For a girl who shares her name with a princess (a.k.a Aurora from Sleeping Beauty), Aurora Skye's life seem fathoms away from a fairytale. Sure, she's landed Hayden Paris, Potential Prince extraordinaire. And she got her wish - one first kiss with all the knee-trembling, butterfly-inducing gloriousness she'd hoped for - but Aurora's learning that a kiss is just the beginning of a story. Instead of being the truly transcendent, utterly epic follow up it should be, her second attempt at kissing has literally landed Hayden Paris in the emergency room. If that's not mortifying enough, the whole school is now referring to her as 'Lethal Lips'. Meanwhile it's all systems go for her best friend Cassie - she and Potential Prince Scott are totally loved up and can't stop kissing. Jelena (Jefferson High's answer to Helen of troy) has moved on from the heinous betrayal by Bad Boy Alex West and has unleashed her plan to rule the world by running for School Captain. Problem is Alex is running too and Jelena's pulling out all the stops to prevent him from stealing her rightful place as ruler of Jefferson High - including offering Aurora's Find a Prince/Princess Program as one of her campaign initiatives. How is Aurora going to prove her program is foolproof and help Jelena win the election when her matchmaking manoeuvres seem to be throwing all the wrong people together - including the NAD and the hippy-dippy Ms Deforest - and she can't even convince Hayden to kiss her? Politeness and Face in Caribbean Creoles Susanne Muehleisen 2005-01-01 *Politeness and Face in Caribbean Creoles* is the first collection to focus on socio-pragmatic issues in the Caribbean context, including the socio-cultural rules and principles underlying strategic language use. While the Caribbean has long been recognized as a rich and interesting site where cultural continuities meet with new "creolized" or innovative practices, questions of politeness practices, constructions of personhood, or the notion of face have so far been neglected in linguistic research on Caribbean Creoles. Drawing on linguistic politeness theory and Goffman's concept of face, eleven mostly fieldwork-based innovative contributions critically examine a range of topics, such as ritual insults, strategic use of "bad language", kiss-teeth, the performance of homophobic threats, greetings, address forms, advice-giving, socialization and discourse, parent-child discourse, register choice and communicative repertoire in the Caribbean context.

The Well of Loneliness Radclyffe Hall 2023-12-21 "The Well of Loneliness" is a lesbian novel by British author Radclyffe Hall that was first published in 1928 by Jonathan Cape. It follows the life of Stephen Gordon, an Englishwoman from an upper-class family whose "sexual inversion" (homosexuality) is apparent from an early age. She finds love with Mary Llewellyn, whom she meets while serving as an ambulance driver in World War I, but their happiness together is marred by social isolation and rejection, which Hall depicts as typically suffered by "inverts", with predictably debilitating effects. The novel portrays "inversion" as a natural, God-given state and makes an explicit plea: "Give us also the right to our existence".

Allergic Intimacies Michael Gill 2023-01-17 The first book to explore food allergies in the United States from the perspective of disability and race Are food allergies disabilities? What structures and systems ensure the survival of some with food allergies and not others? Allergic Intimacies is a groundbreaking critical engagement with food allergies in their cultural representations, advocacy, law, and stories about personal experiences from a disability studies perspective. Author Michael Gill questions the predominantly individualized medical approaches to food allergies, pointing out that these approaches are particularly problematic where allergy testing and treatments are expensive, inconsistent, and inaccessible for many people of color. This thought-provoking book explores the multiple meanings of food allergies and eating in the United States, demonstrating how much more is at stake than we realize, at a critical time when food allergies are on the rise: An estimated 32 million Americans, including one in thirteen children, have food allergies. Diagnoses of food allergies in children have increased by 50 percent since 1997. Yet as the author makes clear, the whiteness of the food allergy community and single-identity disability theory is inherently limiting and insufficient to address the complex choices that those with food allergies make. Gill argues that racism and ableism create unique precarity for disabled people of color that food allergic communities are only beginning to address. There is a huge disparity in access to testing and treatment, with African American and Latinx children having higher risk of adverse outcomes than white children, including more rates of anaphylaxis. Food allergy professionals have a responsibility to move beyond individualized approaches to more robust coalitional efforts grounded in disability and racial justice to undo these patterns of exclusion. Allergic Intimacies celebrates the various creative ways food allergic communities are challenging historical and current practice of exclusion, while identifying the depth of work that still needs to be done to shift focus from a white allergic experience toward a more representative understanding of the racial, ethnic, religious, and economic diversity of those in the United States. Gill's book is a discerning and vital exploration of the key debates about risks, dangers, safety, representations, and political concerns affecting the lives of individuals with food allergies.
