The End of Men - Hanna Rosin 2012-10-11

What Betty Friedan, Simone de Beauvoir, Susan Faludi and Naomi Wolf did for feminism, senior editor of The Atlantic Hanna Rosin does for a new generation of women: an explosive new argument for why women are winning the battle of the sexes and why men are no longer top dog. Women are no longer catching up with men. By almost every measure, they are out-performing them. We are at an

No More Nice Girl Power Sexuality And Success In The Workplace

unprecedented moment in history. In 2010, for the first time, the balance of the British workforce tipped towards women, who now hold around half of the nation's jobs. In the US, meanwhile, for every two men that receive a BA, three women will achieve the same. Not only do women now dominate colleges and professional schools on every continent except Africa, young single women in the US now earn more than their male counterparts, and more than a third of mothers in the UK and the US are their family's main breadwinner. The tides have turned. The 'age of testosterone' is decisively over. At almost every level of society women are proving themselves far more adaptable and suited to a job market that rewards people skills and intelligence, and a world that has a dramatically diminishing need for traditional male muscle. In this landmark, once-in-a-generation book, Hanna Rosin reveals how this new world order came to be and its profound implications for

marriage, sex, children, work, families and society. Unhampered by old assumptions and ideologies and drawing on examples from across the globe, *The End of Men* helps us see how both men and women can - and must - adapt for a radically new era. 'In this bold and inspired dispatch, Rosin upends the common platitudes of contemporary sexual politics with a deeply reported meditation from the unexpected frontiers of our rapidly changing culture' Katie Roiphe, author of *The Morning After* and *Uncommon Arrangements* 'The End of Men describes a new paradigm that can, finally, take us beyond 'winners' and 'losers' in an endless 'gender war.' What a relief! Ultimately, Rosin's vision is both hope-filled and creative, allowing both sexes to become far more authentic: as workers, partners, parents...and people' Peggy Orenstein, author of *Cinderella Ate My Daughter* and *Schoolgirls* Hanna Rosin is a senior editor at *The Atlantic*

The Public Insult Playbook -
Ruth Colker 2021-10-26
"The rules of the public
discourse game have changed,
and this book argues that the
political left needs to account

for the power of vitriol in
crafting their theories for
social and political change.
Ruth Colker offers insights into
how public insults have come
to infect contemporary public
discourse (a technique not
invented by but certainly
refined by Donald Trump) and,
importantly, highlights lessons
learned and tools for fighting
back. Public insults act as a
headwind and dead weight to
structural reform. By
showcasing the power of
insults across a number of civil
rights battlegrounds, Colker
uncovers the structural nature
of personal attacks, and offers
a blueprint for a legal and
political strategy that
anticipates the profound but
poorly understood damage they
can inflict to whole movements.
The book catalogues how
public insults have been used
against people with disabilities,
immigrants, pregnant women,
women seeking abortions,
women who are sexually
harassed, members of the
LGBTQ community and, of
course, Black Americans. These
examples demonstrate both the

No More Nice Girl Power Sexuality And Success In The Workplace

pervasiveness of the deployment of insults by the political right and the ways in which the left has been caught flat-footed by this tactic. She then uses the Black Lives Matter movement as a case study to consider how to effectively counter these insults and maintain an emphasis on structural reform"--

Sexual Harassment of Women - National Academies of Sciences, Engineering, and Medicine 2018-09-01

Over the last few decades, research, activity, and funding has been devoted to improving the recruitment, retention, and advancement of women in the fields of science, engineering, and medicine. In recent years the diversity of those participating in these fields, particularly the participation of women, has improved and there are significantly more women entering careers and studying science, engineering, and medicine than ever before. However, as women increasingly enter these fields they face biases and barriers

and it is not surprising that sexual harassment is one of these barriers. Over thirty years the incidence of sexual harassment in different industries has held steady, yet now more women are in the workforce and in academia, and in the fields of science, engineering, and medicine (as students and faculty) and so more women are experiencing sexual harassment as they work and learn. Over the last several years, revelations of the sexual harassment experienced by women in the workplace and in academic settings have raised urgent questions about the specific impact of this discriminatory behavior on women and the extent to which it is limiting their careers. *Sexual Harassment of Women* explores the influence of sexual harassment in academia on the career advancement of women in the scientific, technical, and medical workforce. This report reviews the research on the extent to which women in the fields of science, engineering, and medicine are victimized by

No More Nice Girl Power Sexuality And Success In The Workplace

sexual harassment and examines the existing information on the extent to which sexual harassment in academia negatively impacts the recruitment, retention, and advancement of women pursuing scientific, engineering, technical, and medical careers. It also identifies and analyzes the policies, strategies and practices that have been the most successful in preventing and addressing sexual harassment in these settings. *Book Review Digest* - 1995

Sexual Function in People with Disability and Chronic Illness - Marca L. Sipski 1997

This comprehensive book offers an in-depth look at sexual functioning with disability and chronic illness. The basics are covered: taking a sexual history, the sexual response cycle, and how sexual functioning changes with age. This book also deals with special issues such as ethical

considerations, sexual abuse and disability, and treatment of the partner of the person with a disability. Separate chapters deal with specific illnesses and disabilities, with an explanation of how that illness or disability affects sexuality and sexual functioning in both men and women. Practical issues such as positioning and helpful tips are also defined for each disorder.

The Family Silver - Susan Krieger 1996-10-21

In an inventive and controversial collection of essays, sociologist Susan Krieger considers the many forms of wealth, both material and emotional, that women pass on to each other. This domestic heritage—the "family silver"—is the keystone for a discussion of mother-daughter relationships, intimate relationships between lesbians, ties between students and feminist teachers, the dilemmas of women in academia as well as in the broader work world, and the

No More Nice Girl Power Sexuality And Success In The Workplace

importance of female separatism. Drawing on her experiences as a lesbian, a feminist, and a teacher, Krieger presents a stunning critique of higher education. She argues for acknowledging gender in all areas of women's lives and for valuing women's inner realities and outer forms of expression. Krieger has developed a distinctly feminist approach to understanding and scholarship. Her style is self-revelatory, emotional, and at the same time deeply analytical. Her essays pioneer a new method of locating, defining, and honoring female values. *The Family Silver* includes a thought-provoking discussion of gender roles among women, including the author's experience of being mistaken for a man; an exploration of teaching in a feminist classroom; and a description of the controversy that resulted when the author refused to allow a hostile male student to take one of her courses. Beautifully written, *The Family Silver*

addresses issues of central concern to feminists, postmodernists, and queer theorists and encourages new insights into how gender profoundly affects us all.

In Women's Experience - Patricia L. Munhall 1994

Looks at the entirety of women's lives, tracing the unique social, psychological, and physical factors that affect women's health. Expert contributors examine a wide range of women's experiences, from surviving breast cancer, to becoming a mother, to coping with chronic illness—all from women's perspectives.

No More "nice Girl" - Rosemary Agonito 1993

Discusses the barriers facing women in their struggle for equality in the workplace, and reveals how women can change their behavior to overcome their own internal barriers to success and change the perceptions of others
