[The Gender Trap - Emily W. Kane 2012-08-27](#)

"Emily Kane shows clearly that most parents understand children's personality to be some combination of nature and nurture, and many wish they could help nurture their children to escape gender traps. Yet these parents are themselves trapped by the gender structure itself, especially the accountability they feel to other people's expectations, and the fear that if their boys are free to explore activities usually associated with girls they will be punished by the world around them. The author shows clearly that to help parents navigate childrearing, we have to change the world around them. A good read, perfect for the undergraduate classroom, and clear enough even to give to those new parents in your family or the neighborhood."--Cover.

Middle School Matters - Phyllis L. Fagell 2019-08-06

A counselor and popular Washington Post contributor offers a new take on grades 6-8 as a distinct developmental phase--and the perfect time to set up kids to thrive. Middle school is its own important, distinct territory, and yet it's either written off as an uncomfortable rite of passage or lumped in with other developmental phases. Based on her many years working in schools, professional counselor Phyllis Fagell sees these years instead as a critical stage that parents can't afford to ignore (and though "middle school" includes different grades in various regions, Fagell maintains that the ages make more of a difference than the setting). Though the transition from childhood to adolescence can be tough for kids, this time of rapid physical, intellectual, moral, social, and emotional change is a unique opportunity to proactively build character and confidence. Fagell helps parents use the middle school years as a low-stakes training ground to teach kids the key skills they'll need to thrive now and in the future, including making good friend choices, negotiating conflict, regulating their own emotions, be their own advocates, and more. To answer parents' most common questions and struggles with middle school-aged children, Fagell combines her professional and personal expertise with stories and advice from prominent psychologists, doctors, parents, educators, school professionals, and middle schoolers themselves.

Baby Blitz - Cristina Grenier

After an earth-shaking one-night stand, rising singing starlet, Barbara Harrison, discovers she's pregnant. About the same time, she is signed to a breakthrough contract and moves to Los Angeles. A powerful football player, Justin Bowman has no idea that he has a son somewhere in LA, until a chance meeting in the same little dive where they first met five years prior brings him and Barbara back together again. This time, however, another one-night stand develops into a romance that neither one can deny. Still, Barbara is afraid to reveal to Justin that her son is also his, until a trip to the emergency room

confirms what Justin had been suspecting all along.
