[The Songs of Robert Burns](#) - Donald Low 2005-08-16

In this definitive work for our generation, Donald Low brings together, for the first time, the words and tunes of all Burns' known songs, both 'polite' and bawdy. The Songs of Robert Burns were, in their author's eyes, the crown of his achievement as a poet. After years of study and investigation, many hours spent listening to old airs, as he recalled the living, daily, song-life of the people of Scotland, and through the creation of some of the finest lyric poetry produced in the British Isles, Burns' success is beyond doubt.

[The Complete Idiot's Guide to Songwriting](#) - Joel Hirschhorn 2004

A comprehensive book for today's amateur musician interested in creating and writing his or her own songs, *The Complete Idiot's Guide to Songwriting, Second Edition*, is the most complete and up-to-date book available. Beating coverage from other series competition, Oscar-winning (and Grammy and Tony award nominated) author Joel Hirschhorn shares his firsthand knowledge of coming up with ideas, rhyming schemes, hooks, melodies, lyrics, and even titles - everything readers need to create their own hit songs! This new edition features coverage of the music business along with the ins and outs of selling a song including working with publishers, producers, artists, managers, accountants, agents, and even attorneys. Best of all, this newest edition features special chapters on genre songwriting - with all new coverage of Latin music, Rock/Blues, Children's music, writing for television, film, and more.

Constructing the Uzbek State - Marlene Laruelle 2017-12-20

Over the past three decades, Uzbekistan has attracted the attention of the academic and policy communities because of its geostrategic importance, its critical role in shaping or unshaping Central Asia as a region, its economic and trade potential, and its demographic weight: every other Central Asian being Uzbek, Uzbekistan's political, social, and cultural evolutions largely exemplify the transformations of the region as a whole. And yet, more than 25 years after the collapse of the Soviet Union, evaluating Uzbekistan's post-Soviet transformation remains complicated. Practitioners and scholars have seen access to sources, data, and fieldwork progressively restricted since the early 2000s. The death of President Islam Karimov, in power for a quarter of century, in late 2016, reopened the future of the country, offering it more room for evolution. To better grasp the challenges facing post-Karimov Uzbekistan, this volume reviews nearly three decades of independence. In the first part, it discusses the political construct of Uzbekistan under Karimov, based on the delineation between the state, the elite, and the people, and the tight links between politics and economy. The second section of the volume delves into the social and cultural changes related to labor migration and one specific trigger - the difficulties to reform agriculture. The third part explores the place of religion in Uzbekistan, both at the state level and in society, while the last part looks at the renegotiation of collective identities.

bookdown - Yihui Xie 2016-12-12

bookdown: Authoring Books and Technical Documents with R Markdown presents a much easier way to write books and technical publications than traditional tools such as LaTeX and Word. The bookdown package inherits the simplicity of syntax and flexibility for data analysis from R Markdown, and extends R Markdown for technical writing, so that you can make better use of document elements such as figures, tables, equations, theorems, citations, and references. Similar to LaTeX, you can number and cross-reference these elements with bookdown. Your document can even include live examples so readers can interact with them while reading the book. The book can be rendered to multiple output formats, including LaTeX/PDF, HTML, EPUB, and Word, thus making it easy to put your documents online. The style and theme of these output formats can be customized. We used books and R primarily for examples in this book, but bookdown is not only for books or R. Most features introduced in this book also apply to other types of publications: journal papers, reports, dissertations, course handouts, study notes, and even novels. You do

not have to use R, either. Other choices of computing languages include Python, C, C++, SQL, Bash, Stan, JavaScript, and so on, although R is best supported. You can also leave out computing, for example, to write a fiction. This book itself is an example of publishing with bookdown and R Markdown, and its source is fully available on GitHub.

Red Emma Speaks - Emma Goldman 1972

The Mushroom at the End of the World - Anna Lowenhaupt Tsing 2021-06-08

"A tale of diversity within our damaged landscapes, *The Mushroom at the End of the World* follows one of the strangest commodity chains of our times to explore the unexpected corners of capitalism. Here, we witness the varied and peculiar worlds of matsutake commerce: the worlds of Japanese gourmets, capitalist traders, Hmong jungle fighters, industrial forests, Yi Chinese goat herders, Finnish nature guides, and more. These companions also lead us into fungal ecologies and forest histories to better understand the promise of cohabitation in a time of massive human destruction."--Publisher's description.

Теорія і практика перекладу (аспектний переклад). [англ.] - Корунець І. В. 2003

У пропонованому підручнику висвітлюється широке коло питань теорії та практики відтворення мовних одиниць і явищ лексикологічного і граматичного аспектів англійської й української мов. У теоретичній частині дохідливо англійською мовою викладаються короткі відомості про існуючі типи і види перекладу, про історію розвитку принципів перекладу в Західній Європі та в Україні впродовж останнього тисячоліття. Проте основна частина підручника відведена способам відтворення лексикологічних та граматичних труднощів англійської мови українською і навпаки. Зокрема: вірному/адекватному відтворенню різних типів власних назв людей, географічних назв і назв установ, компаній, організацій, назв газет, журналів тощо. Підручник містить багато різноманітних вправ на закріплення теоретичного матеріалу.

Elemente der Psychophysik - Gustav Theodor Fechner 1860

[Guide to the Freedom of Information Act](#) - 2009

Contains an overview discussion of the Freedom of Information Act's (FOIA) exemptions, its law enforcement record exclusions, and its most important procedural aspects. 2009 edition. Issued biennially. Other related products: Report of the Commission on Protecting and Reducing Government Secrecy, Pursuant to Public Law 236, 103d Congress can be found here: <https://bookstore.gpo.gov/products/sku/052-071-01228-1> Overview of the Privacy Act of 1974, 2015 Edition can be found here: <https://bookstore.gpo.gov/products/sku/027-000-01429-1>

A Concise Introduction to Logic - Patrick Hurley 2008-12-23

Tens of thousands of students have learned to be more discerning at constructing and evaluating arguments with the help of Patrick J. Hurley. Hurley's lucid, friendly, yet thorough presentation has made *A CONCISE INTRODUCTION TO LOGIC* the most widely used logic text in North America. In addition, the book's accompanying technological resources, such as CengageNOW and Learning Logic, include interactive exercises as well as video and audio clips to reinforce what you read in the book and hear in class. In short, you'll have all the assistance you need to become a more logical thinker and communicator. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Creativity and Persistence - National Endowment for the Arts 2020-08-06

The National Endowment for the Arts commemorates how the arts were critical to the ultimate success of the women's suffrage movement--just as they have been critical to countless social and political movements

before and since. The arts--from poetry to visual arts to fashion--have a unique ability to serve as a rallying cry, disseminating messages across large audiences, and inspiring us in a way that few other things can.

[Self-Efficacy in Changing Societies](#) - Albert Bandura 1997-05-13

The volume addresses important issues of human adaptation and change.

[The Duke And I](#) - Julia Quinn 2009-10-13

Simon Basset, the irresistible Duke of Hastings, has hatched a plan to keep himself free from the town's marriage-minded society mothers. He pretends to be engaged to the lovely Daphne Bridgerton. After all, it isn't as if the brooding rogue has any real plans to marry - though there is something about the alluring Miss Bridgerton that sets Simon's heart beating a bit faster. And as for Daphne, surely the clever debutante will attract some very worthy suitors now that it seems a duke has declared her desirable. But as Daphne waltzes across ballroom after ballroom with Simon, she soon forgets that their courtship is a complete sham. And now she has to do the impossible and keep herself from losing her heart and soul completely to the handsome hell-raiser who has sworn off marriage forever!

[Information and Empire](#) - Simon Franklin 2017-11-27

From the mid-sixteenth to the mid-nineteenth century Russia was transformed from a moderate-sized, land-locked principality into the largest empire on earth. How did systems of information and communication shape and reflect this extraordinary change? *Information and Mechanisms of Communication in Russia, 1600-1850* brings together a range of contributions to shed some light on this complex question.

Communication networks such as the postal service and the gathering and circulation of news are examined alongside the growth of a bureaucratic apparatus that informed the government about its country and its people. The inscription of space is considered from the point of view of mapping and the changing public 'graphosphere' of signs and monuments. More than a series of institutional histories, this book is concerned with the way Russia discovered itself, envisioned itself and represented itself to its people. Innovative and scholarly, this collection breaks new ground in its approach to communication and information as a field of study in Russia. More broadly, it is an accessible contribution to pre-modern information studies, taking as its basis a country whose history often serves to challenge habitual Western models of development. It is important reading not only for specialists in Russian Studies, but also for students and non-Russianists who are interested in the history of information and communications.

Beautiful isle of the sea - John Rogers Thomas 1866

The Life and Works of Celestine Ukwu - Richard C. Okafor 1999

LGBT Transnational Identity and the Media - Christopher Pullen 2012-02-29

Offering a critical introduction into LGBT (lesbian, gay, bisexual and transgender) transnational identity in the media, this book examines performances and representations within documentary and fiction oriented texts. An interdisciplinary approach is put forward, revealing new potentials for non western queer identity.

Age and Work - Hannes Zacher 2022-01-16

The edited volume *Age and Work: Advances in Theory, Methods, and Practice* presents a systematic collection of key advances in theory, methods, and practice regarding age(ing) and work. This cutting-edge collection breaks new ground by developing novel and useful theory, explaining underutilized but important methodological approaches, and suggesting original practical applications of emerging research topics. The

book begins with a prologue by the World Health Organization's unit head for aging and health, an introduction on the topic by the editors, and an overview of past, current, and future workforce age trends. Subsequently, the first main section outlines theoretical advances regarding alternative age constructs (e.g., subjective age), intersectionality of age with gender and social class, paradoxical age-related actions, generational identity, and integration of lifespan theories. The second section presents methodological advances regarding behavioral assessment, age at the team and organizational levels, longitudinal and diary methods, experiments and interventions, qualitative methods, and the use of archival data. The third section covers practical advances regarding age and job crafting, knowledge exchange, the work/nonwork interface, healthy aging, and absenteeism and presenteeism, and organizational meta-strategies for younger and older workers. The book concludes with an epilogue by an eminent scholar in age and work. Written in a scientific yet accessible manner, the book offers a valuable resource for undergraduate and graduate students, academics in the fields of psychology and business, as well as practitioners working in the areas of human resource management and organizational development.

[Under the Sky of My Africa](#) - Catharine Theimer Nepomnyashchy 2006-05-30

A wide-ranging consideration of the nature and significance of Pushkin's African heritage Roughly in the year 1705, a young African boy, acquired from the seraglio of the Turkish sultan, was transported to Russia as a gift to Peter the Great. This child, later known as Abram Petrovich Gannibal, was to become Peter's godson and to live to a ripe old age, having attained the rank of general and the status of Russian nobility. More important, he was to become the great-grandfather of Russia's greatest national poet, Alexander Pushkin. It is the contention of the editors of this book, borne out by the essays in the collection, that Pushkin's African ancestry has played the role of a "wild card" of sorts as a formative element in Russian cultural mythology; and that the ways in which Gannibal's legacy has been included in or excluded from Pushkin's biography over the last two hundred years can serve as a shifting marker of Russia's self-definition. The first single volume in English on this rich topic, *Under the Sky of My Africa* addresses the wide variety of interests implicated in the question of Pushkin's blackness-race studies, politics, American studies, music, mythopoetic criticism, mainstream Pushkin studies. In essays that are by turns biographical, iconographical, cultural, and sociological in focus, the authors-representing a broad range of disciplines and perspectives-take us from the complex attitudes toward race in Russia during Pushkin's era to the surge of racism in late Soviet and post-Soviet contemporary Russia. In sum, *Under the Sky of My Africa* provides a wealth of basic material on the subject as well as a series of provocative readings and interpretations that will influence future considerations of Pushkin and race in Russian culture.

[Bees and Their Role in Forest Livelihoods](#) - Nicola Bradbear 2009

This volume provides basic information about managing wild bees and on the use of their products. It identifies and describes major bee species and their importance for nature conservation and for sustaining livelihoods of rural people. Bee products are considered at both subsistence and commercial level, and particular attention is given to the potential for further development of managing wild bee species in developing countries. The role of bees for pollination of crops and the impact of managing bees on forestry and farming are presented. Wild-bee keeping techniques, honey production and marketing, and the international trade in bee products are described with further references and sources of additional information given. Using this publication, readers will better understand the complexities and opportunities for developing apiculture by rural livelihoods. Also published in French.
