Ask A North Korean - Daniel Tudor 2018-03-20
"In his new book, Ask a North Korean, Daniel Tudor—a former Economist journalist and current Korean beer entrepreneur—wants people to understand the true lives of everyday North Koreans. Using translated essays written by defectors, the book covers topics from politics to pornography." — The Boston Globe
Understanding North Korean Through the Eyes of Defectors. The weekly column Ask A North Korean, published by NK News, invites readers from around the world to pose questions to North Korean defectors. Adapted from the long-running column, these fascinating interviews provide authentic firsthand testimonies about life in North Korea and what is really happening inside the "Hermit Kingdom." North Korean contributors to this book include: "Seong" who went to South Korea after dropping out during his final year of university. He is now training to be an elementary school teacher. "Kang" who left North Korea in 2005. He now lives in

London, England. "Cheol" who was from South Hamgyeong in North Korea and is now a second-year university student in Seoul. "Park" worked and studied in Pyongyang before defecting to the U.S. in 2011. He is now studying at a U.S. college. Ask A North Korean sheds critical light on all aspects of North Korean politics and society and shows that, even in the world's most authoritarian regime, life goes on in ways that are very different from what outsiders may think.

Sultan to Sultan - May French Sheldon 2008-09-01

In the last half of the nineteenth century, Africa was still the 'dark continent,' with large areas of its territory unmapped. Tribes in many regions had not been subdued, and from their initial contacts with Arab slavers and Western explorers, they were often hostile to foreigners. Diseases against which outsiders had no immunities had been named but not cured. Roads and even trails were almost nonexistent. But these very obstacles made Africa an irresistible challenge to adventurers. Most, of course, were men, but one of the more remarkable, unconventional, and brave of these explorers was a middle-aged American woman by the name of May French Sheldon, who in 1891 planned and led an expedition to East Africa. For her it was not enough just to follow the trail of the male explorers. Her aim was to prove that women could do whatever men could do. May contributed learned papers on little-known topics such as the navigation of Lake Chala, and she made some of the first ethnographic studies of African women and children. It is the latter work which today stands out as a major accomplishment. Along with her contemporary Mary Kingsley, Sheldon was among the first white people to describe Africans and African culture sympathetically.

Calm - Fearne Cotton 2017-12-28

THE FOLLOW UP TO THE SUNDAY TIMES BESTSELLER, HAPPY: FINDING JOY IN EVERY DAY AND LETTING GO OF PERFECT 'Calm for me is less about thought and much more about feeling. It is a stillness that allows my lungs to expand like hot air balloons. It is an acceptance of the noise around me. It is a magic alchemy that might last a second or a whole day, where I feel relaxed yet aware; still yet dynamic; open yet protected . . . '*** In today's always-on world, for many of us it seems impossible to relax, take time out or mute the encircling

'noise'. It is easy to feel trapped in this frenzied state of mind: we are surrounded by negative stories in the press, weighed down by pressures from work, family life or school and subject to constant scrutiny under the all-seeing eye of social media. As a result, mental health illnesses are on the rise in every age group, and more of us than ever before yearn for silence, peace and calm. CALM is Fearne's mission to find the simple things that can inch us away from stress and over to the good stuff. Including expert advice, conversations with wise friends from all walks of life, easy ideas to try, activities to complete - and the little things that have made a difference to her own, sometimes-bumpy life - this book is a friendly reminder that Calm is a place that exists in us all, we just have to find our way back to it.
