Xavier's Legacies Kevin M. Doak 2011-03-01 Japan has had three Catholic prime ministers, and its current empress was raised and educated in the faith. How did a non-Christian nation come to foster more Catholic leaders than the United States, particularly when Protestantism is said to define Christianity in Japan and Catholicism is believed to be but a fleeting element of Japan's so-called Christian century? This volume reveals that, far from being a relic of the past something brought to Japan by missionaries and then forgotten Catholicism offered, and continues to provide, an authentic and alternative way for Japanese believers to maintain "tradition" and negotiate modernity.

Dream Not of Other Worlds Huston Diehl 2007-04-01 When Huston Diehl began teaching a fourth-grade class in a "Negro" elementary school in rural Louisa County, Virginia, the school's white superintendent assured her that he didn't expect her to teach "those children" anything. She soon discovered how these low expectations, widely shared by the white community, impeded her students' ability to learn. With its overcrowded classrooms, poorly trained teachers, empty bookshelves, and meager supplies, her segregated school was vastly inferior to the county's white elementary schools, and the message it sent her students was clear: "dream not of other worlds." In her often lyrical memoir, Diehl reveals how, in the intimacy of the classroom, her students reached out to her, a young white northerner, and shared their fears, anxieties, and personal beliefs. Repeatedly surprised and challenged by her students, Diehl questions her long-standing middle-class assumptions and confronts her own prejudices. In doing so, she eloquently reflects on what the students taught her about the hurt of bigotry and the humiliation of poverty as well as dignity, courage, and resiliency. Set in the waning days of the Jim Crow South, *Dream Not of Other Worlds* chronicles an important moment in American history. Diehl examines the history of black education in the South and narrates the dramatic struggle to integrate Virginia's public schools. Meeting with some of her former students and colleagues and visiting the school where she once taught, she considers what has--and has not--changed after more than thirty years of integrated schooling. This provocative book raises many issues that are of urgent concern today: the continuing social consequences of segregated schools, the role of public education in American society, and the challenges of educating minority and poor children.

Seeking Integrity in Teacher Education Ann Katherine Schulte 2008-11-01 In this book, a teacher educator examines her practice as a way of learning about teaching as well as challenging teacher education. It is about how one teacher educator sought to transform the perspectives of her student teachers, in order to better prepare them to teach diverse populations of students, while challenging her own beliefs about how best to do that. The author seeks integrity in her practice, defined as her ability to enact what she teaches preservice teachers to do. In particular, this book is a self-study that contributes to understanding the broader question: How much can one affect and change the discourse within education when one also inhabits the characteristics that are privileged by the institution? The teacher education literature supports the need to study this type of self-reflection. Other researchers have pointed out that the role of teacher educators' cultural identities in reforming education has been largely ignored in the literature. This book offers a unique perspective on the analogous relationship involved when a teacher educator teaches teachers how to examine the impact of their own identities on their teaching while examining that herself.

The Voice Of Reason S a Laird 2019-07-28 I have always been the person that people go to when they want an honest answer. I have tried to give them answers that will help them. I have never turned away a person who needs my advice about any kind of problem from relationships to what kind of tea to buy in a grocery store. Since a lot of them were strangers I don't know how their lives turned out so I must say that I did the best I could with reasonable answers to their dilemmas. They may not like my answers but I always tell it the way I see it. From an early age if there was a dispute people would say let's go to Sarah she will know what to do. I was always the leader in the games. I was always the one who had the answers and could pick the best team members for games. If it had to do with their home life, friends, parents, or their animals they would come to me expecting answers. When I told them what I thought was the right answer and they had already made up their mind to do it their way, I never argued, I told them what I thought and never tried to convince them they were wrong. I found early on it doesn't help to argue with people about their life choices. I actually had a few people punch me when I told them what I thought was the right and only answer to their dilemma. My name is Sarah Honoree Bates. In elementary school my girlfriend said she was in love with one of our classmates. We were in third or fourth grade. I told her it wasn't love. Love will come later I told her. Much later, you are too young to know what love is. This is a schoolgirl crush I told her. I lost my best friend. She stayed connected with that boy until high school when he dumped her for the prom queen. It was too late to save our friendship. She hurt me badly when she wouldn't listen or heed my advice. I felt that he wasn't right for her. I heard that she met her one true love in college and married him. They have three children and he is a doctor. I also heard she is happy. I have a brother who never listened to my advice either. He married the wrong woman and ended up divorced at age 25. He had to start over; lucky for him they didn't have children. She was a loud mouth unkind person. I told him before they were married. He was too in love with her and couldn't see her for what she was. I certainly could. He was unhappy in that marriage from practically the first day. He should have listened to me. It would have saved a lot of heartache for both of them. There was a girl in one of my high school classes. She was sure she was in love with her boyfriend. We were only eighteen at the time. She turned up pregnant and she came to me for advice. I asked her what she wanted to do. She told me she wanted to marry him and have the baby. "Have you told him yet?" I asked. "No I'm afraid he will leave me." She said and started crying. "How long have you been with him? Have you told your parents about this yet?" "We started dating in the ninth grade. You should remember you were there the day he asked me out on our first date." She was still crying but able to answer my questions. "My solution is don't tell your parents first. Tell Gary and don't give him an ultimatum. Just tell him. Then close your mouth and leave him to ponder it. Don't get mad or sad in front of him just tell him." I smiled at her and told her to do as I said and it would all work out. "I'm not sure I can do that I am really upset right now." "Just trust me and it will all be fine, calm down and go talk to him in a straight forward way. Men appreciate honesty and calm more than anything else." She trusted me and went out with him that night and told Gary she was pregnant at the end of their date. She told him that he probably wanted to be alone to ponder what he wanted to do. She didn't say what she wanted or add anything to her simple statement. Then she calmly walked into her house. Cherished Memories Beverly Jacques Anderson, PhD 2011-05-06 *CHERISHED MEMORIES* takes a memorable journey back to New Orleans of the 1950s. Professor Beverly Jacques Anderson shares stories from her childhood and from her elementary school classmates, providing a fascinating look at the experience of growing up in the Creole culture of the Seventh Ward of New Orleans. This culture indelibly shaped the character, personality, and aspirations of Anderson and her elementary school classmates, many of whom became hard working, family-oriented, service-oriented, productive, self-assured citizens. Creole culture in the Seventh Ward was rooted in close family ties, hard work, creativity, high expectations, independence, the Golden Rule, Catholicism, shared language/manner of speaking, and a shared sense of belonging to a unique community. Teachers, parents, and principals—all African Americans—valued education and set high standards for student achievement. According to interviews with twelve of the author's classmates, these beliefs, along with the unwavering support of parents and teachers, helped to produce competitive individuals in all walks of life. The Creole culture was also rooted in racial, ethnic, and religious segregation that affected individuals in surprising ways. Anderson also examines the history of public and Catholic education for children of color in the Seventh Ward of New Orleans and addresses the impact of the school on the community and vice versa. Explore this fascinating community and its educational history with *Cherished Memories*.

Charter Schools Liane Brouillette 2002-03 This book takes the reader inside the charter school movement, answering such questions as: *What is a charter school? *How are charter schools different from other public schools? *What does it take to create a charter school? *What motivates the people who initiate such schools? *What lessons can be learned from the experiences of those who have founded charter schools? *What does the growth of the charter school movement mean for society at large? Using detailed case studies of seven schools in three states, this book explores the challenges faced by the founders of these schools and develops guidelines for creating a successful school. Seymour Sarason's work on the creation of settings is used as a basis for examining the complex human interactions that contributed to formation of a unique culture at each school, as well as to establish guidelines for setting up a successful school. Introductory and concluding chapters place the charter school movement within a broader social and historical context. Tensions between the American tradition of local control of schools and the centralized tradition of schooling imported from Europe in the late 19th century are discussed. The gradual bureaucratization of U.S. public schools during the 20th century is described, along with problems that have been associated with the increasingly hierarchical and impersonal nature of educational institutions.

The Guyde Howie Reith 2016-11-19 The Guyde is the most comprehensive men's dating and self-improvement book ever written, designed to be everything you need to transform into the most confident version of yourself. There are no lines or routines; instead you'll find exercises and information to improve your self-esteem, social skills, and other elements integral to social success. Everything in these pages is backed with scientific evidence, and when I say scientific evidence, I mean cited peer-reviewed literature, not pop evolutionary psychology or the "law of attraction." You won't be reading anecdotes telling you about my "successes" or opinions; you'll be learning the practical steps necessary for the specific changes you want to manifest in your life. The Guyde is divided into four sections: Part I - Psychology Part I focuses on the internal elements of social interaction. How do you overcome your toxic self-limiting beliefs that keep you from being authentic with people? How do you overcome your fears? How can you stay motivated to make your changes? You will learn clinically effective approaches to all of these and more. Part II - Social Skills For many men, the biggest barrier between themselves and social success is a lack of social skills and awareness. In Part II, you'll learn how to shore up this weakness. You will learn how to listen, banter, share stories, and assert yourself with others. You'll learn how to improve your body language and vocal tonality to project confidence and charisma.

Part III - Physical Attractiveness Part III will teach you how to improve your physical features. The first two chapters detail the most clinically effective approaches to diet and exercise. We'll also discuss the basics of fashion and how to dress to impress. Master Part III, and when you go out, you will turn heads. Part IV - Dating The final portion of The Guyde deals with dating, in this version, in a heterosexual male context. You'll learn the best places to meet potential dates, how to flirt, and how to ask someone out. You'll learn how to plan brag-worthy romantic evenings and how to address problems like rude cancellations and "ghosting." You'll learn how to interact physically while being sensitive to your date's wishes, as well as how to perform better in bed. You'll learn why relationships fail and how to avoid the pitfalls most couples fall into, and you'll come to understand a bit about what it's like to date from a woman's perspective, including many of the cultural factors they face that most men don't understand. The Guyde is a labor of love. I wrote it to be everything I wish I'd known when I was younger, the sorts of things that turned my life around for the better. I hope it does the same for you.
