

How To Approach A Polish Woman

Interacting Francoism José M. Faraldo 2023-06-23 The book presents various investigation into 20th-century European dictatorships, with its focus on Franco's dictatorship and the Spanish Civil War. Francisco Franco's dictatorship in Spain (1936/1939-1975/1978) was a modern form of authoritarianism, with a strong totalitarian period, like many other dictatorships of the time. Francoism occupies a place in history alongside other different dictatorships of its age, and a comparative analysis might prove to be a powerful tool in order to understand how, in the middle of the 20th century, such a repressive and authoritarian form of political control emerged. One of the most forgotten fascisms, which at the same time was influenced by and influenced other dictatorships, there are many aspects of the transnational connections of Francoism that remain under-researched. Following this methodology, thus, an attempt is made to situate Francoism in the context of the other dictatorships of the time, in an attempt to transcend explanations centered on the nation. The chapters cover groundbreaking topics such as the Spanish Civil War as one of the first total wars or Spanish fascism in context as one of the main European totalitarianisms. The chapters always have more than one dimension: they speak of interrelation, entanglement, collaboration and diffusion, and, in general, put the different dictatorships (essentially: Francoism, diverse Fascisms and Communism) in context and comparison.

Polish Migrants in European Film 1918-2017 Kris Van Heuckelom 2019-04-23 This study explores the representation of international migration on screen and how it has gained prominence and salience in European filmmaking over the past 100 years. Using Polish migration as a key example due to its long-standing cultural resonance across the continent, this book moves beyond a director-oriented approach and beyond the dominant focus on postcolonial migrant cinemas. It succeeds in being both transnational and longitudinal by including a diverse corpus of more than 150 films from some twenty different countries, of which Roman Polański's *The Tenant*, Jean-Luc Godard's *Passion* and Krzysztof Kieślowski's *Trois couleurs: Blanc* are the best-known examples. Engaging with contemporary debates on modernisation and Europeanisation, the author proposes the notion of "close Otherness" to delineate the liminal position of fictional characters with a Polish background. *Polish Migrants in European Film 1918-2017* takes the reader through a wide range of genres, from interwar musicals to Cold War defection films; from communist-era exile right up to the contemporary moment. It is suitable for scholars interested in European or Slavic studies, as well as anyone who is interested in topics such as identity construction, ethnic representation, East-West cultural exchanges and transnationalism.

Complicating the Female Subject Joanna Kot 2016 In the 1930s, seven plays by Polish women writers created a flurry of excitement and condemnation as these women dared to question national myths, reinterpret the definition of subject, and subvert genre expectations. This study interrogates the feminism of these shocking dramas.

The Impact of Migration on Poland Anne White 2018-09-10 How has the international mobility of Polish citizens intertwined with other influences to shape society, culture, politics and economics in contemporary Poland? *The Impact of Migration on Poland* offers a new approach for understanding how migration affects sending countries, and provides a wide-ranging analysis of how Poland has changed, and continues to change, since EU accession in 2004. The authors explore an array of social trends and their causes before using in-depth interview data to illustrate how migration contributes to those causes. They address fundamental questions about whether and how Polish society is becoming more equal and more cosmopolitan, arguing that for particular segments of society migration does make a difference, and can be seen as both leveller and eye-opener. While the book focuses mainly on stayers in Poland, and their multiple contacts with Poles in other countries, Chapter 9 analyses 'Polish society abroad', a more accurate concept than 'community' in countries like the UK, and Chapter 10 considers impacts of immigration to Poland. The book is written in a

lively and accessible style, and will be important reading for anyone interested in the influence of migration on society, as well as students and scholars researching EU mobility, migration theory and methodology, and issues facing contemporary Europe.

Polin: Studies in Polish Jewry Volume 29 Natalia Aleksiu 2016-12-29 Historiography formed an unusually important component of the popular culture and heritage of east European Jewry in the late nineteenth and early twentieth centuries. This was a period of social, economic, and political upheaval, and for the emerging class of educated Jews the writing and reading of Jewish history provided not only intellectual but also emotional and moral sustenance. Facing an insecure future became easier with an understanding of the past, and of the Jewish place in that past. This volume is devoted to the development of Jewish historiography in the three east European centres—Congress Poland, the Russian empire, and Galicia—that together contained the majority of world Jewry at that time. Drawing widely on the multilingual body of scholarly and popular literature that emerged in that turbulent environment, the contributors to this volume attempt to go beyond the established paradigms in the study of Jewish historiography, and specifically to examine the relationship between the writing of Jewish history and of non-Jewish history in eastern Europe. In doing so they expose the tension between the study of the Jewish past in a communal setting and in a wider, regional, setting that located Jews firmly in the non-Jewish political, economic, and cultural environment. They also explore the relationship between ‘history’—seen as the popular understanding of the past—and ‘scholarly history’—interpretation of the past through the academic study of the sources, which lays claim to objectivity and authority. The development of Jewish historical scholarship grew out of the new intellectual climate of the Haskalah, which encouraged novel modes of thinking about self and others and promoted critical enquiry and new approaches to traditional sources. At the same time, however, in response to what the traditionalists perceived as secular research, an Orthodox historiography also emerged, driven not only by scholarly curiosity but also by the need to provide a powerful counterweight in the struggle against modernity. In fact, east European Jewish historiography has undergone many methodological, thematic, and ideological transformations over the last two centuries. Even today, east European Jewish historiography revisits many of the questions of importance to scholars and audiences since its emergence: how Jews lived, both within the narrow Jewish world and in contact with the wider society; the limits of Jewish insularity and integration; expressions of persecution and anti-Jewish violence; and also Jewish contributions to the societies and states of eastern Europe. Many challenges still remain: questions of the purpose of the research, its ideological colouring, and its relevance for contemporary Jewish communities. The fruit of research in many disciplines and from different methodological points of view, this volume has much to offer scholars of modern Jewry trying to understand how east European Jews saw themselves as they struggled with the concepts of modernity and national identity and how their history continues to be studied and discussed by an international community of scholars.

Russian and Polish Women Writers introduces the reader to the diversity of women's writing in Poland and Russia in the 19th and 20th centuries in the light of the notion of masquerade. The present articles scrutinize particular works by women writers (Nadezhda Dmitrievna Khvoshchinskaia, Irina Odoevtseva, Vera Pavlova, Narcyza Œmichowska, Maria Komornicka, Irena Krzywicka and others) and the strategies of masquerading female experience. Taken together, the articles draw attention to the feeling of an inexpressible gap between the living body (and its everyday life experience of pain and suffering or happiness and pleasure) and the culturally constructed, powerfully imposed code of expression that readily makes use of various masks, guises and acts of pretending, applied especially cleverly in literary works. The concept of masquerade illuminates the complexity of what we call 'femininity' by combining two sides of the divide: the real feelings and the constructed expressions. This volume uses both feminist and non-feminist approaches to women's writing and sheds new light on the themes of femininity, woman's identity, experience, masks, body, gender relations, nature, culture and authorship. *Masquerade and Femininity* brings together East European literary studies and gender studies, offering a comparative perspective on literature, literary theory and cultural phenomena in Poland and Russia, and featuring a range of both eastern European and western scholars. In its pages, the reader is invited to move beyond Russian literature and language into a dialogic approach between Slavic literatures. This book will also contribute to filling the comparative gap which is still relatively unexplored not only with regard to the application of western scholarship to East European studies, but also with regard to the dialogue between Russian and Polish scholarship.

Rethinking Modern Polish Identities Agnieszka Pasięka 2023-03-21 A critical examination of the category of "Polishness" - that is, the formation, redefinition, and performance of various kinds of Polish identities - from a wide range of disciplinary perspectives. Inspired by new research in the humanities and social sciences as well as recent scholarship on national identities, this volume offers a rigorous examination of the idea of Polishness. Offering a diversity of case studies and methodological-theoretical approaches, it demonstrates a profound connection between national and transnational processes and places the Polish case in a broader context. This broader context stretches from a larger Eastern European one, a usual frame of comparison, to the overseas immigrant communities. The authors, renowned scholars from Europe and the United States, thus demonstrate that an understanding of modern Polish identity means crossing not only historical but also geographical boundaries. Consequently, the narrative on Polish identity that unfolds in the volume is a personalized and multivocal one that presents the perspectives of a wide range of subjects: peasants, workers, migrants, ethnic and sexual minorities-that is, all those actors who have been absent in grand national narratives. As such, the examination of Polishness sheds light on the identity question more broadly, emphasizing the interplay of pluralizing and homogenizing tendencies, and fostering a reflection on national identity as encompassing both sameness and difference.

Polish Migration to the UK in the 'New' European Union Kathy Burrell 2016-04-22 Since the 2004 enlargement of the European Union over half a million Polish migrants have registered to work in the United Kingdom, constituting one of the largest migration movements in contemporary Europe. Drawing on research undertaken across a wide range of disciplines - history, economics, sociology, anthropology, film studies and discourse analysis - and focusing on both the Polish and British aspects of this phenomenon - both emigration and immigration - this edited collection investigates what is actually new about this migration flow, what its causes and consequences are, and how these migrants' lives have changed by moving to the United Kingdom. As the first book to deal with Polish migration to the United Kingdom, Polish Migration to the UK in the 'New' European Union will appeal to scholars across a range of social sciences, whose work concerns migration and the migration process.

OECD Studies on SMEs and Entrepreneurship Entrepreneurship Policies through a Gender Lens OECD 2021-05-17 This publication examines how to strengthen the scope and effectiveness of entrepreneurship policies for women. Evidence is offered on the gender gap in entrepreneurship and its causes.

Rethinking Gender, Work and Care in a New Europe Triin Roosalu 2016-04-29 Given the growing importance of Eastern European countries in the development of the EU, there is an urgent need to reconstruct the recent dynamic developments in women's work and care in these societies, and the socio-political determinants thereof. Considering their specific cultural, economic and historical development, it can be assumed that the trends and determinants of women's labour market trajectories in CEE countries differ significantly from those in the other European countries that have frequently made up the basis for established theories in social and labour market research. This being the case, can 'standard' theoretical approaches, mostly modelled on evidence from Western Europe, be transferred to the analysis of Eastern European countries? This edited collection scrutinises pivotal aspects of women's careers in Eastern Europe, providing a detailed overview of trends and determinants of women's employment in Eastern Europe, and reflecting critically on theoretical approaches in social and labour market research.

Polish Literature in Transformation Ursula Phillips 2013 This volume emerged from the conference "Polish Literature Since 1989" held at the University College London School of Slavonic and East European Studies. It shows how the profound political and economic transformation that has taken place in Poland since the end of communism in 1989 has affected literary culture and literary scholarship, such as: changing conceptions of Polish nationhood and identity * the impact of European integration (since 2004) * the effects of migration * revised conceptions of the foreign or the marginal, and new understandings of what is understood by emigre or emigrant literature * sensitivity to issues of gender and sexual identity, as well as the impact of feminism and queer studies * the huge impact of revived interest in the Jewish heritage, in Holocaust memory, and in Polish-Jewish relations. Male and Female: An Approach to Thomas Mann’s Dialectic I.M. Ezergailis 2012-12-06

Mothers, Families or Children? Family Policy in Poland, Hungary, and Romania, 1945-2020 Tomasz Inglot 2022-11-29 Mothers, Families, or Children? is the first comparative-historical study of family policies in Poland, Hungary, and Romania from 1945 until the eve of the global pandemic in 2020. The book highlights the emergence, consolidation, and perseverance of three types of family policies based on “mother-orientation” in Poland, “family orientation” in Hungary, and “child-orientation” in Romania. It uses a new theoretical framework to identify core and contingent clusters of benefits and services in each country and trace their development across time and under different political regimes, before and after 1989. It also examines and compares policy continuity and change with special attention to institutions, ideas, and actors involved in decision making and reform. As family policies continue to evolve in the era of European Union membership and new governmental and societal actors emerge, this study reveals mechanisms that help preserve core family policy clusters while allowing reform in contingent ones in each country.

The Subjective Experience of Joblessness in Poland Irina Tomescu-Dubrow 2019-05-07 This book describes the experience of joblessness and unemployment in contemporary Poland. It does so by combining qualitative and quantitative data from a special project conducted in Poland after the Great Recession and the long-term Polish Panel Survey (POLPAN) to describe the lives of the jobless: women and men currently out of work, the recently re-employed, and housewives. The book uses a class and inequality perspective to investigate how these women and men became jobless, how they look for and find employment, their household and social activities, and their political participation. It contextualizes these experiences with a description of Poland’s economy, labor market and employment policies after the fall of Communism and builds on the active interviewing and social constructionist approaches to explore the complex interviewer-respondent relationship.

Freedom Taking Place: War, Women and Culture at the Intersection of Ukraine, Poland, and Belarus Jessica Zychowicz 2023-05-30 Freedom as a concept shifts with different forms of

expression. As the authors of this volume convey in their focus on 'freedom of expression', the idea of 'freedom' in the twenty-first century does not stand apart as a purely physical location marked by national borders. In the Internet Age information is increasingly co-determinate of physical freedom. The information-dense space of the protests of 2021, and beyond, provide soil for the intellectuals writing in this volume to reflect on women's agency in struggles for human rights. Where historical discourse on "The Woman Question" once conflicted with "feminism" as a perceived importation from the West, this conflict also produced productive tensions that have provided ongoing sites for research. When closely studied, these contexts can deepen global concepts of democracy and justice, providing not only pathways for acts of solidarity and mutual assistance, but intellectual depth and breadth for the future 'ways of knowing', and thus ways of creating, more equitable post-conflict power systems and citizenship amid times of revolution and war. Coming from multiple generations, gender identities, nationalities, and language; the authors in this volume represent the most forward-thinking voices and figures working on gender in the region today.

Categorically Jewish, Distinctly Polish Moshe Rosman 2022-03-16 Moshe Rosman's revolutionary approach has become a cornerstone of Polish Jewish historiography. Challenging conventions, he asserts that the 'marriage of convenience' between the Jews and the Polish-Lithuanian Commonwealth was a dynamic relationship that, though punctuated by crisis and persecution, developed into a saga of overall achievement and stability. With that fundamental message this book forges a thematic survey of Jewish history in early modern Poland. These essays, written by Rosman over the course of a distinguished career, have all been updated and enhanced with new detail and nuanced arguments, taking account not only of new archival material and research but also of the ongoing evolution of the author's own knowledge and perspectives. Some appear here in English for the first time. The volume's structure highlights key topics for understanding the Polish Jewish past: relations between Jews and other Poles; Jewish communal life; Polish Jewish women; and hasidism. One section analyses how this past has been presented in both scholarly and popular modes. The essays are crafted to place them in dialogue with each other. Analytical introductions weigh their significance in the light of modern and postmodern Jewish and Polish historiography. An extensive general introduction sets the context of the history portrayed here, while a thoughtful conclusion elucidates the larger motifs that emerge.

Polin: Studies in Polish Jewry Volume 18 2005-11-29 Jewish women's exclusion from the public domains of religious and civil life has been reflected in their near absence in the master narratives of the East European Jewish past. As a result, the study of Jewish women in eastern Europe is still in its infancy. The fundamental task of historians to construct women as historical subjects, 'as a focus of inquiry, a subject of the story, an agent of the narrative', has only recently begun. This volume is the first collection of essays devoted to the study of Jewish women's experiences in Eastern Europe. The volume is edited by Paula Hyman of Yale University, a leading figure in Jewish women's history in the United States, and by ChaeRan Freeze of Brandeis University, author of a prize-winning study on Jewish divorce in nineteenth-century Russia. Their Introduction provides a much-needed historiographic survey that summarizes the major work in the field and highlights the lacunae. Their contributors, following this lead, have attempted to go beyond mere description of what women experienced to explore how gender constructed distinct experiences, identities, and meanings. In seeking to recover lost achievements and voices and place them into a broader analytical framework, this volume is an important first step in the rethinking of east European Jewish history with the aid of new insights gleaned from the research on gender. As in earlier volumes of *Polin*, substantial space is given, in 'New Views', to recent research in other areas of Polish-Jewish studies, and there is a book review section.

International Relations in Poland Jacek Czaputowicz 2017-08-28 This book critically examines the study of International Relations in Poland, looking at the pre-academic origins of the discipline, its development after WWII, under communism, and after the transformation of 1989. Apart from bringing a broad political and intellectual context, it offers a thorough quantitative and qualitative

study of hundreds of books and scientific articles. The theoretical and methodological practices of Polish IR scholars are presented in a comparative perspective, looking for common patterns with other European countries. This book is an invaluable resource for scholars with an interest in sociology of IR, disciplinary history or scholarly metrics.

Rethinking Ethnography in Central Europe Hana Cervinkova 2015-09-09 In eleven ethnographic chapters of *Rethinking Ethnography in Central Europe* examines how issues of global economic and cultural dependencies, mobilities, citizens activism, social movements, and socio-political aspects of post-socialist modernities articulate on the level of everyday discourse and practices.

Engendering Slavic Literatures Pamela Chester 1996 *Engendering Slavic Literatures* breaks new ground in its investigation of gender and feminist issues in Croatian, Polish, Russian, Serbian, and Ukrainian literary texts by both female and male writers. Drawing on psychoanalytic approaches, film theory, and lesbian and gender theory, the authors interrogate the received notions of Western gender studies to see which can be usefully applied to nineteenth- and twentieth-century Slavic literary works. Motherhood and the relationships of mothers and daughters; the myths of selfhood that shape the autobiographies of Nadezhda Mandel'shtam, Marina Tsvetaeva, Lidiia Ginzburg, and Lev Tolstoy; Polish Catholicism and sexuality; portrayals of landscape in verbal and visual art; and women writers' transgressive ventures into male bastions such as the love lyric and prose fiction are among the themes of this important and innovative volume.

Polish Lace Makers Anna Sznajder 2019-10-15 Grounded in rural gender studies and feminist epistemology, *Polish Lace Makers* is a pivotal historical and modern account of the social and economic behaviors of entrepreneurial craftswomen tasked with preserving the originality and symbolic value of lace.
