Virus of the Mind - Richard Brodie 2011-02-15
Virus of the Mind is the first popular book devoted to the science of memetics, a controversial new field that transcends psychology, biology, anthropology, and cognitive science. Memetics is the science of memes, the invisible but very real DNA of human society. In Virus of the Mind, Richard Brodie carefully builds on the work of scientists Richard Dawkins, Douglas Hofstadter, Daniel Dennett, and others who have become fascinated with memes and their potential impact on our lives. But Richard goes beyond science and dives into the meat of the issue: is the emergence of this new science going to have an impact on our lives like the emergence of atomic physics did in the

Cold War? He would say the impact will be at least as great. While atomic bombs affect everybody's life, viruses of the mind touch lives in a more personal and more pernicious way. Mind viruses have already infected governments, educational systems, and inner cities, leading to some of the most pervasive and troublesome problems of society today: youth gangs, the welfare cycle, the deterioration of the public schools, and ever-growing government bureaucracy. Viruses of the mind are not a future worry: they are here with us now and are evolving to become better and better at their job of infecting us. The recent explosion of mass media and the information superhighway has made the earth a prime breeding ground for

viruses of the mind. Will there be a mental plague? Will only some of us survive with our free will intact? Richard Brodie weaves together science, ethics, and current events as he raises these and other very disturbing questions about memes.

A Look Inside Alzheimer's - Marjorie N. Allen
2012-09-18

A Look Inside Alzheimer's is a captivating read for friends, families and loved ones affected by this mind-robbing disease. Individuals with early-stage Alzheimer's disease will take comfort in the voice of a fellow traveler experiencing similar challenges, frustrations, and triumphs. Family and professional caregivers will be enlightened by this book and gain a better understanding of this unfathomable world and how best to care for someone living in it. Susan and PJ, share their accounts of their own transformation and deterioration with early-onset Alzheimer's Disease and Marjorie shares her perspective as the wife of a person living

with Alzheimer's Disease. The book addresses the complexity and emotions surrounding issues such as the loss of independence, unwanted personality shifts, struggle to communicate, and more. The three life-stories intertwined along with boxed quotes from professionals in the field make this book special. "

Good Girl - Anna Fitzpatrick 2022-05-17

Lucy tries so hard to be good. She was always a good student, tries to be a good friend, a good citizen, a good feminist, and now she wants a lover who will give her a good beating, preferably after tying her up. Dating swings from the sublime to the humiliating, but then Lucy hooks up with someone who challenges her to pursue the writing career she has been letting idle. When she discovers a teen magazine from the 1970s, it sparks her imagination and her life finally seems to come into focus; but as she learns more about how women were treated behind the scenes, she has to decide what to do. How to be true to herself, as chaotic as she

believes herself to be; how to be good to those around her; how to survive as a young woman in the still messy media culture of 2015.

Surprising, sexy, and hilarious, Good Girl is a thoughtful and endearing portrait of a young woman unsure of what she's supposed to want from a world where the rules keep changing.

Language, Society and Power - Annabelle Mooney 2015-02-20

Language, Society and Power is the essential introductory text to studying language in a variety of social contexts. This book examines the ways language functions, how it influences thought and how it varies according to age, ethnicity, class and gender. It considers whether representations of people and their language matter, explores how identity is constructed and performed, and considers the creative potential of language in the media, politics and everyday talk. This fourth edition has been completely revised to include recent developments in theory and research and offers the following features: A range of new and engaging international examples drawn from everyday life - including material from social media and newspapers, cartoons, YouTube and television. Two new chapters which cover Linguistic Landscapes, including signs, graffiti and the internet; and Global Englishes, exploring variation in and

Women Doing Life - Lora Bex Lempert
2016-02-19

"In Women Doing Life, Lora Bex Lempert examines the carceral experiences of women serving life sentences, presenting a typology of the ways that life-sentenced women grow and self-actualize, resist prison definitions, reflect on and own their criminal acts, and ultimately create meaningful lives behind prison walls. Looking beyond the explosive headlines that often characterize these women as monsters, Lempert offers rare insight into this vulnerable, little studied population. Her gendered analysis considers the ways that women do crime differently than men and how they have

Eugenia's Creations - Jill Bibbs 2021-05-12

The title of this book is my middle name Eugenia and all my creations and pain I have endured in my life and in my dreams. I have daydreams and night dreams, some good, some bad, some perplexed, and some crazy. The pain is about deaths of my family, friends, neighbors, and people in the world. I can say that my title is Me* because I feel I'm a very confused and complicated person. (The title and Eugenia's creation's pain*.)

I Am A Woman And Not Stupidly Touchy About It - Santosh Jha 2017-06-01

Downloaded from

I am a woman, but it is always 'I', which shall decide for me 'How I Am A Woman' and not the populist generic identities. Womanhood is a blessing but what 'I' accept 'womanhood' and 'empowerment' as, is definitively a conscious-judicious enterprise of 'power' I acquire through personal initiatives. Man or woman, I'm always a good, amicable, honest, sincere and compassionate person, transcending generic identities. Identity as a woman matters, but personality defines me as a person and constructs my wellness and excellence. 'How I Am' matters more for me than 'Who I Am' as I am an empowered woman, not in emotional-reactive, but objectively logical way.

The Meme Machine - Susan Blackmore
2000-03-16

Humans are extraordinary creatures, with the unique ability among animals to imitate and so copy from one another ideas, habits, skills, behaviours, inventions, songs, and stories. These are all memes, a term first coined by Richard

Dawkins in 1976 in his book *The Selfish Gene*. Memes, like genes, are replicators, and this enthralling book is an investigation of whether this link between genes and memes can lead to important discoveries about the nature of the inner self. Confronting the deepest questions about our inner selves, with all our emotions, memories, beliefs, and decisions, Susan Blackmore makes a compelling case for the theory that the inner self is merely an illusion created by the memes for the sake of replication. *Millennials Talking Media* - Sylvia Sierra
2021-10-05

"Friends don't let friends skip leg day." "You shall not pass!" "I'll be back." The way we read these lines-whether or not you picture Gandalf, hear the deep monotone of the Terminator, or smile makes it clear that media consumption affects our everyday lives, language, and how we identify as part of a group. *Millennials Talking Media* examines how U.S. Millennial friends embed both old media (books, songs, movies,

and TV shows) and new media (YouTube videos, videogames, and internet memes) in their everyday talk for particular interactional purposes. Sylvia Sierra presents case studies featuring the recorded talk of Millennial friends to demonstrate how and why these speakers make media references and use them to handle awkward moments and other interactional dilemmas. Sierra's analysis shows how such references contribute to epistemic management and frame shifts in conversation, which ultimately work together to construct a shared sense of Millennial identity. Building on contemporary work in media studies, Sierra weaves together the most current linguistic theories regarding knowledge, framing, and identity to create a book that will be of interest to Boomers, Gen Xers, Millennials, and Gen Z alike.

Essays in Celebrity Culture - Pramod K. Nayar
2021-05-11

The collection of essays in the book moves from

the largest domain of celebrity culture in India - Bollywood - through celebrity life writing and biopics and, finally, to the politics of and by celebrity culture. The book begins with an exploration of films made around celebrity victims to the vernacular cosmopolitanism of Bollywood stars' philanthropic and humanitarian work and, finally, to celebrity charisma and its role in the current era of 'post-truth.' Two studies of celebrity biopics and auto/biographies - from sports stars to Bollywood stars - and their disease memoirs are included. Finally, a section of essays are devoted to celebrity cultural politics, including Indian writing as a celebrity, the Narmada River as a celebrity, the desacralization of celebrity statues, Arundhati Roy's celebrated and celebrity activism and the self-fashioning of Indian authors in the age of digital culture.

The Sisters Are Alright, Second Edition -

follow Black women. The second edition of this bestseller debunks vicious misconceptions rooted in long-standing racism and shows that Black women are still alright. When African women arrived on American shores, the three-headed hydra—servile Mammy, angry Sapphire, and lascivious Jezebel—followed close behind. These stereotypes persist to this day through newspaper headlines, Sunday sermons, social media memes, cable punditry, government policies, big screen portrayals, and hit song lyrics. Author Tamara Winfrey Harris reveals that while emancipation may have happened more than 150 years ago, America still won't let a sister be free from this coven of caricatures. The latest edition of this bestseller features new interviews with diverse Black women about marriage, motherhood, health, sexuality, beauty, and more. Alongside these authentic experiences and fresh voices, Winfrey Harris explores the evolution of stereotypes of Black women, with new real-life examples, such as the rise of

blackfishing and digital blackface (which help white women rise to fame) and the media's continued fascination with Black women's sexuality (as with Cardi B or Megan Thee Stallion). The second edition also includes a new chapter on Black women and power that explores how persistent stereotypes challenge Black women's recent leadership and achievements in activism, community organizing, and politics. The chapter includes interviews with activists and civic leaders and interrogates media coverage and perceptions of Stacey Abrams, Vice President Kamala Harris, and others. Winfrey Harris exposes anti-Black woman propaganda and shows how real Black women are pushing back against racist, distorted cartoon versions of themselves. She counters warped prejudices with the straight-up truth about being a Black woman in America.

imagination. This timely and critical work examines how the Twilight series offers addictively appealing messages about love, romance, sex, beauty and body image, and how these charged themes interact with cultural issues regarding race, class, gender and sexuality. Through a careful analysis of the texts, the fandom and the current socio-historical climate, this work argues that the success of the Twilight series stems chiefly from Meyer's negotiation of cultural mores.

Social Media in Industrial China - Xinyuan Wang
2016-09-13

Life outside the mobile phone is unbearable.' Lily, 19, factory worker. Described as the biggest migration in human history, an estimated 250 million Chinese people have left their villages in recent decades to live and work in urban areas. Xinyuan Wang spent 15 months living among a community of these migrants in a small factory town in southeast China to track their use of social media. It was here she

witnessed a second migration taking place: a movement from offline to online. As Wang argues, this is not simply a convenient analogy but represents the convergence of two phenomena as profound and consequential as each other, where the online world now provides a home for the migrant workers who feel otherwise 'homeless'. Wang's fascinating study explores the full range of preconceptions commonly held about Chinese people - their relationship with education, with family, with politics, with 'home' - and argues why, for this vast population, it is time to reassess what we think we know about contemporary China and the evolving role of social media.
