

Sex Energy The Sexual Force In Man And Animals

New Scientist - 1970

Sex Energy - Robert S. De Ropp 1969

Evergreen Review - 1969

Family Life - 1969

Think and Prosper - Manny Asuzu 2010-04-29

This book explains how the state of our mind affects our general well being. The principles in this book will help us achieve our heart's desires - happiness, good health and wealth. We all deserve better than what we presently have because we do not think in the right direction. We can ALL achieve our true potential by applying the principles in this book

Human Behavior - 1975

Publications - University of Michigan. Institute for Social Research

Self-Analysis for the Psychotherapist - Aaron Moss 2001-07

The Moss Six-Step Method of Self-Analysis will help you, the psychotherapists, to become more emotionally mature. You will stop being a secret fraud. This book is recommended by prestigious analysts. It is well documented.

Embryogenesis - Richard Grossinger 2000

Embryogenesis is an unusual book in that it brings together a highly illustrated, practical embryology book in simple language, perfect for

health practitioners, with a fascinating read on the history and philosophy of biological science. It discusses the various stages of embryonic development (meiosis, fertilization, blastula development, and gastrulation, and then the embryology of each of the human organs and organ systems in detail). It puts each of them in context, both in terms of its phylogeny: the evolutionary trajectory of cell-organized systems on Earth, and its ontogeny: the formation of individual organisms in the modern world. There are 24 color plates, many of them commissioned uniquely for this volume, and several hundred black and white illustrations. The book is 950 pages hardcover, 8-1/2 by 10. Chapters include: The Original Earth; The Materials of Life; The First Beings; The Cell; The Genetic Code; Sperm and Egg; Fertilization; The Blastula; Gastrulation; Morphogenesis; Biological Fields; Chaos, Fractals, and Deep Structure; Ontogeny and Phylogeny; and Biotechnology. The Origin of the Nervous System; The Evolution of Intelligence; Neurulation and the Human Brain; Organogenesis; The Musculoskeletal and Hematopoietic Systems; Mind; The Origin of Sexuality and Gender. Healing; Transsexuality, Intersexuality, and the Cultural Basis of Gender; Self and Desire; Cosmogogenesis and Mortality

Last Days at Hot Slit - Andrea Dworkin 2019-03-05

Selections from the work of radical feminist author Andrea Dworkin, famous for her antipornography stance and role in the feminist sex wars of the 1980s. Radical feminist author Andrea Dworkin was a caricature of misandrist extremism in the popular imagination and a polarizing figure within the women's movement, infamous for her antipornography stance and her role in the feminist sex wars of the 1980s. She still looms large in feminist demands for sexual freedom, evoked as a censorial demagogue, more than a decade after her death. Among the very first writers to use her own experiences of rape and battery in a revolutionary analysis of male supremacy, Dworkin was a philosopher outside and against the academy who wrote with a singular, apocalyptic urgency. Last Days at Hot Slit brings together selections from Dworkin's work, both fiction and nonfiction, with the aim of putting the contentious positions she's best known for in dialogue with her literary oeuvre. The collection charts her path from the militant primer *Woman Hating* (1974), to the formally complex polemics of *Pornography* (1979) and *Intercourse* (1987) and the raw experimentalism of her final novel *Mercy* (1990). It also includes "Goodbye to All This" (1983), a scathing chapter from an unpublished manuscript that calls out her feminist adversaries, and "My Suicide" (1999), a despairing long-form essay found on her hard drive after her death in 2005.

The Sexual Language - André Guindon 1976

Current Catalog - National Library of Medicine (U.S.) 1969

Includes subject section, name section, and 1968-1970, technical reports.
