Humor in Advertising Marc G. Weinberger 2021-06-21 Humor has long been one of the most common approaches used in advertising. Whether in a big televised event like the Super Bowl or in new forms of digital advertising, everyone is exposed to funny ads, some of which both entertain the audience and help sell a product. Yet, the use of humor in advertising is complex; clearly not all humorous ads are successful. This comprehensive volume both summarizes the cumulative state of knowledge on humor in advertising and provides new cutting-edge research on key topics such as humor's use in conjunction with emotional and sexual appeals, its use in digital advertising, and issues related to gender and cross-cultural applicability. Special emphasis is placed on defining humorous advertising and types of humor used, as well as outlining what conditions work for advertisers. The chapters examine humor in advertising and add insights on several cutting-edge issues in this stream of research. An overview article summarizing the overall body of literature accumulated over 50 years of research on humorous advertising defines types of humorous appeals. The degree to which humor is effective and the boundary conditions associated with when and how it works best in advertising is discussed. New research articles further contribute to cumulative knowledge by exploring the interaction of humor with other issues and techniques such as whether it travels internationally, gender issues, its use in conjunction with emotional and sexual appeals, and its presence in the digital contexts. The book concludes with an in-depth look at the evolution of humorous appeals over the oldest traditional advertising medium—outdoor advertising. The chapters in this book were originally published in *International Journal of Advertising*.

Mira Lloyd Dock and the Progressive Era Conservation Movement Susan Rimby 2015-06-26 For her time, Mira Lloyd Dock was an exceptional woman: a university-trained botanist, lecturer, women's club leader, activist in the City Beautiful movement, and public official—the first woman to be appointed to Pennsylvania's state government. In her twelve years on the Pennsylvania Forest Commission, she allied with the likes of J. T. Rothrock, Gifford Pinchot, and Dietrich Brandis to help bring about a new era in American forestry. She was also an integral force in founding and fostering the Pennsylvania State Forest Academy in Mont Alto, which produced generations of Pennsylvania foresters before becoming Penn State's Mont Alto campus. Though much has been written about her male counterparts, Mira Lloyd Dock and the Progressive Era Conservation Movement is the first book dedicated to Mira Lloyd Dock and her work. Susan Rimby weaves these layers of Dock's story together with the greater historical context of the era to create a vivid and accessible picture of Progressive Era conservation in the eastern United States and Dock's important role and legacy in that movement.

Florynce "Flo" Kennedy Sherie M. Randolph 2018-02-01 Often photographed in a cowboy hat with her middle finger held defiantly in the air, Florynce "Flo" Kennedy (1916–2000) left a vibrant legacy as a leader of the Black Power and feminist movements. In the first biography of Kennedy, Sherie M. Randolph traces the life and political influence of this strikingly bold and controversial radical activist. Rather than simply reacting to the predominantly white feminist movement, Kennedy brought the lessons of Black Power to white feminism and built bridges in the struggles against racism and sexism. Randolph narrates Kennedy's progressive upbringing, her pathbreaking graduation from Columbia Law School, and her long career as a media-savvy activist, showing how Kennedy rose to founding roles in organizations such as the National Black Feminist Organization and the National Organization for Women, allying herself with both white and black activists such as Adam Clayton Powell, H. Rap Brown, Betty Friedan, and Shirley Chisholm. Making use of an extensive and previously uncollected archive, Randolph demonstrates profound connections within the histories of the new left, civil rights, Black Power, and feminism, showing that black feminism was pivotal in shaping postwar U.S. liberation movements.

The Routledge Companion to Alternative Organization Martin Parker 2014-01-03 Despite the Great Recession, slightly different forms of global capitalism are still portrayed as the only game in town by the vast majority of people in power in the world today. Unbridled growth, trade liberalisation, and competition are advocated as the only or best ways of organizing the contemporary world. Unemployment, yawning gaps between rich and poor, political disengagement, and environmental devastation are too often seen as acceptable 'side effects' of the dominance of neo-liberalism. But the reality is that capitalism has always been contested and that people have created many other ways of providing for themselves. This book explores economic and organizational possibilities which extend far beyond the narrow imagination of economists and management theorists. Chapters on co-operatives, community currencies, the transition movement, scrounging, co-housing and much more paints a rich picture of the ways in which another world is not only possible, but already taking shape. The aim of this companion is to move beyond complaining about the present and into exploring this diversity of organisational possibilities. Our starting point is a critical analysis of contemporary global capitalism is merely the opening for thinking about organizing as a form of politics by other means, and one that can be driven by the values of solidarity, freedom and responsibility. This comprehensive companion with an international cast of contributors gives voice to forms of organizing which remain unrepresented or marginalised in organizational studies and conventional politics, yet which offer more promising grounds for social and environmental justice. It is a valuable resource for students, activists and researchers interested in alternative approaches to economy and society in a variety of disciplinary and interdisciplinary fields.

The Governor and the Colonel Don Carleton 2020-12-11 William P. "Will" Hobby Sr. and Oveta Culp Hobby were one of the most influential couples in Texas history. Both were major public figures, with Will serving as governor of Texas and Oveta as the first commander of the Women's Army Corps and later as the second woman to serve in a presidential cabinet. Together, they built a pioneering media empire centered on the Houston Post and their broadcast properties, and they played a significant role in the transformation of Houston into the fourth largest city in the United States. Don Carleton's dual biography details their personal and professional relationship—defined by a shared dedication to public service—and the important roles they each played in local, state, and national events throughout the twentieth century. This deeply researched book not only details this historically significant partnership, but also explores the close relationships between the Hobbys and key figures in twentieth-century history, from Texas legends such as LBJ, Sam Rayburn, and Jesse Jones, to national icons, including the Roosevelts, President Eisenhower, and the Rockefellers. Carleton's chronicle reveals the undeniable impact of the Hobbys on journalistic and political history in the United States.

Herding Cats Andrew Rohm 2014-07-15 One of the top marketing challenges that marketing managers and executives face today is to better understand social media and its promise as a marketing platform. The social media ecosystem, including traditional platforms such as Facebook and Twitter and upstarts such as Instagram and Snapchat, have evolved significantly over the past 10 years; so much so that keeping pace with the latest social media platforms can seem like herding cats. Inside, the authors provide a timeless perspective on how to create, manage, and measure social media content to help you craft a more strategic approach to your social media efforts. They simplify the concept of branding and advertising (fueled by social media) so you can focus on fostering customer engagement; craft your organization's unique story; tell that story strategically via social media channels; organize, manage, monitor, and measure those efforts; identify key metrics and measure the performance through analytics; and

understand the extent of change brought on by digital and social media related to how you engage your customers.

Neurogenic Communication Disorders: Life Stories and the Narrative Self Plural Publishing, Incorporated 2008-07 There is currently considerable focus on psychosocial issues for persons with aphasia and their significant others. However, there has been little unifying work that brings diverse interdisciplinary perspectives together to understand the impact of aphasia and other neurogenic communication disorders on the social construction and mediation of self or identity. In this book, the authors explore this idea of social construction of self as it relates to the human need to create, share, and modify life stories, particularly when confronting major life changes. Their premise is that impaired communication can have a profound impact on one's perception of self and one's ability to negotiate the social reconstruction of self in the context of a neurological disorder. The nature and extent of impact varies, as seen in the book's in-depth examination of narrative self for persons living with aphasia, ALS, Parkinson's disease, and dementia, as well as those aging without impairment. The authors present theoretical grounding for using the concepts of self and the idea of a social and cultural tool kit that enables clients to interact with others and to define themselves in the context of those around them. The text moves from theory to qualitative analyses of living with neurogenic disorders to implications for clinical interventions for individual clients and their significant others.

Can't Buy Me Like Bob Garfield 2013-03-07 Today's brands face an apparent choice between two evils: continue betting on their increasingly ineffective advertising or put blind faith in the supposedly mystical power of social media, where "likes" stand in for transactions and a mass audience is maddeningly elusive. There has to be a better way . . . As Lennon and McCartney wrote a half century ago, money can't buy you love. But in today's world, where people have become desensitized-even disillusioned-by ad campaigns and marketing slogans, that maxim needs an update: Money can't even buy you like.

The UN Guiding Principles on Business and Human Rights Radu Mares 2011-12-09 The issue of corporate responsibilities has had a tumultuous history at the United Nations. When the Human Rights Council unanimously endorsed John Ruggie's Guiding Principles in June 2011, it was the first time that the UN stated authoritatively its expectations in the area of business and human rights. This volume captures this special moment in time: a moment of taking stock of a successfully concluded UN Special Representative mandate (2005-2011) and of preparing for the massive task of following up with more operational guidance, effective governance mechanisms and sound theoretical treatments.

Fair Trade Laura T. Reynolds 2007-06-11 This book explores the challenges and potential of Fair Trade, one of the world's most dynamic efforts to enhance global social justice and environmental sustainability through market based social change. Fair Trade links food consumers and agricultural producers across the Global North/ South divide and lies at the heart of key efforts to reshape the global economy. This book reveals the challenges the movement faces in its effort to transform globalization, emphasizing the inherent tensions in working both in, and against, the market. It explores Fair Trade's recent rapid growth into new production regions, market arenas, and commodity areas through case studies of Europe, North America, Africa, and Latin America undertaken by prominent scholars in each region. The authors draw on, and advance, global commodity and value chain analysis, convention, and social movement approaches through these case studies and a series of synthetic analytical chapters. Pressures for more radical and more moderate approaches intertwine with the movement's historical vision, reshaping Fair Trade's priorities and efforts in the Global North and South. Fair Trade will be of strong interest to students and scholars of politics, globalization, sociology, geography, economics and business.

Reappraising Jane Duncan Rita Elizabeth Rippetoe 2017-02-28 Scottish novelist Jane Duncan's semiautobiographical My Friends series was dismissed by postwar critics as lightweight, at a time when a coterie of "angry young men" monopolized the attention of the British publishing establishment. Yet deeper themes are at play in the 19 novels. Modern readers will recognize feminist motifs, a wide-ranging examination of women's education and work in the 20th century, a woman's view of the rising societal tensions of the 1920s and 1930s, and an outsider's perspective on the racial divide in the soon-to-be-independent West Indies. This book explores Duncan's body of work, out of print for decades, though sought by loyal fans. Her characters run the gamut--drunken tinkers, Lowland housewives, Irish miners, members of the London fast set and English marchionesses,

all portrayed with telling detail. Her novels--two of them recently reprinted for a new generation--reveal a charming and perceptive recorder of the changes Great Britain underwent in the past century.

The Talking Room Marianne Hauser 1976 A pregnant thirteen-year-old's apocalyptic vision of the late 20th century The Talking Room reflects an apocalyptic vision of the late 20th century, seen through the eyes of a pregnant thirteen-year-old who may not be a test tube baby. The Lesbian relationship between the mother J--wild, lost, beautiful--and competent Aunt V, a businesswoman, reveals itself to the reader as "the talking room" becomes the sounding board for the endless fights, endless reconciliations. V's desperate search for the beloved J through the nights of waterfront bars is lightened by wildly comic excursions reminiscent of our great American humorists. With wit, poetic clarity and compassion, Marianne Hauser explores the paradoxes of our age--need for love yet flight from love, search for self yet self-destruction--a dilemma shared alike by today's heterosexual and homosexual world. The author's multifaceted view defies dogma or simplification as her characters draw us into their turbulent and deeply human drama.

Crisis Management in the Age of Social Media Louis Capozzi 2013-07-02 Social media has fundamentally changed the contract between institutions and the public. Today, people expect a conversation, not a one-way diatribe. That, combined with the speed of the Internet, changes the game for many companies in anticipating, managing, and ultimately avoiding an "instant crisis"—an instant crisis example is when Verizon added a \$2 charge for all their customers; one hour later 100,000 signatures appeared on a Twitter petition, and soon Verizon was in the middle of a huge public relations crisis. Inside this book, you'll learn just how to manage this type of situation and meet the challenges of social media. Each chapter includes a description of a crisis, the timeliness of a good response, the effectiveness of this response, and an assessment of what works and what doesn't. Some examples of social media crises include Apple Computer, Netflix, JetBlue, Bank of America, Fed Ex, and public figures such as Anthony Weiner, Ashton Kutcher, and Jon Bon Jovi.

The Routledge Companion to Media and Class Erika Polson 2019-11-27 This companion brings together scholars working at the intersection of media and class, with a focus on how understandings of class are changing in contemporary global media contexts. From the memes of and about working-class supporters of billionaire "populists", to well-publicized and critiqued philanthropic efforts to bring communication technologies into developing country contexts, to the behind-the-scenes work of migrant tech workers, class is undergoing change both in and through media. Diverse and thoughtfully curated contributions unpack how media industries, digital technologies, everyday media practices—and media studies itself—feed into and comment upon broader, interdisciplinary discussions. They cover a wide range of topics, such as economic inequality, workplace stratification, the sharing economy, democracy and journalism, globalization, and mobility/migration. Outward-looking, intersectional, and highly contemporary, The Routledge Companion to Media and Class is a must-read for students and researchers interested in the intersections between media, class, sociology, technology, and a changing world.

Care of the Critically Ill Patient J. Tinker 2013-04-17 During the past decade there has been a considerable expansion in the understanding, assessment and treatment of critically ill patients. An attempt to portray our present knowledge of this diverse field in a comprehensive textbook is therefore a formidable and daunting undertaking. However, many colleagues in different disciplines and from different countries convinced us of the need for such a work and, greatly encouraged by their interest, we embarked upon the project. Any single text, even a very long one, cannot cover every aspect of critical illness. Our first task was, therefore, to define those areas of the subject that had to be included. This we did on a systematic

basis, and although the final emphasis of the book is very largely directed to clinical matters, we felt it pertinent to include in some detail accounts of relevant physiology and technology. Care of the Critically Ill Patient is divided into twelve sections, each concerned with major facets of critical illness; each of the sixty-eight chapters includes a topical and often extensive bibliography. The many chosen contributors form an international group of specialists whose combined expertise embraces the topics that we have selected.
