Collaborative Helping - William C. Madsen 2014-04-07

An interdisciplinary framework for sustainable helping through cross-system collaboration This hands-on resource provides clear, practical guidance for supportive service professionals working in a home-based environment. Drawing on best practices from a range of disciplines, this book provides a clear map for dealing with the complex and often ambiguous situations that arise with individuals and families, with applications extending to supervision and organizational change. Readers gain the advice and insight of real-world frontline helpers, as well as those who receive care, highlighting new ways to approach the work and re-think previous conceptualizations of problems and strengths. Helping efforts are organized around a shared, forward-thinking vision that anticipates obstacles and draws on existing and potential supports in developing a collaborative plan of action. The book begins with stories that illustrate core concepts and context, presenting a number of useful ideas that can reorient behavioral services while outlining a principle-based practice framework to help workers stay grounded and focused. Problems are addressed, and strength-based work is expanded into richer conversations about strengths in the context of intention and purpose, value and belief, hopes, dreams, and commitments. Topics include: Contextual guidance with helping maps Engaging people and re-thinking problems and strengths Dilemmas in home and community services Sustainable helping through collaboration and support A strong collaboration between natural networks, communities, and trained professionals across systems creates an effective helping endeavor. Ensuring sustainability may involve promoting systems change, and building institutional supports for specific supervisory, management, and organizational practices. Collaborative Helping provides a framework for organizing these efforts into a coherent whole, serving the needs of supportive services workers across sectors.

Sagittae Angelorum - David C. Bellusci 2023-07-28

Sagittae Angelorum, "arrows of angels," offers a collection of literary works in poetry, short stories, and drama by four innovative

authors—Jeremy Joosten, Joelle Joosten, Dominic Nootebos, and Lucas Smith. Jeremy Joosten engages his readers by creating narratives with animal and nature metaphors. The reader/listener cannot escape his call to existential reflection on life and relationships. He achieves personal self-examination in his one-act play, Kintsugi. Joelle Joosten explores spatial form and structure as part of metaphor in her poetry. In her short story Turbulence, she draws us into the powerful emotions of love and betrayal; and in her historical fiction on Ludwig van Beethoven, the intensity of music reinforces Beethoven's interior tension. When it comes to love, Dominic Nootebos confronts his audience with the rawness of love and death in both his provocative poetry and his gothic love story, Lost Love of the Haunted and Hollow. Lucas Smith offers us poems where he explores space, syntax, and images leading his reader to a spiritual ascent. In the drama genre, he constructs his play based on the life of Pier Giorgio Frassati. He ends this collection bringing his readers to Mars, then back to Earth, in his sci-fi piece with a spiritual twist.

Hawk & the Lady - Elizabeth Stevens 2020-07-31

Leah I didn't belong in their world, but I made a good show of pretending I did. Mother and Father expected it. All I wanted to do was get a cosy cottage in the suburbs and live with my million cats. What I got instead was suitor after suitor paraded in front of me and the threat of a looming engagement. So, what else was a girl to do? After bumping into Mrs Fortescue's 'companion' one too many times, I decided he'd do. Mother

and Father wanted an engagement? They'd get one. Except I'd be the one having the last laugh because Patrick is the total opposite of what my parents want in a son-in-law - his nickname is Hawk for goodness' sake - and I have no obligations to him in any department. But of course, the best laid plans make fools of us all and it's not long before I want him to hold me accountable only to him in EVERY department. There's just the small problem of him being completely unsuitable and without any inclination to settle down. If there's one thing I know about men, it's that it takes a remarkable woman to tame them. I know I'm a remarkable woman. I only hope it's not too late for this lady to tame her hawk. Patrick If there's one thing that makes a guy reconsider his womanising ways, it's seeing his best mate and his little sister settle down. If there's another, it's a gorgeous woman in a stunning red dress. But she's a part of a world I can only pretend to fit into and she's a damned lady - elegant and sophisticated - and she's totally off-limits to a grunt like me. Every time we meet, there's a look in her eyes that suggests she's far less sophisticated than she'd have me believe. And it's not long before this hawk is close to begging to relinquish his freedom, even just for one night. So, how could I say no when she needed my help? I was expertly qualified to serve, and if I got to be myself for once that was just icing. But the more time I spend with her, the more I want to be around her. The more it feels less like a job and more like something real. There's just the small problem of her being an heiress with obligations that don't include me and the job will only last so long. I don't know a lot about ladies, despite my remarkable ability to play a part. All I know is there's always more underneath the mask, and there's only one lady who can tame this hawk.

DreamCatcher Motorcycle Club Collection Three - Liberty Parker

This collection contains books 7-9 of the DreamCatcher MC Unleashing Powerhouse: Cole, who's known as Powerhouse by his brothers, steers clear of relationships. He had a rough and rowdy childhood, one full of traumatic events. But now he's met her, and she's changed everything. Salem had a wonderful upbringing, full of love and laughter. Until she lost her parents. Despite her world crumbling around her, she never gave up on life or love. She's a dynamo who's determined to break down all of Cole's defenses. Taming Bull: Bull has a hard task ahead of him, winning over his woman and claiming her for himself after having to inform her she has to fake her death and run away with him. Dottie loves her family, her job, and her independence. So when the man she's been seeing for a few short weeks shows up and tells her if she doesn't leave with him, her family may pay the consequences, she reluctantly agrees to leave her life behind and fake her own death. Lethal Vendetta: Plans can be thwarted, and people can be astoundingly manipulative and deceptive. It's a lesson Tyson should never forget. One he's learned numerous times by those he should've been able to trust. The free-spirited person he used to be no longer exists. In its place is a hardcore casing that strangles him and refuses to release its grip. A well thought out future, one that has been calibrated down to the smallest detail, can collapse and tumble around you. No one knows that better than Hemmingway. Her goals and aspirations have been altered, because the motivation to find love was obliterated by two sinister men, and it no longer fuels her desires. Note to Readers: These books end on story arc's to prepare you for the next upcoming book in the series. There are no cliffhangers.

[Handbook of the Brief Psychotherapies](#) - Richard A. Wells 2013-11-22

The last two decades have seen unprecedented increases in health care costs and, at the same time, encouraging progress in psychotherapy research. On the one hand, accountability, cost-effectiveness, and efficiency have now become commonplace terms for providers of mental health services whereas, on the other hand, an increasingly voluminous literature has emerged supporting the effectiveness of a number of types of psychotherapies. There now exists the possibility for the design and delivery of mental health services that-drawing upon this literature-more closely approximate empirically established data concerning the appropriateness and effectiveness of psychotherapy. The Handbook of the Brief Psychotherapies is intended to capture one major thrust of this movement: the development of a group of empirically grounded, time-limited therapies all sharing a common interest in the clinical utilization of a structured focus and an emphasis on time and action. For many years, professional self-interest, competing theoretical paradigms, and the vagaries of practice, wisdom, and clinical myth have influenced the practice of psychotherapy. A critical questioning of the resulting,

predominantly nondirective, open-ended, and global therapies has led to a growing emphasis on action-oriented, problem-focused, time-limited therapies. Yet, ironically, this interest in the brief psychotherapies has not so much involved a radical departure from traditional therapeutic modalities as it has emphasized a new pragmatism about how time, action, and structure operate in life as well as in therapy.
