help you

“Anger is our most misunderstood emotion. It is a fire that will either consume or purify. In this book, through effective and practical exercises, John Lee carefully guides the reader into a healthy relationship with this powerful emotion.”—Wayne Kritsberg, author of *The Invisible Wound*

Slow Violence and the Environmentalism of the Poor - Rob Nixon 2011

“Slow violence” from climate change, toxic drift, deforestation, oil spills, and the environmental aftermath of war occurs gradually and often invisibly. Rob Nixon focuses on the inattention we have paid to the lethality of many environmental crises, in contrast with the sensational, spectacle-driven messaging that impels public activism

today.

Let Your Past Go and Live -

In the 1960s Eric Berne's Games People Play became an international bestseller. It put the 'pop' in psychology. Forty years on, it's time for an update - Let Your Past Go is just that.

The Triangle of Truth -

Lisa Earle McLeod 2010-01-05

"A must-read for anyone who wants to be more successful." - Keith Ferrazzi, author of #1 New York Times bestseller Who's Got Your Back This engaging and eye-opening book presents a bold model for rising above either/or thinking, recasting the debate on everything from sex and politics to business and religion. With refreshing wit and honesty, business consultant and columnist Lisa McLeod reveals why most of what we've been told about conflict resolution and compromise is wrong-and why the answers to even the most complex problems are closer at hand than we might think. A rare combination of personal

insight, business wisdom, and humor, The Triangle of Truth is a just-in-time read for anyone who is tired of the arguments, angst, and stalemates and is ready for real solutions to our problems, large and small.

But It's Your Family . . . -

Sherrie Campbell 2019-01-01

A psychologist offers a roadmap for those looking to break free of toxic family relationships and thrive in the aftermath. Toxic family abuse is always two-fold. The first layer of abuse is the original poor treatment by toxic family members, and the second is someone's denial of the ways in which abusers treat and harm them. Loving someone doesn't always mean having a relationship with them, just like forgiveness doesn't always mean reconciliation. A significant part of healing comes with accepting that there are some relationships that are so poisonous that they destroy one's ability to be healthy and function best. But *It's Your Family* is a remarkable account of what it means to cut ties to toxic

family abuse and thrive in the aftermath. Inside, Dr. Sherrie Campbell clarifies: · How parents, adult children, siblings, grandparents, and in-laws can be toxic · The difference between flawed and toxic family members · Explaining the cutting of ties to children and others who may not understand · Spiritual and religious views on forgiveness · The definition of cutting ties and what No Contact actually means When readers are able to bring closure to those toxic relationships, they give themselves the space to love those family members from a distance, as fellow human beings, with the knowledge that it is unwise to remain connected. Readers learn how to love themselves in the process and fundamentally change their lives for the better!

Myalgic Encephalomyelitis / Chronic Fatigue Syndrome - 2003-02-06

An important medical milestone for anyone connected with ME/CFS!
Myalgic Encephalomyelitis / Chronic Fatigue Syndrome: Clinical Working Case Definition, Diagnostic and Treatment Protocols includes a clinical definition (clinical diagnostic criteria) for myalgic encephalomyelitis/chronic fatigue syndrome (ME/CFS). The clinical case definition was developed by an expert medical consensus panel of treating physicians, teaching faculty and world leaders in the research of ME/CFS. An expert

subcommittee of Health Canada established the Terms of Reference for the consensus panel. The definition more adequately reflects the complexity of symptoms of a given patient's pathogenesis and should establish ME/CFS as a distinct medical entity and help distinguish it from overlapping medical conditions in the absence of a definitive laboratory test. "The clinical definition will enable clinicians to make an early diagnosis which may assist in lessening the impact of ME/CFS in some patients," said Dr. Bruce M. Carruthers, lead author of the definition. "It will reduce the expensive problem of patients being sent to many specialists before being diagnosed and will allow patients to receive appropriate treatments in a timely fashion." The panel's clinical case definition determines that more of the prominent symptoms are compulsory and symptoms that share a common region of pathogenesis are grouped together for clarity. In addition to severe prolonged fatigue,

the definition includes the hallmark symptoms of post-exertional malaise and/or fatigue, sleep dysfunction, pain, two or more of the given neurological/cognitive manifestations, and at least one of the given symptoms from two of the categories of autonomic, neuroendocrine, and immune manifestations. Diagnostic exclusions and common co-morbid entities are also given. The special issue of the Journal of Chronic Fatigue Syndrome also includes a discussion of prominent symptoms, clinical practice diagnostic and treatment guidelines based on the best available research evidence, and an overview of available research on ME/CFS. The expert panel of 11 physicians—who have diagnosed and/or treated more than 20,000 ME/CFS patients between them—has developed a clinical case definition that provides a flexible conceptual framework based on the characteristic patterns of symptom clusters, which reflect specific areas of

pathogenesis. The expert subcommittee of Health Canada selected the expert consensus panel. Authors include: Dr. Bruce M. Carruthers, lead author of the consensus document; co-author of the draft of the original version of the ME/CFS clinical definition, diagnostic and treatment protocols document; internal medicine, Galiano, British Columbia. Dr. Anil Kumar Jain, co-author of the draft the original version of the ME/CFS consensus document, affiliate of Ottawa Hospital, Ontario. Dr. Kenny L. De Meirleir, Professor Physiology and Medicine, Vrije Universiteit Brussel, Brussels, Belgium; ME/CFS researcher and clinician; organizer of the World Congress on Chronic Fatigue Syndrome and Related Disorders; a board member of the American Association for Chronic Fatigue Syndrome; and co-editor of Chronic Fatigue Syndrome: Critical Reviews and Clinical Advances (Haworth) Dr. Daniel L. Peterson, affiliate of the Sierra Internal Medicine Associates in

Incline Village, Nevada; ME/CFS researcher and clinician; a board member of the American Association for Chronic Fatigue Syndrome; and member of the International Chronic Fatigue Syndrome Study Group Dr. Nancy G. Klimas, Clinical Professor of Medicine in Microbiology/Immunology/Allergy and Psychology, University of Miami School of Medicine; ME/CFS researcher and clinician; a board member of the American Association for Chronic Fatigue Syndrome; and member of the federal CFS Coordinating Committee Dr. A. Sherkey, family medicine, affiliate of the University Health Network, Toronto, Ontario; and diagnosed with chronic fatigue syndrome nearly 10 years ago Marjorie I. van de Sande, Consensus Coordinator; and Director of Education for the National ME/FM Action Network, Canada Myalgic Encephalomyelitis / Chronic Fatigue Syndrome: Clinical Working Case Definition, Diagnostic and Treatment Protocols also addresses diagnostic exclusions and common co-morbid entities.
