Eliminating Corporal Punishment - Stuart N. Hart 2005

In at least 60 states, corporal punishment remains an authorised part of the school system. Research on corporal punishment has found it to

be counter-productive and relatively ineffective, as well as harmful to physical, psychological and social well-being. This publication clarifies the human rights aspects of this matter - it includes the United Nations Convention on the Rights of

Pre-Incident Indicators of Terrorist

Incidents - Brent L. Smith 2011-01

This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the

potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.

Biosocial Worlds - Jens Seeberg 2020-09-29
Biosocial Worlds presents state-of-the-art contributions to anthropological reflections on the porous boundaries between human and non-human life – biosocial worlds. Based on changing understandings of biology and the social, it explores what it means to be human in these worlds. Growing separation of scientific disciplines for more than a century has maintained a separation of the ‘natural’ and the ‘social’ that has created a space for projections between the two. Such projections carry a directional causality and so constitute powerful means to establish discursive authority. While arguing against the separation of the biological and the social in the study of human and non-human life, it remains important to unfold the consequences of their discursive separation.

Based on examples from Botswana, Denmark, Mexico, the Netherlands, Uganda, the UK and USA, the volume explores what has been created in the space between 'the social' and 'the natural', with a view to rethink 'the biosocial'. Health topics in the book include diabetes, trauma, cancer, HIV, tuberculosis, prevention of neonatal disease and wider issues of epigenetics. Many of the chapters engage with constructions of health and disease in a wide range of environments, and engage with analysis of the concept of 'environment'. Anthropological reflection and ethnographic case studies explore how 'health' and 'environment' are entangled in ways that move their relation beyond interdependence to one of inseparability. The subtitle of this volume captures these insights through the concept of 'health environment', seeking to move the engagement of anthropology and biology beyond deterministic projections.

Handbook on Effective Police Responses to

sex-offender-map-yukon-ok

Violence against Women - United Nations Office on Drugs and Crime 2011-12-31

Violence against women is a global issue of pandemic proportions, which has an impact on all societies. This Handbook is designed to assist and guide police officers in the prevention of, and response to, violence against women. It familiarizes them with relevant international laws, norms and standards relating to violence against women and informing them about some promising practical approaches to effective police response to act of the violence. While it has global applications, it is designed primarily for use by police in transitional and developing countries where institutional means to protect women from violence have not yet been created or implemented. It addresses the rights of both victims and offenders.

Rockton, she expected a safe haven for people like her, people running from their past misdeeds and past lives. She knew living in Rockton meant living off-the-grid completely: no cell phones, no Internet, no mail, very little electricity, and no way of getting in or out without the town council's approval. What she didn't expect is that Rockton comes with its own set of secrets and dangers. Now, in *A Darkness Absolute*, Casey and her fellow Rockton sheriff's deputy Will chase a cabin-fevered resident into the woods, where they are stranded in a blizzard. Taking shelter in a cave, they discover a former resident who's been held captive for over a year. When the bodies of two other women turn up, Casey and her colleagues must find out if it's an outsider behind the killings or if the answer is more complicated than that...before another victim goes missing. Casey Duncan returns in another heart-racing thriller from #1 New York Times bestselling author Kelley Armstrong.

Why It's OK to Enjoy the Work of Immoral Artists - Mary Beth Willard 2021-03-01

The #metoo movement has forced many fans to consider what they should do when they learn that a beloved artist has acted immorally. One natural thought is that fans ought to give up the artworks of immoral artists. In *Why It's OK to Enjoy the Work of Immoral Artists*, Mary Beth Willard argues for a more nuanced view. Enjoying art is part of a well-lived life, so we need good reasons to give it up. And it turns out good reasons are hard to find. Willard shows that it's reasonable to believe that most boycotts of artists won't succeed, so most of the time there's no ethical reason to join in. Someone who manages to separate the art from the artist isn't making an ethical mistake by buying and enjoying their art. She then considers the ethical dimensions of canceling artists and the so-called "cancel culture," arguing that canceling is ethically risky because it encourages moral grandstanding. Willard concludes by arguing

that the popular debate has overlooked the power of art to change our lives for the good. It's of course OK to decide to give up the artwork of immoral artists, but - as Willard shows in this provocative little volume - it's OK to continue to enjoy their art as well. Key Features Offers accessible discussions of complicated philosophical topics like aesthetic value, collective action problems, and epistemic justice Provides a unique perspective and underexplored argument on the popular issue of cancellation Explores the role of aesthetic value in our lives, including its relation to our ethical decisions and our well being

Maze of Injustice - Amnesty International 2007
More than one in three Native American or Alaska Native women will be raped at some point in their lives. Most do not seek justice because they know they will be met with inaction or indifference. As one support worker said, "Women don't report because it doesn't make a difference. Why report when you are just

going to be revictimized?" Sexual violence against women is not only a criminal or social issue, it is a human rights abuse. This report unravels some of the reasons why Indigenous women in the USA are at such risk of sexual violence and why survivors are so frequently denied justice. Chronic under-resourcing of law enforcement and health services, confusion over jurisdiction, erosion of tribal authority, discrimination in law and practice, and indifference -- all these factors play a part. None of this is inevitable or irreversible. The voices of Indigenous women throughout this report send a message of courage and hope that change can and will happen.

Criminology - Eamonn Carrabine 2014-03-21

Building on the success of the second edition, *Criminology: A Sociological Introduction* offers a comprehensive overview of the study of criminology, from early theoretical perspectives to pressing contemporary issues such as the globalization of crime, crimes against the environment and state crime. Authored by an internationally renowned and experienced group of authors in the Sociology department at Essex University, this is a truly international criminology text that delves into areas that other texts may only reference. This new edition will have increased coverage of psychosocial theory, as well as more consideration of the social, political and economic contexts of crime in the post-financial-crisis world. Focusing on emerging areas in global criminology, such as green crime, state crime and cyber crime, this

book is essential reading for criminology students looking to expand their understanding of crime and the world in which they live.

This report, the summary volume, includes the history of residential schools, the legacy of that school system, and the full text of the Commission's 94 recommendations for action to address that legacy. This report lays bare a part of Canada's history that until recently was little-known to most non-Aboriginal Canadians. The

Commission discusses the logic of the colonization of Canada's territories, and why and how policy and practice developed to end the existence of distinct societies of Aboriginal peoples. Using brief excerpts from the powerful testimony heard from Survivors, this report documents the residential school system which forced children into institutions where they were forbidden to speak their language, required to discard their clothing in favour of institutional wear, given inadequate food, housed in inferior and fire-prone buildings, required to work when they should have been studying, and subjected to emotional, psychological and often physical abuse. In this setting, cruel punishments were all too common, as was sexual abuse. More than 30,000 Survivors have been compensated financially by the Government of Canada for their experiences in residential schools, but the legacy of this experience is ongoing today. This report explains the links to high rates of Aboriginal children being taken from their

families, abuse of drugs and alcohol, and high rates of suicide. The report documents the drastic decline in the presence of Aboriginal languages, even as Survivors and others work to maintain their distinctive cultures, traditions, and governance. The report offers 94 calls to action on the part of governments, churches, public institutions and non-Aboriginal Canadians as a path to meaningful reconciliation of Canada today with Aboriginal citizens. Even though the historical experience of residential schools constituted an act of cultural genocide by Canadian government authorities, the United Nation's declaration of the rights of aboriginal peoples and the specific recommendations of the Commission offer a path to move from apology for these events to true reconciliation that can be embraced by all Canadians.

Pickering give teachers a practical way to help students master academic vocabulary. Research has shown that when teachers, schools, and districts take a systematic approach to helping students identify and master essential vocabulary and concepts of a given subject area, student comprehension and achievement rises. In the manual, readers will find the following tools: * A method to help teachers, schools, and districts determine which academic vocabulary terms are most essential for their needs * A six-step process for direct instruction in subject area vocabulary * A how-to to help students use the Building Academic Vocabulary: Student Notebook. The six-step method encourages students to learn critical academic vocabulary by connecting these terms to prior knowledge using linguistic and non-linguistic means that further encourage the refinement and deepening of their understanding. * Suggestions for tailoring academic vocabulary procedures for English Language Learners. * Samples and blackline

masters for a variety of review activities and games that reinforce and refine student understanding of the academic terms and concepts they learn. The book also includes a list of 7, 923 vocabulary terms culled from the national standards documents and other publications, organized into 11 subject areas and 4 grade-level categories. Building Academic Vocabulary: Teacher s Manual puts into practice the research and ideas outlined in Marzano s previous book Building Background Knowledge for Academic Achievement. Using the teacher s manual and vocabulary notebooks, educators can guide students in using tools and activities that will help them deepen their own understanding of critical academic vocabulary--the building blocks for achievement in each discipline.

Our national debt is careening toward \$19 trillion (yes, that is a 19 followed by 12 zeros), and federal regulations are expanding at a record pace. Meanwhile families struggle to get home loans, and small businesses struggle to make ends meet. States are constantly handed unfunded mandates and executive fiats that they are forced to implement with minimal direction and no way to pay for them. I present this report as a demonstration of ways we can cut back on wasteful federal spending and burdensome regulations to help families, small businesses, and our economy begin to get out from under the weight of federal stagnation. Cited here are not only prime examples of wasteful spending, but also federal departments or agencies that regulate outside the scope of the federal government's constitutional role. I firmly believe my staff and I have the obligation to solve the troubles of our nation, not just complain, which is why for every problem identified, you will also find a recommended solution. There is a way to

eliminate wasteful, ineffective, or duplicative program spending; develop oversight methods to prevent future waste; and find ways to get us back on track.

I Am a Fugitive from a Georgia Chain Gang!

- Robert E. Burns 2011-08-15

I Am a Fugitive from a Georgia Chain Gang! is the amazing true story of one man's search for meaning, fall from grace, and eventual victory over injustice. In 1921, Robert E. Burns was a shell-shocked and penniless veteran who found himself at the mercy of Georgia's barbaric penal system when he fell in with a gang of petty thieves. Sentenced to six to ten years' hard labor for his part in a robbery that netted less than \$6.00, Burns was shackled to a county chain gang. After four months of backbreaking work, he made a daring escape, dodging shotgun blasts, racing through swamps, and eluding bloodhounds on his way north. For seven years

Burns lived as a free man. He married and became a prosperous Chicago businessman and publisher. When he fell in love with another woman, however, his jealous wife turned him in to the police, who arrested him as a fugitive from justice. Although he was promised lenient treatment and a quick pardon, he was back on a chain gang within a month. Undaunted, Burns did the impossible and escaped a second time, this time to New Jersey. He was still a hunted man living in hiding when this book was first published in 1932. The book and its movie version, nominated for a Best Picture Oscar in 1933, shocked the world by exposing Georgia's brutal treatment of prisoners. *I Am a Fugitive from a Georgia Chain Gang!* is a daring and heartbreaking book, an odyssey of misfortune, love, betrayal, adventure, and, above all, the unshakable courage and inner strength of the fugitive himself.

The End of August - Yu Miri 2023-08-01

From the National Book Award winning author,

an extraordinary, ground-breaking, epic multi-generational novel about a Korean family living under Japanese occupation. In 1930s Japanese-occupied Korea, Lee Woo-cheol was a running prodigy and a contender for the upcoming Tokyo Olympics. But he would have had to run under the Japanese flag. Nearly a century later, his granddaughter is living in Japan and training to run a marathon herself. She summons Korean shamans to hold an intense, transcendent ritual to connect with Lee Woo-cheol. When his ghost appears, alongside those of his brother Lee Woo-Gun, and their young neighbor, who was forced to become a comfort woman to Japanese soldiers stationed in China during World War II, she must uncover their stories to free their souls. What she discovers is at the heart of this sweeping, majestic novel about a family that endured death, love, betrayal, war, political upheaval, and ghosts, both vengeful and wistful. A poetic masterpiece that is a feat of historical fiction, epic family saga, and mind-bending

John Wayne Gacy. Jeffrey

Dahmer. The names of notorious serial killers are usually well-known; they echo in the news and in public consciousness. But most people have never heard of Israel Keyes, one of the most ambitious and terrifying serial killers in modern history. The FBI considered his behavior unprecedented. Described by a prosecutor as "a force of pure evil," Keyes was a predator who struck all over the United States. He buried "kill kits"—cash, weapons, and body-disposal tools—in remote locations across the country. Over the course of fourteen years, Keyes would fly to a city, rent a car, and drive thousands of miles in order to use his kits. He would break into a stranger's house, abduct his victims in broad daylight, and kill and dispose of them in mere hours. And then he would return home to Alaska, resuming life as a quiet, reliable construction worker devoted to his only daughter. When journalist Maureen Callahan first heard about Israel Keyes in 2012, she was captivated by how a killer of this magnitude could go undetected by

law enforcement for over a decade. And so began a project that consumed her for the next several years--uncovering the true story behind how the FBI ultimately caught Israel Keyes, and trying to understand what it means for a killer like Keyes to exist. A killer who left a path of monstrous, randomly committed crimes in his wake--many of which remain unsolved to this day. *American Predator* is the ambitious culmination of years of interviews with key figures in law enforcement and in Keyes's life, and research uncovered from classified FBI files. Callahan takes us on a journey into the chilling, nightmarish mind of a relentless killer, and to the limitations of traditional law enforcement.
