Global Report on Trafficking in Persons

2016 - United Nations Office on Drugs and Crime 2017-01-11

The UNODC Global Report on Trafficking in Persons 2016 is the third of its kind mandated by the United Nations General Assembly. In July 2010, the UNGA adopted the Global Plan of Action to Combat Trafficking in Persons. The Report covers and provides an overview of patterns and flows of trafficking in persons at the global, regional and national levels, based on trafficking cases detected mainly between 2012

and 2014. It looks at links between trafficking in persons, migration and conflict, and how refugees may be particularly vulnerable to being trafficked. The worldwide response to trafficking in persons, particularly in terms of criminalization and prosecution of trafficking crimes, is also a focus of this edition of the Global Report. Also included are the Country Profiles.

human trafficking, a form of slavery. Women and children are trafficked within and between countries at an alarming rate and it has become a prime agenda for the Bush Administration and the Department of State to call for action and solutions to. This thesis opens with a defining of this problem and overview of the scope of the problem on a global scale. It reviews social, political and economic factors which play a role. It describes laws enacted and police responses and describes what research has been conducted to get a grasp of what is involved and what might be done. This author decided to explore factors that other researchers have suggested are compelling factors in victimization. This research hypothesis for this thesis explores the economic factors. Comparisons are made between countries of origin where victims originate from and destination countries where they are trafficked to. The research findings reveal some significant differences in economic factors exist between the origin and destination countries. The findings lend support in why victims feel compelled to seek entrance to countries like the U.S. and Australia or U.K. and might be easy prey for traffickers. This author makes it clear that the research here does not mean that this is why they are victimized. Further research with victim surveys and victim interviews will be helpful. Furthermore, it will be valuable to conduct more exploration of the economic factors, but more accurate data sources are needed. It is recommended that countries attempt to establish more standardized criteria for reporting economic data.

Human Trafficking - Jennifer Jones 2012

The purpose of this study is to measure the perception, while controlling for race and ethnicity, towards human trafficking in 2012. Specifically, the perceptions of both undergraduate and graduate criminology and criminal justice college students at the University of Texas at Arlington are examined by a survey. A Quantitative empirical approach is used to measure the views of students on this topic. This study uses a non-experimental, cross-sectional survey design which consists of a single observation of undergraduate and graduate students at the University of Texas at Arlington. A non-probability convenience sample

(n=108) is used for this group. The ultimate goal of this study is to show how human trafficking is perceived by students; the intention is to find the students current level of knowledge on this topic. Research has shown that the more people are aware of this problem, the more likely they are to report suspected human trafficking crimes (Matter & Van Slyke, 2010).

Borderline Slavery - Susan Tiano 2012

Discussing the multinational networks, global economics, and personal motives that fuel a multibillion dollar trade in human beings as cheap labour, *Borderline Slavery* suggests future directions for effective policies and law enforcement strategies to prevent the advance of trafficking. As such, it is of interest to both policy makers and scholars across the social sciences working in the fields of migration, exploitation and trafficking.

Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States - National Research Council 2013-11-12

Every day in the United States, children and adolescents are victims of commercial sexual exploitation and sex trafficking. Despite the serious and long-term consequences for victims as well as their families, communities, and society, efforts to prevent, identify, and respond to these crimes are largely under supported, inefficient, uncoordinated, and unevaluated. *Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States* examines commercial sexual exploitation and sex trafficking of U.S. citizens and lawful permanent residents of the United States under age 18. According to this report, efforts to prevent, identify, and respond to these crimes require better collaborative approaches that build upon the capabilities of people and entities from a range of sectors. In addition, such efforts need to confront demand and the individuals who commit and benefit from these crimes. The report recommends increased awareness and understanding, strengthening of the law's response, strengthening of research to advance understanding and to support the development of prevention and intervention strategies, support for multi-sector and interagency collaboration, and creation of a digital information-sharing platform. A nation that is

unaware of these problems or disengaged from solutions unwittingly contributes to the ongoing abuse of minors. If acted upon in a coordinated and comprehensive manner, the recommendations of *Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States* can help advance and strengthen the nation's emerging efforts to prevent, identify, and respond to commercial sexual exploitation and sex trafficking of minors in the United States.

[Handbook of Research on Present and Future Paradigms in Human Trafficking](#) - Essien, Essien D. 2022-05-20

Human trafficking is currently regarded as a contemporary form of slavery. However, despite many initiatives undertaken over the last two decades to tackle the problem, there seems to be a disproportionate emphasis on the social phenomenon. Trafficking in persons remains a little-explored area in scholarship with many inconsistencies and ambiguities yet to be attended to. Human trafficking is a multifaceted issue that requires a multidisciplinary approach that must be studied and considered thoroughly and with heavy regard to the many layers of the issue. The Handbook of Research on Present and

Future Paradigms in Human Trafficking presents a comprehensible view of what constitutes the underpinning of human trafficking, the means of combating it, its moral implications, and offers possible solutions toward curbing its excesses, inconsistencies, and ambiguities. Covering a range of topics such as social change, human rights, and ethics, this major reference work is ideal for researchers, scholars, practitioners, government officials, policymakers, instructors, academicians, and students.

Human Trafficking in Texas - United States Commission on Civil Rights 2014-11-07

The Texas Advisory Committee to the U.S. Commission on Civil Rights submits this report (August 2011), *Human Trafficking in Texas-More Resources and Resolve Needed to Stem Surge in Modern Day Slavery*, as part of its responsibility to examine and report on civil rights issues under the jurisdiction of the Commission. This report is the unanimous statement by all members of the Texas Committee and is approved by a vote of 13 yes and 0 no. Human trafficking is the cruel and vicious practice of transporting human beings for the purpose of labor or sex exploitation. At its core it is a violation of the fundamental civil rights of its victims. Women are the overwhelming victims of human trafficking, and victims generally come from impoverished circumstances with the majority being from indigenous populations or ethnic minorities. The trafficking of humans is a growing problem in this country, and Texas-as one of the largest border states in the United States-is considered a major destination and transit state for human trafficking.

Human Trafficking Revealed - Joseluis T. Morales 2015

Over the last fifteen years, there has been a dramatic increase in attention to the global phenomenon of human sex trafficking. Misconceptions about this issue affect social policy, and in many ways, make the enforcement of laws against trafficking, which are also designed to assist and identify victims, an almost futile feat. The state of Texas is viewed as a potential "hotspot" for trafficking activity most notably due to its geographical location. The first major city in Texas, north of the Texas/Mexico border, is San Antonio, Texas, significant in both geographic space and

population. This thesis set out to answer three primary research questions: How do frontline workers within San Antonio perceive the training they have received regarding sex trafficking? How do these frontline workers perceive individuals involved in sex trafficking? And how does the language used by these workers to describe individuals involved in sex trafficking compare to the discourse used in legal case proceedings? Using qualitative interviewing techniques, responses provided by anti-trafficking frontline personnel were assessed. Law enforcement, social service case managers, and a non-governmental social worker received different levels of training, and all possessed inconsistent perspectives on how the issue of sex trafficking should be approached. In addition, a legally prosecuted sex trafficking case from the area suggests that testimony and dialogue within this formal forum further perpetuates stereotypes regarding sex trafficked victims, contributing to the negative images of victims perpetuated by society.

Not in My Town - Dillon Burroughs 2011-06-01
Slavery still exists--here. Tens of millions of humans live in bondage worldwide, tens of thousands in the US. As seen recently on Fox News, Dillon Burroughs and Charles Powell bring awareness about what's happening in our nation and world. The book and DVD teach about: - Human trafficking - Sexual exploitation - Forced labor - Agricultural slavery
Not in My Town answers questions and promotes discussion about the slavery system that crisscrosses Atlanta, Orlando, Las Vegas, New York, California, Texas, North Carolina, Haiti, Amsterdam, India, Cambodia, and beyond. The authors' gripping journey shocks but also motivates and provides resources to equip new generations of abolitionists from all corners of society and diverse worldviews who share the common call to stop injustice.

One Thousand Elsewhere - Keeya Vawar 2022
Every year, more than 300,000 youth are victims of human trafficking and sexual exploitation across the United States. What's scarcely known is that Black Girls are disproportionately 'at risk' of being trafficked and their stories often go untold for reasons far more complicated than mere reporting, or statistical oversight. She was given the opportunity to escape the abusive and

tumultuous home life and faced with the prospect of meeting some of the biggest and most influential names in the music industry. She was presented with the possibility of creating "the life she always wanted," 16-year-old Keeya found herself on a Greyhound bus to Atlanta Georgia in the Spring of 1992. Lured into a life of debauchery and exploitation that would leave her hollow and disaffected for years to come; she survived! One of the most harrowing accounts of the reality of juvenile abuse and victimization ever told, *One Thousand Elsewhere* takes you into a world where innocence is traded for survival; where trust is sacrificed on the altar of instinct, and where love and safety are dreams scarcely obtained. Few have come out of the shadows to tell their truth, and fewer even would dare divulge the kind of raw and unforgettable details shared here by Keeya Vawar. In this brave account of a survival story, Keeya leaves readers mesmerized and on the edge of their seats as she details the incredible twists and turns on the unforgettable path that led to ultimate freedom. *One Thousand Elsewhere* will etch an indelible inscription on the walls of the heart and soul of anyone who dares to indulge in this triumphant true story!

Fighting Child Trafficking in Texas - Mark Edward Rojas 2020

Child trafficking continues to occur in the United States of America at an alarming rate, and the state of Texas is no exception. A study on trafficking in Texas revealed 79,000 youth were victims of sex trafficking in 2016. Texas schools are in a key position to raise awareness to both parents and their students. House Bill 111 (effective as of May 31, 2019) requires schools to institute a plan to raise awareness for staff, students and parents. With training already in place for staff, and a variety of programs available for students, this thesis is focused on helping middle schools and high schools in central Texas educate parents about human trafficking by providing awareness tools that encourage conversation about the issue with their children. This thesis also seeks to uncover

potential barriers that might prevent parents from being receptive to awareness material or from sharing it with their children.

[Spatial Dynamics of Sex Trafficking in Austin, Texas](#) - Deborah Mletzko 2017

This research aimed to determine whether sex trafficking-related offenses in Austin, Texas, clustered geographically and, if so, whether such patterns could be predicted by the spatial distribution of other prostitution and drug-related crime, proximity to highways, and the presence of facilities known to be associated with the sex trade (ATMs, gas stations, and cheaper hotels), as well as neighborhood variables capturing the extent of social disorganization. A variety of methods were employed, including nearest neighbor analyses, kernel density estimation and thematic maps, non-parametric correlations, and a hurdle regression model. Data for all sex trafficking and compelled prostitution crimes recorded by Austin Police Department (APD) during 2013-2015 were used as the outcome variable. Data for the predictor variables came from APD and several public sources. Most of the analyses employed the census block group as the unit of analysis, of which there are 519 in the research area. Results showed sex trafficking-related offenses significantly clustered in space. Bivariate correlations revealed sex trafficking activity to be moderately correlated with prostitution and drug-related crime, and weakly associated with most of the remaining variables. In the multivariate models, however, only drug-related offenses and the percentage of households on public assistance were shown to be significant predictors of whether a census block group were affected by sex trafficking (i.e., at least one offense recorded; binary logistic regression); in affected block groups, the actual incidence of sex trafficking was predicted by prostitution- and drug-related offenses, the combined distance from the block group to the three highways considered, and the number of ATMs and cheaper hotels (

Human Trafficking - Noël Bridget Busch-Armendariz 2017-03-31

Human Trafficking: Applying Research, Theory, and Case Studies is a practical, interdisciplinary text that draws from empirically grounded scholarship, survivor-centered practices, and an ecological perspective to help readers develop an understanding of the meaning and scope of human trafficking. Throughout the book, authors Noël Bridget Busch-Armendariz, Maura Nsonwu, and Laurie Cook Heffron address the specific vulnerabilities of human trafficking victims, their medical-psycho-social needs, and issues related to direct service delivery. They also address the identification of human trafficking crimes, traffickers, and the impact of this crime on the global economy. Using detailed case studies to illuminate real situations, the book covers national and international anti-trafficking policies, prevention and intervention strategies, promising practices to combat human trafficking, responses of law enforcement and service providers, organizational challenges, and the cost of trafficking to human wellbeing.

Step Over Rio - Martha Everhart Braniff
2013-06-01

In STEP OVER RIO, a teenage boy, a hardnosed female reporter, and a federal agent unite to bring down the brutal kingpins of a child trafficking ring. This triumphant adventure begins in the fall of 2011, when Alex Sifuentes steps from the back of a human trafficker's truck onto US soil. Alex and his brother, Fernando, have lived in an orphanage in Guatemala City. Every evening, they help a priest feed homeless street kids until the fateful night when a death squad murders Fernando, and Alex sees the face of one of the assassins. He is forced to flee to Houston, Texas, where he believes he will work

in a cantina as a waiter, but Alex immediately discovers the despotic cantina owner is part of the Latin Angels, a gang that traffics drugs and prostitutes kids. During a cantina raid by federal agents, Alex escapes and finds his way to an exotic shaman, Obispa, who shelters immigrants. She ensures Alex's safety by convincing Elizabeth Grant, an investigative reporter, to take him into her home. Elizabeth regularly knocks heads with Luke Santa Maria, special agent in charge of the countywide trafficking case, but Alex forms a special bond with both of them. When Luke and Elizabeth's investigations lead to the murder of innocent people, Alex goes undercover to help discover who is running the child sex slavery ring. Ultimately, the three of them unveil the crimes of rich and powerful men. This saga of fierce friendships and uncommon courage transforms the lives of Luke and Elizabeth, staunch witnesses to the agony of Alex's boyhood, as he begins anew in America, just a step over rio.
